Introduction

CITY MANAGER'S BUDGET MESSAGE

Mayor Howorth and Members of the City Council:

As your new City Manager, it is with great pleasure that I present the Fiscal Year 2018-2019 and 2019-2020 biennial operating budget. As a result of the City's long-standing practice of prudent fiscal stewardship, support and teamwork from City Employees/Service Providers and input from the community, the City of Manhattan Beach is well positioned to continue to protect and maintain the quality of life services our residents deserve and expect, while planning strategically for our long-term financial stability. As City Manager, I am continuously reminded of all we have accomplished together, and as a result, I am very excited to present the operating budget.

This Budget preserves long term financial planning, fiscal responsibility, and serves as a policy document. A budget is more than a spending plan. It is a statement of priorities; a roadmap for the coming year and beyond; a melding of ideas, thoughts, perspectives, and opinions, balanced against fiscal realities and constraints. This budget reflects the collaboration and alignment between the community, the Council and staff members.

The following Budget is an outcome of community and Council engagement. The changes in this budget correlate to what we heard during our community engagement efforts and are a result of Council's policy actions leading up to budget adoption. To that end, in developing this plan, we continued to seek new and innovative methods for gathering the information. Ultimately, our goal was to provide the Council with the tools needed to develop a sound spending plan, and aid in your decision making.

The details of the spending plan are discussed later in the budget message, but I am pleased we have developed a fiscally conservative spending plan that maintains and addresses City Council and community priorities, while leaving sufficient unallocated funds for City Council to further program or set aside for future uses.

Two Year Budget

The purpose of the two year budget is to encourage longer range planning, and link the spending plan to that vision of the Work Plan, which prioritizes the City's goals for the coming years. The multi-year budget is also linked to other planning efforts such as community surveys and civic engagement. The advantages include a greater emphasis on management, service delivery, program evaluation and monitoring. It also improves long-term planning, reallocation of human resources to more value-added activities other than budget preparation, and reduction in staff time spent on budget development in the second budget year.

Under the two year budget, the first year of the biennial budget (2018-2019) is adopted and the second year (2019-2020) is approved as a spending plan but not adopted - that occurs before the beginning of the second year. For clarity, each budget cycle is hereafter referenced by the fiscal year end date, i.e. FY 2019 and FY 2020, respectively. At the end of the first budget year, we will perform an abbreviated review process for any critical changes to the second year spending plan and then formally adopt the second year spending plan.

CITY MANAGER'S BUDGET MESSAGE

One of the greatest benefits to the two-year budget involves the City's Capital Improvement Plan (CIP). Under the one year budget process, the development and approval of the CIP happens concurrently with the budget. Review of the CIP generally occurs at a Budget Study Session as a subset of the operating budget. This does not provide adequate time for a thorough review of one the City's major spending components - capital projects.

Under the two year budget, the first year centers on the operating budget with less emphasis on the CIP. The second year more closely focuses on CIP. Given recent conversations around a few significant possible projects, such as Fire Station #2 and parking technology improvements coming in the near future, an opportunity to more exclusively focus on the CIP during "off-budget" years will prove particularly helpful. And since we have many years of other infrastructure needs before us, a "deep dive" every other year on the CIP elements will serve us well for many budget cycles to come. Doing so addresses the Council's and public's desire to address aging infrastructure needs, before they become more expensive in the future.

Budget Process and Civic Engagement Efforts

This year's budget process began with the City Council revisiting the Budget Policies. These principles addressed fiscal integrity, revenues, reporting, civic engagement, capital budgeting and other standards, which when applied, provided guidance in the creation and execution of the spending plan (the policies are presented in the Appendix of this document).

On January 30, 2018, the City held a Community Budget Social providing a fun and interactive way for attendees to learn about and address their budget priorities with City staff. After receiving information on key operating areas, attendees were given the opportunity to ask questions and provide input on which areas to reduce, maintain or enhance in future years.

To help attendees relate to the City's operating budget areas, City services were defined in four areas: Protect, Preserve, Support and Shine.

- Protect Public Safety and Emergency Services to protect life and property
- Preserve Infrastructure & Investments to preserve our quality of life
- Support Citywide Internal Support Services
- Shine Services & Programs that make Manhattan Beach shine

At the end of the evening, attendees voted to maintain or enhance almost all budget areas. No budget areas received a majority of votes to reduce spending, which is not realistic if all other areas are maintained or enhanced and revenues remain limited. Although no hard data came out of the meeting given the wide-ranging responses received, the Community Budget Social served to provide an engaging way for community leaders to learn about budgetary challenges and discuss their priorities with others.

Further information was gathered using Open City Hall for an online Budget Survey that was publicized and available in January and February. I am so pleased that all of these efforts have truly resulted in a "community-empowered" budget process.

CITY MANAGER'S BUDGET MESSAGE

Strategic Plan & Work Plan

Among the tools utilized in creating the budget was the City Council's Strategic Plan and the more recent City Council Work Plan.

The Strategic Plan is designed to guide decision-making at all levels of the organization and allows the City to focus on core functions and ensure that every department is working together towards common goals. During budget planning season, the Strategic Plan allows the City Council to set budget priorities in line with the overall vision of the City and provides a common language of goals and objectives for all departments.

Mission Statement: Our mission is to provide excellent municipal services, preserve our small beach town character, and enhance the quality of life for our residents, businesses and visitors.

Community priorities identified during the strategic planning process include:

Strong Governance that Values Meaningful Resident Engagement

Excellent Municipal Services Provided by an Aligned and Committed Workforce

Financial Sustainability

Environmental Stewardship

Effective Physical Asset Management - Infrastructure, Facilities, Amenities

Economic Vitality

Each of these pillars includes associated Governance Activities that offer more details on how these ideals can be incorporated into the City of Manhattan Beach on a day-to-day and long-term basis. For more information, please see the Strategic Plan and Performance Measures tab this document, or visit the City's website at www.cityymb.info.

The City Council has held two Work Plan meetings in an effort to build on the Strategic Plan, but with more specific action-oriented, immediate priorities – a task list of sorts. The draft Work Plan is scheduled to be finalized at a community meeting early in FY 2019. Among the top priorities that are part of the draft Work Plan:

- Review and Analyze State Housing Laws and the potential effects on Manhattan Beach
- Enhance Emergency Preparedness for community readiness
- Implement Police and Fire Department dispatch software enhancements as well as communications interoperability systems for improved emergency response
- Negotiate new labor contracts with six bargaining units
- Mitigate General Fund subsidies for the Storm Water, and Street Lighting and Landscaping Funds for long term fiscal sustainability
- Implement improved parking technologies to better utilize resources

The final approved Work Plan is included in the Strategic Plan and Performance Measures section of this document.

CITY MANAGER'S BUDGET MESSAGE

Service Delivery Investments

As a city, we rely upon our employees to provide the quality of life services our residents expect and deserve. And just as any other business adjusts staffing to meet demands, we too must constantly evaluate and adapt to our customers' needs, as well as provide adequate support staffing to fulfill our mission. As a result, several enhancements desired by the public have been included in this two-year budget. Each of these satisfies a critical need in the community and organization. In addition, many of these are directly related to policy priorities and/or direction provided by the City Council.

The list of investments, further described below, include additional human resources as well as equipment and contract services. The Proposed Budget includes a net addition of four full-time employees when considering the elimination of two high-level management positions, and the addition of six rank-and-file positions. While the total number of employees is increasing by four, the net cost *savings* with these changes is approximately \$195,000 per year. The added positions will be instrumental in the day to day operations and therefore expected to have an immediate positive impact on service delivery. To meet the demands of the ever growing desired level of services, the City continues to evaluate necessary positions through streamlining of operations and organizational efficiencies.

This budget directly addresses a number of the City Council's and the Communities priorities, including:

Maintaining Public Safety

Maintaining and Enhancing Public School Safety and Security

Two officers serve as School Resource Officers (SRO) and work at the local schools. They work in collaboration with school officials to promote a safe environment in and around our local elementary, junior high, and high schools. The SROs strive to promote harmonious relationships by presenting themselves as positive role models, maintaining dialogue with students and staff, and participating in school and youth events. They also participate in after-school and summer programs.

In March 2017 City Council approved \$1.0 million from the General Fund towards school safety measures. City Council acknowledged that school safety is not solely a school issue; rather, it is a community concern. Considering the recent violent tragedies that have occurred at schools across the country, this is an emergent concern that requires immediate attention and action. While the Manhattan Beach Unified School District (MBUSD) has some funding which may be used for safety and security, these funds from the City will assist in accelerating and enhancing needed safety and security measures, creating the safest environment possible for students, teachers and anyone else entering MBUSD facilities.

The following are potential measures identified by MBUSD for which funding may be applied:

- Security assessments
- Perimeter fencing and gating

CITY MANAGER'S BUDGET MESSAGE

- Emergency training for teachers and staff
- Communications equipment
- First aid kits
- Classroom door barricade devices
- Security cameras
- AED replacements

Although first appropriated in March 2017, the funds were not spent by the end of FY 2018 and thus were carried forward into FY 2019 for spending.

