INTRODUCTION

CITY MANAGER'S BUDGET MESSAGE

Mayor Lesser and Members of the City Council:

It is my privilege to present the Fiscal Year 2013-2014 proposed operating budget. This important document serves as the basis for Council's decisions and sets the course for the coming fiscal year and beyond.

Last year, the City adopted a mission statement that articulates the values of our organization:

"The City of Manhattan Beach is dedicated to providing exemplary municipal services, preserving our small beach town character and enhancing the quality of life for our residents, businesses and visitors"

Using the mission statement as the foundation, the City Council developed strategic goals, which include: maintaining and enhancing fiscal stability; increasing organizational effectiveness and efficiency; maintaining and enhancing City facilities, programs and infrastructure; and encouraging engagement and increased participation of residents and businesses. The Fiscal Year 2013-2014 budget has been prepared with these in mind.

The City has a long-standing tradition of being fiscally conservative. It has maintained adequate reserves, borrowed judiciously, staffed appropriately, and spent only where necessary, all while providing outstanding city services. In recent years, when the economy deteriorated, the City reduced costs through belt-tightening without major service impacts to residents and businesses.

Today, the City continues to see overall economic stability and expansion. Major revenues are advancing along with the overall economy. The housing market is improving, and along with it, the City's Property Tax revenue. Sales Tax is growing with the general economy and consumer confidence. Building activity is returning along with tourism and travel. At the same time, the City continues to control costs. The City's major labor contracts have been settled, providing predictable costs structure for the City's largest expense - labor.

The City continues with the budget goals of efficiently maintaining the levels of service currently provided to residents, reducing expenses wherever practical, meeting employee obligations and maintaining adequate General Fund reserves. The budget endeavors to provide all this information in a transparent fashion and provide the City Council with the information to review budget recommendations.

As a service organization, labor makes up approximately 70% of costs. The City's skilled and dedicated workforce is what powers the day-to-day delivery of services. Over the past few years a number of vacant positions were eliminated due to budget constraints. With the budget outlook improving, a number of staffing changes are recommended that will improve effectiveness and efficiencies, and most importantly, help the City keep pace with service demands.

Public Safety continues to be a top priority for the community. Last year, Police staffing was enhanced with the addition of one Police Lieutenant, two Police Officers (eliminated in the Fiscal Year 2011-2012 budget), and one Police Services Officer (i.e. Jailer). This year, we are

shoring up the Police Department's administrative staffing levels by adding two Administrative Clerks to ensure our ability to meet the public's demand for services. We are also adding one Community Services Officer to adequately staff a division which supports front-line law enforcement as well as parking operations.

Increased activity in the Community Development Department, and the resulting service level demands, are accommodated with the reinstatement of a Permits Technician. The City Clerk's office will be better able to serve the community and the City Council's Open Government initiatives with the addition of a Management Analyst. The upgrade of a Recreation Supervisor from part-time to full-time status will provide stability and continuity to the City's Sports and Aquatics programs.

Additionally, as a result of the recently adopted Information Systems Master Plan, three Information Systems Specialists have been added (one dedicated to Police and Fire) to meet growing technology demands both internally and externally. Finally, a Senior Revenue Services Specialist has been added to Finance to properly manage the daily activities of this division responsible for cash handling, utility billing, and business licensing.

Historically, this organization has operated on minimal staffing levels. As service demands have continued to rise, we have found ways to "make it work" through existing staff, or by adding part time labor. But this approach ultimately has consequences: existing resources are strained beyond acceptable levels; and part-time labor is utilized where permanent full-time staffing is more appropriate.

Many of the aforementioned positions are the result of consolidating part-time hours. The City has extensively used part-time labor to provide important services such as managing Parks & Recreation programs, issuing building permits, generating utility bills and staffing the City's Information Technology function. However, as the City Council discussed earlier this year, relying on part-time labor has its own issues including this reliance for mission-critical responsibilities on employees who will leave given full-time opportunities elsewhere, taking with them the valuable and costly training and skills we have provided. Additionally, the provisions of the new Affordable Care Act (e.g. "Obamacare") will institute additional regulations on part-time labor in certain situations, reducing the cost benefit of part-time employees.

While the addition of the positions adds to our labor costs, the need reflects the reality of the demands for service that have challenged our abilities to serve the community. With financial resources available, these positions help meet our service commitments.

Speaking of labor, chief among the total compensation issues for the City is retirement system costs. The City of Manhattan Beach budgeted \$6 million last year to provide its valued employees with defined benefit pension plans through the California Public Employees' Retirement System (CalPERS). But the cost of providing that benefit continues to increase, and CalPERS has made changes to its investment return assumptions which necessitates even higher employer rates starting in Fiscal Year 2013-2014. While those changes were estimated to add \$600,000 annually in increased costs to the City, conclusion of labor negotiations with three of the City's labor groups provides some reduction in pension costs with the employees contributing their full share of the entire rate. However, CalPERS has recently enacted additional changes to the rate formulae which will result in even further employer cost increases starting in Fiscal Year 2015-2016. Those changes are expected to add \$1.7 million in pension costs for the

City (and are reflected in the five-year forecast). Pension costs continue to be one of the biggest challenges the City faces going forward.

In April of this year, the City Council adopted a new Information Systems Master Plan, which serves as a technology roadmap for the next five years. The plan identifies the priorities and costs for implementation. The first year projects, which have been funded in this budget, include upgrades to the Community Development permitting system, which will provide on-line services to the residents as well as more efficient data collection and reporting by the department. It also includes enhancements to the financial system to accommodate fixed asset, inventory and payroll reporting improvements as well as Human Resources modules that will create efficiencies and improve service levels to the employees. Replacement of the City's outdated document management system with a new, more user-friendly system will support the City's Open Government initiatives. Finally, upgrades to the existing Public Works work order management system will improve resource tracking for the various services provided citywide. A complete list of projects related to the Master Plan is located on page 148, and are identified with "ISMP" in the description.

A few years ago, in an effort to balance the General Fund budget, the City suspended funding of vehicle replacements. As the economy improved, the City renewed its efforts to maintaining its fleet of vehicles and provide for orderly replacement at the end of useful life. Whether the vehicle is a fire truck, police patrol car, or Dial-A-Ride bus, these vehicles are part of the infrastructure of providing services. This budget continues this replacement program in a significant fashion, by replacing an additional twenty-three vehicles (the entire list of vehicles is located in the Appendix on page 149).

Just as the City's investment in its employees is a very important element to providing excellent services, good stewardship demands an investment in general infrastructure such as our community centers, parks and other facilities. The 2007 Facilities Strategic Plan revealed the poor condition of many of our most important facilities. While we have begun addressing these needs through renovations to Begg Pool, Joslyn and Manhattan Heights centers, there is more ahead. Last year's Capital Improvement Projects (CIP) plan identified an annual estimated funding level need of \$2 million in order to simply maintain our facilities. Any large scale improvements will require even more funding.

In the past, such general improvements were the top funding priority for year-end General Fund surpluses, coupled with certain revenue sources dedicated to the CIP fund. With more demands being placed on the General Fund, and the majority of the dedicated CIP revenues being used to pay for the debt service on the Police/Fire headquarters, there are limited funds available for any meaningful projects. Ideally, on-going capital funding should be generated and built into the budget and not treated as an after-thought with remaining funds. While this year's budget places a priority on restoring service levels through staffing, further consideration must be given to enhancing funding sources to achieve that long term funding structure. In the interim, this budget includes an equity transfer of \$1.1 million of available unreserved General Fund moneys to the CIP Fund for future projects that would otherwise be unfunded.

As the main funding source for City services, the General Fund gets most of the attention. However, challenges exist in other funds as well, particularly Proposition "A," the Storm Water utility, and the Street Lighting and Landscaping District Fund. Proposition "A" funds are used primarily for the City's Dial-A-Ride transportation services, although it also supports the Beach Cities Transit line and Ocean Express among other transportation purposes. Over the past few years, the City has expanded service levels without the benefit of increased revenues. Additionally, due to the economic recession, the primary funding source, which is a half-cent sales tax, declined. As a result, the Proposition "A" fund has exhausted all of its resources and requires a subsidy from Measure "R" funds to maintain current service levels. Looking ahead, we will need to review service levels and funding alternatives for this operation vis-à-vis the City's other transportation needs that Measure "R" funds could be used for such as pothole repairs, major street resurfacing, left-turn signals, bikeways, pedestrian improvements, streetscapes, traffic signal synchronization, etc.

As we know from past resident satisfaction surveys, clean beaches are a top priority for the community. The main funding source for this endeavor is the Storm Water Fund. Unfortunately, the fund continues to absorb additional costs without the benefit of new revenues from assessments (any increase in assessments requires a successful Proposition 218 vote). Also, the Storm Water fund receives over \$300,000 a year in direct and indirect support from the General Fund. While the General Fund has received reimbursement in the past, the Storm Water Fund cannot continue this transfer due to inadequate revenues, and the need for future capital projects. At the same time as costs rise, so does the General Fund subsidy, drawing resources from other services and programs, including capital improvement funding. With so much emphasis being placed on the environment, and more regulatory standards being enacted, the Storm Water Fund needs additional revenues. At some point, property owners may wish to consider an assessment to fund the proper handling and treatment of storm water runoff. This could be accomplished with a mail-in ballot.

Another area in need of fiscal attention is the Street Lighting and Landscape Fund. This fund pays for all costs associated with providing street lighting city-wide, and for the maintenance of Streetscape in the downtown district. This fund is supported by assessments which have not changed in years (and cannot be adjusted without a Proposition 218 vote). As a result, the General Fund is subsidizing the Street Lighting Fund by \$267,665 in Fiscal Year 2013-2014. This deficit is likely to grow larger as energy costs and general maintenance costs rise. As the General Fund subsidy increases, it results in less available funding for such activities as Police, Fire, Paramedics, Parks and Recreation, Public Works, etc. A future vote, which could be accomplished using a mail-in ballot, would be necessary to properly fund operations.

It is important to note that in the past the General Fund has maintained sufficient funds to backstop these operations when necessary. However, with the subsidies growing and other demands on the General Fund, the City needs to consider proactively taking the steps necessary to support each and every program that is designed to be self-sustaining in order to restore financial balance, whether through increased assessments or, where appropriate, service level reductions.

As part of the budgeting process, a five-year forecast of revenues, expenditures and transfers is created. This tool provides clarity on the effects of immediate budget decisions on future years. It factors known events, such as the CalPERS pension rate increases in Fiscal Year 2015-2016, as well as estimates on revenue development. The forecast will be discussed in detail at the public budget meetings, and will address the effects of the Storm Water, Street Lighting and Proposition "A" fund subsidies on the General Fund (and therefore the CIP Fund).

If capital needs are considered along with service level demands, it is clear that the City should consider opportunities to grow its revenue base. Possible options include an increase in the transient occupancy tax (which could be accomplished without voter approval and would generate new revenue of approximately \$780,000), or the implementation of a utility user tax (UUT), for which a vote of the residents would be necessary. If an election were held, the City would need approval of a simple majority of the voters if the revenues were used for general purposes and not dedicated to a specific purpose. Each one percent of a UUT is estimated to generate \$650,000 in new revenue. Using the area average UUT of 5%, the City could generate approximately \$3.2 million in additional revenue. (Manhattan Beach is one of the few cities that does not have a UUT.)

In the City's overall fiscal health, reserve levels play an important role. For more than fifteen years, the City by policy has retained twenty percent of the General Fund's annual budgeted expenditures in reserve (for Fiscal Year 2013-2014 that amounts to \$11.7 million). Additionally, we prudently reserved an additional \$4 million for economic uncertainty. The City's financial policies state that the funds are to be used "in the event of significant financial emergency." While the past several years have been challenging in our abilities to fund our programs, the situation has not risen to the level of "significant financial emergency." Further, these reserves exist not to cover on-going long-term operational expenditures, but rather as an emergency cushion for such events as a natural disaster where insurance is insufficient (or non-existent) to cover major structural losses, or an unforeseen loss of revenue which needs to be addressed on an emergency basis. We should avoid allocating these reserve funds for anything other than the most severe of events. It is this approach that has been a contributing factor in obtaining our Triple-A credit ratings from Standard & Poor's and Moody's.

Finally, for the past few years, the City Council has focused on open government initiatives. To that end, we have enhanced our outreach for this year's budget process. Letters to all households were mailed in April inviting residents to participate in any one of the four City Council meetings at which the budget will be reviewed and discussed. E-Notifications have been sent as well as our usual advertisement in *The Beach Reporter*. Further outreach efforts have been funded in Fiscal Year 2013-2014 for the next budget cycle.

Despite the challenges, we are pleased to present a budget that continues and enhances the City's ability to provide exemplary municipal services.

BUDGET OVERVIEW

While in practice we look at the budget on a fund-by-fund basis, the following is a summary of the entire proposed budget as it compares to the prior year budget.

	Revenues			Expenditures		
Fund	2012-2013	2013-2014	%-Change	2012-2013	2013-2014	%-Change
General	\$53,098,918	\$57,504,071	8.3%	\$52,994,257	\$58,569,378	10.5%
Special Revenue Funds						
Street Lighting & Landscape	398,844	404,491	1.4%	594,399	672,156	13.1%
Gas Tax	1,487,617	1,277,766	(14.1%)	870,000	1,115,000	28.2%
Asset Forfeiture & Safety Grants	8,862	8,053	(9.1%)	216,833	192,615	(11.2%)
Police Safety Grants	1,502	1,300	(13.4%)	-	-	0.0%
Federal & State Grants	-	-	0.0%	-	-	0.0%
Proposition A	552,201	625,314	13.2%	734,141	729,281	(0.7%)
Proposition C	8,554,416	11,685,108	36.6%	8,715,937	12,785,472	46.7%
AB 2766	44,915	43,287	(3.6%)	358,068	97,068	(72.9%)
Measure R	295,131	380,745	29.0%	-	-	0.0%
Capital Project Funds						
Capital Improvement Project	1,947,145	1,365,031	(29.9%)	5,785,311	14,252,622	146.4%
Underground Assessments District	219	1,125	413.7%	-,,-	-	0.0%
Enterprise Funds						
Water	14,874,414	15,973,827	7.4%	13,219,721	13,473,613	1.9%
Stormwater	359,350	352,126	(2.0%)	597,789	832,914	39.3%
Wastewater	3,377,186	3,586,955	6.2%	3,687,820	3,963,916	7.5%
Refuse	4,566,324	4,090,542	(10.4%)	4,397,944	4,010,162	(8.8%)
Parking	2,299,594	2,344,633	2.0%	1,912,080	1,987,820	4.0%
County Parking Lots	531,000	638,510	20.2%	457,627	568,498	24.2%
State Pier & Parking Lot	500,363	525,229	5.0%	1,343,088	474,287	(64.7%)
Internal Service Funds						
Insurance Reserve	4,541,130	5,158,460	13.6%	4,605,986	5,205,887	13.0%
Information Systems	1,506,483	1,531,297	1.6%	1,534,652	1,831,303	19.3%
Fleet Management	3,077,925	2,511,752	(18.4%)	5,149,044	3,510,766	(31.8%)
Building Maintenance & Operations	1,550,806	1,774,165	14.4%	1,536,974	1,787,193	16.3%
Trust & Agency Funds						
Special Assessment Redepmtion Fund	968,248	957,000	(1.2%)	962,612	956,876	(0.6%)
Pension Trust	139,150	163,264	17.3%	189,000	216,000	14.3%
Budget Totals	\$104,681,743	\$112,904,051	7.9%	\$109,863,283	\$127,232,826	15.8%

		Year-Over-Year Change in Budget (in millions)			
Fund Type	Funds	Revenues	% Change	Expenditures	% Change
General	General	\$4,405,153	8.3%	\$5,575,121	10.5%
Special Revenue	Gas Tax, Prop A, Prop C, Asset Forfeiture, Street Lighting, etc.	3,082,576	27.2%	4,102,214	35.7%
Enterprise	Water, Wastewater, Refuse, Parking, etc.	1,003,591	3.8%	(304,859)	(1.2%)
Capital Projects	CIP Fund	(581,208)	(29.8%)	8,467,311	146.4%
Internal Service	Insurance, Information Systems, Fleet, Building Maintenance	299,330	2.8%	(491,508)	(3.8%)
Trust & Agency	Underground Assessment, Pension Trust, UAD Loan	12,866	1.2%	21,264	1.8%
	Total Increase	\$8,222,308	7.9%	\$17,369,543	15.8%

Specific information on each of these funds may be found later in this budget message.

Debt Service

Debt service for Fiscal Year 2013-2014 approximates \$16.36 million (excluding administration fees) and includes: \$11,426,038 for the Police/Fire bond redemption/refinancing occurring in January 2014; \$813,764 for the Police & Fire financing bonds (redeemed and refinanced bonds); \$966,613 for the Water/Wastewater/Metlox financing bonds; \$1,133,334 for the public safety pension obligation bonds; \$510,546 for the financing of the Marine Sports Fields; and \$947,876 in underground utility bond debt which exists as an assessment pass-through appropriation on the City's books. In Fiscal Year 2012-2013, the City refinanced its Water/Wastewater and Metlox bonds, and paid off its South Bay Regional Public Communications Authority (RCC) facility debt. The City also initiated the refinancing of the Police & Fire bonds, to be completed in Fiscal Year 2013-2014. Debt service also includes \$208,193 for lease payments on the new fire pumper (\$118,220) and sewer vacuum jet truck (\$89,973).

Debt Service also includes the defeasance of existing Police/Fire financing bonds. The payment of \$11,426,038 covers both interest and principal. The amounts were derived from proceeds of refinancing bonds sold in January 2013. Bond refunding in the Capital Improvement, Water, Wastewater, and Parking Funds will yield debt service savings by effectively reducing debt service payments. With this reduction, the Capital Improvement Fund annual debt service is reduced from \$815,000 to \$775,000, but remains dependent on the General Fund surpluses for funding future projects.

An executive summary schedule of revenues, expenditures, reserves and changes in fund balances is presented in the Summaries section of this budget.

FUND SUMMARIES

GENERAL FUND

At year-end, current estimates for Fiscal Year 2012-2013 indicate that revenues will exceed expenditures in the General Fund by \$2,013,437. An improving economy and close monitoring of expenditures contributed to the better-than-expected results.

The unreserved (available) General Fund balance on June 30, 2013 is projected to be \$3,516,622 after accounting for financial policy designations. The Fiscal Year 2013-2014 budget includes an equity transfer of \$1.1 million to the CIP Fund to support capital improvements, and a transfer of \$267,665 to the Street Lighting and Landscape Fund to relieve its deficit. At the end of Fiscal Year 2013-2014, the financial policy designation, which is based on 20% of General Fund expenditures, equals \$11,713,876, an increase from the prior year of \$1,115,025 due to the increase in General Fund expenditures from the prior year. The Economic Uncertainty reserve remains at \$4 million. There is no year-end unreserved fund balance projected due to the transfers and designations.

REVENUES:

General Fund revenues are projected to be \$57,504,071, an increase of \$4,405,153 or 8.3% from last year's budget. Increases in Property Tax, Sales Tax, Transient Occupancy Tax, Business License Tax, Building and Planning fees all contribute to the rise in revenue. General Fund

revenues also reflect a reimbursement from the Water, Wastewater and Parking funds in the amount of \$966,613 for debt service payments made on behalf of those enterprises under the bond refinancing performed in Fiscal Year 2012-2013.

Specific revenue highlights include:

Property Taxes: For Fiscal Year 2013-2014, we are expecting a solid improvement in overall property tax revenues of \$1,922,110 over the prior year budget (9.5%), and \$912,620 (4.3%) over the prior year estimate. With the local market experiencing a resurgent housing market, and residential construction and remodeling on the rise, we are anticipating an upward trend in the General Fund's largest revenue source.

Fiscal Year 2011-2012 Actual:	\$ 20,408,314
Fiscal Year 2012-2013 Budget:	\$ 20,270,305
Fiscal Year 2012-2013 Estimate:	\$ 21,279,795
Fiscal Year 2013-2014 Budget:	\$ 22,192,415

Sales Tax: Retail sales activity within the state and region continue to improve as consumer confidence and spending return. Additionally, the City continues to receive the benefit of the DeWitt Petroleum location agreement which took effect in October 2010. In Fiscal Year 2013-2014, we expect sales tax to perform 4.6% (\$398,850) above the prior year's budget, and \$179,464 (2.0%) above prior year estimates (these figures are based on the City's net revenue after factoring in the DeWitt agreement).

Fiscal Year 2011-2012 Actual:	\$ 8,702,670
Fiscal Year 2012-2103 Budget:	\$ 8,756,000
Fiscal Year 2012-2013 Estimate:	\$ 8,975,386
Fiscal Year 2013-2014 Budget:	\$ 9,154,850

Transient Occupancy Tax (TOT): This revenue continues to recover from the economic downturn. With significant remodeling activity completed at the Marriot and Residence Inn hotels, and the economy and tourism on the rise, TOT is expected to generate \$3.3 million in revenue, \$549,583 (19.8%) above the prior year budget and \$61,986 (1.9%) over the prior year estimate. TOT revenue also affects the Capital Improvement Fund since 15% of the total TOT is dedicated to that fund (the CIP amount is not included in the numbers below).

Fiscal Year 2011-2012 Actual:	\$ 2,671,899
Fiscal Year 2012-2013 Budget:	\$ 2,774,820
Fiscal Year 2012-2013 Estimate:	\$ 3,262,417
Fiscal Year 2013-2014 Budget:	\$ 3,324,403

Business License Tax: Budget-to-budget, business license tax is projected to increase by \$206,000 (7.2%). Despite economic downturns, this revenue continues be resilient, remaining flat or with slight increases from the prior years.

Fiscal Year 2011-2012 Actual:	\$ 3,018,177
Fiscal Year 2012-2013 Budget:	\$ 2,844,000
Fiscal Year 2012-2013 Estimate:	\$ 3,000,000
Fiscal Year 2012-2013 Budget:	\$ 3,050,000

Building Permits: With increased new construction on the horizon, Building Permits revenue is expected to increase by \$44,000 (5%) in Fiscal Year 2013-2014 over the prior year budget and estimate. Through March 2013, the number of demolitions (a leading indicator of construction activity) is up 50%. The majority of the activity continues to be in the residential arena.

Fiscal Year 2011-2012 Actual:	\$ 818,418
Fiscal Year 2012-2013 Budget:	\$ 880,000
Fiscal Year 2012-2013 Estimate:	\$ 880,000
Fiscal Year 2013-2014 Budget:	\$ 924,000

Plan Check Fees: Similar to Building Permits, Plan Check Fees in Fiscal Year 2013-2014 are expected to surpass the prior year budget and estimate by 5.1%, or \$50,000, due to the increased building activity in a rejuvenated housing market.

Fiscal Year 2011-2012 Actual:	\$958,671
Fiscal Year 2012-2013 Budget:	\$ 990,000
Fiscal Year 2012-2013 Estimate:	\$ 990,000
Fiscal Year 2013-2014 Budget:	\$ 1,040,000

Interest Income: Interest rates remain at historically low levels, resulting in depressed interest earnings on the City's idle funds. As investments mature, reinvestment rates in today's market are now less than 1.0% in the five-year range. A strong recovery is not expected in the near future, and as a result portfolio investments have included more Certificates of Deposit and high-grade corporate offerings which generate higher yields than their government counterparts. Due to the uncertainty surrounding the investment markets, a conservative approach is used in budgeting.

