-
1. Banners shall be a minimum length of ten (10) feet and shall be only thirty-six (36) inches maximum in width.
 2. Banners shall have brass grommets at each corner and across the top at 24-inch maximum intervals. Grommets shall have an opening of 3/8 inch. A triangular shaped piece of substantial fabric, a minimum of 12 inches on two sides, shall be double stitched into each corner before the four corner grommets are installed.
 3. Rope shall be a minimum 1/2 inch diameter and in good condition, free from defects. Rope shall be sewn into the top and bottom of the banner.
 4. Half-moon air holes should be cut several times throughout the banner (to prevent wind damage).