Police and Fire Department Radio Interoperability

One of the greatest challenges the public safety sector has is communications between varying radio and wireless networks. First responders converging on major emergency incidents or crossing jurisdictional boundaries lack the communication tools to coordinate response and intelligence gathering efforts. Manhattan Beach's Police and Fire communications are provided through the South Bay Regional Public Communications Authority (SBRPCA). This system provides interoperability among the multiple agencies utilizing the SBRPCA system, as well as other South Bay cities. However, once those agencies travel outside the South Bay, communications back to home base are not possible. This is particularly problematic when participating in a multi-agency incident, regardless of the location.

The Interagency Communications Interoperability (ICI) System was formed in order to develop a regional communications platform for agencies in the Los Angeles area. Seven local Area G agencies (cities of El Segundo, Hermosa Beach, Redondo Beach, Torrance, Gardena, Hawthorne and Manhattan Beach) came together to form a Joint Powers Authority (JPA), the Interoperability Network of the South Bay (INSB), for the purpose of managing the system in the South Bay. The INSB member cities are sharing in the implementation costs of the new interoperable radio network. SBRPCA has secured grant funding to complete the infrastructure upgrade; each member agency is responsible for upgrading their own radio equipment. This requires the replacement of all in-car and portable radios to Motorola ICI system compatible radios.

In FY 2019, the City will be purchasing replacement portable and in-vehicle radios compatible with the new Los Angeles area Interagency Communications Interoperability (ICI) System. The new radios will allow communications between Public Works personnel, and Police and Fire personnel, as well as cross-jurisdictional communication in the event of a large-scale disaster. The total discounted cost for all Public Safety and Public Works radios is \$1,273,895.

Maintaining Police Department Staffing

In FY 2019 the Police Department will be adding a full-time Administrative Clerk I/II position to help support the number of incoming public records request at an estimated net cost of \$37,928 after part-time and overtime offsets. The Police Department has experienced a dramatic increase in public records requests over the past few years. The number of requests has continued to grow exponentially over the years. During 2016, the Department received 883 public records requests. In 2017, those numbers rose to more than 1,800 public records requests. The staggering number of requests is more than current staff can handle, and timely processing of these requests is causing significant and growing overages to the overtime budget.

CITY MANAGER'S BUDGET MESSAGE

The FY 2019 Budget also includes the upgrade of two Records Technician/Matron positions to Lead Records Technician/Matrons positions. Currently, the span of supervision is insufficient in the Technical Support Services Section; one Manager supervises a unit with 13 full-time employees and several part-time employees. These employees collectively provide services at the front desk 24 hours a day, 7 days a week, as well as providing matron assistance in the jail, as needed. The new Lead positions will assist the Records Manager with supervision of daily operations, projects, and scheduling. Creating the lead worker positions carries an estimated cost of \$8,256.

Achieving Greater Environmental Sustainability

In 2018, the City established a Sustainability Task Force, which is a community-based technical working group composed of multi-departmental City staff and a broad array of community stakeholders with environmental experience. Over the next two years, this working task force will assist the City's Environmental Sustainability Division in developing sustainability goals, while sharing technical skills and lessons learned from previous environmental and sustainability pursuits, to contribute to the development of policies and programs related to a variety of topics:

- Climate Action and Energy
- Low-impact Development and Sustainable Building
- Plastic Pollution Reduction
- Smart Water Management
- Climate Adaptation and Resiliency

Climate change impacts Manhattan Beach residents' health, well-being, and economic vitality as well as our beaches and environment. Manhattan Beach plays a critical role in state efforts to bring down greenhouse gas emissions, while also reducing the vulnerabilities of people and assets and adapting to the impacts of a changing climate. As a local government, the City is uniquely positioned to implement on-the-ground solutions that reflect Manhattan Beach's community values, creating a lasting impact from the bottom up. To achieve this, staff will work to build the City's Climate Change Resiliency efforts through:

- Developing and adopting a comprehensive Climate Action Plan that includes both municipal and community goals.
- Using best available science and cutting-edge Sea Level Rise (SLR) models to assess the City's vulnerability to climate change.
- Initiating the creation of a Sea Level Rise Vulnerability Assessment, which will lead to the creation of a Sea Level Rise Adaptation Plan to update the City's Local Hazard Mitigation Plan, General Plan Safety Element, and Local Coastal Program.

As the State's energy code grows increasingly stringent, new state-level mandates that aim to push California to respond to climate change quickly and more effectively. The budget includes \$150,000 in fiscal years 2019 and 2020 to initiate the climate action plan and climate resiliency program.

CITY MANAGER'S BUDGET MESSAGE

Service Delivery Changes

Community Development Department

The Department currently has an existing part-time Administrative Clerk that works nearly full-time hours to keep up with for records management for the department. Converting this part-time position to a full-time position allows the Department to move forward with digitization and organization of the entire Department's records to include Planning, Traffic Engineering and Environmental Programs. Having a full-time Clerk will maximize staff knowledge and experience, increasing the value of their training, responsibilities and impact of their position. The Department will soon commence the implementation of a new electronic permitting software enhancement program to streamline the permitting process at the Department's one-stop shop public counter. The conversion of this position is estimated to add \$6,964.

A new Traffic Engineering Technician I/II/III position will be added to assist the Traffic Engineer as a parking manager, to conduct special traffic studies, process various Right-of-Way permits, and to address various traffic and parking related requests received from the community. In addition, the Engineering Technician will be responsible for administrative duties, basic traffic investigative office and field work, with a primary emphasis on parking management. The estimated annual cost for this additional resource is \$87,609.

During FY 2018, the City Council discussed revisiting the short-term rental policy. An evaluation is necessary to balance allowing limited short-term rentals, while minimizing impacts to residential neighbors and enhancing revenues. A consultant is needed to take the lead on setting up and implementing the Program, including administration and enforcement. Assistance can be provided to amend the Zoning Code and Local Coastal Program and submit all the required Amendment material to the California Coastal Commission for Certification. The evaluation is scheduled during FY 2020 at an estimated cost of approximately \$80,000. Should the program be re-approved, all consultant costs will be offset by Transient Occupancy Taxes received from short-term rentals.

During FY 2019, the traffic engineering division will conduct an update of its Engineering and Traffic Survey (ETS) that sets speed limits on key streets throughout the City. An ETS report is required by the State in order to legally enforce the posted speed limits and to enable the Police Department to utilize radar or other electronic speed measuring devices for speed enforcement. The ETS will cost \$50,000.

Local municipalities are strongly encouraged to develop local traffic impact guidelines. Pursuant to SB 743 and the City's Mobility Plan goals, the Traffic Engineer will establish local Traffic Impact Guidelines for new developments to address potential environmental impacts, using both Vehicle Miles Traveled (VMT) as well as locally sensitive significance thresholds, such as street and intersection level-of-service. Development of the Traffic Impact Guidelines is estimated to cost \$80,000 and is budgeted in FY 2020. This timing will ensure the new Traffic Engineering Technician will be in place to assist with workload demands.

Public Works Department

The City previously had two Public Works Inspectors. As an outcome of the great recession one position was frozen and later eliminated. As residential and commercial construction activity has grown, the need for a second Inspector is evident. There is simply more work than one person

CITY MANAGER'S BUDGET MESSAGE

can perform. At an estimated cost of \$82,261, reinstating the second Public Works Inspector will allow the Department to once again provide full service counter coverage for customers. The second Public Works Inspector will support both the Community Development and Public Works Departments by adding a resource for private and public property development impacting the public right-of-way permitting and encroachment inspection. Additionally, this position will assist the existing Public Works Engineering/Inspector with plan check related activities to meet the targeted goal of a four to six week turnaround for plan review. All of these benefits are consistent with priorities and expectations of the City Council for expedient service delivery.

A second Electrician position was also reinstated at a net *savings* of \$17,153 to the City. This position was also eliminated years ago during the recession to assist with budget issues. However, since then, the City has satisfied the growing workload demands through an outside contractor. This has proven to be costly as contract costs now exceed the cost of reinstating a second Electrician (salary, benefits, equipment, etc.) as an employee.

In FY 2019 and 2020, the City will expand the Engineering Technician series from I/II to I/II/III to assign higher caliber, more complex responsibilities. With the City's robust Capital Improvement Program and strong public engagement initiatives, the caliber of work the Engineering Technician position is responsible for is beyond a I/II level and more in line with a level III. This expansion of the classification has a net cost of approximately \$9,300.

In FY 2019, a CCTV (Closed Caption Television) vehicle will be purchased to house the City's CCTV equipment to perform in-house mobile CCTV inspections citywide. The small utility vehicle will be able to accommodate narrow locations including the City's walk streets. Also, a portable sewer line push camera will be acquired to inspect sewer laterals or sewer lines in easements and at public facilities. With this vehicle, the City will be able to eliminate all CCTV contract services (except emergencies). The cost of the vehicle and push camera will be approximately \$70,000 and paid for using sewer utility fees.

During the next two fiscal years, special fleet purchases include an electric vehicle to replace an 18-year old van used by engineering staff for field work and inspections. A flatbed golf cart will be purchased for the Parks and Recreation Department to provide easier access to the interior of citywide parks without causing groundcover damage. Both of these purchases will be made from accumulated AQMD AB2766 funds. Other fleet purchases include the purchase of two utility trucks for the reinstated Public Works Inspector and Electrician positions.