Fiscal Year 2011-2012 Actual:	\$ 564,116
Fiscal Year 2012-2013 Budget:	\$ 550,000
Fiscal Year 2012-2013 Estimate:	\$ 661,236
Fiscal Year 2013-2014 Budget:	\$ 548,092

Marriott Hotel Percentage Rent: Concurrent with Transient Occupancy Tax, this revenue is on an upward trend, particularly after the completion of a core remodeling project which impacted Fiscal Year 2011-2012. The completion of the project in that same fiscal year, coupled with growing tourism is expected to boost Fiscal Year 2013-2014 revenues significantly over the prior year budget.

Fiscal Year 2011-2012 Actual:	\$ 532,354
Fiscal Year 2012-2013 Budget:	\$ 574,000
Fiscal Year 2012-2013 Estimate:	\$ 840,735
Fiscal Year 2013-2014 Budget:	\$ 856,709

A complete listing of revenues is located in the Summaries section of this document.

General Fund Expenditure Highlights:

General Fund expenditures equal \$58,569,378, an increase from the Fiscal Year 2012-2013 budget of \$5,575,121 (10.5%) and \$4,834,956 (9.0%) over Fiscal Year 2012-2013 estimates. The following chart illustrates the specific budget categories and the associated changes:

Budget	Estimated	Budget	Budget to Budget Var		Budget to Estim	ated Var
2012-2013	2012-2013	2013-2014	Change	Percent	Change	Percent

General Fund Budgeted Expenditures by Category

Salaries and Benefits account for the largest portion of the increase due to the recently negotiated contracts with the City's bargaining groups, and the reinstatement/addition of ten full-time employees in order to meet existing service level demands, increase internal efficiency, and consolidate multiple part-time positions into single full-time positions in order to provide consistency and stability in mission-critical operations. The net costs of the additional positions when considering the offset from the elimination of existing part-time positions, where applicable, is approximately \$440,000.

The budget reflects the addition of a Management Analyst in the City Clerk's office to assist in fulfilling and maintaining all Open Government initiatives; three Information System Specialists (one dedicated to Public Safety departments) for increased productivity and reliability of technological systems, in line with the City Council adopted Information Systems Master Plan recommendations; one Senior Account Services Representative in Finance to appropriately staff for the effective operation of the Revenue Services Division; one Recreation Supervisor for further stability and consistency in the Sports and Aquatics programs; two Administrative Clerks in the Police Department to improve department functions and customer service (particularly due to the high level of public records requests processed by the department) and a Community Service Officer to better serve the public through code enforcement; and a Permits Technician in Community Development to accommodate the increase in permit counter activity.

Workers' Compensation costs are on the rise again, with claims activity resulting in costs increasing in the General Fund by \$548,825. Workers' Compensation continues to be a challenge both in terms of cost control and predictability. For example, there are old cases (20+ years) for which new reserves must be funded from changes in the former employees' health status due to their work-related injuries. These increased costs often raise our liability by tens to hundreds of thousands of dollars (limited only by the self-insured retention in effect at the time of injury). While proactive work place injury prevention programs help with our current employees, we are exposed to escalating costs for many years after separation from employment. In some cases

these costs may increase through the former employee's inaction in maintaining his or her own health. The State's Workers' Compensation system continues to be in disrepair, which will challenge us fiscally as we adapt to inconsistent and unpredictable cost patterns.

The recently negotiated Memorandums of Understanding with the City's bargaining groups included provisions for employees to pay their portion of pension costs (the City had been paying for the employer and employee share), resulting in a significant decrease in City-paid pension costs. However the CalPERS Board of Administration voted to make significant changes in the actuarial policies, affecting employer rates beginning in Fiscal Year 2015-2016. While the exact amount is not known until CalPERS provides more information, the impact to the City is currently estimated at \$1.7 million.

The Fiscal Year 2013-2014 budget includes a 4% vacancy factor for full-time staffing, which equates to \$1.4 million across all funds, and approximately \$1.2 million in the General Fund. This vacancy factor is in recognition of the fact that there are times throughout the year that positions are vacant through attrition and retirements, and that salary savings are achieved during those vacancies. This practice, which was implemented several years ago, reduces funds allocated for staffing, but may result in insufficient funding if such vacancies do not occur. The prior practice of fully budgeting staff positions would result in year-end savings, which would contribute to fund balance or other uses such as capital improvement projects. This current method simply estimates and recognizes vacancies up-front, with the expected savings factored into the budget.

By policy, the City Council maintains a contingency account (one-half of one percent of General Fund expenditures) within the adopted budget which allows Council to address issues during the year without the need to appropriate funds. For Fiscal Year 2013-2014, this amounts to \$265,000. In the event issues arise that exceed the contingency account during the year which the Council determines funding is necessary, a limited amount of surplus General Fund money is typically available for appropriation.

Other Fund Highlights

CAPITAL IMPROVEMENTS & CONSTRUCTION FUNDS

In years past, City Councils have created dedicated revenue sources for the Capital Improvements Fund in order to provide reliable funding for important projects (previously, project funding relied on General Fund surpluses). These revenue sources and the year enacted are as follows:

- 1998 Transient Occupancy Tax 15% of the total tax
- 1998 On-Street Parking Meters \$.25 per hour
- 2000 On-Street Parking Meters additional \$.25 per hour
- 2000 Parking Citations \$4 of all citations except expired meter cites

These revenues are projected to generate \$1,351,129 in Fiscal Year 2013-2014, \$83,658 (6.6%) higher than the prior year budget, and in line with the prior year estimate. The majority of the revenue generated within the CIP Fund is dedicated to funding the Police & Fire facility debt

service. Other projects will be funded from available fund balance and any future General Fund surpluses on a pay-as-you-go basis. A General Fund transfer of \$1.1 million into the CIP Fund is included in this year's budget, the result of available General Fund balance.

The City's CIP fund accounts for capital improvement projects funded by general use revenue sources. Projects totaling \$2.0 million are included within the Fiscal Year 2013-2014 budget for non-motorized transportation enhancements (\$100,000) and general City maintenance. CIP planning and adoption has been separated from the Operating Budget and will commence in the summer of 2013. Any adjustments to the projects for Fiscal Year 2013-2014 will be made upon adoption of the next CIP five-year plan.

Including the \$1.1 million transfer from the General Fund, the CIP fund is expected to have an unreserved fund balance of \$3.3 million at the end of Fiscal Year 2013-2014 for use at the discretion of City Council.

SPECIAL REVENUE FUNDS

The *Street Lighting and Landscaping Fund* derives its revenues from assessments to property owners. Those assessments, which have not been changed since 1996, would require a successful Proposition 218 vote in order to do so. As a result, the Fiscal Year 2013-2014 assessment basis remains fixed with no increase from the prior year. Because expenses for energy and maintenance are not fixed and continue to rise, the General Fund must contribute increased amounts each year in order to fund this service. For Fiscal Year 2013-2014 that subsidy is estimated at \$267,665. In addition to the subsidy, the City contributes \$25,291 to cover the City's portion of the Streetscape zone. This budget presents a fund which has long exhausted its reserves. City Council will revisit an overall assessment plan this coming summer as part of the Strategic Plan. Until new assessments are in place (requiring a Proposition 218 process) General Fund transfers will continue, further straining core municipal services.

The *Gas Tax Fund* accounts for moneys dedicated to roadway and sidewalk projects. This year's budget includes revenues of \$1,277,766 and expenditures of \$1,115,000. Projects include street resurfacing and construction projects, maintenance such as the annual slurry seal program, and annual concrete curb and gutter replacement.

The *Asset Forfeiture Fund* includes estimated revenues of \$8,053 consisting only of interest earnings on the fund balance. The City has made it a practice not to budget revenues from asset seizures because the revenue stream is unpredictable. By doing so, the City avoids the appearance of any impropriety in the seizing, sale or acquisition of forfeited property. Fiscal Year 2013-2014 operational expenditures equal \$192,615, and include \$70,000 for front-line law enforcement equipment and supplies, \$57,740 for computer-related equipment and contracted services, and \$20,000 for training.

The *Federal and State Grant Fund* has no anticipated or known grant fund income. However, during the year if such grants are received, the budget will be adjusted accordingly. The fund currently shows a deficit in the amount of \$22,488 due to an expected retention reimbursement for the Rosecrans utility underground project that will be received once the related project documentation has been fully completed.

The majority of *Proposition "A" Fund* revenues are based on a half-cent sales tax in Los Angeles County, which is then distributed on a per capita basis. Fiscal Year 2013-2014 revenues are estimated at \$625,314 with expenditures of \$729,281. Because there is no available fund

balance upon which to draw from, this deficit is covered through a transfer from Measure "R" funds. Sustaining the current service levels will require the City to utilize Measure "R" funds, or exchange General Fund moneys for Proposition "A" funds with another agency in the county, as was done in previous years. This year's budget includes salary and benefits for the transportation services operators; \$25,000 for Dial-A-Ride software enhancements as part of the Information Systems Master Plan; \$21,500 for support of the Beach Cities Transit replacement service for the MTA line 439 (which runs through Manhattan Beach); \$20,000 for the Ocean Express to support trips bringing visitors from LAX area hotels to Downtown and the Village Mall; and \$55,000 for recreational bus trips for the various programs put on by the Parks & Recreation department.

The *Proposition "C" Fund*, established for transportation and street improvement programs, reflects estimated revenues of \$11,685,108 and capital expenditures of \$12,785,472 in Fiscal Year 2013-2014. Revenues include \$3.6 million in a Metropolitan Transportation Authority (MTA) grant, \$7.0 million in an MTA Measure R South Bay allocation, and \$500,000 in a Federal earmark. These funds will be used for the Sepulveda Bridge Widening Project, which has an estimated cost of \$17.3 million.

The *AB* 2766 *Fund* was established in 1990 and provides per capita funding to cities and counties located in the South Coast District to be used to reduce motor vehicle air pollution. Revenues of \$43,287 and expenditures of \$97,068 support the City's clean air efforts in Fiscal Year 2013-2014. This year's budget includes the purchase of two clean-energy vehicles for \$89,000.

During Fiscal Year 2009-2010, the City began receiving funds from the new sales tax resulting from *Measure "R"* which was approved by the County's voters in November 2008. This half cent sales tax can be used for projects such as pothole repairs, major street resurfacing, left-turn signals, bikeways, pedestrian improvements, streetscapes, traffic signal synchronization and local transit services (including subsidizing Dial-A-Ride services). We anticipate receiving approximately \$380,745 in revenue for Fiscal Year 2013-2014. This year, \$103,967 will be transferred to the Proposition "A" Fund to sustain Dial-A-Ride programs. The year-end fund balance is projected to be \$1,434,436.

ENTERPRISE FUNDS

Fiscal Year 2013-2014 revenues in the *Water Fund* are estimated at \$15,973,827 while expenditures in this fund equal \$13,473,613. Included in this budget are capital projects totaling \$4.6 million – \$2.5 million for a water well, \$1.6 million for pipe replacement and fire hydrant installation, and \$500,000 for a well collection line.

Revenues in the *Waste Water Fund* are projected to be \$3,586,955 with expenses and capital estimated at \$3,963,916. The expenses include \$2.1 million for sewer infrastructure modification and rehabilitation, and the lease of a new Sewer Vacuum Jet truck. It is important to note that net income is not sufficient to fund the policy reserves of \$620,910. Given the high priority of the projects, the budget places an emphasis on funding those critical needs ahead of funding reserves. However, if there were to be a need for emergency funding, other resources are available in the interim. While a five-year rate structure was established when the new rates took effect in 2010, those rates may need to be revisited earlier than planned to fully fund the operation and reserves. The five-year forecast indicates that at the current planned pace of projects, revenues will be insufficient and support from other sources, or a rate increase, will likely be required.

The *Storm Water Fund* includes revenues of \$352,126 and expenditures of \$832,914. The Fiscal Year 2013-2014 budget allocates \$240,000 for the mandated National Pollution Discharge Elimination System Permit Compliance Program, and \$325,000 for the street sweeping contract, which has been transferred from the Refuse Fund to Storm Water to more closely align the purpose of the service with the benefit received.

Current assessments, last changed in 1996, are not sufficient to sustain the program's current and future capital needs. As a result, General Fund transfers or a Proposition 218 vote to increase the assessments will be required to adequately fund this operation. Storm Water runoff is under increased regulatory and environmental pressures, which has resulted in increased costs. It is important to also note that charge-outs to cover General Fund support costs have been suspended due to minimal fund balance. This amounts to approximately \$400,000 per year. The General Fund can no longer afford to subsidize the Storm Water Fund, and the assessments will need to be addressed. The City Council has included this in their Strategic Plan for review this summer.

The *Refuse Fund* includes revenues and expenses for the City's refuse and recycling activities. Revenues for Fiscal Year 2013-2014 are projected to be \$4,090,542 and expenditures at \$4,010,162. Effective this fiscal year, the street sweeping contract was transferred to the Storm Water Fund, resulting in a reduction in expenses of approximately \$325,000 per year. Projected year-end balance is \$919,427. It is important to note that this fund is not maintaining reserves in compliance with established City Council policies. Fund balance is projected to equal \$919,427, while policy reserves require a balance of approximately \$1.34 million.

The *Parking Fund* accounts for collections and expenditures for street meters and City-owned lots, debt service on the Metlox parking structure, and maintenance of the Metlox Town Square. For Fiscal Year 2013-2014 this fund is projected to have \$2,344,633 in revenues and \$1,987,820 in expenditures, which includes debt service (\$718,553) on the Metlox parking structure and an inter-fund loan from the Capital Improvements Fund for the purchase of technology parking meters (the loan will be paid off in Fiscal Year 2014-2015). The budget also includes \$78,050 for lighting repairs and upgrades to energy-efficient lights. The projected year-end unreserved fund balance is \$1,043,895, which will be needed for future maintenance and replacement of the City's aging parking structures.

The *County Parking Lot Fund* accounts for the two county-owned parking lots commonly referred to as El Porto and 26th Street. This fund is projected to have \$638,510 in revenues and \$568,498 in operating expenditures. Excess funds (\$70,012) are transferred to the General Fund after accounting for the County's share of revenue.

The *State Pier and Parking Lot Fund* relates to the operational activity for the State-owned pier parking lots. This fund is projected to have \$525,229 in revenues and \$474,287 in expenditures. The balance of the funds is used to maintain and operate the pier and parking lots, and the pier comfort stations.

INTERNAL SERVICE FUNDS

The City operates four Internal Service funds that provide for the operation, maintenance and replacement of facilities or equipment, or serve to spread the cost of an internal function across the user departments.

The Fiscal Year 2013-2014 *Insurance Reserve Fund* budget contains revenues (derived from charge-outs) of \$5,158,460 and expenditures of \$5,205,887. The Insurance Reserve allocates charges to other funds based on recent experience. In Fiscal Year 2013-2014 charge outs for liability claims paid, excess insurance and property insurance increased by \$148,841. Of this amount, property insurance accounted for \$37,000 with the balance due to liability. Charge-outs for Workers Compensation increased by \$468,409, mostly due to a significant increase in claims paid. Overall, budgeted claims paid for both liability and workers compensation in Fiscal Year 2013-2014 is estimated at \$3.6 million, an increase of \$554,000 over the prior year budget. Because the City's self-insured retention is \$500,000 for liability, and \$750,000 for Workers Compensation, claims paid will represent the largest and most varied cost from year to year.

The working capital/fund balance at fiscal year-end is estimated at \$4.0 million. This amount includes all reported liabilities. The amount exceeds the stated policy of the City to maintain at least a working capital balance of \$2 million. However, it is necessary to maintain a larger working capital balance because in addition to reported liabilities, there exist liabilities which have been incurred but not yet reported.

The *Information Systems Fund* provides for the operation of the City's Information Systems division, including maintenance of the City's computer network and hardware infrastructure. The division's budget is charged out to the departments based on the number of devices (workstations and printers) being utilized. In Fiscal Year 2013-2014, the Information Systems Fund's revenues are \$1,531,297 and expenditures are \$1,831,303. Last fiscal year, City Council approved the Information Systems Master Plan which addresses the City's technology needs over a five-year period. This fund's budget includes \$300,000 for wide area network expansion and phone system replacement, and two additional full-time positions (offset by the reduction of part-time hours) in accordance with the Master Plan. The fund is projected to have a balance of \$3,413 at year-end.

The *Building Maintenance and Operations Fund* consists of programs from two different departments. The fund provides for Public Work's Building Maintenance program which maintains City facilities and grounds, and the Finance Department's General Services program which ensures that office equipment (telephones, photocopiers, etc.) is maintained. The fund's Fiscal Year 2013-2014 budget includes revenues of \$1,774,165 and expenditures of \$1,787,193. Expenditures associated with this fund are allocated to departments based on their number of employees and the square feet of building they occupy.

The *Fleet Management Fund* is charged to departments in two separate line items - fleet maintenance and fleet rental. Fleet maintenance accounts for repairs and routine vehicle maintenance based on the average maintenance and repair cost according to the type and number of vehicles a department operates. The fleet rental charge provides for the replacement of City vehicles, and is a straight-line depreciated charge based on the cost and expected life of each vehicle. This year's budget includes \$2.4 million for the purchase of forty-four vehicles (twenty-one carryover from the prior year and twenty-three scheduled for replacement in Fiscal Year 2013-2014) as well as additional build-out costs for newly purchased vehicles. A list of those

vehicles is included in the Appendix of this document. The Fund is expected to have no remaining balance at year-end.

CONCLUSION

This document is the result of an extraordinary effort from staff in every City department. We believe that we have produced a first-rate document that is thorough and easy to use. We are proud to point out that last year's budget once again received awards both from the California Society of Municipal Finance Officers and from the Government Finance Officers Association.

In our on-going efforts to provide our citizens with ample opportunities to review and comment on the budget, study sessions are scheduled for May 9th, 14th, and 16th. Please refer to the City's website (<u>http://www.citymb.info/Index.aspx?page=35</u>) for specific times and locations. Final consideration and budget adoption is scheduled for June 4th.

Copies of the Operating Budget are available for public review at City Hall in the Finance Department and City Clerk's Office; and at the Library. The budget is also available on line at the City's website: **www.citymb.info.**

I would like to take this opportunity to thank all the City employees who worked very hard to develop this year's budget. Special thanks to the Finance Department, especially Bruce Moe, Eden Serina, Jeanne O'Brien and Eugene Wee.

Finally, a very special thank you to Henry Mitzner, the City's Controller. In March, Henry completed his fortieth year of extraordinary service to the City. He is a cornerstone, not only in the creation of the annual budget, but in maintaining the City's financial integrity and position. Congratulations Henry!

Sincerely,

Ole

David N. Carmany City Manager

BUDGET USER'S GUIDE

Prior to July 1st of each year, the Manhattan Beach City Council adopts, by formal resolution, an annual budget. This document serves as a financial plan, the purpose of which is to identify the projected allocation and application of resources over the budget cycle.

The published Operating Budget is designed to present summary information about the City's financial plans for the year in a user-friendly format. The Operating Budget is organized by department, then by program (operating divisions within the departments). Expenditures are displayed and subtotaled by type: *Salaries & Benefits, Materials & Supplies, and Capital Projects & Equipment*. The *Source of Funds* tables indicate the fund(s) to which a program allocates its expenditures. The Operating Budget also includes the following sections:

Introduction Section - includes the Table of Contents, List of City Officials, City Manager's Budget Message, Budget User's Guide, Budget Awards, and Organization Chart.

Summaries Section - includes tables and graphs detailing City-wide revenues, expenditures and fund balances.

Operating Budgets - includes program budgets by department, with narratives explaining the function of the program, staffing levels, uses and sources of funds, and service indicators.

Appendix - includes the City Council's Work Plan, the City's Financial Policies, Resolutions for the Adoption of the Budget and Appropriations Limit, Schedules of Funded Budget Requests Schedule of Administrative Service Charges, Summary of Debt Service Payments, and demographic information.

BUDGET PROCESS

The City's budget process begins in January of each year with the distribution of a budget manual prepared by the Finance Department. The budget manual contains a budget calendar, chart of accounts, forms for requesting new or additional items, and the general policy and instructions for developing the budget for that fiscal year. Line-item budget development is accomplished through the City's financial system, which allows each department to build its budget using computerized worksheets.

The individual departments are directly responsible for developing the Materials & Supplies line items and part-time employees' salaries. The remaining Salary & Benefit information is calculated and entered by the Finance Department. All supplemental budget requests (new personnel, service or equipment) are presented on separate forms and are subject to City Manager review and approval before becoming part of the operating budget. Once all the budget data is compiled, it is printed and distributed to the City Manager and the departments.

In March, the Finance Director provides the City Manager with proposed revenue projections. These revenue estimates are then reviewed with the department budget requests to determine available funding levels for the fiscal year. The City Manager and Finance Director then hold meetings with the departments to review the operating and supplemental budget requests.

Once the budget data has been reviewed and any changes have been made by the Finance Department, a proposed document is prepared. After final review and approval by the City Manager, the proposed budget document is presented to the City Council in May. At least one study session and public hearing are held by the City Council, and then the budget is adopted by resolution prior to June 30.

During the fiscal year, the budget can be amended as necessary to meet the City's needs. The City Council has the legal authority to amend the budget at any time. Department Heads and their designated representatives may only authorize expenditures based on appropriations previously approved by City Council action, and only from accounts under their organizational responsibility. Actual expenditures may exceed budget appropriations by line-item, but may not exceed the department's budget. The City Manager has the authority to approve interdepartmental appropriation transfers as long as they are within the same fund. Interfund transfers require a budget amendment by the City Council.

BASIC ACCOUNTING

Manhattan Beach's accounting system is maintained on a fund basis, in accordance with governmental accounting standards. Each of the City's twenty-five funds is considered a separate accounting entity with a self-balancing set of accounts that records assets, liabilities, fund equity, revenues and expenditures. Funds are established and segregated for the purpose of recording specific programs or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Funds are classified into one of three categories: *governmental* (general, special revenue, debt service, and capital projects), *proprietary* (enterprise and internal service), and *fiduciary* (trust and agency). Governmental funds account for activities usually associated with a typical state or local government's operation. Proprietary funds are financed and operated in a manner similar to private business enterprises, where the intent is to recover the costs of providing goods and services from user charges.

Fiduciary funds are utilized in situations where the government is acting in a fiduciary capacity as a trustee or an agent.

All governmental funds are budgeted and accounted for using the modified accrual basis of accounting, which recognizes revenues when they become susceptible to accrual, i.e. measurable and available. Available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Examples of such revenues include property tax, sales tax, and interest earnings. Expenditures are recognized when the fund liability is incurred.

Proprietary fund revenues and expenses are budgeted and accounted for on an accrual basis. Revenues are recognized in the period when earned, and expenses are recognized when incurred. The following Classification of Funds describes, in detail, the various types of funds and their purpose as established by the City of Manhattan Beach.

CLASSIFICATION OF FUNDS

GOVERNMENTAL FUND TYPES:

General Fund

The General Fund is used to account for resources traditionally associated with general government which are not required to be accounted for in a separate fund including: sales tax, property tax, transient occupancy tax, licenses and permits, fines and forfeitures. This fund is used to finance most of the basic municipal functions, such as general administration, public safety, parks and recreation, and community development.

Special Revenue Funds

The Street Lighting & Landscape Fund provides for the power, maintenance, and capital improvements for the lighting system within the City of Manhattan Beach. Money is received from a special assessment placed on each tax bill in the City, the amount of which is determined by the benefit received by the owner of each property. Assessments from Zone 10 of the street lighting district also provide for the maintenance of the street beautification area in downtown Manhattan Beach.

The Gas Tax Fund is used to account for the City's share of State and County gasoline tax collection in accordance with the provisions of the State of California Streets and Highway Code. Revenues are disbursed by the State based on population and must be used towards the maintenance and repair of City streets that serve as State and County thoroughfares.

The Asset Forfeiture Fund is used to account for funds received through Federal and State agencies for drug seizures in which the City participated. These funds must be used to supplement, not supplant, the Police Department's normal operating budget. The amount of revenue will vary from year to year based on activity levels.

The Police Safety Grants Fund is used to account for any Federal, State, or local grants received for law enforcement purposes.

The Federal & State Grants Fund is used to account for any Federal, State, or local grants received, such as Block Grant or Park Bond funds.

The Proposition A and C Funds and Measure R Fund are used to account for proceeds from the half-cent sales taxes generated by the approval of Propositions A and C by Los Angeles County voters. These funds, which are administered by the Los Angeles County Metropolitan Transportation Authority (MTA), are distributed based on population and must be used for transportation-related projects.

The AB 2766 Fund is used to account for proceeds received from the additional vehicle registration fee imposed by the State and regulated by the Air Quality Management District (AQMD). These funds are distributed based on population and must be used for programs designed to reduce air pollution from motor vehicles.

Capital Projects Funds

The Capital Improvement Fund is used to account for capital projects not eligible for funding from other specific funding sources. Funding sources are derived from various sources such as grant funds or transfers from the General Fund. In 1998-1999, City council acted to designate specific revenue sources for this fund consisting of the 15% of the City's transient occupancy tax and the 25 cents incremental increase of parking meter rates. Additionally, in FY 2000-2001, City Council added to this dedicated revenue stream by increasing street meter rates by an additional 25 cents per hour and most parking citation rates \$ 4. Specific projects and their funding sources are described in detail in the City's Capital Improvement Plan.

The *Undergrounding Assessment Fund* is used to account specifically for the construction of utility undergrounding in established districts. The fund serves as a pass through of the assessments collected to pay the debt service for the improvements.

Debt Service Funds

The Special Assessment Redemption Fund is used to account for principal and interest payments on the Underground Utility Bonds issued in 1989. Proceeds of these bonds were used to relocate utility lines underground in certain portions of the City. The bonds are being repaid with proceeds from special assessments levied on the property owners who benefited from the project.

PROPRIETARY FUND TYPES:

Enterprise Funds

The Water Fund is used to account for the operation of the City's water utility system. Revenues are generated from user fees, which are adjusted periodically to meet the costs of administration, operation, maintenance, and capital improvements to the system.

The Stormwater Fund is used to account for the maintenance of, and improvements to, the City's storm drains. Revenues are derived from a storm drain assessment to property owners, which is based on size and use of the parcel, and collected through the property tax roles.

The Wastewater Fund is used to account for the maintenance of, and improvements to, the City's sewer system. Revenues are derived from a user charge placed on the water bills.

The Refuse Fund is used to account for the provision of refuse collection and recycling services in the City. The City bills both residential and commercial properties.

The Parking Fund is used to account for the general operations and maintenance of City parking lots and spaces. The Parking Fund also accounts for the revenue generated by City parking lots and spaces. The Parking Fund contains reserves for the Business Improvement Districts (BIDs) to be used for their approved activities.

The County Parking Lots Fund is used to account for the operation and maintenance of parking lots that are owned by Los Angeles County and leased to the City. Proceeds from the meters and

parking permits are divided 55 percent to the County, with an annual guaranteed minimum of \$130,000, and 45 percent to the City.

The State Pier & Parking Lot Fund is used to account for the operation and maintenance of the Manhattan Beach Pier, comfort station, and four adjacent parking lots. These properties are owned by the State, but controlled by the City through an operating agreement.

Internal Service Funds

The Insurance Reserve Fund is used to account for the City's self-insured workers' compensation and general liability programs. The fund collects premiums from departments based on claims history.

The Information Systems Fund is used to account for the operation, maintenance and replacement of the City's Information Systems including the City-wide network and related hardware and software. Revenues are generated from charges to departments based on the number of devices in use.

The Fleet Management Fund is used to account for the operation, maintenance and replacement of City vehicles. Revenues are generated from vehicle rental charges to departments based upon the number, type, and age of vehicles operated.

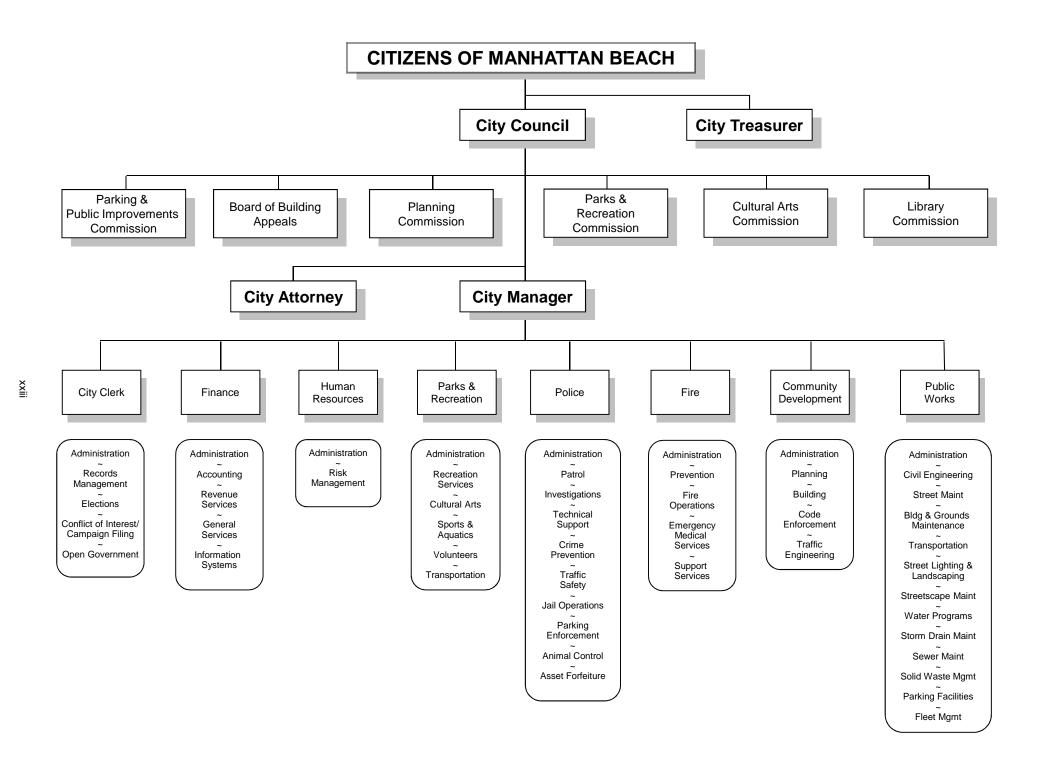

The Building Maintenance and Operation Fund is used to account for the operation and maintenance of certain City facilities. Revenues are generated by charges to user departments based on their number of employees and square feet of building they occupy.

FIDUCIARY FUND TYPES:

Trust & Agency Funds

The Pension Trust Fund is used to account for the supplemental retirement and single highest year programs previously provided by the City. Although the City has replaced these programs, this fund accounts for the former employees still receiving these benefits.

MANAGEMENT SERVICES: CITY COUNCIL

MISSION STATEMENT

The City of Manhattan Beach is dedicated to providing exemplary municipal services, preserving our small beach town character and enhancing the quality of life for our residents, businesses and visitors.

GOAL

To provide accessible, proactive leadership and governance for the community through the establishment of policies that will lead to the enhancement of the quality of life for Manhattan Beach residents

The City of Manhattan Beach is a general law City and operates under the Council-Manager form of government. The five-member City Council is elected at-large to serve four-year terms. The Mayor's office is rotated among all Councilmembers which provides approximately nine and one-half months of service as Mayor during each Councilmember's four-year term of office. As elected officials, the City Councilmembers represent the citizens of Manhattan Beach in the governing process and act on their behalf with regard to regional and local issues as well as State and Federal.

The City Council is the legislative authority and sets the policies under which the City operates. Responsibilities of the City Council include enacting legislation such as local laws and ordinances; approving City programs; adopting the City's capital improvement plan and operating budget; and appropriating the funds necessary to provide service to the City's residents, businesses, and visitors.

The City Council provides leadership through policy development regarding the current practices and future direction of the City. The City Council convenes regular meetings on the first and third Tuesday of each month and holds occasional special meetings. The City Council appoints the City Manager and City Attorney, as well as the members of the City's six advisory boards and commissions.

The City Council will be faced with numerous challenges and opportunities in the coming year. Some of these items include working with Los Angeles County to construct a new library, completion of numerous capital improvement projects, and providing continuing high level services to our residents.

Please visit the City's website at www.citymb.info for more information, or contact individual Council members.

MANAGEMENT SERVICES: CITY MANAGER

GOAL

To implement City Council policy directives, provide organizational leadership, coordinate with community organizations, and ensure the delivery of quality service to the residents of the City of Manhattan Beach

The City Manager is appointed by the City Council to carry out its policies and to ensure that the community is served in a responsive manner. The City Manager is responsible for the oversight of all City operations ranging from budget and purchasing to personnel matters and the delivery of public services. By providing leadership and direction to the City's management team, the City Manager works with all departments to develop policy recommendations and responds to City Council directives.

The City Manager's Office is involved in, and responsible for, projects, programs and services that the City Council has identified as top priorities for the community and the organization. Chief among the areas of priority and concern is providing vigilant oversight of the organization's budget. The City Manager's Office helps to ensure that funds are spent prudently while high-quality services are maintained for the community.

In addition to performing the day-to-day activities associated with management of the organization, the City Manager's Office facilitates citizen inquiries regarding public documents and City services, serves as a cable franchise liaison, implements special projects authorized by the City Council, and supports the City Council in the development and adoption of City policy.

MANAGEMENT SERVICES: CITY TREASURER

GOAL

To oversee the City's investment function and develop prudent investment and banking policies to assure that investment principal is protected, liquidity is maintained, and portfolio yields are safely maximized

INITIATIVES

- Protect the City's assets and invest funds safely
- Update the annual investment policy

The City Treasurer is elected at-large and serves a four-year term. Along with Finance staff, the Treasurer administrates all City funds and provides accountability to the citizens of Manhattan Beach.

The Treasurer's responsibilities include investment of idle funds; reporting such activities to the City Council; and serving as Chair of the Finance Subcommittee.

The Treasurer oversees the City's \$60 to \$70 million investment portfolio. The investment portfolio contains instruments such as Federal Agencies, high-grade corporate bonds and Treasury notes. The State's Local Agency

Investment Fund is also used to ensure proper cash flow and liquidity. While investment yields have dropped to some of the lowest levels in history, the City's investment strategy continues to place emphasis on safety and liquidity.

MANAGEMENT SERVICES: CITY CLERK

GOAL

To promote public trust in local government by recording and managing the City's official documents, maintaining an accurate record of the City Council proceedings, administering fair municipal elections as mandated by law, and providing timely information and the highest level of services in a professional, efficient and effective manner to support the community-at-large, City Council, and City departments

INITIATIVES

- Maintain complete and accurate City records
- Enhance access to the City Document Imaging System
- Respond to subpoenas and requests for public records in accordance with the federal and state laws
- Maintain the Municipal Code, Ordinances, and Resolutions in conjunction with the City Attorney's Office
- Prepare public meetings and hearings documentation in conformity with internal procedures and the Brown Act
- Enhance Open Government by implementing tools to improve public information and communication of government activities

the City officials and the public to ensure that open and effective government standards are in place to secure the public trust, and provide a system of transparency, public participation, collaboration and accountability. City Clerk serves as the ultimate resource for information for the public, the City Council, City staff and other governmental agencies, manages legal requirements for public notices and filing of referendums and initiatives, and keeps complete and accurate records of Council proceedings. The City Clerk's Office continues to work diligently with the City's Information Systems Division to provide broadcasting of City Council and Planning Commission meetings on Manhattan Beach Local Community Cable, Time Warner Channel 8, Verizon Channel 35 and City Website Live Streaming Video, ensuring public information and access to the local government process.

As a custodian of the City's official records, the office is devoted to maintaining all official City document archives and legislative history and ensuring the preservation, protection and integrity of the public records. The City Clerk's Office commits an ample amount of time coordinating the dissemination of information and managing public requests in a timely manner. The City Clerk is the City's Election Officer, and as such, conducts and certifies the City's municipal elections for six elected offices (5 City Council and 1 City Treasurer). In addition, the City Clerk's Office administers oaths and affirmations, files annual Statements of Economic Interest, and performs other duties as may be required by law.

The City Clerk's Office is actively working to improve public information and communication of government activities through open and transparent government through use of technology tools to streamline the agenda and minutes creation process, capture and display live City Council votes, and provide greater research and transparency tools to the public in the form of a one-stop shop legislative web portal that will allow for searching of legislative text, attachments, agendas, minutes, and votes. In Fiscal Year 2013-2014 a Management Analyst position was added to assist with records management, public information and requests, and special projects.

MANAGEMENT SERVICES: CITY ATTORNEY

GOAL

To provide high quality legal services to the City Council, City Manager, City department heads, City staff and commissions; represent the City before judicial and administrative proceedings; and manage outside counsel representing the City

INITIATIVES

- Continue to provide legal support to various City departments on the implementation of the new Manhattan Beach Library
- Provide annual AB 1234 training, Brown Act, Public Records Act and Conflict of Interest training to City Commissions and City Council*
- Continue to provide specific training to the Police Department in the area of Pitchess Motions and other substantive areas as needed*
- Implement a City-wide training program in various areas such as contracts, records retention, requests for
 proposals, Public Records Act, Brown Act, Conflicts of Interest and the California Environmental Quality Act*
- Continue to review the City's current contract forms and revise and update as necessary*
- Continue to review the City's current practices and policies in various areas citywide and provide recommendations to increase organization effectiveness, efficiency, legal compliance and streamline processes*
- Continue to provide support for the advancement of the Open Government Initiatives as adopted by the City Council*
- Provide updates to the City Council and City Staff on changes in the laws affecting the City
- Evaluate the need for a complete law library and reduce or eliminate subscriptions to reduce the budget for publication services.
- Manage outside litigation in a cost effective manner

The City Attorney's Office consists of a contracted City Attorney who provides legal services on a flat retainer basis and who is admitted to practice law by the California Bar Association and experienced in the practice of Municipal Law, and a legal secretary employed by the City. City Prosecution services is provided on an asneeded hourly basis by a part-time contract deputy prosecutor. The Office has a California law library and through the City Attorney's law firm, computer online services linked to state, federal and out-of-state legal databases.

The City Attorney's Office drafts ordinances, resolutions and agreements as well as provides general legal services and advice, oral and written, to all City departments on a daily and routine basis. Attorneys specializing in areas of real estate, finance, California Environmental Quality Act, public works, labor and other specialties are all available to the City Manager, City departments and the City Council at anytime. The City Attorney also oversees outside counsel.

The City Attorney serves as advisor by providing legal representation at City Council meetings, and on an asneeded basis to other boards, committees and commissions. The City Attorney also attends weekly City Manager Department Head meetings and other meetings as requested, and provides support to Risk Management in processing claims as well as other departments as needed for legal services. The City Attorney assists the City Clerk's office with the processing and management of Public Records Act requests and serves as media liaison on matters of litigation. The City Attorney maintains office hours at City Hall on a regular basis, and any other attorney in the City Attorney's law firm is available to the City Manager, City Council and City Staff via telephone or e-mail. Through the services of the City Prosecutor, the office prosecutes violations of the City Municipal Code in the form of criminal misdemeanors or through an administrative process.

*These initiatives furthers one of the goals adopted as part of the City's Strategic Plan

FINANCE: ADMINISTRATION

GOAL

To provide timely, accurate and relevant budgetary and financial information to City Council, the City Manager, residents and customers, establish strong internal controls in line with City policies, and assure compliance with established accounting standards

INITIATIVES

- Support the City Council, Treasurer and City Manager in the development of long-term sustainable financial plans, including capital financing
- Formally document all desk procedures and established internal controls
- Maintain high standards of excellence through the continuance of the City's AAA/Aaa bond rating, unqualified audit opinions, and various budgeting and financial reporting awards

The Administration Division of Finance is responsible for creating, monitoring and periodic reporting of the annual budget; investment of City funds in conjunction with the elected City Treasurer; debt issuance and management; and creation of the annual financial report in concert with the Accounting Division. Administration also oversees and supports the other divisions in the Finance department.

The Fiscal Year 2011-2012 financial audit, completed this past year, once again resulted in an unqualified opinion (the highest attainable) and a positive validation of our financial internal controls. The Finance Department is also pleased that the Fiscal Year 2012-2013 budget again won awards from the California Society of Municipal Finance Officers and the Government Finance Officers Association.

GOAL

To maintain and control the general ledger, accounts payable and payroll, and to ensure accountability and timely provision of accurate financial information

INITIATIVES

- Cross training of staff functions to ensure proper process knowledge redundancy
- Uphold high accounting standards to ensure continued clean audit opinions
- Implement new accounting standards as issued by the Governmental Accounting Standards Board
- Document desk procedures for audit compliance
- Increase payroll and accounts payable efficiency by minimizing the number of paper checks issued and
 reissues due to errors

The Accounting Division's primary responsibilities are the maintenance and control of the general ledger, accounts payable and payroll, and to ensure accountability as well as the timely provision of accurate financial information. The Division is the liaison between the City and the external auditors, and works closely with Finance Administration to prepare the City's Comprehensive Annual Financial Report (CAFR). The Accounting Division participates in budget development by providing historical and projected financial and payroll information, issues standard monthly revenue and expenditure reports for internal customers, and generates reports required by external customers, including other governmental agencies, rating agencies and the public. In addition, the Division manages the City's grants and related projects in conjunction with other departments.

All City disbursements are the end product of accounts payable and payroll operations and are reflected by the biweekly generation of vendor and employee checks. The accounts payable processes include: maintenance of vendor files; disposition of purchase orders and coordination with the Purchasing (General Services) Division; assisting departments with queries and payment setup; and issuance of 1099 tax forms at year end. With the purchasing card (Pcard) program a continued reduction in number of accounts payable checks is anticipated. Payroll processes include: monitoring of the Fair Labor Standards Act; Federal and State tax requirements; calculation of deductions and benefits; direct deposit of payroll; issuance of W-2 tax forms; and implementation of labor agreement provisions.

The Division's accounting function involves the maintenance of the City's general ledger, including the generation and posting of journal entries, preparation of monthly and annual reports, and reconciliation of bank accounts. Specific responsibilities include preparation of State Controller's Reports, Streets and Highways Report, Proposition A and Proposition C Reports, submission of direct assessments to the county, and bond/ debt service accounting. In addition, accounting for Underground Assessment Districts involves maintenance of individual property assessments and bond balances.

FINANCE: REVENUE SERVICES

GOAL

To provide superior customer service and process utility billing, business licensing, citations, filming permits, cash receipts, account receivable billings and collections in a professional, effective and timely manner

INITIATIVES

- Provide e-commerce services through the new Electronic Bill Presentment Payment program (EBPP) for paperless bill delivery to water and refuse utility customers.
- Maintain department efficiency through automation and technology.
- Perform a new triennial comprehensive user fee and cost allocation study.
- Reduce costs through new merchant credit and debit card processing services.
- Implement new agreement and set terms for the City's new ambulance billing service vendor.
- Maintain a high percentage rate on collection from utility billing.

The Revenue Services Division administers the billing, cash controls and collection of direct City revenues, including: business licenses, miscellaneous accounts receivable, central cashiering, animal licenses, parking citation payments, transient occupancy tax from hotels and vacation rentals, and residential/commercial water and refuse service billings. Revenue Services staff administers the taxi cab franchise program and motion picture film coordination within the City, and is responsible for the analysis and creation of the City-wide user fees and cost allocation plan which allows the City to recover costs for providing

certain discretionary services. Revenue Services also coordinates the lease of City commercial parking lot spaces to local merchants, manages the residential overnight parking program and override parking programs available in the downtown residential and Mira Costa High School areas, and oversees the administration of the City's new "smart" parking meters which accept credit cards. The Division also submits the annual possessory interest report to the Los Angeles County Assessor.

In January 2013 Revenue Services successfully launched the new Electronic Bill Presentment and Payment program (EBPP). This new feature provides customers with an easy and cost-effective way for viewing utility billing statements, changing to paperless statements, keeping track of water and refuse utility bills, and making one-time or automatic recurring payments online. The new automatic recurring payment option allows automatic-payment through checking, savings and debit/credit card accounts.

In Fiscal Year 2013-2014, Revenue Services will initiate a new comprehensive user fee and cost allocation study. The study is conducted every three years to ensure that the City is accurately identifying and recovering costs for providing services. The user fees are evaluated and adjusted based on the direct and indirect costs associated with providing services. Revenue Services will also be upgrading a part-time Account Services Representative position to a full-time Senior Account Services Representative position. Reporting directly to the Revenue Services Manager, the position will perform functional and technical support in leading the workflow and cross training in Revenue Services.

FINANCE: GENERAL SERVICES

GOAL

To purchase and manage the acquisition of the City's materials and contracted services, and provide costeffective agreements and contracts

INITIATIVES

- In line with the Information Systems Master plan, identify replacement options for an automated warehouse and auto parts inventory system as well as an automated fixed asset capitalization system
- Assist in the space planning and physical move of the Information Systems Division office

During Fiscal Year 2012-2013, General Services was tasked with procuring sixty-four replacement vehicles and equipment, and replaced forty-two. Of those vehicles, five are valued over \$100,000 including a combination sewer truck, sewer jetter truck, backhoe and two paratransit buses. Also during the fiscal year, General Services assisted several departments from specifications through closing paperwork on several grant funded purchases ensuing in \$10,000 from an AQMD (Air Quality Management District) local government match program for the purchase of a compressed natural gas van, and \$75,000 from the Department of Energy for energy efficient lighting for parking garages and downtown streetscape. Staff aided with several bids including an inmate phone system, the City employee Centennial float, Public Art consultant, Plan Check services, ambulance billing services and Traffic Engineering services. Due to staff's outreach efforts, there were six responses for every formal bid.

In Fiscal Year 2013-2014, General Services will focus on the acquisition of forty-four vehicle and equipment replacements. In addition, staff will continue with efforts on establishing and automating a calendar to better prioritize bids and requests for proposals on multi-year contracts for internal customers, as well as expanding the purchasing card (Pcard) program and replacing department credit cards with a Pcard for increased efficiency. Finally, staff will work on establishing a timeline and tasklist for a Finance Department workplan item, document management/imaging system.

GOAL

To promote integrated City-wide communications, provide innovative long term enterprise technology solutions, and support current and future technical needs through high quality, cost effective and timely information systems service, telecommunications and infrastructure; to coordinate and manage complete, timely and accurate geographic information system (GIS) data to support geographic data analysis in effective decision making within the organization.