Parks and Recreation Department

The Parks and Recreation Department underwent a comprehensive internal assessment when there was a vacancy for the Recreation Services Division Manager position. The result of this effort was a reorganization of the department, providing greater efficiencies and improved service delivery. As part of the re-organization, the Senior Recreation Manager will provide oversight to the Recreation Division, Sports & Aquatics, and Marketing & Registration. Sports and Facilities will be under the general supervision of a Senior Recreation Supervisor; Youth, Teen, and Aquatics will be under the general supervision of another Senior Recreation Supervisor; and a full-time Recreation Coordinator will coordinate all youth and teen programs. The new structure will provide better alignment of job responsibilities in facilities, sports operations, management, and youth and teen programming. This reorganization results in net *savings* of approximately \$83,500.

CITY MANAGER'S BUDGET MESSAGE

Dial-A-Ride ridership continues to increase each year. In FY 2017, ridership increased by 21%. Also in 2017, tablets were deployed on the buses for more efficient scheduling, daily schedule changes, and data entry. The number of rides provided continues to increase. Mid-year 2018 rides were up an additional 8%. The part-time staffing budget increases each year to meet the increased needs of the older adults in the community, with this year's increase at \$14,514. An exchange of General Fund dollars for additional restricted Prop A funds is required to eliminate the transportation program deficit. Beginning in FY 2019, Measure R funds will no longer be used to subsidize the Dial-a-Ride Program as done in the past. With this change, Measure R funds will be directed back to street repairs and capital improvements as intended.

Management Services Department

In FY 2016, the City Manager's Office established a Management Analyst position to support the objectives of this office and the division as a whole, including supporting public policy considerations, community engagement activities, online civic engagement, and analysis and logistics for special projects or initiatives. Based on the success of this position and the ever-growing needs in the community and the organization, this position will be upgraded to a Senior Management Analyst at an estimated additional cost of \$5,000. This will enable the City Manager's office to continue supporting the objectives listed above, while increasing emphasis on facilitating local and regional media relations, as well as internal communications, and conducting outreach to and coordination with the City's business community.

Finance Department-Fiscal Sustainability and Accountability

The Financial Analyst position is essential to the budget development process. In the last several years, the position's role has evolved and now requires complex financial analysis skills, extensive knowledge of accounting and auditing principles, experience in communicating technical financial matters, and the ability to facilitate Citywide initiatives. With the increasing demands on the department and the organization, this position will be upgraded to a Senior Financial Analyst and a new Management Analyst position will be added to conduct the Department's less technical administrative workload (e.g. grant tracking and recurring financial reports). Upgrading the Financial Analyst carries an estimated cost of \$5,400 and, with the elimination of a part-time position, the Management Analyst is estimated to add \$52,007. These changes will ensure the Department has sufficient resources to meet its objectives as well as have some capacity to take on future work plan items. Both positions will also be instrumental in the implementation of the new Enterprise Resource Planning (ERP) software enhancement project slated to commence in FY 2019. This also provides for expected succession planning in the next 2-3 years within the department.

A flex class has been added for the existing Account Services Representative positions (cashiers, utility billing, business licensing, etc.). The addition of the flex II class provides an advancement opportunity for an Account Service Representative who reaches a higher level of proficiency and tenure as a subject matter professional. Planned for implementation in FY 2020, this change is estimated to cost \$6,240 in year two.

During fiscal year 2019 staff will conduct a User Fee Study and Cost Allocation Plan (CAP). The study was last completed in 2015. This process identifies the costs associated with providing each non-tax supported service, and assigns the fully-burdened rate (i.e. direct labor costs, as well as indirect costs) of each City position involved in delivery of those services. The purpose of the CAP is to ensure that the City identifies all costs associated with activities, including

CITY MANAGER'S BUDGET MESSAGE

overhead, to determine the true cost of providing various City services, as well as, indirect costs attributable to enterprise and other chargeable funds. The study, scheduled to start in January 2019 and take approximately six months to complete, is budgeted in FY 2019 for \$50,000.

Technology Investments

Enterprise Resource Planning (ERP)

Technology continues to be a focus as we look for efficiencies and customer service enhancements. One of the City's main mission critical technology applications is the Financial/Human Resources system. Accounting, utility billing, procurement, animal and business licensing, payroll, employee records, accounts payable and receivable, budget preparation, etc. are all maintained in one centralized application. The City has utilized and maintained that same system since 1996, performing upgrades as required and/or beneficial. But technologies evolve, and while the provider continues to support our current platform, it appears that they will not be investing in the current system in the long term. As a result, a new ERP system has been planned for proactively and budgeted for in FY 2019 and 2020. Expenditures during fiscal year 2019 are estimated to be \$600,299 which will be paid out of the IT fund. Utility billing expenditures in the amount of \$118,593 will be charged to the appropriate enterprise funds.

ERP type systems are often designed to integrate with other modules by the same provider, or with other systems utilized as the standard for a particular industry (such as EnerGov for permitting). Another major benefit is automating expensive, labor intensive paper processes with automated work flow, allowing for employee time to be devoted to more value-added service. The goal of any new ERP system we select will be to leverage our investment, not only in the new system, but in other technologies to enhance customer service and improve efficiencies.

Permitting Solution

During the ERP evaluation process Community Development and IT staff also reviewed new permitting solutions. An integrated contemporary enterprise level permitting "Land Management" system will provide business automation, improve business processes, provide online public access, and integrate with existing City systems. System benefits include increased transparency, 24/7 access portal for customers/citizens, eGovernment and web services with respect to the permitting process, staff offline app access, centralized databases and Enterprise System integrations, and streamlined workflows promoting staff efficiency and improved customer service. The estimated cost of the permitting solution in FY 2019 is \$380,240. During FY 2019 the City will conduct a comprehensive fee study and cost allocation plan in which the cost of the permitting system may be offset through adjusted fees.

The City invested in an enterprise backup solution and scalable Storage Area Network (SAN) that supports centralized management of high-speed data storage and retrieval of critical City applications. The existing backup solution and SAN, purchased in 2012, will be replaced to provide a larger storage capacity for existing programs and growth as well as ERP and Land Management/Permitting requirements. The \$409,000 investment will ensure business continuity and is included in the Information Technology Fund budget in FY 2019.

CITY MANAGER'S BUDGET MESSAGE

Economic Outlook

The City continues to see overall economic stability with most major revenues advancing along with the overall economy. The housing market is healthy and along with it the City's Property Tax revenue collections. Building activity is robust, and tourism and travel are strong. Sales Tax continues to be a challenge but is showing signs of stability.

As a service organization, the City delivers services through our dedicated employees. Current three-year labor agreements are ending in December 2018 with the City's four bargaining units. New long-term agreements will be negotiated this fall to provide predictability in one of the City's biggest cost centers. After salaries, the second largest compensation driver for the City is retirement system costs. In FY 2019, the City is budgeting \$4.1 million to provide employees with defined benefit pension plans through the California Public Employees' Retirement System (CalPERS). Calculated as a percentage of payroll, this current service cost (i.e. the "normal cost") will increase by \$112,958 to \$4.2 million in FY 2020.

More significantly, payments toward the City's unfunded accrued liability (UAL) are rising substantially as the impacts of CalPERS contribution policy changes and assumption changes take full effect. The net results of these changes, which are designed to shore-up the CalPERS pension system to ensure viability, come with a price. For Manhattan Beach, our contributions are expected to rise from \$4.0 million in FY 2019 to \$6.9 million in FY 2023. (For comparison, the normal cost contributions for current service are expected to rise from \$4.1 million in FY 2019 to \$4.8 million in FY 2023.) Due to the two-year lag in valuation dates and contribution calculations, fiscal years 2019 and 2020 are the first to see the impact of CalPERS' discount rate reduction to 7%. The full impact of the discount rate change will be realized by the fiscal year ending June 30, 2025.

In FY 2019, the total of \$4.0 million budgeted for the City's unfunded liability payments breaks down to \$1.3 million for miscellaneous employees and \$2.7 million for sworn public safety personnel. In FY 2020, these amounts increase to \$1.6 million and \$3.3 million, respectively.

In an effort to closely monitor our pension costs, the City consults with an independent actuary to review our plans and project rates beyond what CalPERS provides. This is a distinctive and progressive action to take as most agencies simply rely on the more dated and short-term analysis regularly provided by CalPERS. Using long-term actuarial analysis allows us to more accurately plan farther on the horizon.

Recently, we consulted with the actuary for an update on projections given recent CalPERS policy changes and investment returns. Investment returns in FY 2015 (2.4%) and FY 2016 (0.6%) fell well below the previous assumed 7.5% rate of return further exacerbating the City's unfunded liability. Most recently CalPERS generated an 11.2% rate of return for the fiscal year ending June 30, 2017. While these changes clearly have an impact on our fiscal outlook, we are able to absorb the revised projections provided by the independent actuary under our conservative financial projections.

It is important to note that while a lot of attention has been given to unfunded pension liabilities, the City's three employee plans with CalPERS (Police, Fire and Miscellaneous Non-Sworn) are

CITY MANAGER'S BUDGET MESSAGE

currently funded between 71.2% and 76.2% as of the last actuarial report (as of June 30, 2016). Unfunded liabilities currently total approximately \$65.6 million.

To help mitigate legally-obligated pension costs, the creation of a Pension Stabilization Trust Fund was approved by the City Council. This tool is intended to provide the City with an option for setting aside funds for pension purposes that present the opportunity to achieve a better rate of return on funds at an acceptable level of risk, diversify our pension investments, and act as a “rainy day” fund to help stabilize variable pension contributions. This is a growing trend among public agencies seeking to mitigate pension cost growth and provide a hedge against rate spikes. Initially, this trust was funded by a transfer of \$750,000 from available unallocated fund balance. Additional transfers (\$250,000 per year) are planned over the next five years to build up the fund.

Five Year Forecast

The City of Manhattan Beach is committed to its strong stewardship of taxpayer dollars, including developing a community-engaged and responsive budget that delivers the high quality services our residents expect and deserve. Each year, as the budget is prepared, we project revenues and expenditures for the coming five years (located in the Five Year Forecast tab of the budget document), the proper fiscal management of which is essential to maintaining our public safety and quality of life services. We estimate revenue and expenditure growth using trend analyses, consultant support, economic data and known future changes. In the case of one of the City's major expenses, pensions, an independent actuary is retained.

Our forecast also projects fund balances, including policy reserves and unreserved balances. The forecast included in this year's budget shows that the City has been successful in maintaining a fiscally prudent policy of setting aside reserve funds (20% of expenditures) for emergencies and urgent needs and, additionally, an Economic Uncertainty reserve of \$4 million through FY 2020. However, transfers to other funds are impacting the General Fund.

Fund transfers are indicated for easy identification of fund subsidies, such as the Street Lighting and Landscape Fund and the Storm Water Fund, both of which are being subsidized by the General Fund in FY 2019 in the amounts of \$179,962 and \$1,248,046 respectively. These subsidies increase to \$195,335 (Street Lighting and Landscape Fund) and \$1,769,582 (Stormwater Fund) in FY 2020. The significant increase in the Stormwater Fund is due to a one-time outlay of \$500,000 for the City's matching portion toward the Hermosa Greenbelt Joint Watershed Project.

As the General Fund is also the source of essential City services such as police and fire, street/pothole repair, building and safety, and parks, it is of utmost priority to address this pressure on the General Fund by identifying additional sources of funding for Storm Water and/or our core services. With the State having taken nearly \$67.1 million of the City of Manhattan Beach's money over the last 25 years, it is clear that a reliable, locally-controlled source of revenue that can't be taken by State or Federal governments must be identified to protect and maintain local services such as public safety, and address aging infrastructure before it becomes even more expensive to address in the future.

CITY MANAGER'S BUDGET MESSAGE

Significant unfunded capital improvement (infrastructure) projects, such as the replacement of Fire Station #2, recreational facilities, additional parking, and upgrades to essential public buildings and community centers, have no identified funding source. Coupled with the inadequate funding of Storm Water and Street Lighting drawing upon the General Fund - which in the past was the only other funding source for these needs - we are faced with difficult choices in balancing quality of life service needs, deteriorating (or aging) infrastructure and long-term fiscal sustainability as the community has continued to rely on our core services while requesting the City fix old infrastructure and undertake the actions needed to protect clean water and keep our beaches and Santa Monica Bay clean.

BUDGET OVERVIEW

While in practice we look at the budget on a fund-by-fund basis, the following summaries include the entire budgets for FY 2019 and FY 2020 and compares each to the prior year's adopted budget.

Expenditures in FY 2019 are considerably higher than FY 2018 due to scheduled capital improvement projects, notably the replacement of our Peck Ground Level Reservoir in the Water Fund. Built in 1957, the Reservoir has exceeded its useful life. Design is currently underway, and the reconstruction budgeted in FY 2019 is estimated to cost \$22.0 million and take 16-20 months. Water Fund reserves will be utilized for this significant expenditure.

CITY MANAGER'S BUDGET MESSAGE

The FY 2019 Budget was adopted as follows:

Fund	Revenues			Expenditures		
	Adopted FY 2018	Adopted FY 2019	%-Change	Adopted FY 2018	Adopted FY 2019	%-Change

CITY MANAGER'S BUDGET MESSAGE

Specific information on each of these funds may be found later in this budget message.

Debt Service

Debt service for FY 2019 approximates \$2.8 million (excluding administration fees) and includes: \$770,463 for the Police/Fire facility; \$254,350 for Water/Wastewater improvements; \$709,463 for the Metlox parking facility; \$480,975 for the financing of the Marine Avenue Sports Fields; and \$149,850 in underground utility bond debt which exists as an assessment pass-through appropriation on the City's books. The underground utility bond debt was refinanced in FY 2018 to take advantage of lower interest rates. Due to the timing of the refunding, no principal payment is due in FY 2019. Finally, there is \$440,000 in an operating lease for the County parking lots.

Debt service in FY 2020 approximates \$3.7 million (excluding administration fees) and includes: \$770,238 for the Police/Fire facility; \$257,375 for Water/Wastewater improvements; \$713,763 for the Metlox parking facility; \$481,975 for the financing of the Marine Avenue Sports Fields; and \$996,950 in underground utility bond debt which exists as an assessment pass-through appropriation on the City's books. Finally, there is \$440,000 in an operating lease for the County parking lots.

An executive summary schedule of revenues, expenditures, reserves and changes in fund balances is presented in the Summaries section of this budget.

FUND SUMMARIES

General Fund

At year-end, current estimates for FY 2018 indicate that revenues will exceed expenditures by \$2,708,127. This anticipated surplus is primarily due to one-time capital expenditures being carried forward into FY 2019 for completion. These purchases include the aforementioned funds to maintain/enhance school safety, public safety radios, the City's portion of the RCC's CAD/RMS replacement and the ERP software upgrade project.

The unreserved (available) General Fund balance on June 30, 2018 is projected to be nearly \$5.1 million after accounting for financial policy designations. However, the FY 2019 budget includes transfers of \$179,962 to the Street Lighting and Landscape Fund and \$1,248,046 to the Storm Water Fund to relieve deficits. Additionally, at the end of FY 2019, the financial policy designation, which is based on 20% of General Fund expenditures, equals \$14,937,974, an increase of \$857,921 due to an increase in General Fund expenditures from the prior year. The Economic Uncertainty reserve is expected to be maintained at \$4.0 million through June 30, 2020.

FY 2019 General Fund revenues total \$75,505,117. Expenditures, including the carry-forward re-appropriation for MBUSD safety and security enhancements, total \$75,689,871, resulting in a budget deficit of \$184,754. Without this \$1.0 million re-appropriation, General Fund revenues would exceed expenditures by \$815,246. As a result of the transfers and policy reserves, the unreserved General Fund balance is projected to total \$1.8 million on June 30, 2019. While these moneys may have been utilized in the past for capital improvements or allocated to one-

CITY MANAGER'S BUDGET MESSAGE

time expenditures (e.g. MBUSD security upgrades), these funds should be retained for future subsidies to the Street Lighting & Landscape Fund and Stormwater Fund.

Revenues:

General Fund revenues are projected to be \$75,505,117 in FY 2019, an increase of \$4.5 million or 6.3% from the FY 2018 adopted budget. The increase is mainly due to Property Tax, Building and Planning fees, and a one-time loan principal repayment due before December 2018.

Revenues forecasted in FY 2020 total \$75,199,750, a decrease of 0.4% or \$305,367 from the FY 2019 Budget. Without the one-time loan repayment in the prior year, recurring General Fund revenues will increase nearly \$1.2 million primarily due to Property Tax. Revenue forecasts are based on current trends and activity; assumptions may be adjusted during the FY 2020 Budget update when more precise information is available.

Specific revenue highlights include:

Property Taxes: For FY 2019, we are expecting continued solid improvement in overall property tax revenues of \$1.4 million over FY 2018 estimates (4.5%). With a continued strong housing market, and residential construction and remodeling adding to the assessed valuation of properties, we are anticipating measured continuation in future years of this upward trend in the General Fund's largest revenue source.

FY 2017 Actual:	\$28,215,712
FY 2018 Budget:	\$29,511,005
FY 2018 Estimate:	\$30,289,636
FY 2019 Budget:	\$31,657,588
FY 2020 Budget:	\$32,815,601

Sales Tax: The City's second largest General Fund revenue source (12% of total revenue) is trending on par with the FY 2018 Budget. At this point in time, staff is projecting that sales tax in FY 2019 will exceed the current year estimate by \$150,000 (1.7%). Industry groups performing positively within the City include Restaurants & Hotels and Food & Drugs. The Manhattan Village Mall revitalization project currently underway is expected to bolster the General Consumer Goods category. Overall trends within the State indicate continued strong growth in online sales, which impacts point-of-sale tax revenues. Online sales result in the collected sales tax going into a countywide pool, which is then allocated based on the City's share of point-of-sale taxes countywide. This trend is expected to continue, further impacting the City's future sales tax revenues.

FY 2017 Actual:	\$8,962,617
FY 2018 Budget:	\$9,000,000
FY 2018 Estimate:	\$9,000,000
FY 2019 Budget:	\$9,150,000
FY 2020 Budget:	\$9,150,000

CITY MANAGER'S BUDGET MESSAGE

Transient Occupancy Tax (TOT): This revenue is expected to generate approximately \$4.5 million in revenue in FY 2019, or \$250,000 (5.9%) over the current year estimate, which was negatively impacted when a significant TOT producer underwent a complete remodel in FY 2018. The loss of revenue due to the remodel and minimal growth at other hotels in FY 2018 resulted in the year-end estimate to be under budget by 6.1% or \$276,500. With the contemporary accommodations now completed, TOT revenues are expected to bounce back in FY 2019 and see modest growth in FY 2020. TOT revenue also affects the Capital Improvement Fund since 15% of the total TOT is dedicated to that fund (the CIP amount is not included in the numbers below).