INITIATIVES

- Implement the Information Systems Master Plan in alignment with City Council's Strategic Plan goals
- Plan for and promote e-Commerce, assuring it exists in a safe and stable environment
- Support the Open Government initiative by broadcasting City meetings on the City's website and local government cable channels, and implement further broadcast capabilities in other City locations
- Promote an e-Government plan, enhance the City's website, and use social media to further the goals of the City and the departments, where appropriate
- Provide City-wide information technology services in support of City departments' goals and initiatives
- Develop, maintain, and support the City's Geographic Information System (GIS) through continued update of GIS data and application enhancements

The Information Systems Division is committed to maintaining and improving operations, services and communications through technology, data and voice in support of the City's strategic and operational needs. As a central element of the organization, Information Systems provides support for the City's network environment, operating systems, office automation programs, telecommunication systems and audio-video services. Major activities include evaluation, configuration, and implementation of new technology; development of computer-related standards and policies; installation and maintenance of hardware, software, and network systems; management of voice and data Wide Area Network links; management and maintenance of City's cellular and telephone system serving all City office locations; coordination of technology and telecommunications equipment purchases and inventories; maintenance of the citywide Geographic Information System (GIS). Information Systems provides support of the City's cable broadcast of Time Warner Channel 8 and Verizon Channel 35. Information Systems is committed to improving the City's existing broadcast capabilities by extending the services to Public Safety Facility and Joslyn Center.

During the July 2012 Strategic Planning meeting, the City Council directed staff to develop a new Information Systems Master Plan, and suggested that staff consider utilizing an outside resource that would provide a broad and fresh perspective to augment that of City staff. Working with the vendor, Information Systems completed the Information Systems (IS) Master Plan which will guide the organization over the next five years in planning, procuring, implementing and managing current and future technology investments and resources. One of the recommendations in the IS Master Plan, is the consolidation of two part-time positions into one full-time position and the creation of one net new full-time position. Over the last several years, I.S. support and service scope increased (i.e. telecommunications, enterprise applications, broadcasting, etc.) without an addition in staff. As a result, the Division's budget includes an increase, accounting for the two additional full-time Information Systems Specialist positions (object 4101).

The City's website refresh will result in enhanced functionality, usability, and transparency by adding new features such as social media and citizen engagement. City Staff will continue efforts in building website content for improved serviceability and accessibility. Citizen Request System (CRM) has proven to streamline the service delivery to residents and staff providing an opportunity to initiate direct requests to Public Works and other City departments with 8280 external requests and 2162 internal requests for the last fiscal year. The City's e-Government plan remains centered on using the website to accelerate and streamline service delivery to citizens, reduce paperwork burdens, and apply best practices to improve government efficiency, effectiveness and accessibility to the public in a secure and stable environment.

Information Systems continues to ensure the integrity of the City's data and voice network by maintaining the City's infrastructure to accommodate technical advances and growth. The Division's budget includes expenditures to support the replacements of network servers, Cisco equipment, desktops, laptops and printers (objects 5210 and 6141).

HUMAN RESOURCES: ADMINISTRATION

GOAL

To provide professional assistance and guidance to departments in recruiting, developing, maintaining and managing a highly qualified workforce that provides quality customer service

INITIATIVES

- Continue to support the negotiation process with the newly formed Police Management Association (PMA)
- Evaluate human resources information systems to increase efficiency and enhance customer service
- Continue working with departments on implementing succession planning
- Complete the implementation of the Employee Recognition Program by working with the employee committee
- Continue to work with the Emergency Preparedness Team to facilitate employee notification in response to any disaster
- Ensure efficiency in the new hire process for minimal department interruptions

The Human Resources Administration Division provides support services to the City's full-time and part-time employees in areas such as recruitment and

selection, classification and compensation, employee and labor relations, training, interpretation of rules, regulations and policies, and employment/labor legal compliance.

In Fiscal Year 2012-2013 Human Resources staff actively participated and supported the negotiations process with the City's bargaining groups resulting in long-term contracts that addressed pension reform and health care costs. As part of the City Council's Strategic Plan, staff worked with a consultant on succession development planning which will continue into Fiscal Year 2013-2014.

Human Resources is committed to continually search for innovative state of the art means and methods to provide services to our client groups in the most effective and efficient manner. To accomplish this, staff will evaluate human resources information systems as well as seek out best practices from both the public and private sector organizations.

Additionally, thirty-eight percent of the City's first line supervisors through department heads are eligible to retire now or within the next five years. In order to plan for these vacancies, Human Resources staff will continue to work on identifying key personnel with the aptitude and ability to step into these positions, assist with identifying necessary training and skill development, and encourage knowledge sharing within and across the organization in order to help ensure a smooth transition.

HUMAN RESOURCES: RISK MANAGEMENT

GOAL

To protect the City's resources by minimizing risk, preserving assets and protecting against random/accidental losses, effectively manage claims, and administer the City's insurance, loss prevention/control and safety programs, while reinforcing the importance of safety awareness and training, and assisting in the mitigation of adverse environmental impacts

INITIATIVES

- Purchase cost effective insurance
- Revise Risk Management policies and procedures
- Implement a new Safety Incentive and Training Program
- Continue to partner with high-risk departments to monitor workers' compensation claims and discuss proactive ways to help prevent/reduce claims
- Provide supervisory training covering workers' compensation and implement the recently updated Injury Illness and Prevention Policy
- Implement and promote a new City-wide Wellness Program

• Review Risk Management software and technology resources to automate the processing of claims and insurance in order to address efficiency and effectiveness

The Risk Management Division oversees general liability, workers' compensation, property insurance, unemployment claims, employee health benefits programs, safety training/programs and other wellness initiatives/programs. Risk Management partners with the Independent Cities Risk Management Authority (ICRMA), an insurance pool, in order to pool resources to increase purchasing power for insurance. As a member of ICRMA, Risk Management is able to stay current on changes in safety trends and implement updates as needed resulting in a reduction of claims and loss exposure.

Stabilizing costs in the liability and workers' compensation budget is imperative. It is a business necessity for Risk Management to remain proactive and collectively seek remedies to improve cost-containing measures. Risk Management continues to seek out and identify these areas which can promote positive changes despite trending losses.

Risk Management is committed to finding new ways to keep employees healthy and safe. In Fiscal Year 2012-2013, Risk Management reviewed available Wellness Programs and options in partnership with the Vitality City initiative. In Fiscal Year 2013-2014, a Wellness Program will be implemented in all departments in order to provide a health and wellness program to keep City employees healthy and safe.

PARKS AND RECREATION: ADMINISTRATION

GOAL

To provide vision, direction, and support resources to Department staff and City Council, while responding to community needs by providing the most effective and efficient Parks and Recreation programs

INITIATIVES

- Assist with the planning and implementation of green initiatives
- Enhance and support all on-line reservations through the ActiveNet registration system
- Publish four activity guides and continue to develop an interactive digital City-wide activities guide that includes hyperlinks, web-clips and interactive pictures
- Assist City Council and the Los Angeles County library staff with the renovation of the new County library
- Maintain department revenues at 50% of department operating expenditures
- · Provide excellent customer service for all registrations and reservations
- Increase the number of online registrations for maximum staff efficiency and customer ease
- Launch a new department marketing campaign to increase program awareness

The Parks and Recreation Department provides a comprehensive level of leisure and community services that enhance the quality of life for the residents of Manhattan Beach. The Department strives to provide these programs in a professional and cost-efficient manner, while being responsive to changing community needs and priorities.

The Administration Division oversees all operating functions of the Department including administration of capital improvement projects; coordination of the Parks and Recreation Commission, Library Commission, Cultural Arts Commission, and ad-hoc committees; budget development; and coordination of City-wide community events.

The Fiscal Year 2013-2014 budget includes estimated General Fund revenue of \$2.7 million from class registration activities, facility reservations and recreation events, and debt service cost of \$0.5 million for the previous acquisition of the Marine Avenue sports field facility (Land Leases, 7100 object series).

PARKS AND RECREATION: RECREATION SERVICES

GOAL

To implement the Department's "Parks Make Life Better" promise, core values, vision and missions by providing a wide range of recreational opportunities through safe and clean parks, facilities, and programs that will have positive personal, social, environmental, and economic benefits to the community

INITIATIVES

- Increase to 25,000 Special event participants with 90% rating events favorably
- Implement online reservation for tennis operations
- Increase tennis reservation participation by 5%
- Assist in the development of recreation facility rental online marketing
- Achieve a 100% favorable rating for specialty classes, facility reservations, Teen Center and Playground programs
- Continue to expand environmental education plus health and wellness activities for all ages, in concert with the Vitality Cities project
- Implement park master projects approved for City parks
- Implement "Parks Make Life Better" branding campaign in all division activities

Recreation Services oversees a number of activities including: specialty classes; nature and outdoor recreation activities; facility reservations and operations; tennis operations; playground program; teen center; and bus trips for youth.

In response to the recreational trends, interests and needs of the community, Recreation Services continues to be proactive in providing new and exciting specialty classes including those focused on health, wellness and nutrition. The highlights for Fiscal Year 2013-2014 include marketing the community centers after the grand reopening of the Joslyn and Manhattan Heights Community Centers; implementing City parks master plan and online tennis reservations; achieving a 100% favorable rating in specialty classes by administering an aggressive facility cleaning plan, and implementing new recreation class activities which include youth specialty camps and classes and tennis activities; and targeting high-school-aged recreation opportunities. There are also plans to expand exciting youth health and wellness activity initiatives, which further strengthen the brand promise in the Afterschool & Teen Center program. Tennis reservation operations and facility reservations will be increased by aggressively marketing our services through electronic media.

The Recreation Services budget supports a variety of activities including Facility Reservations, Teen Drop in Center, Tennis Operations, After School Children's Enrichment Program at Live Oak Park and Marine Avenue Park. The Fiscal Year 2013-2014 budget includes funds for trips, special events, janitorial services, and class instructors (object 5101), and class supplies (object 5217). The budget reflects a slight increase in facility operations due to the employee picnic, and a higher level of facility cleaning for the newly renovated community centers.

PARKS AND RECREATION: CULTURAL ARTS

GOAL

To provide balanced programs that meet the creative, social and cultural needs of the community with a focus on recreation, entertainment and life-long education

INITIATIVES

- Complete the creation of the City's Centennial Art Project *Light Gate* in 2014
- Complete the selection and installation of the Sculpture Garden Program's fourth display
- Increase the number of bench donations and bench designs for the Strand Alcove Bench Program
- Increase sponsorship for the Concerts in the Park
- Organize and present six to eight art exhibitions in the Creative Arts Center gallery
- Maintain the high level of participation in Concerts in the Park and activities at the Creative Arts Center
- Maintain a high favorable rating from participants of cultural arts classes
- Increase the variety of activities of the Art Adventure Camp

The Cultural Arts Division provides the community with visual, literary, musical and performing arts programs, exhibitions, local artist programming, concerts and public art programs. In conjunction with the Cultural Arts Commission, it completed the third Sculpture Garden's temporary display at Metlox &13th Street, the Civic Plaza, and Veterans Memorial Parkway in September 2012. The Cultural Arts Commission is preparing for the fourth Sculpture Garden display. The Cultural Arts Division and Cultural Arts Commission also successful advertised a Request for Qualification for the Centennial Art Project. The City Council approved the Commission's recommendation of *Light Gate* as the City's Centennial Art Project.

The Cultural Arts Commission plans to increase the number of bench designs available for the Strand Alcove Bench Program by identifying new designs for consideration. Donors have the option of submitting a design of their choice to the Cultural Arts Commission for recommendation to City Council. The Donor Guideline brochure for the Strand Alcove Bench Program is available on the City's website, or by contacting the Cultural Arts division.

The Creative Arts Center hosts 10 exhibitions during the year. The City provides a venue for locally, nationally and internationally renowned artists as well as emerging artists, students from local schools and older adults in Manhattan Beach.

Last fiscal year, the Division reinvented the art camp by increasing offerings with extended hours and a variety of activities. By mid-March 2013, the Art Adventure Camp has attracted approximately 200 participants. Staff continues to strategize and develop art classes that reflect current trends and community interests. New offerings include off-site instruction, special interest classes, and seasonal student camps. The Cultural Arts Division strives to provide art educational experiences for every member of the community.

PARKS AND RECREATION: SPORTS & AQUATICS

GOAL

To provide a variety of programs that promotes physical and mental well-being of the community

INITIATIVES

- Establish a Jack Nicklaus Learning Golf League in the City of Manhattan Beach
- Implement an online reservation system for the community-based youth field use groups
- Establish a Manhattan Beach Volleyball Club, with the mission of providing a "whole sports" environment
- Maintain a highly favorable rating on swim programs
- Establish a winter and spring Recreational Youth Soccer League
- Attain 100% aquatics revenue as a percentage of expenditures
- Provide additional health and wellness classes and program options as part of the Blue Zones Partnership
- Partner with LA Extreme Baseball Academy to provide specialized baseball instruction
- Establish an annual field schedule and provide new programming for the New Marine Synthetic Turf Field
- Expand partnerships with local sports and fitness businesses

The Sports, Fitness and Aquatics Division provides a multitude of quality year-round programs encompassing sports and fitness classes, camps, leagues and tournaments, and a variety of beach and swim programs. These programs are offered to all age levels, and are taught by expert sports, fitness and aquatics professionals. Highlights of the Division include: being selected as one of five cities nationwide to roll out the Jack Nicklaus Learning Leagues; successfully organizing the Manhattan Beach Open and Charlie Saikley 6-Man Beach Volleyball Tournament; combining the surf and volleyball camps to increase registrations; providing the fourth annual Father's Day volleyball Tournament, Girls on the Run program and Kids Extreme Muddy Buddy Run.

The Division works closely with the following community organizations to provide youth sports leagues: Manhattan Little League, American Youth Soccer Organization (AYSO), Mira Costa Pony Baseball, Manhattan Beach Youth Basketball, and many club sports groups including flag football and lacrosse. This Division also coordinates several beach volleyball tournaments including: California Beach Volleyball Association tournaments (various levels), Father's Day Beach Volleyball Tournament, the Manhattan Beach Open and the International Surf Festival's Charlie Saikley Six-Person Beach Volleyball Tournament.

The Sports, Fitness and Aquatics Division works with the Los Angeles County Department of Beaches and Harbors to coordinate and permit all beach activities in Manhattan Beach. The Division also works with the Manhattan Beach Unified School District for joint use of facilities, including Begg Pool.

Each of the program areas of the Sports, Fitness and Aquatics Division is self-sustaining. The Fiscal Year 2013-2014 budget anticipates approximately \$1.4 million in revenue for the Division which includes sports leagues, sports and fitness classes, and aquatics. Also in the fiscal year, a full-time Recreation Supervisor position was added to maintain the high level of service and programs offered through this division. This position is responsible for overseeing sports and fitness contract classes, camps and special events.

PARKS AND RECREATION: VOLUNTEERS

GOAL

To provide a wide range of volunteer opportunities and training to individuals in the community for personal enrichment, while increasing the level of City services

INITIATIVES

- Increase volunteer opportunities for Older Adults for ongoing related programs
- Maintain the new volunteer ambassador position at the Joslyn Center
- Continue to coordinate with the Police Department to offer two annual Volunteer Recognition events (one youth and one adult) for all City volunteers
- Collaborate with schools and community groups to offer volunteer service opportunities that enhance parks and open space areas in the community
- Offer diverse volunteer opportunities and maintain high level of volunteer satisfaction
- Meet the volunteer needs of City departments, and expand the number of events and programs supported by volunteers

Grow the number of new volunteers and volunteer hours for increased savings

The objective of the City's centrally-coordinated volunteer program is to increase the level and quality of City services while promoting enrichment and minimizing expenditures. The Volunteer Program is designed to provide citizens with job skills, training, personal fulfillment, and opportunities to become more involved in municipal government. Volunteers offer support to various City departments as City Hall ambassadors, general clerical positions, Older Adult Program volunteers, special event positions, playground and pool assistants, sports league coaches, and various positions within the Police Department.

Last fiscal year, volunteers donated over 18,400 hours of service, resulting in a savings of approximately \$277,840 for the City. Two annual recognition events are held each year to celebrate the year's accomplishments—one for adult volunteers and the other for youth volunteers. The Fiscal Year 2013-2014 budget includes \$13,000 for these events, with the costs shared between the Police and Parks and Recreation departments. Volunteers continue to be critical to the success of the Older Adults Program activities, particularly Lunch Bunch, Dine 'N Discover, Older Adult Health Fair, Flu Shot Clinics, Older Adult sports activities, arts and culture programs, seminars, income tax assistance program, discussion groups, acting, play reading, poetry and writing groups, book club, Senior Advisory Committee and subcommittees, Brown Bag Food Program, Joslyn Ambassador program and other daily events.

Without the help of the City's volunteer workforce, many activities and special events would not take place.

PARKS AND RECREATION: OLDER ADULTS

GOAL

To provide diverse programs and services to meet the intellectual, leisure, health and creative needs of the older adult population of Manhattan Beach

INITIATIVES

- Continue to create programs to meet the needs of the older adult population
- Outreach to all older adults in the City of Manhattan Beach by conducting three to four outreach activities each month, and maintain at least four health & wellness programs a year
- Establish relationships and build a network of service providers to address the needs of older adult residents of Manhattan Beach
- Engage in a minimum of seven collaborative efforts with outside organizations in the areas of health and wellness
- Increase volunteer opportunities for older adults in the Older Adults program, including maintaining the new volunteer ambassador position at the Joslyn Center

The Older Adults Division provides a variety of quality programs in the areas of health and fitness, arts and crafts, table games, outdoor activities, drama, literature, movies, creative writing, educational programs, discussion groups, luncheons and dance. Currently, the staff dedicated to delivering older adult programs consists of a Recreation Services Manager, a full-time Older Adults Program Supervisor, a Recreation Specialist, and several Recreation Leaders.

The Fiscal Year 2013-2014 budget addresses a wide range of programs based on feedback from individual seniors and the Senior Advisory Committee to determine appropriate activities. There will continue to be monthly *"Dine 'N Discover"* programs, weekly *"Lunch Bunch"* programs, and specialized classes and workshops. *"Lunch Bunch"* attendance has doubled since last year and averages 50-60 attendees. The Division collaborates with the Alzheimer's Association, American Association of Retired People (AARP), Arthritis Foundation, Beach Cities Health District, Braille Institute, Center for Health Care Rights, L.A. County Department of Health, League of Women Voters, Manhattan Beach Unified School District, and the Rotary Club. The Older Adult Health Fair will be held in May in conjunction with South Bay Family Health Care, and will offer free and low cost medical screenings and information. The Flu Shot Clinic, free to Older Adults, will be offered in the fall. Last fiscal year a major additional collaborative effort was made with California State University Dominguez Hills, bringing the Osher Lifelong Learning Institute (OLLI) to Manhattan Beach. Two lecture series were hosted, one in the spring and one in the fall, averaging 80-90 participants each. The City expects this relationship to continue in the 2013-14 fiscal year.

PARKS AND RECREATION: TRANSPORTATION

GOAL

To help residents fifty-five and over and those with disabilities maintain their independence and improve their quality of life by providing safe, responsive and clean transportation

INITIATIVES

- Continue to offer Dial-A-Ride service seven days a week to destinations in Manhattan Beach, as well as five days a week to select medical facilities
- Collaborate with senior housing facilities to provide effective transportation options for their residents through the Dial-A-Ride program
- Provide driver and dispatch training to improve efficiency, safety and customer service
- Assist the Older Adults Program staff to plan and implement bimonthly local bus trips and offer a flexible schedule to include after-hours events like the Manhattan Beach Unified School District free events for Older Adults
- Furnish cab rides to Dial-A-Ride customers to medical facilities when Dial-A-Ride direct service is unavailable, and fund cab service for Dial-A-Ride customers to medical facilities out of the service area (within a 20 mile radius) with
- facilities out of the service area (within a 20 mile radius), with a maximum of 65 trips per year
- Offer the Older Adults Night on the Town Dinner Program every Wednesday evening
- Provide bimonthly Thursday evening service until 9pm
- Grow the number of excursions and patrons of DAR services
- Continue to obtain a high satisfaction rating of drivers

The Transportation Division is funded predominantly by Proposition "A" Local Return transportation funds. These monies, which are administered by the Los Angeles Metropolitan Transportation Authority (MTA), are generated by a one-half cent sales tax approved by the voters for use in transportation related services. These services include the Dial-A-Ride program, bus pass subsidies, recreational bus trips for all ages, and fixed route bus service provided by both Ocean Express Trolley and the Beach Cities Transit.

Dial-A-Ride service increases every year, with operations seven days a week. Dial-A-Ride transports customers to a variety of locations throughout the City including shopping centers, community centers, and medical facilities, as well as to designated medical facilities in neighboring communities. Fares are \$0.25 one-way within the City and \$0.50 one-way outside the City. The Fiscal Year 2013-2014 budget includes \$20,000 for the continuation of the Ocean Express Trolley and \$21,500 for the continuation of Beach Cities Transit Bus Service.

POLICE: ADMINISTRATION

GOAL

To provide leadership for the Police Department with a focus on development of personnel, collaboration with other City departments, partnerships with the community and external agencies, and responsiveness to all who need police services in the City

INITIATIVES

- Maintain compliance with Peace Officer Standards and Training (POST) and Standards and Training for Corrections (STC)
- Offer career development and policy and procedure training for sworn and civilian personnel
- Provide in-house training programs to maintain and enhance skills while minimizing operational disruptions and reducing expenses
- Provide leadership in the implementation of the 2013-2015 Police Department Strategic Plan and report progress to the community
- Continue to provide a high level of service to the community
- Manage the budget

The Administration & Investigations Bureau is responsible for the day-to-day management of law enforcement services to the City of Manhattan Beach. Functions include Department policy review and development, management of the Department's budget, implementation of the 2013-2015 Police Department Strategic Plan, payroll and accounting functions, and Department-specific State,

Federal, and private grant funding. The Administration Bureau is also responsible for conducting internal affairs investigations, responding to claims against the City, and responding to citizen complaints.

The Human Resources and Training Section for the Police Department is funded within this program. Functions include coordinating training for sworn and civilian personnel, managing testing, selection, background and hiring of all Department employees, and providing oversight of Department-issued equipment. This fiscal year, this section will produce a Master Training plan which outlines training expectations for positions/assignments within the Department.

The Department continues to maintain 100% compliance with Peace Officer Standards and Training (POST) and Standards and Training for Corrections (STC) requirements. This training is of direct importance to residents, as it ensures that officers and staff are prepared and trained to respond to community issues and problems. POST Training (object 5220) and STC Training (object 5219) are reimbursed in part by the State of California.

The Department has obtained POST certification for several in-house training programs which are mandated for all sworn officers to attend, including Drivers Training, Arrest and Control Tactics, and Tactical Firearms. These in-house training courses are delivered at a lower cost and can be tailored to meet Department-specific needs.

In Fiscal Year 2013-2014, funding includes maintenance and repairs of Department-wide equipment and technology, transcription services, range maintenance and lead decontamination services, annual gas mask fittings for field officers, Department policy manual revision and review, and livescan fingerprinting for Police and City applicants and the public (object 5101). It includes the funding for ammunition, less-than-lethal munitions, targets for quarterly range training, and firearm repair and replacement (object 5217).

POLICE: PATROL

GOAL

To provide fast and efficient response to community emergencies while addressing crime trends in a proactive manner, reducing crime and the fear of crime, and enhancing the quality of life for residents and visitors

INITIATIVES

- Provide the highest levels of service to the community while maintaining a friendly and professional demeanor
- Ensure rapid response times to calls for service, and improve service levels and response times whenever possible
- Identify crime trends and provide directed patrols
- Enhance visibility and communication within the community with footbeat patrols and town hall meetings

Patrol is comprised of three shifts of uniformed police officers that provide services 24 hours a day. Patrol officers are the first responders to emergencies, and their emergency response time averages approximately two minutes – when a resident or business calls dispatch with an emergency, the average time it takes an officer to arrive on scene is two minutes.