FY 2017 Actual:	\$4,428,868
FY 2018 Budget:	\$4,526,500
FY 2018 Estimate:	\$4,250,000
FY 2019 Budget:	\$4,500,000
FY 2020 Budget:	\$4,590,000

Business License Tax: Business License Tax is anticipated to outperform budget by \$100,000 (2.8%) in FY 2018. Budget-to-budget, this revenue is projected to increase by \$211,000 (5.9%). During the economic crisis this revenue was resilient and stable. The overall improvement in the economy is contributing to modest growth in this tax.

FY 2017 Actual:	\$3,658,194
FY 2018 Budget:	\$3,600,000
FY 2018 Estimate:	\$3,700,000
FY 2019 Budget:	\$3,811,000
FY 2020 Budget:	\$3,925,330

Building Permits & Plan Check Fees: Residential and Commercial building activity remains strong within the City. Building Permit and Plan Check fees are currently at all-time highs due to several large commercial projects, including the Manhattan Village Mall remodel. The fee structure was last adjusted in July 2015; a new study will be conducted in FY 2019. At the current fee structure, fees from Building Permits and Plan Check Services are expected to increase by \$90,000 (2.5%) over current year-end estimates in FY 2019. A decrease is anticipated in FY 2020 due to the conclusion of the mall project.

FY 2017 Actual:	\$3,205,000
FY 2018 Budget:	\$3,364,400
FY 2018 Estimate:	\$3,600,000
FY 2019 Budget:	\$3,690,000
FY 2020 Budget:	\$3,450,000

A complete listing of revenues is located in the Summaries section of this document.

General Fund Expenditure Highlights:

General Fund expenditures equal \$75,689,871 in FY 2019, an increase from the FY 2018 budget of \$5,289,606 (7.5%) and \$6,950,006 (10.1%) over FY 2018 year-end estimates. The following chart illustrates the specific budget categories and the associated changes from FY 2018:

CITY MANAGER'S BUDGET MESSAGE

FY 2019 General Fund Budgeted Expenditures by Category

Expenditure Category	Budget FY 2018	Estimated FY 2018	Budget FY 2019	FY18 Budget to FY19 Var		FY18 Estimate to FY19 Var	
				Change	Percent	Change	Percent
Salaries & Benefits	\$47,073,640	\$47,083,673	\$50,433,995	\$3,360,355	7.1%	\$3,350,322	7.1%
Materials and Services	13,020,401	12,712,775	15,395,203	2,374,802	18.2%	2,682,428	21.1%
Internal Service Charges	8,506,954	8,387,228	7,689,574	(817,380)	(9.6%)	(697,654)	(8.3%)
Capital Equipment	1,163,585	74,947	1,570,033	406,448	34.9%	1,495,086	1994.8%
Debt Service	617,678	462,725	484,475	(133,203)	(21.6%)	21,750	4.7%
Interfund Transfers	18,007	18,517	116,591	98,584	547.5%	98,074	529.6%
Totals	\$70,400,265	\$68,739,865	\$75,689,871	\$5,289,606	7.5%	\$6,950,006	10.1%

With a \$3.4 million increase (7.1%) from the prior year budget, Salaries and Benefits represent the largest portion of the increase, and account for 67% of General Fund expenditures. The increase includes the new positions previously described, as well as modest salary adjustments in anticipation of labor negotiations that will occur in FY 2019. CalPERS pension contributions, which are increasing by \$1.0 million in the General Fund, are part of this category as well. Beginning in FY 2019, separate object codes will be used to track ongoing pension contributions (4211 for Regular Employees and 4212 for Sworn Employees) and payments to reduce the City's unfunded liability. New object codes for PERS Liability Contributions (4218 for Regular Employees and 4219 for Sworn Employees) can be found in each Department/Program expenditure schedule and the accompanying Appendix tables. When comparing FY 2019 and FY 2020 budgets to the prior year, it is important to include both objects (4211 and 4218 for Regular Employees; 4212 and 4219 for Sworn Employees) for an accurate comparison. This change was intended to appropriately differentiate current service costs ("Normal Cost") from payments toward the unfunded accrued pension liability for past service ("UAL").

This year the most significant driver of the variance in Salaries and Benefits between FY 2019 and FY 2018 are Workers' Compensation costs. In this budget cycle, the City is moving toward using an actuarial evaluation to estimate baseline funding needs of the City's Workers' Compensation and Liability programs. Consequently, Workers' Compensation charges are increasing by \$1.2 million (35.8%) from FY 2018 to \$4.6 million in FY 2019. On the other hand, Liability charges (categorized as Internal Service Charges) are expected to decrease from FY 2018 by \$1.5 million (-49.8%) to \$1.5 million due to recent positive claims developments. More information on the Insurance Reserve Fund can be found in the Internal Service Funds section later in this document.

The FY 2019 budget includes a 4.0% vacancy factor for full-time staffing, which equates to \$1.6 million across all funds, and approximately \$1.5 million in the General Fund. This vacancy factor is in recognition of the fact that there are times throughout the year that positions are vacant through attrition and retirements, and that salary savings are achieved during those vacancies. This practice, which was implemented several years ago, reduces funds allocated for staffing,

CITY MANAGER'S BUDGET MESSAGE

but may result in insufficient funding if such vacancies do not occur. The prior practice of fully budgeting staff positions would result in year-end savings, which would contribute to fund balance or other uses such as capital improvement projects. This current method simply estimates and recognizes vacancies up-front, with the expected savings factored into the budget.

Materials and Services are up 18.2% from last year's budget by \$2.4 million. Specific drivers of this increase include the \$1.0 million carry forward re-appropriation for MBUSD safety and security measures, election costs (increased \$126,972 since election did not occur in FY 2018), and Legal Services which went up by \$318,000 (64.2%). When compared to the current year estimate, Legal Services is going up by \$108,000 or 15.3%. Additional monies to assist with labor negotiations scheduled later in 2018 contributed to this increase. The City Council Contingency allocation, which is also included in this category, remains unchanged at \$100,000.

Also within Materials and Services, Contract Services is increasing \$587,206 (10.5%) due to various City initiatives requiring additional resources. Consultant services are included for a Citywide Speed Survey in the Traffic Engineering division for \$50,000 and Environmental Sustainability efforts toward a Climate Action Plan and Sea Level Rise Vulnerability Assessment for \$150,000 (an additional \$150,000 is also included in FY 2020 to continue these efforts).

In the Planning division, consultant services will be utilized to provide support for upcoming current and advanced professional planning projects and studies, and administering zoning ordinances, policies and procedures for development permits. During times of peak building activity, as has been the case in the last few years, outside consultant assistance is recommended to ensure the Planning division is able to meet customer service objectives as well as complete advance planning initiatives. When the counter activity eventually recedes, it is easier to reduce consultant contract services rather than facing the tough decision to eliminate unneeded staff. Likewise the budget for Building contract services was increased according to the new 3-year Plan Check services contract approved by the City Council in October 2017. By having these outside resources available, staff is better positioned to meet the desired four to six week turnaround time and process customer requests for expedited services. It is important to note that these costs are fully recovered through Plan Check fee revenues.

Lastly, Materials and Services includes a budget of \$161,000 to expend General Fund dollars in exchange for restricted Prop A dollars (estimated to cost \$0.70 for every \$1 in Prop A) to fully fund the City's Dial-A-Ride program. Previously the program's shortfall was subsidized by Measure R transportation dollars, which are now being redirected back to their intended use of roadway and sidewalk projects.

Internal Service Charges are decreasing by \$817,380, or -9.6%. These funds include the Insurance Reserve, Fleet, Information Technology and Building Maintenance funds, and are used to capture and allocate common costs across all departments. The decrease is due to the aforementioned Liability Insurance allocation (down \$1.5 million), which reflects the recent positive activity in liability claims. Other internal service allocations (Fleet, Information Technology, and Building Maintenance) were collectively up \$667,855 due to higher costs in those operations.

CITY MANAGER'S BUDGET MESSAGE

The decrease in debt service (\$133,203) from FY 2018 is due to the removal of lease-purchasing financing budgeted for equipment purchases. For various reasons, these purchases (ERP Software and Motorola Radios) were not completed in FY 2018 and therefore carried forward to FY 2019. Coincidentally, repayment of the City Manager loan is due in December 2019. With this expected influx of cash, a cash purchase is planned for the equipment to forego the added interest costs of financing.

Expenditure projections for FY 2020 reflect an overall decrease of \$1,064,200 (-1.4%) from the FY 2019 Budget, mainly due to one-time expenditures in the preceding year. Salaries and Benefits are expected to increase \$1.7 million (3.5%) due to projected increases in PERS and medical insurance costs. Modest salary increases are included in these budget projections as a placeholder until labor negotiations are completed in FY 2019. Notably, required contributions toward the City's unfunded accrued pension liabilities are increasing by \$938,138 (\$254,027 for Regular Employees and \$684,111 for Sworn Employees) from FY 2019.