Patrol officers respond to immediate and routine service calls, crime-related incidents, and quality of life issues. They conduct preliminary investigations, collect evidence, and arrest offenders. Other responsibilities include recovering lost or stolen property, ensuring the safety and protection of persons and property through proactive and directed patrol, enforcing traffic laws, providing high visibility enforcement during events, rendering aid to the community as needed, and providing the highest level of quality service through problem solving and community-oriented policing. Officers strive to provide an excellent level of service and take pride in building partnerships with residents and businesses in the community.

Special programs currently operated under Patrol include K-9 Program, Special Weapons and Tactics (SWAT) Team, Crisis Negotiation Team, South Bay Platoon, Beach Patrol, Crime Scene Investigations (CSI), Field Training Officer Program, and Reserve Officer Program.

Beginning March 2013, Patrol officers transitioned from a 4/10 work schedule (4 days a week, 10 hours a day) to a 3/12 schedule (3 days a week, 12.5 hours a day, plus one 10-hour day every 4 weeks). Other agencies have implemented this alternative work schedule with success and the Manhattan Beach Police Department will conduct a one-year trial period. The Chief of Police will conduct monthly meetings with the Police Officers Association and quarterly review meetings throughout the duration of the trial period to evaluate the success of the program.

POLICE: INVESTIGATIONS

GOAL

To conduct thorough and comprehensive investigations leading to the arrest and successful prosecution of offenders while communicating with crime victims and addressing their concerns

INITIATIVES

- Aggressively pursue leads in an effort to solve crimes, and successfully arrest and prosecute criminals
- Respond proactively to issues and concerns that affect the community, including periodic interviews with local sex registrants, probationers, and parolees
- Coordinate patrol and detective response to crime trends
- Be responsive and compassionate with crime victims
- Promote and maintain a safe environment in and around the local schools

The Investigations Section provides services to the community which ensures professional and thorough investigation of reported criminal acts. Investigators follow-up on crime reports from Patrol, and conduct a variety of proactive investigations and enforcement efforts. Some of these investigations require detectives to conduct surveillance and undercover operations, work closely with other agencies, and serve search and arrest warrants.

The detectives investigate many different types of crimes: crimes against persons, property crimes, fraud/forgery cases, narcotic-related cases, and juvenile crimes. One officer is assigned as Court Liaison and is responsible for filing felony and misdemeanor court packages, issuing subpoenas, and assisting the detectives in investigating crimes.

Two officers serve as School Resource Officers (SRO) and work at the local schools. They work in collaboration with school officials to promote a safe environment in and around our local elementary, junior high, and high schools. The SROs strive to promote harmonious relationships by presenting themselves as positive role models, maintaining dialogue with students and staff, and participating in school and youth events. They also participate in after-school and summer programs.

Detectives attend intelligence-sharing meetings with local and regional police and government agencies. Meetings include robbery, sexual assault, property crime investigation meetings, regional Child Protection Task Force, and Joint Terrorism Task Force hosted by the F.B.I.

The Department contracts analysis of fingerprints collected at crime scenes, currently budgeted in object 5101 Contract Services (formerly budgeted in 5102 Contract Personnel).

POLICE: TECHNICAL SUPPORT

GOAL

To greet the public, maintain records, process evidence, enter data into local and regional computer databases, respond to subpoenas and requests for documents, prepare court packages and submit required reports and documents, and provide support to other Department Sections and outside agencies

INITIATIVES

- Efficiently enter and manage data for various Department needs using the Records Management System; assist officers in gathering data for field investigations
- Provide continued support for the jail and officers in conducting matron duties
- Conduct audits of property held as evidence and of stolen property and missing persons reports in conjunction with the Department of Justice
- Timely prepare monthly crime reports and respond to records requests
- Continually review, update, and revise Department forms to ensure completeness, currency, and viability

The Technical Support Services Section processes and maintains all reports produced by police personnel, including crime, arrest, and traffic reports. Working 24 hours a day, staff-members greet visitors at the main lobby of the public safety facility, answer phones, process evidence, and enter stolen

property, vehicles, missing persons, and warrants into local and regional databases. They frequently provide statistical data and assist officers in locating information pertinent to their investigations, including running criminal background checks of suspects and arrested persons, and preparing documents which aid in prosecution of criminals. The Section also prepares local crime statistics for State and Federal agencies, assembles report packages for filing cases with the District Attorney's office, transfers information and bail money to court, and processes all citations and warrants that are issued.

Technology is utilized to enhance the tracking of stored evidence and property, resulting in a more efficient and secure property and evidence retention process. Audits are performed regularly to ensure that property held as evidence is accurately labeled and stored.

Dispatch and communications operations are contracted through the South Bay Regional Public Communications Authority (SBRPCA), which provides emergency dispatch and communication functions for both Police and Fire services (object 5106).

The Fiscal Year 2013-2014 budget includes funding for an Administrative Clerk position to assist the Records Manager with processing of an increasing number of Public Records Requests, Court Discovery requests, and Subpoenas. The budget also includes funding for one full-time Information Systems Specialist to ensure continuity and consistency in police technology and operations. The Police Department has become increasingly reliant on technology in day-to-day operations, and a part-time Information Systems Specialist is no longer sufficient to meet Department needs. This position is in line with the recommendations in the Information System Master Plan. The cost of the full-time position is offset by a reduction to the part-time budget.

POLICE: CRIME PREVENTION

GOAL

To educate residents and businesses about crime prevention techniques to help them protect themselves and their property, provide assistance to crime victims, reduce the number of false alarm calls, and maintain a positive and progressive work place for our volunteers who contribute thousands of hours of work for the welfare and safety of the entire community

INITIATIVES

- Present crime prevention and safety presentations to residents, businesses, and community groups
- Produce and distribute press releases, and maintain contact with local media
- Coordinate Department and community-based events and volunteer programs
- Support Neighborhood Watch activities
- Provide assistance and referrals to crime victims
- Reduce the incidence of false alarm activations through the management of the false alarm program and issuance of alarm permits

The Crime Prevention Section strengthens relations

between the Police Department and the public, disseminates

press releases, interfaces with the media, provides a variety of crime prevention and safety programs, manages the false alarm program, and coordinates volunteer activities.

The Neighborhood Watch Program, Victim Assistance Team (VAT), and Volunteers in Policing (VIP) are three invaluable volunteer programs coordinated out of the Crime Prevention Section. Combined, these volunteers provide over 14,000 hours of volunteer service to our community each year.

Neighborhood Watch, together with the Crime Prevention Section and Manhattan Beach Fire Department, offers disaster response training for neighborhoods known as Map Your Neighborhood (MYN). This specialized training helps prepare residents to care for themselves and their neighborhoods in the event of a disaster. The active participation of nearly 500 block captains in the Neighborhood Watch Program, coupled with new and innovative programs like the Map Your Neighborhood program, helps to maintain strong neighborhoods and improve quality of life in the community.

False burglary and robbery alarms are a daily occurrence, and Manhattan Beach police officers respond to over one thousand false alarm calls each year. Managed out of the Crime Prevention Section since 2004, the False Alarm Reduction Program proactively addresses the problem by educating alarm owners on the impact that false alarms have on public safety and implementing a fee schedule for repeated false alarms. Since the inception of this program, false alarm occurrences have decreased by more than 50%.

The Fiscal Year 2013-2014 budget also includes funding for the annual Volunteer Appreciation Dinner, Youth Volunteer Appreciation Event, Police Department Open House, Police Memorial Ceremony, Community Police Academy, and National Night Out. It also includes Child Safety information and pamphlets, Child Fingerprinting Kits, and handouts/supplies for community presentations, station tours, Victim Assistance, Neighborhood Watch, Business Watch, and other community events (Object 5217).

POLICE: TRAFFIC SAFETY

GOAL

To enforce traffic laws and work with the public and City Traffic Engineer to promote safe and efficient traffic flow throughout the City

INITIATIVES

- Promote traffic safety through enforcement and education
- Identify issues and communicate with the public regarding traffic concerns
- Investigate traffic collisions, and efficiently clear hit and run cases
- Utilize traffic calming measures and proactive enforcement to reduce the number of traffic collisions
- Work with other City departments to ensure effective traffic management and pedestrian movement
- Manage special events deployment and operational plans
- Increase officer availability and efficiency with the deployment of speed radar trailers and pole-mounted speed radars

The Traffic Section is responsible for the enforcement of State and local traffic laws, the investigation of traffic collisions, and traffic control management within the City of Manhattan Beach. It also performs directed traffic enforcement in identified areas of concern.

Since traffic is one of the community's greatest concerns, officers spend a significant amount of time addressing the issues brought to their attention. Using directed enforcement details, DUI checkpoints, commercial enforcement, and traffic data surveys, officers can address these issues identified as potential problems that could negatively impact the community.

Manhattan Beach is host to many special events, including Six Man Volleyball Tournament, Manhattan Beach Open, Holiday Fireworks and Pier Lighting, Hometown Fair, Pumpkin Race, and many more. Special events deployment is overseen by the Traffic Sergeant and special event operational plans are reviewed annually to ensure the safety of residents and visitors.

The Traffic Section maintains communication with the community through the Area Traffic Officer Program and attendance at community meetings. The Area Traffic Officer Program divides the City into four beats, assigning a traffic officer to each beat. Citizens and local businesses are provided with the officer's name and contact number for their area. This gives citizens direct contact with a traffic officer who will address their concerns.

In partnership with the City Traffic Engineer and other City staff, the Traffic Section analyzes traffic patterns within the City and works to minimize traffic problems. This includes exploring traffic calming measures and working to reduce traffic collisions by ensuring the safe movement of vehicles and pedestrians throughout the City. The use of speed trailers, message boards, and patrols provide motorists with added awareness of traffic laws. When deployed in areas identified as having frequent traffic violations or collisions, these traffic calming measures can help to change motorist behavior and encourage safe driving habits. In Fiscal Year 2013-2014, the Department is seeking alternative funding to purchase two additional pole-mounted speed radars to add to the Department's education toolbox.

The Traffic Section participates in the South Bay Regional DUI Task Force, a group of officers representing agencies across the South Bay who participate in monthly deployments, DUI checkpoints, and DUI-related warrant sweeps. The Task Force is funded by a State grant from the Office of Traffic Safety (OTS).

The Traffic Section budget includes funding for crossing guard services at 21 locations throughout the City to ensure the safe passage of children to and from school (object 5101).

POLICE: PARKING ENFORCEMENT

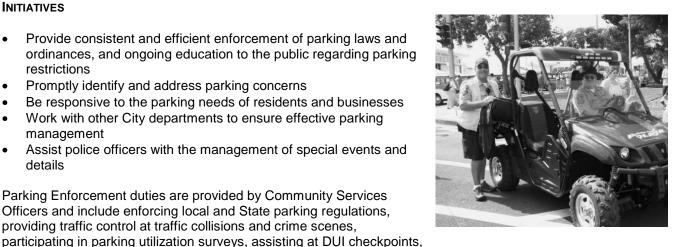

GOAL

To manage the parking needs of our community through enforcement and education

INITIATIVES

- Provide consistent and efficient enforcement of parking laws and ordinances, and ongoing education to the public regarding parking restrictions
- Promptly identify and address parking concerns
- Be responsive to the parking needs of residents and businesses
- Work with other City departments to ensure effective parking management
- Assist police officers with the management of special events and details

Parking Enforcement duties are provided by Community Services Officers and include enforcing local and State parking regulations, providing traffic control at traffic collisions and crime scenes,

and enforcing municipal code violations (e.g. illegal dumping of debris into the storm drain system, construction site violations, leaf-blower violations, Strand/bike path violations, etc.).

Community Services Officers respond to parking complaints and calls for service, and are proactive in the implementation of new programs which address community parking concerns, including providing special parking enforcement patrols when needs are identified. During special events and summer weekends, Community Services Officers help with traffic and parking management by overseeing street closures, directing pedestrians at intersections, and educating event participants of local parking laws.

Officers also work in partnership with other City departments to ensure efficient parking management. This includes meeting regularly with the Community Development Department, general contractors, and subcontractors to address construction parking issues. They conduct joint code enforcement inspections, provide input to special event planners for parking management, and assist in enforcement of environmental laws.

The Fiscal Year 2013-2014 budget includes funding for an Administrative Clerk position to staff the Parking and Animal Control desk and assist the Parking and Animal Control Sergeant with administrative tasks, and provide consistency and a high level of customer service. The budget includes funding for one additional Community Services Officer position. Over time, Community Services Officers have been tasked with more duties to assist officers and fire personnel to increase their availability for calls for service. They are also tasked with education and enforcement of many municipal code violations, including leaf blowers, oversized vehicles, Strand/bike path enforcement, sidewalk parking, etc. The additional CSO position will increase the Police Department's availability to answer calls for service from the community.

POLICE: ANIMAL CONTROL

GOAL

To provide quality animal control services to our residents while educating the community about laws, regulations and animal diseases

INITIATIVES

- · Identify issues and communicate with the public regarding animal concerns
- Provide pet education, conduct directed enforcement, and dog bite investigations
- Facilitate the safe return of pets to their owners
- · Work with other City departments to ensure successful animal management
- Continually offer animal control training classes for officers

Animal Control Officers are responsible for handling animal welfare incidents,

facilitating veterinary care for injured animals, and providing for the safe return of lost animals to their owners. All lost and stray domesticated animals taken into custody are checked for identifying implanted chips; every effort is made to return animals to their owners. Animal Control Officers also educate pet owners about the enforcement of municipal code ordinances related to dogs-at-large, animal bites, dog licensing, barking dogs, and leash laws.

Animal sheltering and disposition are provided by the Society for the Prevention of Cruelty to Animals Los Angeles (SPCA-LA), an independent, nonprofit animal welfare organization with a primary shelter location in Hawthorne, California (budgeted in object 5101). Animals whose owners cannot be located are taken to the SPCA-LA, which shelters the stray animals and makes every effort to find adoptive families. Deceased animals found on roadways or along the beach, or deceased pets of residents, are brought to SPCA-LA for disposition.

Animal Control Officers attend training classes which keep them well-informed about current animal control laws and regulations, techniques on how to pick up loose animals and control an aggressive animal, the proper transportation methods for injured animals, the care and feeding of the animals in their care, and the maintenance of a clean and healthy kennel. Manhattan Beach Animal Control Officers also coordinate with other state, municipal, and private animal welfare agencies to remain current on new laws, regulations, and animal health issues. This year's proposed budget includes additional funding for training, allowing each officer to attend a onetime basic animal control academy and an annual safe animal handling update course offered by the SPCA-LA.

Self-initiated contacts with the public are a common practice throughout a shift. This interaction with residents and visitors helps with the education of local animal control regulations. Officers also conduct frequent checks at our Dog Parks, present educational seminars, assist the Finance Department with maintaining current dog licensing information, and participate in community special events to promote awareness of animal safety.

POLICE: JAIL OPERATIONS

GOAL

To provide a safe and secure environment for inmates and staff while assuring the rights of inmates afforded by statue and policy

INITIATIVES

- Comply with all State and County jail regulations
- Conduct DNA collection from eligible arrestees
- Provide on-going professional training to all jail staff

The Manhattan Beach Police Department jail is a short-term, Type 1 facility mainly used for housing arrestees awaiting arraignment in court, after which, arrestees are either transferred to County jail or released on bail, bond, or their own recognizance.

Jailers are on duty 24 hours a day and are assigned duties to provide for the booking, housing, and welfare of inmates. In cases where prisoners have not posted bail or bond, jailers transport prisoners to court for arraignment

proceedings. Jailers obtain DNA samples from eligible arrestees where required by State Proposition 69. Samples are sent to the State of California DNA bank to help identify felony suspects and solve serious crimes. In addition, staff conducts regular safety inspections of the jail to ensure equipment and maintenance issues are up to date and meet safety regulations.

Each year, various agencies such as the Custody Standards Administration, the Los Angeles County Grand Jury, and the County Board of Health conduct jail inspections in line with Title 15 jail standards. Jail management's goal is to provide adequate care and custody of inmates in the jail facility and provide staff with the necessary training and resources to safely carry out those duties.

Funding for this program includes inmate meals, uniforms and bedding; repairs/maintenance of jail security systems, security doors, food service, etc. (object 5217); blood-alcohol lab analysis; inmate pre-booking medical screenings and emergency medical care; and Los Angeles County booking fees (object 5101).

POLICE: ASSET FORFEITURE / GRANTS

GOAL

Deter drug-related crimes by depriving criminals of the profits and proceeds acquired through illegal drug transactions

INITIATIVES

 Fund new equipment and resources to enhance front-line law enforcement, as afforded by State and Federal Asset Forfeiture laws

The Asset Forfeiture fund has been established in accordance with Federal and State requirements to account for revenues derived from monies and property seized in drug-related incidents. The primary purpose of narcotics asset forfeiture is to deter drug-related crimes by depriving criminals of the profits and proceeds acquired through illegal drug transactions. The forfeiture laws are intended to be harsh on those individuals distributing drugs and are designed to enhance the enforcement revenues provided to Federal, State, and municipal agencies.

Proceeds from asset forfeitures are designed to provide law enforcement with equipment and resources to supplement but not supplant the Department's normal operating budget. Asset Forfeiture funds can be used in support of front-line law enforcement purposes, as approved by the Chief of Police.

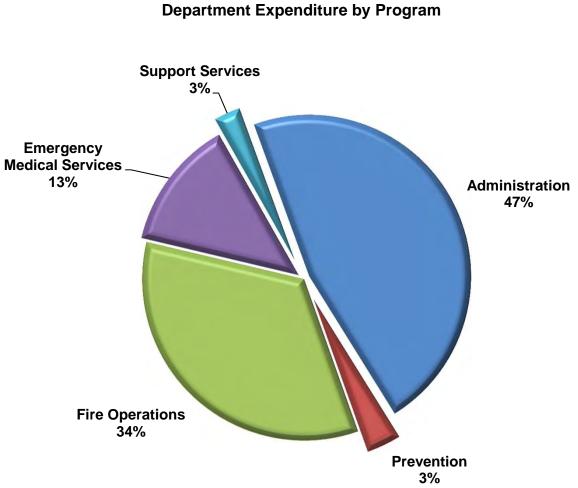

The Police Department also receives monies through the California Supplemental Law Enforcement Services (SLES) Fund. These funds are designed to supplement but not supplant the Police Department operating budget. In Fiscal Year 2012-2013, funds were expended on communications equipment for patrol vehicles and field officers, law enforcement software, and front-line law enforcement equipment.

FIRE: ADMINISTRATION

GOAL

To apply strategic planning developed by Department leadership to improve internal and external relationships within the area, City, and Department

INITIATIVES

- Utilize modern techniques and best practices to create a supportive and cooperative work environment
- Enhance partnerships with Area G Fire Departments (5 South Bay cities and Los Angeles County) to improve service delivery
- Provide support and training to volunteers to improve experience and productivity
- Implement new annual employee performance report
- Recommend changes to fire services fee process
- Implement a National Fire Protection Association (NFPA) compliant program for care and maintenance of personal protective equipment

The mission of the Manhattan Beach Fire Department is to preserve life, property, and the environment through decisive action, strong leadership, teamwork, and dedicated community partnerships. The vision for the Department is "*Manhattan Beach Firefighters shall be innovative leaders, engaged members in the community, and accountable and decisive in their actions.*"

The Fire Chief manages the Administrative Bureau, which is responsible for balancing the City's needs with achieving the goals of Fire Operations, Emergency Medical Responses, Fire Prevention, and Emergency Preparedness. Responsibilities include procurement, budgetary control, information management, strategic planning, supporting volunteer programs, and management of local and area emergencies.

The Manhattan Beach Fire Department is the City's lead department in emergency response training, including the Federal-mandated National Incident Management System (NIMS) and Standardized Emergency Management System (SEMS). The Department maintains and updates the City's Hazard Mitigation Plan and Emergency Operating Center procedures.

The Fire Department provides local, area, and state level leadership through participation in various organizations and committees, including the California Fire Chiefs, Los Angeles Area Fire Chiefs, South Bay Fire Chiefs, League of California Cities, Los Angeles Area, Fire Marshals, Southern Division of the Fire Prevention Officers, Los Angeles Area G Operations and Training Committees, Area G and Los Angeles County Emergency Managers group, and many more.

The Administration Bureau establishes annual priorities with the Office of the City Manager to maximize operational efficiencies and service expectations, and with the Finance Department to minimize the financial impact to the community.

FIRE: PREVENTION

GOAL

To prevent fires and reduce fire loss by adopting and enforcing the California Fire Code with local amendments, and providing inspections, plan checks, permits, fire safety standby, public education, and other prevention services as needed

INITIATIVES

- Coordinate the residential and business inspection programs
- Manage the fire/life safety efforts at the motion picture studios
- Ensure rapid turnaround of on-site plan checks and tenant improvement inspections
- Ensure five-year certification tests are performed at all businesses, schools, daycare facilities and large apartment complexes that have sprinkler systems
- Conduct emergency evacuation training and fire drills at businesses, schools, day-cares, and large apartment complexes

The most effective way to protect people and property from the hazards of fires is to prevent fires from occurring. Through

comprehensive inspection and education programs, the Fire Prevention Division reduces the number of fires and fire loss in the community. Fire Department staff conducts annual fire/life safety inspections at businesses, schools, day cares, and large apartment complexes to ensure compliance with the California Fire Code and adopted local amendments. Staff conducts inspections of single-family residences as requested by the homeowner. The Fire Prevention division continues to streamline, organize, and enforce existing fire code regulations designed to protect the community from life threatening emergencies.

The motion picture industry operates fourteen sound stages, a mill and other supporting infrastructure in the City of Manhattan Beach. Motion picture and television productions have a constant impact on the Fire Prevention Division due to tenant turnover and the unique character of the film business. These studios provide funding for one-half of the Fire Inspector's time, as well as reimburse fire standby time. The Fire Prevention Division also provides construction plan check services for fire and life safety issues, and is responsible for the inspection of all existing and new commercial and residential construction in the City. Fire Safety Officers ensure compliance with fire code and life/safety requirements for special events such as the Hometown Fair, Manhattan Beach Open Volleyball Tournament, and Holiday Fireworks Festival.

FIRE: FIRE OPERATIONS (FORMERLY SUPPRESSION)

GOAL

To provide "All Risk" emergency response for the protection of life, the environment, and property while ensuring excellence in customer service and firefighter safety

INITIATIVES

- · Respond to all emergencies promptly and effectively
- Maintain training and certification of fire suppression
 personnel
- Expand and improve automatic/mutual aid agreements with adjacent cities - "Neighbor Helping Neighbor" and "No One Stands Alone" concepts
- Prepare for the possibility of a terrorist attack or natural disaster in the community or region
- Ensure the reliability and maintenance of all engines and equipment

The Fire Operations Division (formerly Suppression) has the primary responsibility of emergency response to fires, medical aids, all types of accidents, physical entrapments, hazardous conditions, hazardous materials incidents,

service calls, and requests for mutual aid assistance. These services are provided by three separate shifts with a constant staffing of nine personnel on each shift: one Battalion Chief, two Captain/Paramedics, two Engineer/Paramedics, and four Firefighter/Paramedics. This year, six firefighter/paramedics will be allocated from Emergency Medical Services to Fire Operations to more accurately reflect the staffing of the fire engines.

The dual-role of the firefighter/paramedics allows the department to staff one Battalion Chief Command unit, two Paramedic fire engines, and one Paramedic rescue/ambulance 24 hours a day, every day. The crews operate from two fire stations: Fire Station 1 is located at the Police/Fire Safety Facility, adjacent to City Hall, at 400 15th Street, and Fire Station 2 is on the east side of Sepulveda, at 1400 Manhattan Beach Boulevard. Fire Operations is currently involved in the following programs to improve services and cost effectiveness: training and personnel development, automatic and mutual aid with surrounding agencies, upgrading the emergency communications system, and implementing a GIS-based map system. This Division also develops emergency response plans for building collapse, major oil spills, carbon monoxide emissions, flooding, terrorist events, and national disasters.