Materials and Services were conservatively estimated based on known contract service agreements when available. The decrease in FY 2020 is due to the one-time contribution for MBUSD safety and security measures and RCC CAD/RMS replacement costs in the prior year as well as the absence of an election and legal services for labor negotiations in FY 2020. Internal Service Charges were calculated in accordance with the expenditures estimated in each Internal Service Fund. No capital equipment purchases are planned from the General Fund in FY 2020.

FY 2020 General Fund Budgeted Expenditures by Category

Expenditure Category	Budget FY 2018	Budget FY 2019	Budget FY 2020	FY18 Budget to FY20 Var		FY19 Budget to FY20 Var	
				Change	Percent	Change	Percent
Salaries & Benefits	\$47,073,640	\$50,433,995	\$52,177,765	\$5,104,125	10.8%	\$1,743,770	3.5%
Materials and Services	13,020,401	15,395,203	14,037,464	1,017,063	7.8%	(1,357,739)	(8.8%)
Internal Service Charges	8,506,954	7,689,574	7,907,855	(599,099)	(7.0%)	218,281	2.8%
Capital Equipment	1,163,585	1,570,033	-	(1,163,585)	(100.0%)	(1,570,033)	(100.0%)
Debt Service	617,678	484,475	485,475	(132,203)	(21.4%)	1,000	0.2%
Interfund Transfers	18,007	116,591	17,112	(895)	(5.0%)	(99,479)	(85.3%)
Totals	\$70,400,265	\$75,689,871	\$74,625,671	\$4,225,406	6.0%	(\$1,064,200)	(1.4%)

Other Fund Highlights

Capital Improvement Fund

In years past, City Councils have created dedicated revenue sources for the Capital Improvements Fund in order to provide reliable funding for important projects (previously, project

CITY MANAGER’S BUDGET MESSAGE

funding relied on General Fund surpluses). These revenue sources and the year enacted are as follows:

- 1998 Transient Occupancy Tax – 15% of the total tax
- 1998 On-Street Parking Meters - \$0.25 per hour
- 2000 On-Street Parking Meters – additional \$0.25 per hour
- 2000 Parking Citations - \$4 of all citations except expired meter cites

These revenues are projected to generate \$1.6 million in FY 2019 and FY 2020. CDBG Grant revenues totaling \$300,000 are also anticipated in FY 2019. Approximately half of the revenue generated within the CIP Fund is dedicated to funding the Police & Fire facility debt service. Other projects will be funded from available fund balance and future General Fund surpluses on a pay-as-you-go basis. The City’s CIP Fund accounts for capital improvement projects financed by general use revenue sources. The following capital projects are slated to begin in FY 2019 and FY 2020:

CIP Fund	FY 2019	FY 2020
Facility Improvements	\$830,000	\$830,000
Mariposa Fitness Station	200,000	-
Traffic Signal Preemption Devices	75,000	-
CDBG Access Ramps (Village Field, Annual)	300,000	-
Annual Non-Motorized Transportation Program	100,000	100,000
Total	\$1,505,000	\$930,000

With these projects funded, the CIP Fund is expected to have an unreserved fund balance of \$0.3 million at the end of FY 2019.

Special Revenue Funds

The ***Street Lighting and Landscaping Fund*** derives its revenues from assessments to property owners. Those assessments, which have not been changed since 1996, will require a successful Proposition 218 vote in order to do so. As a result, the FY 2019 and FY 2020 assessment basis remains fixed with no increase from prior years. Because expenses for energy and maintenance are not fixed and periodically rise, the General Fund must contribute increased amounts each year in order to fund this service. For FY 2019 that subsidy is estimated at \$179,962. In addition to the subsidy, the City contributes \$16,591 to cover the City’s portion of the Streetscape zone. This budget presents a fund which has long exhausted its reserves. Until new assessments are in place General Fund transfers will continue, further straining core municipal services.

The ***Streets & Highways Fund*** accounts for regular and SB1 Gas Tax moneys dedicated to roadway and sidewalk projects. This year’s budget includes revenues of \$1.4 million and capital expenditures of \$2.1 million. Projects include street resurfacing and construction projects, maintenance such as the annual slurry seal program, and annual concrete curb and gutter replacement:

CITY MANAGER'S BUDGET MESSAGE

Streets & Highways Fund	FY 2019	FY 2020
Annual Curb, Gutter and Ramp Replacement	\$365,000	\$365,000
Annual Slurry Seal Program	385,000	385,000
Annual Residential Street Resurfacing Program	375,000	500,000
Morningside Drive: 10th to MBB	125,000	-
Street Resurfacing: Marine from Sep to Aviation	598,259	-
Strand Resurfacing Project	200,000	-
Village Field ADA Access Design	100,000	-
Total	\$2,148,259	\$1,250,000

The **Asset Forfeiture Fund** includes estimated revenues of \$8,000 consisting of anticipated interest earnings on the fund balance. FY 2019 operational expenditures total \$164,500, and include \$83,800 for front-line law enforcement equipment and supplies, \$5,000 for computer-related equipment, \$20,000 for Strategic Plan implementation and \$55,700 for training and overtime.

The **Police Safety Grant Fund** has \$141,217 of grant funds and interest income, and \$140,000 in operating expenditures for law enforcement supplies and equipment.

The majority of **Proposition "A" Fund** revenues are based on a half-cent sales tax in Los Angeles County, which is then distributed on a per capita basis. FY 2019 revenues are estimated at \$949,298 with expenditures of \$945,978. A funding deficit of \$230,000 is expected to be covered by exchanging General Fund moneys for Proposition "A" funds with another agency in the county. This year's budget includes salary and benefits for the transportation services operators; \$12,500 for support of the Beach Cities Transit Line 109; \$14,360 for Taxi rides when Dial-A-Ride bus service is not available, and \$57,222 for recreational bus trips for the various programs put on by the Parks & Recreation department.

The **Proposition "C" Fund**, established for transportation and street improvement programs, reflects estimated revenues of \$641,136 and capital expenditures of \$700,000 in FY 2019. Revenues include \$576,151 in transit sales tax and \$64,985 in interest generated from existing fund balance. Capital project funds included in FY 2019 and FY 2020 are intended for various street resurfacing projects.

Prop C Fund	FY 2019	FY 2020
Arterial & Collector Roadway Resurfacing	\$700,000	\$700,000
Total	\$700,000	\$700,000

The **AB 2766 Fund** was established in 1990 and provides per capita funding to cities and counties located in the South Coast District to be used to reduce motor vehicle air pollution. Revenues of \$47,154 and expenditures of \$45,600 are budgeted in FY 2019. Two new vehicles will be purchased using AB 2766 funds, including a flatbed golf cart (\$13,500) for use by the Parks and Recreation department and an electric vehicle (\$30,000) for Public Works Engineering staff.

During FY 2010, the City began receiving funds from a new sales tax resulting from **Measure "R"** which was approved by the County's voters in November 2008. This half cent sales tax can be used for projects such as pothole repairs, major street resurfacing, left-turn signals, bikeways, pedestrian improvements, streetscapes, traffic signal synchronization and local transit services

CITY MANAGER'S BUDGET MESSAGE

(including subsidizing Dial-A-Ride services as done in the past). Revenues totaling \$458,225 are anticipated in FY 2019. As the fund recovers from subsidizing the Dial-A-Ride program in years past, its fund balance will continue to grow. Two projects are currently planned for the next two years:

Measure R Fund	FY 2019	FY 2020
Ocean Drive Walkstreet Crossing	\$450,000	-
Aviation (West-side) and 33rd Sidewalk	-	\$420,000
Total	\$450,000	\$420,000

In November 2016, Los Angeles County voters approved **Measure "M"**, to ease congestion and improve neighborhood streets and intersections. The City started receiving Measure M funds in FY 2018. Two projects are planned in the next two years as the fund balance accumulates:

Measure M Fund	FY 2019	FY 2020
Liberty Village Resurfacing Project	\$275,000	-
Rowell Ave Sidewalk (Curtis & 1st St.)	-	\$840,000
Total	\$275,000	\$840,000

Enterprise Funds

FY 2019 revenues in the **Water Fund** are estimated at \$15.6 million while operating expenses, capital projects and debt service in this fund total \$38.5 million. Design of Peck Ground Level Reservoir Replacement project is currently underway. Construction is scheduled to commence in FY 2019 and take about 18 months to complete at an estimated cost of \$22.0 million. Other significant capital projects are planned to address the City's aging infrastructure:

Water Fund	FY 2019	FY 2020
Annual Pipe Replacement Program	\$1,500,000	\$1,500,000
Block 35 Ground Level Reservoir Replacement	1,200,000	-
Peck Ground Level Reservoir Replacement	22,000,000	-
Redrill & Equip Well 15	350,000	-
Design Well Collect Line (Well 11A to Block 35)	700,000	-
Well 11A Variable Frequency Drive (VFD) Install	125,000	-
Well 15 Electrical Panel & VFD Installation	300,000	-
Total	\$26,175,000	\$1,500,000

Revenues in the **Waste Water Fund** are projected to be \$3.5 million with operating expenses, capital projects and debt service estimated at \$5.3 million. Like the Water Fund, the Waste Water Fund has capital projects scheduled over the coming years that focus on infrastructure maintenance and upgrades. Capital projects scheduled in FY 2019 and FY 2020 include lift station upgrades as well as spot repairs and rehabilitation of sewer main lines:

Wastewater Fund	FY 2019	FY 2020
Annual Rehab of Gravity Sewer Mains	\$1,100,000	\$1,100,000
Pacific Lift Station Upgrade	2,400,000	-
Voorhees Lift Station Upgrade	-	2,150,000
Total	\$3,500,000	\$3,250,000

CITY MANAGER'S BUDGET MESSAGE

The **Storm Water Fund** includes revenues of \$367,721 and expenditures of \$1.6 million. The deficit of \$1.2 million is funded through a General Fund transfer (as predicted when fund reserves were exhausted). The FY 2019 budget allocates \$365,000 for street sweeping; \$150,000 to mandated National Pollution Discharge Elimination System Permit Compliance Programs; and \$210,000 for storm drain debris collection devices to collect pollutants before entering the water system. There is no fund balance available to meet policy reserves of four months of operating expenses or to fund necessary capital projects.

Stormwater Fund	FY 2019	FY 2020
Storm Drain Debris Collection Devices	\$210,000	\$210,000
Storm Drain Repairs	500,000	500,000
Hermosa Greenbelt Joint Watershed Project	-	500,000
Total	\$710,000	\$1,210,000

Current assessments, last changed in 1996, are not sufficient to sustain the program's current and future capital needs. As a result, continued General Fund transfers or a Proposition 218 vote to increase the assessments will be required to adequately fund this operation. Storm Water runoff is under increased regulatory and environmental pressures, which has resulted in increased costs. The General Fund can no longer afford to subsidize the Storm Water Fund, and the assessments will need to be addressed. The City Council is expected to revisit the issue later this year as one of its Work Plan items.

The **Refuse Fund** includes revenues and expenses for the City's refuse and recycling activities. Revenues for FY 2019 are projected to be approximately \$4.4 million and expenditures \$5.0 million. Projected year-end fund balance after FY 2019 is \$0.3 million which is held as a reserve in compliance with established City Council policies. While it falls short of the stated reserve goal of 4 months of operating expenses, it is sufficient given the pass-through nature of the refuse fund. Accumulated reserves will be used in FY 2019 to purchase and install a Hydrodynamic Separator Device and in FY 2020 for City-owned refuse enclosure improvements.

Refuse Fund	FY 2019	FY 2020
Hydrodynamic Separator Device Installation	\$800,000	-
City Refuse Enclosure Improvements Design	-	\$150,000
Total	\$800,000	\$150,000

The **Parking Fund** accounts for collections and expenditures for street meters and City-owned lots, debt service on the Metlox parking structure, and maintenance of the Metlox Town Square. For FY 2019 this fund is projected to have \$2.6 million in revenues and \$2.5 million in expenditures, which includes debt service on the Metlox parking structure (\$714,863). Fund revenues and expenditures also include the Downtown Business Improvement District assessments (approximately \$100,000) which the City collects and then remits to the Downtown Business and Professional Association through a contractual agreement. The projected year-end fund balance includes policy reserves of \$164,891, which falls short of the policy due to capital projects. It should be noted that revenues barely exceed operating expenditures and debt service costs. For the City to embark on parking infrastructure projects, additional revenue streams will be required.

The **County Parking Lot Fund** accounts for the two county-owned parking lots commonly referred to as El Porto and 26th Street. This fund is projected to have \$793,500 in revenues and

CITY MANAGER'S BUDGET MESSAGE

\$626,714 in expenditures, which includes \$440,000 for the County Lots operating lease. Excess funds (\$166,786) are transferred to the General Fund after accounting for the County's share of revenue.

The ***State Pier and Parking Lot Fund*** relates to the operational activity for the State-owned pier parking lots. This fund is projected to have \$616,984 in revenues and \$623,283 in expenditures in FY 2019. Fund revenues are used to maintain and operate the pier and parking lots, and the pier comfort stations.

Internal Service Funds

The City operates four Internal Service funds that provide for the operation, maintenance and replacement of facilities or equipment, or serve to spread the cost of an internal function across the user departments.

The FY 2019 ***Insurance Reserve Fund*** budget contains revenues (derived from charge-outs) of \$6.9 million and expenditures of \$6.4 million. The Insurance Reserve allocates charges to other funds based on recent experience and actuarial funding estimates. In FY 2019, charge outs to departments for liability and property claims are down by \$1.3 million (-42.0%), while Workers Compensation charge-outs to departments are higher by \$1.1 million (27.9%). These charge-outs are the funding source for insurance premiums, claims paid and claims administration costs paid out of the Insurance Reserve Fund.

The significant catastrophic losses due to wind and fire losses have significantly affected all lines of coverage in the market place. This has resulted in ending the extended soft market conditions and increased premiums across all lines of coverage. Excess liability insurance premiums are increasing \$38,079 (8.5%) from FY 2018 estimates and Workers' compensation excess insurance premiums are increasing by \$57,888 (22.0%) from the prior year, going from \$263,112 to \$321,000.

Overall, budgeted claims paid in FY 2019 are estimated at \$500,000 for liability and \$3.8 million for workers compensation, a combined decrease of \$669,276 from the prior year estimate. Because the City's self-insured retention is \$500,000 for liability and \$750,000 for Workers Compensation, claims paid will represent the largest and most varied cost from year to year.

Workers' Compensation continues to be a challenge both in terms of cost control and predictability. For example, there are old cases (20+ years) for which new reserves must be funded from changes in the former employees' health status due to their work-related injuries. These increased costs often raise our liability by tens to hundreds of thousands of dollars (limited only by the self-insured retention in effect at the time of injury). While proactive work place injury prevention programs help with our current employees, we are exposed to escalating costs for many years after separation from employment. In some cases these costs may increase through the former employee's inaction in maintaining his or her own health.

Workers compensation and liability expense are extremely difficult to predict because of our relatively small population and the random way extraordinary cases occur. The result is that there are extreme swings in expense from year to year, which is all the more reason to move

CITY MANAGER'S BUDGET MESSAGE

toward an actuarial funding basis using predictive modeling. Staff is working to phase in the actuarial funding model to avoid the possibility of unfunded liabilities that could arise if future claims costs exceed the Insurance Reserve. However, this new approach must be balanced with other funding needs.

The **Information Technology Fund** provides for the operation of the City's Information Technology department, including maintenance of the City's computer network, hardware infrastructure, City website and mobile app, as well as the broadcasting of City meetings. The department's budget is charged out to the other departments based on the number of devices (workstations, printers and mobile devices) being utilized and the number of employees in each division. In FY 2019, Information Technology Fund revenues are \$2.7 million and expenditures are \$3.7 million (the difference is funded through available fund balance and a transfer of \$600,299 from the General Fund for the ERP software purchase). This fund budget includes replacement workstations, servers and network components (switches and wireless access point hardware) as well as funding to replace a Storage Area Network (SAN) estimated to cost \$409,000.

The **Building Maintenance and Operations Fund** consists of programs from two different departments. The fund provides for Public Work's Building Maintenance program which maintains City facilities and grounds, and the Finance Department's General Services program which ensures that office equipment such as photocopiers are maintained. The fund's FY 2019 budget includes revenues of \$2.0 million and expenditures of \$2.0 million. Expenditures associated with this fund are allocated to departments based on their number of employees and the square feet of building they occupy.

The **Fleet Management Fund** is charged to departments in two separate line items - fleet maintenance and fleet rental. Fleet maintenance accounts for repairs and routine vehicle maintenance based on the average maintenance and repair cost according to the type and number of vehicles a department operates. The fleet rental charge provides for the replacement of City vehicles, and is a straight-line depreciated charge based on the cost and expected life of each vehicle. This fund's 2019 budget includes \$429,681 for the purchase and outfitting of six vehicles. A list of vehicle replacements is included in the Appendix of this document. The Fleet Management Fund is expected to have \$3.0 million remaining after FY 2019 for future vehicle replacements.

CONCLUSION

This document is the result of an extraordinary effort from residents and staff in every City department. We believe that we have produced a first-rate document that is thorough and easy to use. We are proud to point out that our last biennial budget once again received awards both from the California Society of Municipal Finance Officers and from the Government Finance Officers Association.

In our on-going efforts to provide our citizens with ample opportunities to review and comment on the budget, two budget study sessions were held in May. The City Council further discussed the Budget during their regular June 5 Meeting. Final consideration and budget adoption occurred on June 19th.

CITY MANAGER'S BUDGET MESSAGE

Be assured that the City will continue its diligent efforts not only to provide a community-empowered, fiscally accountable and transparent budget, but in the coming year, we will also be continuing to strategize on how to secure reliable, locally-controlled revenue that can't be taken by the State or Federal governments. In today's challenging environment and with the need to maintain quality services and fix aging infrastructure, we must maximize opportunities to keep taxpayer dollars local, to address local needs.

Copies of the Operating Budget are available for public review at City Hall in the Finance Department and City Clerk's Office. The budget is also available online at the City's website:

www.citymb.info

I would like to take this opportunity to thank all the City employees who worked very hard to develop this year's budget. Special thanks to the Finance Department, especially Steve Charelian, Henry Mitzner, Libby Bretthauer, Julie Bondarchuk and Cynthia Mickschl. In addition, I'd like to thank Kendra Davis in the City Manager's office for support on facilitating civic engagement throughout the budget process.