Firefighters and Chief Officers continue to respond to major wild land fires throughout Southern California as participants in the State Master Mutual Aid Agreement. The majority of these response costs are reimbursed from State and Federal disaster funds.

FIRE: EMERGENCY MEDICAL SERVICES (FORMERLY PARAMEDICS)

GOAL

To provide Advanced Life Support (ALS) Emergency Medical Service (EMS) response and transportation while ensuring excellence in customer service and firefighter safety

INITIATIVES

- Ensure state-of-the-art technology for all EMS equipment
- Deliver Fire Department-based ALS and BLS ambulance transportation
- Comply with or exceed State, County and Federal mandates, including quality improvement and continuing education requirements for paramedics, and participate in local emergency medical services governance
- Provide cardiopulmonary resuscitation (CPR) and automated external defibrillator (AED) training to the community
- Maintain City-based AED's and encourage community AED programs
- Expand automatic and mutual aid paramedic response within the operational area

The Emergency Medical Services Division provides Advanced Life Support (ALS) and Basic Life Support (BLS) emergency services to all residents and visitors. All personnel up to and including the rank of Fire Captain are certified Paramedics. Nearly 65 percent of the Department's responses are requests for emergency medical assistance. Total response times for the Paramedic units average less than 5 minutes.

ALS is emergency medical care that requires paramedic level treatment: intravenous fluids, medications, heart monitoring, defibrillation, and other advanced medical treatment. In conjunction with the Reserve Firefighter program, the Division is able to provide ALS and BLS transportation with Fire Department personnel in Fire Department ambulances. ALS services are provided by a one, two-person Paramedic ambulance and two, three-person paramedic engine companies. The Fire Department's annual budget includes funds for medical supplies and medications.

Once again, for Fiscal Year 2012-2013 an annual audit by the Los Angeles County Department of Health Services Emergency Medical Service Authority (EMSA) has shown that the Department is in continual compliance with State and County requirements. The Division continues to contract with the University of California Los Angeles (UCLA) for continuing education and quality improvement oversight provided by a Nurse Educator, who is partially funded by Beach Cities Health District (BCHD). BCHD also helps defray the costs of medical supplies through an ongoing grant program that aids local fire department paramedic programs serving the beach cities.

For Fiscal Year 2013-2014, six firefighter/paramedics will be allocated from Emergency Medical Services to Fire Operations to more accurately reflect the staffing of the fire engines.

FIRE: SUPPORT SERVICES (FORMERLY EMERGENCY PREPAREDNESS)

GOAL

To prepare City employees and the community for response to disasters, terrorism, self-help rescue, life safety, hazard abatement, and recovery operations

INITIATIVES

- Conduct two Community Emergency Response Team Academies for residents each year
- Conduct training and emergency exercises for City staff using the National Interagency Incident Management System courses and Emergency Operations Center instruction
- Educate the public in emergency preparedness and terrorism issues through town hall and community-based presentations
- Increase operational deployment opportunities of Reserve Firefighters on BLS ambulances and suppression units
- Enhance local resource deployment and response using latest technologies

The Support Services Division (formerly Emergency Preparedness) has been reorganized to encompass Emergency Preparedness, the Community Emergency Response Team (CERT), Reserve Firefighters, Communications, and Public Education.

Throughout the fiscal year, opportunities to involve citizens in Emergency Preparedness through CERT will be further developed, along with other volunteer opportunities to assist the Department and community. This Division will also be conducting town hall meetings and partnering with Map Your Neighborhood groups on earthquake, emergency and Tsunami preparedness in order to enhance the community's ability to respond to, and recover from, disasters. National Interagency Incident Management System (NIIMS) will continue to be provided to all City employees to properly respond to the needs of the community in the event of a major emergency.

CERT Academy classes and field disaster exercises are conducted throughout the year to enhance the community's preparedness and ability to respond during an emergency. The CERT Board of Directors coordinates the organization of the team throughout the community and updates all information on CERT members in case of a need to respond. CERT personnel are trained to assist City staff with the Emergency Operations Center (EOC) in the Police/Fire facility, and during other local emergencies as needed. CERT continues to participate in manipulative, classroom and online training to ensure operational readiness. Funding for CERT and emergency preparedness has been enhanced in Fiscal Year 2013-2014 for increased training, equipment and supplies, and workstations for the EOC.

The Reserve Firefighter program provides part-time staffing to supplement the Fire Department's full-time emergency forces. This program consists of an authorized strength of 31 personnel that work a minimum of 72 hours per month and staff the Basic Life Support (BLS) transport ambulance. Occasionally the reserve firefighters also provide additional fire engine and paramedic rescue staffing when three reserves are scheduled on the same day. This fiscal year the Telestaff software program will be utilized, improving the process for departmental staffing and reducing the number of hours currently required for staffing.

The Communications Division was developed to better organize and track the planning, funding and deployment of our communications resources within the Logistics Division of the Fire Department. Emergency 911 dispatching is provided by a Joint Powers Authority (JPA) owned by the cities of Manhattan Beach, Gardena and Hawthorne. Communications is responsible for all hardware, software and fire station alerting related to emergency response. This consists of radios and mobile data computers (MDC's) installed in the fire stations and vehicles. In addition to the day-to-day needs, this program must also monitor and react to regional, state and federal mandates/agreements for interoperable communications between fire/EMS and law enforcement agencies. This may include grant application and management of the grant awards.

Public Education is responsible for developing fire and first-aid training programs and curriculum for residents, businesses, and schools. Educational media include video public service announcements, software presentations, website updates, and printed media information.

COMMUNITY DEVELOPMENT: ADMINISTRATION

GOAL

To provide effective and efficient management of the Community Development Department in order to achieve individual program goals

INITIATIVES

- Ensure that development review, plan checking and inspection services are met in a timely manner
- Enhance user-friendly computerized databases (planning and zoning, traffic, building and code enforcement information) for the public and City staff
- Initiate and complete approved Strategic Plan items
- Implement projects identified in the General Plan as directed by City Council
- Provide 4-6 week initial plan check turnaround
- Educate the public on matters of construction
- Ensure staff is continually educated and trained on pertinent rules and regulations

Administration oversees Community Development Department functions to ensure private development is reviewed expeditiously, and in conformance with the Municipal Code and the goals of the General Plan. Responsibilities include payroll, invoice payments, statistic tracking for various reports, and account monitoring to ensure expenditures stay within budget.

The Department processed over 1,200 building permits this past year with a permit valuation of over \$86 million. Development activity in Manhattan Beach has recovered and continues to increase over the past two years. New residential construction activity has increased along with remodeling and nonresidential development. The demand for departmental services has been steady with over 65 customers visiting the counter each day.

Staff serves the public at the counter to assist with a large variety of tasks and inquiries, such as traffic analysis, parking concerns, permitting, zoning, plan review, inspections, signs, right of way (sidewalk, curbs, gutters, driveway approaches), walk street and parkway encroachments, code enforcement requests and follow-up.

The budget for Fiscal Year 2013-2014 includes estimated General Fund revenues of \$2.9 million from building, planning and permit fees. These revenues, which are contingent upon economic conditions, amount to 77% of the Department's General Fund expenditures for the budget year.

COMMUNITY DEVELOPMENT: PLANNING

GOAL

To provide quality customer service to the community in order to maintain, enhance and guide its physical development in conformance with adopted policies and goals

INITIATIVES

- Pursue programs, code amendments and studies as directed by the City Council through the Strategic Plan
- Meet the demand for planning reviews in a timely manner
- Continue to provide a forum for public review and comments on planning projects through Planning Commission meetings
- Maintain up-to-date zoning and land use maps

The Planning Division studies and provides Municipal Code and Local Coastal Program Amendments for Planning Commission, Parking and Public Improvements Commission and City Council review and approval as identified in the Strategic Plan. Residential mansionization revisions for minor exceptions, setbacks, open space, and maximum lot size are being evaluated. Amendments related to alley access and electric vehicle charging systems for residential lots are in process. Revised Encroachment Permit standards for walkstreets, landscaping, and other regulations for private improvements in the public right-of-way continue to be studied. The new 2014-2022 General Plan Housing Element is being updated in conformance with State law, followed by related Code Amendments. After City Council approval, all of the Amendments will require approval of the California Coastal Commission. Planning continues to support the residents' Historic Preservation group by providing information on zoning, legal, financial, and preservation issues.

Planning staff is working with the City's legal representation on Municipal Code revisions related to Telecommunication Facilities, and assisting Building and Safety with code revisions related to the final "Green" recommendations for stormwater retention. Planning also continues to assist the Traffic Division with the Mobility Plan/Circulation Element of the General Plan and the Valley/Ardmore roundabout study.

Last fiscal year, the Planning Division provided design input and processed the Coastal and Use Permits for the new Manhattan Beach County Library. The Manhattan Village Mall Enhancement project underwent a number of design revisions, the Final Environmental Impact Report (EIR) was released for public review, and the EIR and related land use applications for project was also processed through the Planning Commission and City Council. After numerous Planning Commission and City Council public hearings, the 2008-2014 Housing Element was adopted, then Certified by the State, and related Code and Coastal Amendments were approved. Staff initiated a number of City Council Strategic Plan items including Code amendments related to mansionization. Staff provided assistance to the Traffic Division on the Mobility Plan and the Valley/Ardmore roundabout study.

Planning staff continues to be responsible for the review of all discretionary land use applications such as use permits, variances, and coastal permits, as well as updates to the general plan, zoning code and map, and the local coastal program. These applications are then reviewed by the Planning Commission in a public hearing forum held twice a month.

COMMUNITY DEVELOPMENT: BUILDING

GOAL

To regulate building construction through plan review, inspection and education in a timely, knowledgeable and professional manner in order to protect the health, safety and welfare of the community

INITIATIVES

- Perform 98% of requested inspections by the next business day
- Maintain an average plan check turnaround time of 6 weeks or less
- Provide timely technical information and updates to City procedures for the construction and design communities on the website
- Make the website a reliable source of information for homeowners, designers and builders, by providing current forms, educational handouts and other related construction data
- Upgrade existing permits tracking system to improve customer service and increase staff efficiency

 Have 100% of completed building public record documents and plans scanned and converted to digital format, to be viewed at the public counter

The Building and Safety Division provides a high level of service in response to fluctuating construction demands. Staff reviews and inspects an increasing number of construction projects, including new residential and commercial, commercial tenant improvements and residential remodels. City building inspectors are responsible for inspecting construction for new and remodeled buildings and structures for conformity with approved plans and permits, and ensuring compliance with adopted codes and regulations. The increase in volume of construction activity results in an increase in "requests for action," which are handled by inspectors or code enforcement officers.

The Permit Processing Counter serves as a one-stop shop for City permitting services and thrives on providing excellent customer service to our residents, business owners and construction community. Various services are handled at the counter, including but not limited to: building and planning permits issuance and inspection requests for projects located on private property, including new residential and commercial projects; residential additions and remodels and commercial tenant improvements; all corresponding mechanical, electrical and plumbing permits; and all public right-of-way and grading permits, fire sprinklers and fire suppression permits, and construction parking permits. A part-time Administration Clerk position will be converted to restore a full-time Permit Technician position to improve customer service at the permit processing counter and handle needs associated with increased construction activity.

In Fiscal Year 2011-2012, the Principal Plan Check Engineer position was eliminated and those responsibilities were added to the Building Official position. The loss of one key Plan Check Engineer position, combined with increased construction activity for Fiscal Year 2012-2013 and anticipated continued increases for Fiscal Year 2013-2014, necessitate the need for outside plan check expertise, which is entirely funded by applicants. Use of outside expertise allows building plan checks to be accelerated, reducing processing and wait time for the applicant. The outside expertise also provides building inspectors during illness, vacations and unexpectedly large inspection volume days, and allows the Building Division to maintain next day inspection service.

In compliance with the California Public Records Act, the Building Division digitizes all public record building documents and plans upon completion of each project. These records are available for viewing by the public at the Community Development public counter during business hours. Staff is available to assist in the use of the records retrieval system and with requests for reproduction of public records.

COMMUNITY DEVELOPMENT: CODE ENFORCEMENT

GOAL

To gain compliance with state and local regulations through sensitive, timely, and knowledgeable responses to the community in order to maintain and enhance the health, safety, and welfare of the community

INITIATIVES

- Respond to all complaints within 24 hours or less, and conduct first inspections soon thereafter
- Conduct ongoing inspections of the business districts to educate, address and resolve sign, outdoor merchandise, and waste management violations and/or issues
- Proactively resolve potential construction issues that impact residents, such as noise, tree protection, and parking
- Educate builders on Clean Water Act state mandates to ensure construction sites are in full compliance with Best Management Practices

The Code Enforcement Officer responds to complaints regarding potential noncompliant dwelling units and business signage, property maintenance, trash and debris, as well as zoning-related concerns. Examples of zoning concerns include fence height, parking, tree removal, drainage, construction, and noise. The Code

Enforcement Officer also provides education to the public through personal visits, information brochures, and the City's website.

Most code enforcement actions are initiated by public complaints. A single complaint may generate many followup inspections. If voluntary compliance is not met, legal action may be required. Some investigations may find that the complaint is not a violation of the Municipal Code, but rather a civil matter or neighbor dispute. This type of complaint is referred to the South Bay Center for Dispute Resolution Services.

The Residential Construction Officer (RCO) program has successfully reduced the number of complaints regarding construction. The RCO, a code enforcement officer, acts as a liaison between residents and builders to resolve construction issues. As such, the RCO conducts educational meetings with builders before permit issuance, and jobsite meetings with the residents and builders. The RCO proactively assists residents and builders to remedy issues associated with parking, property damage and vandalism, noise, debris, storm water, air quality, and tree protection.

Code Enforcement Officers are authorized to issue citations for violations, which enables staff to more effectively enforce the Municipal Code and maintain a high level of service to City residents. The projected increase in construction activity will result in an increase in "requests for action" which are normally handled by the code enforcement officers.

COMMUNITY DEVELOPMENT: TRAFFIC ENGINEERING

GOAL

To provide effective management of traffic and land use-related activities involving public property in order to enhance and maintain the quality of life in the community

INITIATIVES

- Complete the General Plan Mobility Plan Update (previously called the Circulation Plan)
- Complete all infrastructure improvements for both safe Routes to School Grant Programs for walking and bicycling enhancements adjacent to the City's six Elementary Schools and Manhattan Beach Middle School
- Complete the Roundabout Feasibility Study for the three intersections of Valley Drive/ Ardmore Avenue at Manhattan Beach Boulevard, 15th Street and Pacific Avenue
- Continue to enhance designated bikeways and implement new bikeways throughout the City as recommended in the South Bay Cities Master Bike Plan

• Continue to promptly handle citizen requests related to traffic, parking and rights-of-way issues

The Traffic Engineering Division is responsible for all parking and traffic-related services in the public rights-ofway. This includes conducting traffic and parking studies, reviewing traffic requests and concerns from residents, and implementing traffic control measures such as red curbs, stop signs, loading zones, pavement markings, crosswalks, restrictive parking signs and other traffic engineering services. A licensed Traffic Engineer performs the technical investigations for all traffic concerns received by the City to ensure that safety and liability issues are thoroughly analyzed before implementing any traffic control measures. In addition, the Division provides staff support to the Parking and Public Improvements Commission, which acts as an advisory board to the City Council.

Traffic Division staff work closely with the Planning Division and the Public Works Department to address potential parking and traffic concerns during the development process. The Division also works with the Police Department to ensure all streets are properly signed in accordance to the California Manual of Uniform Traffic Control Devices and the California Vehicle Code for enforcement purposes, as well as the safety and welfare of the community.

In Fiscal Year 2012-2013, staff was successfully awarded three separate grants totaling nearly one million dollars. The City was awarded \$447,700 for a State Safe Routes to School Program grant for infrastructure improvements adjacent to seven Manhattan Beach Schools, and \$447,500 for two Highway Safety Improvement Program (HSIP) grants to install protected left-turn phasing on Sepulveda Boulevard at 8th Street, and for a City-wide Pedestrian Improvement Plan which will enhance safety at 22 different locations throughout the City. Staff also completed other projects including an update to the Engineering and Traffic Survey, a follow-up evaluation for meters on Parkview Avenue, evaluation criteria to prioritize Non-Motorized Transportation projects, and the City's first "Sharrow" (shared roadway bicycle marking) along Pacific Avenue from 5th Street to Rosecrans Avenue.

In Fiscal Year 2013-2014, staff will complete the Mobility Plan update which will provide goals and policies for a balanced, multi-modal transportation system in Manhattan Beach. Staff will complete all of the infrastructure improvements for both Safe Routes to School Program grants which will include enhancements to school walking routes with signage, markings, curb extensions, delineated walking paths and flashing beacons at select uncontrolled crosswalks. Staff will also begin the Authorization-to-Proceed process with Caltrans on both HSIP grants.

PUBLIC WORKS: ADMINISTRATION

GOAL

To provide administrative support to the various functions of the Public Works Department, and house the City's Environmental Programs

INITIATIVES

- Deliver overall direction and leadership for the variety of Public Works services provided to the residents
- Provide leadership and management to ensure the most effective delivery of services to our citizens
- Implement programs and seek grant funding to assist with Public Works projects
- Continue environmental initiatives through the City's Environmental Program

The responsibilities within this Division include customer service, preparing department billing and payroll, filing and management of Public Works grants, and support with government contracts. The Department's budget and the City's Capital Improvement Plan are created and managed by the Public Works Administrative staff. Departmental infrastructure needs include

the computer network, work order management system, radio communication system and physical improvements to Public Works facilities. Administrative staff ultimately implements programs to ensure County, State and Federal requirements are achieved.

Environmental initiatives have been an area of priority for the community, and successful recommendations were made to City Council in the areas of sustainable building standards, updates to the City's Water Conservation Ordinance, solid waste management and energy efficiency as a start to the City's environmental efforts. Several grant opportunities were also pursued, and those awarded cover areas of energy efficiency, sustainable landscaping, and electric vehicle infrastructure.

Fiscal Year 2012-2013 focused on the initiatives outlined in the approved Environmental Work Plan relating to energy efficiency and renewable energy, sustainable landscaping and water conservation, and waste reduction initiatives, and these efforts will be carried forward into the 2013-2014 fiscal year. Many of the program efforts align with the City's Strategic Goal to "Maintain and Enhance City Facilities, Programs, and Infrastructure." Major program initiatives include: energy efficiency strategies, community-wide electric vehicle policy, sustainable landscape efforts to promote water conservation, and implementation of policies that impact pollution prevention through ordinances on smoking and polystyrene.

GOAL

To ensure that the City's infrastructure is in good working condition and meets the needs of the community by implementing projects to maintain and improve public infrastructure

INITIATIVES

- Implement water and wastewater system improvement projects
- Assess the condition of City infrastructure and buildings to determine needs and implement improvements
- Work with Community Development Department staff to implement community vehicle, bicycle and pedestrian improvements.
- Rehabilitate arterial streets and slurry seal 15% of residential streets
- Continue design efforts for the Sepulveda Bridge Widening Project
- Provide coordination and oversight of utility undergrounding work including design, construction, assessments and Proposition 218 balloting

The Engineering Division of the Public Works Department is tasked

with improving the City's infrastructure and facility assets. The Division completes capital improvement projects to improve City streets, sewers, water mains, storm drains, pump stations, City buildings, parks and other city-owned assets. The Engineering Division also manages traffic signal maintenance, and reviews and inspects private development work in the public right-of-way.

Significant projects to be pursued in Fiscal Year 2013-2014 include water and sewer projects east of Sepulveda Boulevard. Construction of the Sepulveda Bridge Widening and Strand Stairs Improvements, and improvements to pier buildings, downtown crosswalks and traffic signals will be performed. Additionally, Utility Undergrounding Districts 12, 14 and 15 are scheduled for Proposition 218 balloting in Fiscal Year 2013-2014. Lastly, a plan to address needed improvements to City buildings will be developed based on the findings of condition assessments completed in Fiscal Year 2012-2013.

PUBLIC WORKS: STREET MAINTENANCE

GOAL

To provide clean and safe roadways, sidewalks, medians, and traffic signage through proactive inspections, maintenance, repair services, and an aggressive graffiti removal program

INITIATIVES

- Complete conversion of painted street pavement markings to thermoplastic as part of Section 2 slurry program
- Complete Section 2 concrete repairs through the identification of displaced sidewalks and the notification of property owners
- Assess requests for street tree removals, and integrate new tree trimming contract and tree inventory to forecast tree care budget and optimize trimming cycles to reduce liability exposure
- Implement hand held retroreflectometer to apply standardized metrics to traffic sign inventory and meet standards for reflectivity
- Implement mobile workforce technologies to speed work order management, code enforcement and liability mitigation

- Continue quarterly view obstruction abatements as part of the sign management program
- Assist with street improvements for annual slurry program, upcoming sewer and water line replacement projects, and other capital improvement street projects
- Continue Sepulveda Boulevard sidewalk repairs through the subsidized CalTrans Delegated Maintenance Agreement
- Provide support for special events, partner with event coordinators to reduce costs, and use the GovOutreach work order system to streamline processes and job costing
- Investigate ways to conserve resources, and use environmentally sustainable and/or recycled materials and methodologies when possible to save energy

The Street Maintenance Division re-stripes painted traffic centerlines annually through a competitively bid contract. Other pavement markings including traffic legends, stop bars, crosswalks and curb markings are repainted every two years. By using the City's established seven district maintenance areas to drive repair cycles, every area of the City is routinely inspected for pavement defects, condition of signs and markings, sidewalk displacements and tree issues. This allows staff to better answer residents' questions regarding the frequency of repairs, make field staff more efficient in performing their duties, and foster accurate budget forecasting.

The Fiscal Year 2013-2014 initiatives include continued conversion to thermoplastic markings through the annual slurry seal program. Thermoplastic markings will typically last five to seven years depending on traffic conditions. These markings will create safer roadways over a longer period of time. The resulting labor cost savings from this program will be used to aggressively pursue curb marking maintenance, marking and signage upgrades, inspections and monitoring, and traffic inventory database upkeep. This fiscal year marks the completion of a full seven-year cycle which includes completion of thermoplastic traffic marking conversion and concrete repairs in conjunction with Engineering Division's slurry program.

The Fiscal Year 2013-2014 budget includes funds for landscaping, tree trimming and inventory, street medians maintenance, and re-striping of traffic centerlines (object 5101). Supplies such as cement, concrete, asphalt, and other related materials are budgeted in departmental supplies (object 5217).

GOAL

To provide a clean, safe and accessible environment for all users of City-owned public facilities through responsive maintenance, remodeling and repair services, and to maintain and repair all electrical systems and apparatus throughout City facilities in order to provide reliable services to the community

INITIATIVES

- Monitor integration tree trimming contract and tree inventory to forecast tree care budget and cost effective trimming cycles to mitigate potential liability exposure
- Partner with Engineering Division and user groups to ensure new artificial turf field at Marine Avenue Park meets expectations, while ensuring landscape contractor is versed in artificial turf maintenance practices
- Assist project team with the Heating, Ventilating, and Air Conditioning (HVAC) retrofit/virtual plant at City Hall as identified in the Level III Energy Audit
- Continue energy efficient light-emitting diode (LED) lighting upgrades to parking structure 3, buildings, streets, and all parks in an effort to save energy, reduce the City's carbon foot print, and save labor

- Continue maintenance painting program to a standardized three-year interior and five-year exterior painting cycle
- Continue partnership with the Manhattan Beach Little League and American Youth Soccer Organization to continue sustainable maintenance programs and raise level of field playability and aesthetics.
- Continue partnership with various businesses and groups during the year to support the many events that occur throughout the City, and work on ways to contain event costs
- Continue to monitor landscape maintenance contract through use of new radio-frequency identification based inspection, with an emphasis on maximizing services and lowering liability exposure
- Utilize all sustainable environmental practices at the City's disposal to implement City's Green Initiative
- Monitor janitorial maintenance contract to maximize budget savings without compromising sanitary and cleanliness standards
- Track electrical performance and assess needs through Government Outreach work order application
- Perform a thorough analysis of the street, park and field lighting, and develop a program of upgrades or repairs as appropriate; continue to utilize lighting vendors to help maintain current lighting inventory
- Respond to routine electrical work orders within 10 working days

The Building and Grounds maintenance services are delivered through a combination of skilled City maintenance employees and competitively bid outside service contracts. This program is responsible for the preparation and maintenance of parks facilities, school athletic fields which are under City control, and select capital improvement projects. This division also provides electrical support to numerous special events such as the Pier lighting, Pier fireworks, Old Hometown Fair, and Earth Day, as well as reviews of all Public Works construction projects that involve electrical systems.

The Fiscal Year 2013-2014 budget includes funds for Building and Grounds maintenance contracts managed by the City (object 5101), and supplies and materials (object 5217).

PUBLIC WORKS: STREET LIGHTING & LANDSCAPING

GOAL

To administer funds received from the Street Lighting & Landscaping Assessment Districts to pay for energy and maintenance costs of street lights within the City

INITIATIVES

- Continue to seek grant funding to offset costs of energy efficient lighting retrofits throughout the City
- Continue use of the Government Outreach web application to manage failed lamp reporting
- Analyze current rate structure
- Continue to investigate feasibility of including programmed maintenance of street, tree and sidewalks into assessment structure
- Continue partnering with Southern California Edison regarding light-emitting diode (LED) street lighting upgrades in Manhattan Beach, and monitor progress of Southern California Edison LED field trials
- Perform quarterly lighting surveys to ensure street lights are working properly

• Work with Engineering Division to continue LED retrofits at intersection lighting locations

In the early 1970's, the City formed several Street Lighting & Landscaping Assessment Districts pursuant to the Landscaping and Lighting Act of 1972. Through an assessment paid by property owners, this program provides for the payment of energy and maintenance costs of one thousand, eight hundred and eighty five (1,885) street lights. The method of assessment, which was approved at the time of the district's formation, is a proportion of the estimated benefit to be received by such lots and parcels. It is collected by Los Angeles County through the property tax rolls, and remitted to the City.

For Fiscal Year 2013-2014, the assessment rate will remain the same as last year. If the City were to change this rate in the future, citizen approval would be required through a Proposition 218 vote. Currently, the assessments are insufficient to cover the costs therefore the City subsidizes the districts with General Fund monies. A future rate increase is necessary to sustain service levels.

PUBLIC WORKS: DOWNTOWN STREETSCAPE

GOAL

To provide high quality maintenance and repair services for the downtown streetscape area in order to beautify and improve the aesthetics of downtown

INITIATIVES

- Work in conjunction with Engineering staff, Downtown Business Association, and all other stakeholders in identifying deficiencies, formulating plans, and implementing projects for the Streetscape rehabilitation
- Include discussions on alternative pavement treatments to deteriorating tile in crosswalks and lighting treatments
- Ensure high level landscape and custodial maintenance in the Downtown area by adding weekend service during peak season (April through September)

- Continue monitoring maintenance contract and provide a seamless transition to new specifications
 Continue participation in grant funding program through purchase and installation of new
- Continue participation in grant funding program through purchase and installation of new Big Belly recycling containers in areas of high use, particularly area near Morningside Drive and Manhattan Beach Boulevard

Zone 10 of the Manhattan Beach Street Lighting & Landscaping Assessment District was established as a Streetscape District. The method of assessment to the property owners, which was approved at the time of the district's formation, was in proportion to the property's street frontage in the Downtown area. This assessment is collected by Los Angeles County through the property tax rolls and remitted to the City.

In Fiscal Year 2013-2014 the total assessments collected for this zone, which have remained unchanged for several years, will total approximately \$107,490, while total operating expenditures are estimated at \$251,207. The City's General Fund subsidizes this shortfall. An Assessment District vote would be required to correct this imbalance. The Fiscal Year 2013-2014 budget includes landscaping maintenance and pest control which appear under Contract Services (object 5101).

PUBLIC WORKS: WATER DIVISION

ADMINISTRATION

GOAL

To provide highly qualified personnel for the daily operations of the City's water system and to direct their activities while working closely with the Engineering Division and the public

INITIATIVES

- Provide excellent customer service
- Operate and maintain the water system infrastructure consistent with industry-wide preventative maintenance programs and standards
- Perform expanded water conservation outreach to the community
- Maintain reporting requirements to all regulatory agencies
- Continue developing and executing the Water Infrastructure Plan

The City's water system is comprised of two storage reservoirs with a combined storage capacity of 10 million gallons; one elevated storage tank with a storage capacity of 300,000 gallons; one imported water connection with the Metropolitan Water District of Southern California with a production capacity of 5,000 gallons per minute; two groundwater wells with a total production capacity of 3,500 gallons per minute; four booster stations with a total delivery capacity of 14,800 gallons per minute; five emergency generators at the wells and booster stations; approximately 112 miles of water distribution pipelines ranging in diameter from 4" to 24"; 1700 gate valves; and 230 backflow devices.

The functions of Water Administration include: planning on-going system maintenance work, assisting the Engineering Division with the design and inspection of water capital projects; establishing repair and maintenance procedures and priorities; maintaining contact with West Basin Municipal Water District and the Water Replenishment District related to imported water; providing assistance to the public regarding questions or concerns about the City's water system; and providing inspections and technical assistance for private construction.

The City's water conservation outreach program addresses the need to continue conserving water, and encourages water conservation measures that permanently reduce water use.

SOURCE OF SUPPLY

GOAL

Provide customers with a reliable source of water supply at the lowest possible cost, and as required by the adoption of the Urban Water Management Plan, reduce overall water consumption by 20% by the year 2020 through the water conservation programs

INITIATIVES

- Offset the cost of higher priced Metropolitan Water District of Southern California (MWD) water through leasing less expensive groundwater rights from agencies with surplus rights
- Develop enhanced water conservation outreach programs focused on achieving a 20% reduction in water use by the year 2020

Approximately 80% of the City's water supply is provided by the MWD and 20% is supplied through City-owned groundwater rights in the West Coast Groundwater Basin. In 2012, the City signed a three year agreement with a local groundwater purveyor to lease 950 acre feet of water, resulting in a 21% decrease in MWD purchases.

PUMPING & TREATMENT

GOAL

To provide a reliable source of high quality potable water that meets all State and Federal drinking water standards, and to maintain adequate pressure and flows that meet customer demand and fire protection requirements

INITIATIVES

- Continue on-going preventative maintenance programs on pump and well motor control centers, reservoir cathodic protection, water disinfection systems, emergency stand-by generators and pump/motor efficiencies
- Upgrade Supervisory Control and Data Acquisition (SCADA) communications system to radio frequency control to enhance operations reliability
- Perform annual valve exercising program and database management of the isolation valves of all water pumping and water storage facilities

Plant operators are responsible for operating, maintaining and performing preventative maintenance on the City's wells, reservoirs, booster stations, emergency generators, water disinfection facilities, and SCADA systems in a manner that satisfies consumer demand, fire protection and regulatory requirements at all times.

MAINTENANCE

GOAL

To provide highly qualified personnel for the daily operations and maintenance of the City's water distribution system, and to provide reliable fire, business and domestic water service to the community

INITIATIVES

- As continuation of a ten-year water meter replacement program, implement year 5 of the program to replace 1,400 water meters of various sizes
- Perform preventive maintenance in the following areas: fire hydrants, gate valve exercising, system flushing, small and larger meter testing, backflow and cross connection inspections
- Track all valve replacements by date, location, make and model
- Inspect and document all fire hydrants for maintenance and GIS

Water Maintenance is responsible for maintaining and repairing the City's water distribution system, which includes pipelines, gate valves, service lines, meters, backflow devices, control valves and fire hydrants.

PUBLIC WORKS: STORM DRAIN

GOAL

To maintain the City's storm drain system and promote storm water pollution awareness to the citizens of Manhattan Beach in order to prevent property damage due to flooding, and minimize pollution run-off into the ocean consistent with the National Pollutions and Discharge Elimination System requirements

INITIATIVES

- Update the City's Storm Drain System Master Plan
- As mandated by the new National Pollutant Discharge Elimination System (NPDES) permit, develop stormwater runoff monitoring and capture programs that will reduce trash and pollutants that enter the sea, and identify and mitigate storm system Illicit Discharge and Illicit Connection violations
- Perform maintenance of catch basins, continuous deflector separators and Polliwog Pond to minimize trash conveyance to the sea in compliance with NPDES Total Daily Maximum Load (TMDL) requirements for trash and bacteria

- Maintain dry weather diversion sump to assure dry weather run-off is conveyed away from the ocean and to the Los Angeles Sanitation District in an effort to reduce bacteria contamination at the shore line
- Perform periodic vegetation and debris removal and turning of the soil at storm water sumps to enhance water permeability into the earth to prevent local flooding
- · Continue evaluation of shoreline water quality monitoring at three testing locations
- Collaborate with the Los Angeles County Flood Control to minimize dry weather run-off into the ocean, and drop water levels of Polliwog Pond to normal grade as soon as possible after a storm event
- Monitor effectiveness of installed grates at storm drain catch basin entrances to reduce debris reaching the ocean
- Investigate sources of bacteria that are transported as urban run-off through the storm drain system
- Seek grant funding for storm water run-off capital projects

The Storm Drain system is designed to channel water generated as a result of storm flows from public right of ways and private properties to its ultimate drainage destination, the Pacific Ocean. Because run-off water travels directly to the ocean without the benefit of treatment, operators of storm drain systems must comply with the conditions of the National Pollutant Discharge Elimination System permit. The Storm Drain system is comprised of: 83,538 ft. of Manhattan Beach storm lines and 43,805 feet of Los Angeles County storm lines; 800 catch basins; eight continuous deflection systems; two dry weather storm water diversions; five storm water sumps; and one lift station.

PUBLIC WORKS: SEWER MAINTENANCE

GOAL

To manage the City's sanitary sewer collection system in full compliance with the City's Sewer System Management Plan (SSMP), as mandated by the Regional Water Quality Control Board

INITIATIVES

- Continue on-going preventative maintenance programs on sewer lift station motor control centers, emergency stand-by generators and pump/motor efficiencies
- Perform twice yearly cleaning of entire City sewer collection system, monthly cleaning of high sewer volume areas and biweekly maintenance at the six sewer lift stations
- Minimize sewer system overflows through proactive identification of trouble areas during routine maintenance, and make repairs in a timely manner
- Respond to all sewer system overflows within 45 minutes
- Perform the last of a five year sewer line videoing and manhole inspections of the remaining 20% of the system to determine repair and rehabilitation needs
- Continue the Fats, Oils and Grease (FOG) inspection program for 130 food service establishments

Complete development of the Sewer System Overflow Emergency Response Plan in compliance with the Sewer System Management Plan

The City's sanitary sewer system is comprised of six pump lift stations that convey sewage out of areas of geographic depression, plus eighty-six miles of sewer lines. Sewage is conveyed to the Los Angeles County Sanitation District's Joint Water Pollution Control Plant in the City of Carson for treatment. The City's Sewer System Management Plan serves as the template that guides operations, maintenance, and infrastructure management, in addition to public and environmental protection. The FOG ordinance is an integral element of the SSMP, which is intended to minimize sewer system overflows in food service establishments.

The Fiscal Year 2013-2014 budget includes capital improvement projects for the rehabilitation of gravity sewer mains and manholes, and utility telemetry. The budget also accommodates the replacement of an emergency sewer bypass pump and a new emergency sewer lift station bypass pipe-valve-coupling assembly.

PUBLIC WORKS: SOLID WASTE

GOAL

To provide efficient and cost effective solid waste services including refuse collection, recycling, household hazardous waste, and street sweeping

INITIATIVES

- Remain in compliance with AB 939 State mandates, monitor waste diversion results and report findings to the community
- Collaborate with the Los Angeles Regional Agency to promote waste reduction and the message of "Zero Waste" in order to meet solid waste landfill diversion goals
- Work with the commercial districts to reduce visible trash, develop commercial waste reduction and recycling programs, and ensure businesses receive adequate solid waste services
- Provide information, and manage issues, complaints and service requests in an efficient and professional manner
- Install new recycling containers throughout the City including parks and athletic fields

In Fiscal Year 2011-2012, the City began a new seven-year franchise agreement for solid waste services with Waste Management Inc., a private refuse and recycling hauler. Waste Management provides exclusive service to over 13,000 residential households for trash, commingled recycling, green waste and bulky item pickup programs. Waste Management also provides refuse and recycling services to the City's commercial sector and coordinates recycling programs at Manhattan Beach schools. The overall diversion rate achieved by the City and its residents is steadily above the State mandated 50 percent. In addition to residential recycling and green waste, diversion has been achieved through the community's source reduction and business recycling practices. Residential recycling continues to be a significant source of diversion.

A few notable changes in the new contract include a tiered-rate structure whereby single-family residents pay for their refuse service based on the size and quantity of trash containers, thereby providing a financial incentive to those who can reduce waste and increase recycling. Another new program is the unlimited "At Your Door" Household Hazardous Waste pick-up for single and multi-family residents where residents can schedule an appointment to have hazardous waste safely collected at their doorstep and properly disposed.

Solid Waste outreach is evolving through the concept of "Zero Waste," a paradigm shift from traditional diversion. It requires the rethinking of what is traditionally regarded as garbage into materials that can be used as valued resources. Zero Waste entails shifting consumption patterns, more carefully managing purchases, and maximizing the reuse of materials at the end of their useful life. Zero waste takes into account the whole materials management system: product design and the extraction of natural resources, manufacturing and distribution, product use and reuse, and recycling or disposal. In summary, Zero Waste focuses on refusing waste into the stream through environmental purchasing, reuse and repair, recycling, then disposal.

PUBLIC WORKS: PARKING FACILITIES

GOAL

To maintain the City's parking meters and lots in order to provide adequate and safe parking for our residents and visitors

INITIATIVES

- Maximize collections, repair time response and customer service through use of real-time data provided through the existing of 670 IPS "smart" meters
- Install 420 IPS "smart" meters in the open air City-owned parking lots
- Repair/replace malfunctioning parking meters within 24 hours of being reported as broken
- Perform annual preventative maintenance on all meters

City Parking Lots & Meters

The Parking Fund includes revenue generated from metered City streets and parking lots, and from the sale of merchant parking permits

and cash keys. These revenues are used to operate and maintain the City's ten public parking lots, which contain 836 spaces and 440 on-street parking meters.

County Parking Lots

The City operates and maintains two Los Angeles County-owned parking lots. The two County-owned lots are the El Porto parking lot with 231 spaces, and the 27th Street parking lot with 68 spaces. Use of the revenue generated through parking meters and the sale of overnight permits is governed by an agreement with the County of Los Angeles which dictates that the City provides the County with 55% of the gross annual revenue or a guaranteed annual minimum of \$130,000.

State Parking Lots

The City also operates and maintains 118 parking meters at the Upper and Lower Pier parking lots, which are owned by the State of California. Under agreement with the State of California, revenue generated through parking fees and overnight parking permits from the Pier lots may only be used for the operation and maintenance of these parking lots and the comfort station.

GOAL

To provide cost-effective and preventative maintenance to City vehicles and equipment in order to minimize downtime and maintain a reliable City fleet

INITIATIVES

- Continue Fleet replacement program to clear deferred purchase backlog and forecast vehicle replacement needs through Fiscal Year 2017-2018
- Maintain GPS Vehicle Tracking system to maintain efficient and effective use of vehicles through reduced fuel consumption and lower mileage for a cleaner environment
- Continue to "right size" the fleet through annual fleet utilization monitoring and sharing of vehicles
- Complete repairs in a timely and cost effective manner
- Utilize preventative maintenance services to maximize the useful life of vehicles and recoup the highest resale value
- Perform comparative analysis of current fleet and fuel management software versus other solutions

- Continue to formulate vehicle and equipment specifications that will meet the needs of the City and be environmentally friendly
- Train fleet services staff on alternative fueled vehicle repairs to provide a higher level of support in efforts to promote a clean environment

The Fleet Management Division implements Clean Air programs as part of its fleet operations and ensures that the City does its part to reduce pollution and improve air quality. The program is handled as a user-pay system with repairs charged to the departments for services rendered. The Fiscal Year 2013-2014 budget includes funds for fuel, tank/dispensing systems maintenance, hazardous waste disposal, and other fleet related costs (object 5101).

Personnel assigned to Fleet Management include an Equipment Maintenance Supervisor and two Mechanics. The General Services Division of the Finance Department supports the fleet by managing the vehicle replacement fund and the auto parts warehouse. Fleet Management also maintains an inventory of commonly used tools for quick and efficient repair of the fleet. The Fiscal Year 2013-2014 budget includes funds for major automotive and other specialized repairs (object 5221).

All government agencies located in the South Coast Air Quality Management District (SCAQMD) with a fleet of 15 or more non-emergency vehicles must comply with the SCAQMD 1190 Series Rules. Agencies must purchase alternative fuel vehicles (AFV) or low emission vehicles for new additions and the replacement of light and medium-duty, non-emergency vehicles. The AB2766 Subvention Fund can be used to offset the differential cost of these AFV. As of spring 2013, twenty-nine alternative fuel vehicles and equipment have been purchased. This includes a mix of compressed natural gas, propane, electric, and hybrid technologies.

Public Works	60	58	56
Total	266	268	278

Discussion of Changes in Full-Time Equivalent Positions

The Fiscal Year 2013-2014 Budget includes 278 positions. The following staffing changes are introduced in the fiscal year:

Management Services: Addition of a Management Analyst

Finance: Transfer of GIS Analyst and GIS Technician from Public Works, and the addition of two Information System Specialists and one Senior Account Services Representative

Parks and Recreation: Addition of a Recreation Supervisor

Police: Addition of an Information Systems Specialist, two Administrative Clerks I, and a Community Services Officer

Community Development: Addition of a Permits Technician

Public Works: Transfer of GIS Analyst and GIS Technician to Finance

2013-2014 SCHEDULE OF ADMINISTRATIVE SERVICE CHARGES

In Fiscal Year 2010-2011, the City retained the services of Revenue & Cost Specialist, a firm that specializes in municipal cost allocations. Based on their analysis, the following funds receive support from the General Fund in the form of salary and benefits of support staff, utilities, deprectiation on buildings, and other indirect costs. These costs will be shown by fund, as opposed to department as in prior fund years.

Fund	FY2014 General Fund Support Cost
Street Lighting & Landscape Fund	\$85,236
AB 2766 Fund	1,068
Water Fund	1,349,188
Wastewater Fund	808,133
Refuse Fund	359,111
Parking Fund	174,356
County Parking Lot Fund	37,805
State Pier & Parking Lot Fund	98,441

Total

Administrative service charges do not apply to Metropolitan Transportation Authority funds, funds supported by subventions, and internal service funds.

\$2,913,338

2013-2014 SCHEDULE OF DEBT SERVICE & LEASE PAYMENTS

Water & Wastewater Bonds

In September 1996, the Manhattan Beach Capital Improvements Corporation issued \$4,615,000 of debt in the form of Certificates of Participation. This debt was issued to finance 1996 and 1997 enterprise fund projects related specifically to the water and wastewater systems. The certificates bear interest between 5.3 percent and 5.8 percent and mature between 1997 and 2026. These bonds were redeemed in Fiscal Year 2012-2013 via General Fund Certificates of Participation that also included redemption of Metlox Certificates of Participation.

Marine Sports Fields Lease

In Fiscal Year 2000-2001, the City entered into a Sale/Leaseback transaction with the Beach Cities Health District (BCHD). This transaction was a result of the City purchasing from TRW (now Northrup Grumman) seven acres of property located at the corner of Marine and Aviation within the City of Manhattan Beach. The City subsequently sold the property to BCHD with an exclusive agreement to lease back six of the seven acres. The lease authorized BCHD to spend funds up to \$2.5 million to construct recreational facilities on the property. These improvements were completed in Fiscal Year 2000-2001. In Fiscal Year 2001-2002, the City issued variable rate Certificates of Participation to effect a full internal financing of the Sports Fields. The proceeds were used to pay in full all principal and interest obligations under the aforementioned lease with BCHD. Debt service scheduled for Fiscal Year 2013-2014 of \$510,546 can be found in the Parks & Recreation administration budget. The term of the financing is thirty years (fully amortized principal and interest) based on a variable rate which has calculated for budgeting purposes at a conservative 3.58%.

Metlox Certificates of Participation

In January 2003 the City issued Certificates of Participation to Finance public improvements at the Metlox site. These funds were used to construct a two level underground parking garage as well as a 45,000 square foot town square open space to complement the retail developments. The amount of the bond was \$13,350,000. These bonds were redeemed in Fiscal Year 2012-2013 via General Fund Certificates of Participation (see Water & Wastewater Bonds above).

Dispatch Center Certificates of Participation

On January 16, 2001, the City of Manhattan Beach entered into an operating agreement with the South Bay Regional Public Communications Authority (RCC). The operating agreement provides a funding mechanism for the authority to upgrade the 911 emergency telephone and radio dispatch center. The RCC obtained primary funding through the issuance of revenue bonds issued on behalf of all participating cities. These bonds were redeemed in Fiscal Year 2012-2013 using General Fund cash.

Police/Fire Facility Financing

In November 2004, the City issued Certificates of Participation for \$12,980,000 to complete financing for the construction of the Police/Fire/Civic Center construction. These certificates will mature in June 2036. The project was completed in January 2007 at cost of \$39,766,000 with \$27,766,000 City contribution and bond construction proceeds of \$12,000,000. These bonds will be redeemed in January 2014 via existing Certificates of Participation issue.

Water/Wastewater/Metlox Parking Certificates of Participation

In Fiscal Year 2012-2013, the City was able to take advantage of the current interest rate market and refund existing debt that carried interest rates that were substantially higher than current rates. Since these bonds could be called without penalty, refunding bonds secured by the General Fund were issued in July 2012, net proceeds of which were transferred to the Water, Wastewater and Parking Funds at the time bonds were called. Water and Wastewater bonds were called in August 2012 and Metlox bonds were called in January 2013. By using the General Fund as a conduit for refunding, the City saved on issuance costs by employing one consolidated offering and took advantage of the General Fund's stronger credit rating. It is the responsibility of these funds to reimburse the General Fund for their proportionate share of annual debt service of the refunding bonds plus administrative fees.

Police Fire Facility Refunding Certificates of Participation

As in the case of Water, Wastewater and Metlox bonds, the existing Police Fire Facility debt carries interest rates higher than current bond rates. The City issued refunding bonds in January 2013, which will be used to redeem existing Police Fire Certificates of Participation. Since the call date for the current issue without penalty is January 2014, both the existing Certificates and refunding Certificates will coexist for the first half of Fiscal Year 2013-2014. The proceeds of the refunding issue are held in an escrow account until the refunding is realized. All debt service for both existing and refunding issues is carried in the Capital Improvement Fund.

Pension Obligation Bonds

In March 2007 the City issued Pension Obligation Bonds to payoff unfunded pension liabilities due to the sworn Police and Fire retirement plans. These unfunded liabilities were scheduled to be amortized over a remaining period of 5 years at an interest rate of 7.75%. By issuing bonds the City realized a present value savings of \$433,156. The term of the bonds matches the amortization period. Debt service for Fiscal Year 2013-2014 is \$1,133,334. Interest is recognized on the accrual basis. The remaining principal balance of \$765,000 will be paid July 1, 2014 – Fiscal Year 2014-2015.

Legal Debt Limit

The City is subject to a legal general bonded debt limit equal to 3.75 percent of the total assessed value of property in Manhattan Beach. The City's total net taxable assessed property value is approximately \$12.7 billion, resulting in a legal general bonded debt limit of \$476,000,000. The City has no general bonded debt subject to the debt limit.

City of Manhattan Beach

Revised/Adopted by City Council June 21, 2011

Statement of Purpose

The financial integrity of our City government is of utmost importance. To discuss, write, and adopt a set of financial policies is a key element to maintaining this integrity. Our City has evolved with a variety of financial policies that can be found in many different sources, including: City Council Resolutions; Budget documents; and Capital Improvement Programs. The set of policies within this document, adopted contemporaneously each year with our budget, serves as a central reference point of the most important of our policies, which are critical to the continued financial health of our local government.

Written, adopted financial policies have many benefits, such as assisting the elected officials and staff in the financial management of the City, saving time and energy when discussing financial matters, engendering public confidence, and providing continuity over time as elected officials and staff members change. While these policies will be amended periodically, they will provide the basic foundation and framework for many of the issues and decisions facing the City. They will promote sound financial management and assist in the City's stability, efficiency and effectiveness.

The following policies are divided into eight (8) general categories for ease of reference. These categories include: **1**) General Policies; **2**) Accounting, Auditing, and Financial Reporting Policies; **3**) General Fund Balance Policies; **4**) Debt Policies; **5**) Revenue Policies; **6**) Capital Improvement Policies; **7**) Capitalization & Depreciation Policies; 8) Cash Management Investment Policies; **and 9**) Operating Budget Policies. Except as otherwise noted, all policies included in this document are currently adhered to.

The City will:

- manage its financial assets in a sound and prudent manner;
- maintain and further develop programs to ensure its long term ability to pay all costs necessary to provide the level and quality of service required by its citizens;
- establish and maintain investment policies that are in accordance with State laws;

ACCOUNTING, AUDITING, AND FINANCIAL REPORTING POLICIES

FINANCIAL INFORMATION

It is the policy of the City of Manhattan Beach to provide all financial information in a thorough, timely fashion, and in a format that is easy for Council, citizens, and City employees to understand and utilize.

ACCOUNTING STANDARDS

The City's accounting of financial systems shall be maintained in accordance with Generally Accepted Accounting Principles (GAAP), standards of the Governmental Accounting Standards Board (GASB), and the Government Finance Officers Association (GFOA).

ANNUAL AUDIT

An independent public accounting firm will perform an annual audit and its opinions will be included in the comprehensive annual financial report.

The independent audit firm will be selected through a competitive process at least once every five years. The contract will be for an initial period of three years with two additional one-year options at the City Council's discretion. The Finance Subcommittee, City Manager and Finance Director will review the qualifications of prospective firms and make a recommendation to the City Council. The audit contract, and any extensions, will be awarded by the City Council.

An Annual Financial Report shall be prepared within six months of the close of the previous fiscal year. It will be reviewed with the Finance Subcommittee, and presented to the City Council and community at a public meeting no later than February 1st of the following year.

It is the City's goal to maintain accounting records, processes and procedures in such a manner as to receive an unqualified audit opinion and to maintain a Certificate of Achievement for Excellence in Financial Reporting from the GFOA.

FUND BALANCE POLICIES

The City utilizes a variety of accounting funds for recording revenues and expenditures. At each fiscal year-end, budgeted/appropriated expenditure authority lapses with the exception of capital project spending, and operating expenses that have been incurred but not paid (encumbered). The remaining dollars left in each fund that are Unassigned constitute available funds of the City. The Unassigned fund balance shall include the City's Financial Policy components. The Council authorizes the City Manager or Director of Finance to make assignment of funds. Where Council has not established a formal policy the Governmental Accounting Standards Board Statement 54 will be operative.

GENERAL FUND

The General Fund Unassigned Fund Balance will be maintained in an amount equal to at least 20 percent of the annual General Fund expenditure budget. These funds are designed to be used in the event of significant financial emergency. Council may, at its discretion, set aside additional funds above the 20% minimum. Such additional amounts may be allocated for specific purposes, such as capital projects or for known significant future cost items. Any residual balance shall be available for general operational working capital uses.

CITY COUNCIL CONTINGENCY ACCOUNT

A contingency account in an amount not to exceed one-half of one percent (0.5 percent) of the City's General Fund expenditure budget will be maintained annually in the City Council's budget. This account will be available for unanticipated, unbudgeted expenditures and will require City Council approval to spend. The purpose of this account is to provide some flexibility for unforeseen events without the necessity to appropriate additional funds from the City's Unassigned Fund Balance.

ENTERPRISE FUNDS

The City's Enterprise Funds will maintain reserves equal to four months of operating expenses.

FLEET MANAGEMENT FUND

Through the use of the Fleet Management Fund, the City will annually budget sufficient funds to provide for the orderly maintenance, repair and replacement of the City's vehicles. This fund is supported by charges to user departments which are adjusted annually based on the department's proportionate share of estimated fleet management expenses. Sufficient working capital will be maintained in the fund to provide for the scheduled replacement of fleet vehicles at the end of their useful lives.

INFORMATION SYSTEMS FUND

Through the use of the Information Systems Fund, the City will annually budget sufficient funds to provide for the orderly maintenance, repair and replacement of the City's technology infrastructure. This fund is supported by charges to user departments which are adjusted annually based on departments' proportionate share of estimated expenses. Such share may be determined based upon the departments' number of devices supported by the IS Division. Sufficient reserves will be maintained in the fund to provide for the scheduled replacement of equipment at the end of their useful lives.

RISK MANAGEMENT FUND

The City maintains a self-insurance fund for the purpose of property, liability, and workers' compensation expenses. This fund pays insurance premiums, benefit and settlement payments, and administrative and operating expenses. The Risk Management Fund is supported by charges to other City funds for the services it provides. These annual charges for service shall reflect historical experience and shall be established to approximately equal the annual expenses of the fund. Separate reserves shall be maintained for current and long term general liability and workers' compensation liability at a level which will adequately fund the City's potential loss exposure in each area as determined by historical loss data. The Risk Management Fund shall maintain an annual working capital balance of \$2 million.

TRUST AND AGENCY FUNDS

The City maintains funds on a trustee basis for a number of purposes, including Citysponsored post employment benefits programs and trust accounts for such purposes as utility underground projects. These funds shall be segregated from the City's general funds.

The estimated cost of City-sponsored retirement programs will be actuarially valued biennially. Ongoing annual normal costs for such programs will be budgeted in the department receiving the benefit. Unfunded liabilities will be disclosed and accounted for in accordance with Generally Accepted Accounting Principles (GAAP).

DEBT POLICIES

ISSUANCE OF DEBT

The City will not use long-term debt to pay for current operations.

The use of bonds or certificates of participation will only be considered for significant capital and infrastructure improvements.

The term of the debt shall never extend beyond the useful life of the improvements to be financed.

CREDIT RATING

It is the City's goal to maintain our AAA/Aaa credit rating from all three major rating agencies. The factors that contribute to our high rating include the City's strong financial management, low debt levels, budgetary and fiscal controls, and accountability. To support this policy, the City will continue to maintain its position of full financial disclosure and proactive fiscal planning.

LEASE-PURCHASE

The City will lease-purchase equipment if necessary because of funding availability, or if lease rates are more favorable than the rate attained from investment return. Equipment may also be leased if the lease terms compare favorably when reviewing the total life cycle cost of the equipment. In no case shall the City lease-purchase equipment whose useful life is not greater than the term of the lease.

REVENUE POLICIES

GENERAL FUND REVENUE

The City will strive to develop and maintain a diversified and reliable revenue stream so as to avoid becoming overly dependent on any single type of revenue. Efforts will be directed to optimize existing revenue sources while periodically reviewing potential new revenue sources.

Budgeted revenues will be estimated conservatively using accepted standards and estimates provided by the state, other governmental agencies or reliable economic forecasters when available.

If revenues from "one-time" or limited duration sources are used to balance the City's annual operating budget, it is to be fully disclosed and explained at the time the budget is presented. It is the City's goal to not rely on these types of revenues to balance the operating budget.

The City will pursue revenue collection and auditing to assure that moneys due the City are accurately received in a timely manner.

The City will seek reimbursement for State and Federal mandated costs whenever possible.

GRANTS AND GIFTS

The City shall actively pursue federal, state and other grant opportunities when deemed appropriate. Before accepting any grant the City shall thoroughly consider the implications in terms of ongoing obligations that will be required in connection with acceptance of said grant.

ENTERPRISE FUND CHARGES

The City will set user fees for each enterprise fund at a rate that fully covers direct and indirect costs of providing the service, as well as planned capital improvements that may be necessary from time to time.

PARKS AND RECREATION FEES

All Parks and Recreation department expenses and revenues will flow through the General Fund (except those transactions related to Proposition A). The goal of the Parks and Recreation Department shall be to generate General Fund revenue equal to at least 35 percent of the total General Fund expenditures of the department.

Recreation fees for such activities as classes and room rentals shall be established and reviewed periodically. The purpose of these fees is to recover the direct cost of the program, and to generate additional revenues to support the overall operation of the Parks and Recreation department and programs. As appropriate within the marketing of the recreation programs, higher non-resident fees are charged, as well as priority registration procedures for Manhattan Beach residents.

USER SERVICE FEES

The City may impose user fees wherever appropriate. Such fees will recover the cost of providing the service, including all direct and indirect costs, administrative overhead, depreciation, etc. By policy, Council may direct certain fees to be lowered for particular purposes. Waivers of user fees will be presented for Council approval as appropriate. Fees will be reviewed periodically, but not less than every five years, to ensure that full cost recovery levels are identified.

Fees such as space rental, parking meter rates, etc. are based upon market conditions and are not subject to the limitations of cost recovery. These fees may be adjusted periodically by the City Council.

CAPITAL IMPROVEMENT POLICIES

DEDICATED CIP FUNDING SOURCES

Most of the City's infrastructure has a designated revenue source to pay for its upgrade or replacement as appropriate. For example, water/wastewater rates fund utility infrastructure needs; gas tax revenues fund street needs; and storm drainage needs are paid for with related fees and assessments. However, our public buildings and our park system are the primary beneficiaries of the City's Capital Improvement Fund (CIP). Specific revenue sources have been designated to provide permanent funding in support of general operational infrastructure. In particular, the City has dedicated:

- ✤ 15% of annual hotel transient occupancy tax (1.5% of the 10% tax);
- Fifty cents of the per hour charge for all on-street city parking meter collections;
- \$4 of each parking citation (with the exception of expired meter cites).

Transfers into the CIP Fund will be processed by the Finance Department on a monthly basis and recorded as such in the annual adopted budget.

FIVE YEAR CAPITAL IMPROVEMENT PROGRAM (CIP)

The City shall annually prepare a capital improvement spending program projecting capital needs for a five year period. This CIP shall address all of the City's funds.

The first year of the five year CIP will be consistent with, and adopted as a component of, the annual operating budget.

In the development of the Capital Improvement Program, the operating costs associated with the capital project will be projected and considered in conjunction with the CIP.

ENTERPRISE FUND CAPITAL IMPROVEMENTS

Capital Improvements funded from the Enterprise Funds shall be paid for in combination of "pay-asyou-go" financing and the use of long-term debt. The City shall periodically review its enterprise capital needs and establish capital spending plans that are appropriate and reflect a combination of debt and "pay-as-you-go," while attempting to keep our rates competitive with those in the surrounding area.

CAPITALIZATION & DEPRECIATION POLICIES

The City shall capitalize equipment and facilities within the following parameters:

Equipment - \$5,000 per unit Buildings & Facilities - \$100,000

Minor equipment that falls below the \$5,000 threshold, but is subject to shrinkage, such as cellular telephones and computers, shall have a non-numbered City of Manhattan Beach property tag affixed when placed into City service.

The City shall depreciate capital assets such as machinery, equipment, buildings and improvements, and infrastructure (roads, sidewalks, parks, etc.). Depreciation shall be performed on a straight line basis over the expected useful life of the asset and in accordance with Generally Accepted Accounting Principles (GAAP).

CASH MANAGEMENT & INVESTMENT POLICIES

The Finance Subcommittee & City Council shall annually review and update, or modify as appropriate, the City's investment policy. Reviews shall take place at public meetings and the policy shall be adopted by minute action of the City Council based upon the Finance Subcommittee's recommendations

Reports on the City's investment portfolio and cash position shall be developed and presented to the City Council monthly. Additionally, expenditure reporting showing year-to-date budgeted and actual expenditures shall be prepared monthly and distributed to all departments.

City funds will be managed in a prudent and diligent manner with emphasis on safety, liquidity, and yield, in that order.

OPERATING BUDGET POLICIES

BALANCED OPERATING BUDGET

It is the City's policy to adopt a balanced budget where operating revenues are equal to, or exceed, operating expenditures. In the event a balanced budget is not attainable, and the cause of the imbalance is expected to last for no more than one year, the planned use of reserves to balance the budget is permitted. In the event that a budget shortfall is expected to continue beyond one year, the planned use of reserves must be developed as part of a corresponding strategic financial plan to close the gap through revenue increases or expenditure decreases.

Any year end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels set by policy and will be available for capital projects and/or "one-time only" General Fund expenditures.

BUDGET DOCUMENT

The operating budget shall serve as the annual financial plan for the City. It will serve as the policy document of the City Council for implementing Council goals and objectives. The budget shall provide the staff the resources necessary to accomplish City Council determined service levels.

The City Manager shall annually prepare and present a proposed operating budget to the City Council no later than the second regular Council meeting in May of each year; and Council will adopt said budget no later than June 30 of each year. Funds may not be expended or encumbered for the following fiscal year until the budget has been adopted by the City Council.

The City's annual budget will be presented by department, with a logical breakdown of programs and proposed expenses. The budget document will also summarize expenditures at the personnel, operating and maintenance, and capital levels.

Where practical, the City's annual budget will include measures of workload, efficiency, and effectiveness.

BUDGET CONTROL AND ACCOUNTABILITY

Budget control is maintained at the departmental level. The City Manager has the authority to approve appropriation transfers between programs or departments. In no case may total expenditures of a particular fund exceed that which is appropriated by the City Council without a budget amendment. Amendments to the budget are approved by the City Council with the exception of the appropriation and transfer of funds from employee leave reserves to a specific department's program budget to cover unplanned customary termination leave expenditures within a given year. Such amendments may be approved by the City Manager.

Budget accountability rests primarily with the operating departments of the City.

CAPITAL PLANT AND EQUIPMENT

The annual budget will provide for adequate maintenance and replacement of capital assets.

ENTERPRISE FUNDS

The Enterprise Funds shall be supported by their own rates and not subsidized by the General Fund.

The Enterprise Funds will pay their share of overhead services provided by the General Fund.

CITY OF MANHATTAN BEACH FACTS & FIGURES

Date of Incorporation: December 2, 1912 as a General Law City

Form of Government: City Council - City Manager

Municipal Employees: 278 full-time

Public Safety: Two fire stations with 30 sworn personnel; One police station with 65 sworn personnel

Parks & Public Facilities

- 2.1 miles of beach front
- 40 acres of recreational beach
- 928 foot long pier
- 54 acres of developed parks

- 21 acre parkway
- Nine hole golf course
- Two community centers

Libraries: One Los Angeles County branch library

Population: 35,391 (2011 US Census Bureau estimate)

Area: 3.88 square miles

Location: 19 miles southwest of downtown Los Angeles on the southerly end of Santa Monica Bay; 3 miles south of Los Angeles International Airport

Climate: Avg. temperature: 70° F (summer) to 55° F (winter); Annual rainfall: 12.07 inches

Elevation: 120 feet above sea level

Housing (U.S. Census Bureau, 2008-2010 American Community Survey)

Single Family Detached	11,010	70%
Single Family Attached	1,262	8%

GLOSSARY OF TERMS & ABBREVIATIONS

Administrative Service Charge: A transfer of moneys to the General Fund to reimburse the General Fund for work performed in other funds by an employee whose salary is budgeted in the General Fund.

Appropriation: Legal authorization by the City Council to make expenditures and to incur obligations for specific purposes.

Appropriations Limit: Article XIIIB, of the California Constitution, was amended by Proposition 4, "The Gann Initiative," in 1979. This Article limits growth in government spending to changes in population and inflation, by multiplying the limit for the prior year, by the percentage change in the cost of living (or per capital personal income, whichever is lower); then multiplying the figure resulting from the first step, by the percentage change in population. The base year limit (FY 1978-79) amount consists of all tax proceeds appropriated in that year. The Appropriations Limit calculation worksheet can be found in the Appendix of the budget.

ARRA: American Recovery and Reinvestment Act

Assessed Valuation: A dollar value placed upon real estate or other property, by Los Angeles County, as a basis for levying property taxes.

Beginning Fund Balance: Fund balance of a fund, from the end of the prior year, including both available, designated and restricted reserves carrying over into the following year.

BIDs: Business Improvement Districts

Bond: A city may raise capital by issuing a written promise to pay a specified sum of money called the face value, or principal amount, at a specified date or dates in the future, together with periodic interest, at a special rate.

Budget: The financial plan for the operation of a program or organization that includes an estimate of proposed expenditures for a given period of time and the proposed means of financing those expenditures.

Budget Message: A general outline of the budget which includes comments regarding the City's financial status at the time of the message, and recommendations regarding the financial policies for the coming period.

Capital Improvement Plan (CIP): A financial plan of proposed capital improvement projects. CIP projects typically improve City owned assets such as buildings, parks, streets and other infrastructure components. Capital projects often span more than one fiscal year.

Capital Projects & Purchases: A budget category which budgets major equipment purchases and capital improvement projects.

Capital Projects: Improvements costing \$10,000 or more, that have a useful life of one year or more, and selected studies costing in excess of \$5,000, that are expected to lead to a capital project. Examples include constructing a new park, street resurfacing, building remodels/repairs, and construction of water mains.

CIP: Capital Improvement Project/Capital Improvement Plan/Capital Improvement Program

Debt Service: Annual principal and interest payments owed on money has borrowed.

Department: An organizational unit comprised of divisions, or programs. The City of Manhattan Beach has eight departments: Management Services, Finance, Personnel, Parks & Recreation, Police, Fire, Community Development and Public Works.

GLOSSARY OF TERMS & ABBREVIATIONS

Division: A program, or activity, within a department, which furthers the objectives of the City Council by providing services, or a product.

Encumbrances: Financial commitments related to unperformed contracts for goods, or services, for which part of an appropriation is reserved. Encumbrances end when the obligations are paid, or otherwise terminated.

Enterprise Funds: Funds established to account for the total costs of those governmental facilities and services that are operated in a manner similar to private enterprise. These programs are entirely, or predominately, self-supporting.

Expenditure: The cost of goods received or services rendered for the government unit.

Fiscal Year: A 12-month period of time to which an annual operating budget applies. The City of Manhattan Beach's fiscal year is July 1 through June 30.

Fund: A self-balancing set of accounts. Governmental accounting information is organized into funds, each with separate revenues, expenditures and fund balances. There are four major types of funds: General, Proprietary, Special Revenue, and Trust & Agency.

Fund Balance: The difference between a fund's assets and its liabilities. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

GAAP: Generally Accepted Accounting Principles

GASB: Governmental Accounting Standards Board

General Fund: The primary fund of the City, used to account for all revenues and expenditures of the City not legally required to be accounted for in another fund.

GFOA: Government Finance Officers Association

Grant: Contributions, or gifts of cash, or other assets from another entity. Grants are typically to be used, or expended for a specific purpose.

HVAC: Heating, Ventilation & Air Conditioning

Infrastructure: The underlying foundation or basic framework of a system or organization, such as the roads, sewers, and storm drains, etc.

Internal Service Charge: A charge to departments' budgets designed to provide the operation, maintenance and replacement of some shared City function. The City of Manhattan Beach uses internal service charges to provide for its City-wide computer network, operation and replacement of its vehicle fleet, allocation of insurance costs and the maintenance and operation of City facilities.

Internal Service Fund: The City of Manhattan Beach operates four internal service funds: Insurance Reserve; Information Systems; Fleet Management and Building Maintenance and Operation. Internal service funds provide for the operation, maintenance and replacement of some shared City functions.

Line-item: Refers to any individual expenditure object or appropriation detailed in the department's budget.

Materials & Services: This budget category accounts for all non-personnel, and non-capital expenses. Such expenditures include building maintenance, contract services, equipment maintenance, office supplies, and utility costs.

MTA: Metropolitan Transportation Authority

GLOSSARY OF TERMS & ABBREVIATIONS

Municipal Code: The collection of City Council approved ordinances currently in effect. The Municipal Code defines City policy in various categories (i.e., building regulations, planning and zoning regulations, sanitation and health standards, and traffic regulations).

Operating Budget: The financial plan for the operation of a program or organization that includes an estimate of proposed expenditures for a given period of time and the proposed means of financing those expenditures.

Ordinance: A formal legislative enactment by the City Council. An ordinance has the full force and effect of law within the City boundaries, unless it is in conflict with any higher form of law, such as a State statute or constitutional provision. An ordinance has a higher legal standing than a resolution.

Overhire: An authorized position without moneys budgeted for salary and fringe benefits. The overhire concept assumes that a department (particularly Police and Fire) experiences several position vacancies during a fiscal year, and that the salary and fringe benefit savings from these vacancies will off-set the cost of the overhire personnel. The overhire personnel in-turn ensures that the department will not be forced to limit operations because of staffing shortages and can better control overtime expenditures.

Performance Measure: Indicators used in budgets to show, for example, the amount of work accomplished, the efficiency with which tasks are accomplished, or the effectiveness of a program.

Program: An activity, or division, within a department, which furthers the objectives of the City Council, by providing services or a product.

RCC: South Bay Regional Public Communications Authority

Reserve: Used to earmark a portion of the fund balance as segregated for a specific use.

Resolution: A special order of the City Council, which requires less legal formality than an ordinance in terms of public notice and the number of public readings prior to approval. A resolution has lower legal standing than an ordinance. The Operating Budget is approved by resolution, and requires a majority vote of the Council Members present.

Salaries & Benefits: A budget category, which accounts for full-time and part-time employees, overtime expenses, and fringe benefits.

Service Indicator: Indicators used in budgets to show, for example, the amount of work accomplished, the efficiency with which tasks are accomplished, or the effectiveness of a program.

Special Revenue Funds: Funds used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

TOT: Transient Occupancy Tax

Transfer: Moneys appropriated from one fund to another, in order to reimburse the fund for expenses, or to finance the operation of the other fund. Transfers between a Proprietary Fund and a Governmental Fund are budgeted as revenues and expenditures in the various funds, to comply with governmental accounting principles.

Trust & Agency Funds: A classification of funds, which temporarily holds cash for other agencies or legal entities.

UUT: Utility User Tax