Sincerely,

Bruce Moe
City Manager

Budget User's Guide

Prior to July 1st of each year, the Manhattan Beach City Council adopts, by formal resolution, an annual budget.

This document serves as a financial plan, the purpose of which is to identify the projected allocation and application of resources over the budget cycle.

The published Operating Budget is designed to present summary information about the City's financial plans for the year in a user-friendly format. The Operating Budget is organized by department, then by program (operating divisions within the departments). Expenditures are displayed and subtotaled by type: *Salaries & Benefits, Materials & Supplies, and Capital Projects & Equipment*. The *Source of Funds* tables indicate the fund(s) to which a program allocates its expenditures. The Operating Budget also includes the following sections:

Introduction Section - includes the Table of Contents, List of City Officials, City Manager's Budget Message, Budget User's Guide, demographic information, Organization Chart, and Budget Awards.

Summaries Section - includes tables and graphs detailing Citywide revenues, expenditures and fund balances.

Operating Budgets - includes program budgets by department, with narratives explaining the function of the program, staffing levels, and uses and sources of funds.

Five Year Forecast – includes projected revenues and expenditures by fund and resulting fund balances.

Capital Budget Summary – includes schedule of capital projects by fund and type from the City's Capital Improvement plan.

Strategic Plan & Performance Measures – includes description of 2015 Strategic Plan and service level indicators.

Appendix - includes Major Revenue Sources, Schedule of positions, Schedules of Funded Budget Requests, Schedule of Administrative Service Charges, Summary of Debt Service Payments, Resolutions for the Adoption of the Budget and Appropriations Limit, and the City's Financial and Budget Policies.

BUDGET PROCESS

The City's budget process begins in January of each year with the distribution of a budget manual prepared by the Finance Department. The budget manual contains a budget calendar, chart of accounts, forms for requesting new or additional items, and the general policy and instructions for developing the budget for that fiscal year. Line-item budget development is accomplished through the City's financial system, which allows each department to build its budget using computerized worksheets.

The individual departments are directly responsible for developing the Materials & Supplies line items and part-time employees' salaries. The remaining Salary & Benefit information is calculated and entered by the Finance Department. All supplemental budget requests (new personnel, service or equipment) are presented on separate forms and are subject to City Manager review and approval before becoming part of the operating budget. Once all the budget data is compiled, it is printed and distributed to the City Manager and the departments.

In March, the Finance Director provides the City Manager with proposed revenue projections. These revenue estimates are then reviewed with the department budget requests to determine available funding levels for the fiscal year. The City Manager and Finance Director then hold meetings with the departments to review the operating and supplemental budget requests.

Once the budget data has been reviewed and any changes have been made by the Finance Department, a proposed document is prepared. After final review and approval by the City Manager, the proposed budget document is presented to the City Council in May. At least one study session and public hearing are held by the City Council, and then the budget is adopted by resolution prior to June 30.

During the fiscal year, the budget can be amended as necessary to meet the City's needs. The City Council has the legal authority to amend the budget at any time. Department Heads and their designated representatives may only authorize expenditures based on appropriations previously approved by City Council action, and only from accounts under their organizational responsibility. Actual expenditures may exceed budget appropriations by line-item, but may not exceed the department's budget. The City Manager has the authority to approve interdepartmental appropriation transfers as long as they are within the same fund. Interfund transfers require a budget amendment by the City Council.

BASIS OF ACCOUNTING

Manhattan Beach's accounting system is maintained on a fund basis, in accordance with governmental accounting standards. Each of the City's twenty-five funds is considered a separate accounting entity with a self-balancing set of accounts that records assets, liabilities, fund equity, revenues and expenditures. Funds are established and segregated for the purpose of recording specific programs or attaining certain objectives in accordance with special regulations, restrictions, or limitations.

Funds are classified into one of three categories: *governmental* (general, special revenue, debt service, and capital projects), *proprietary* (enterprise and internal service), and *fiduciary* (trust and agency). Governmental funds account for activities usually associated with a typical state or local government's operation. Proprietary funds are financed and operated in a manner similar to private business enterprises, where the intent is to recover the costs of providing goods and services from user charges.

Fiduciary funds are utilized in situations where the government is acting in a fiduciary capacity as a trustee or an agent.

All governmental funds are budgeted and accounted for using the modified accrual basis of accounting, which recognizes revenues when they become susceptible to accrual, i.e. measurable and available. Available means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Examples of such revenues include property tax, sales tax, and interest earnings. Expenditures are recognized when the fund liability is incurred.

Proprietary fund revenues and expenses are budgeted and accounted for on an accrual basis. Revenues are recognized in the period when earned, and expenses are recognized when incurred. The following Classification of Funds describes, in detail, the various types of funds and their purpose as established by the City of Manhattan Beach.

CLASSIFICATION OF FUNDS

GOVERNMENTAL FUND TYPES:

General Fund

The General Fund is used to account for resources traditionally associated with general government which are not required to be accounted for in a separate fund including: sales tax, property tax, transient occupancy tax, licenses and permits, fines and forfeitures. This fund is used to finance most of the basic municipal functions, such as general administration, public safety, parks and recreation, and community development.

Special Revenue Funds

The Street Lighting & Landscape Fund provides for the power, maintenance, and capital improvements for the lighting system within the City of Manhattan Beach. Money is received from a special assessment placed on each tax bill in the City, the amount of which is determined by the benefit received by the owner of each property. Assessments from Zone 10 of the street lighting district also provide for the maintenance of the street beautification area in downtown Manhattan Beach.

The Gas Tax Fund is used to account for the City's share of State and County gasoline tax collection in accordance with the provisions of the State of California Streets and Highway Code. Revenues are disbursed by the State based on population and must be used towards the maintenance and repair of City streets that serve as State and County thoroughfares.

The Asset Forfeiture Fund is used to account for funds received through Federal and State agencies for drug seizures in which the City participated. These funds must be used to supplement, not supplant, the Police Department's normal operating budget. The amount of revenue will vary from year to year based on activity levels.

The Public Safety Grants Fund is used to account for any Federal, State, or local grants received for law enforcement purposes.

The Federal & State Grants Fund is used to account for any Federal, State, or local grants received, such as Block Grant or Park Bond funds.

The Proposition A and C Funds and Measure R Fund are used to account for proceeds from the half-cent sales taxes generated by the approval of Propositions A and C by Los Angeles County voters. These funds, which are administered by the Los Angeles County Metropolitan Transportation Authority (MTA), are distributed based on population and must be used for transportation-related projects.

The AB 2766 Fund is used to account for proceeds received from the additional vehicle registration fee imposed by the State and regulated by the Air Quality Management District (AQMD). These funds are distributed based on population and must be used for programs designed to reduce air pollution from motor vehicles.

Capital Projects Funds

The Capital Improvement Fund is used to account for capital projects not eligible for funding from other specific funding sources. Funding sources are derived from various sources such as grant funds or transfers from the General Fund. In 1998-1999, City council acted to designate specific revenue sources for this fund consisting of the 15% of the City's transient occupancy tax and the 25 cents incremental increase of parking meter rates. Additionally, in FY 2000-2001, City Council added to this dedicated revenue stream by increasing street meter rates by an additional 25 cents per hour and most parking citation rates \$ 4. Specific projects and their funding sources are described in detail in the City's Capital Improvement Plan.

The *Undergrounding Assessment Fund* is used to account specifically for the construction of utility undergrounding in established districts. The fund serves as a pass through of the assessments collected to pay the debt service for the improvements.

Debt Service Funds

The Special Assessment Redemption Fund is used to account for principal and interest payments on the Underground Utility Bonds issued in 1989. Proceeds of these bonds were used to relocate utility lines underground in certain portions of the City. The bonds are being repaid with proceeds from special assessments levied on the property owners who benefited from the project.

PROPRIETARY FUND TYPES:

Enterprise Funds

The Water Fund is used to account for the operation of the City's water utility system. Revenues are generated from user fees, which are adjusted periodically to meet the costs of administration, operation, maintenance, and capital improvements to the system.

The Stormwater Fund is used to account for the maintenance of, and improvements to, the City's storm drains. Revenues are derived from a storm drain assessment to property owners, which is based on size and use of the parcel, and collected through the property tax rolls.

The Wastewater Fund is used to account for the maintenance of, and improvements to, the City's sewer system. Revenues are derived from a user charge placed on the water bills.

The Refuse Fund is used to account for the provision of refuse collection and recycling services in the City. The City bills both residential and commercial properties.

The Parking Fund is used to account for the general operations and maintenance of City parking lots and spaces. The Parking Fund also accounts for the revenue generated by City parking lots and spaces. The Parking Fund contains reserves for the Business Improvement Districts (BIDs) to be used for their approved activities.

The County Parking Lots Fund is used to account for the operation and maintenance of parking lots that are owned by Los Angeles County and leased to the City. Proceeds from the meters and parking permits are divided 55 percent to the County, with an annual guaranteed minimum of \$130,000, and 45 percent to the City.

The State Pier & Parking Lot Fund is used to account for the operation and maintenance of the Manhattan Beach Pier, comfort station, and four adjacent parking lots. These properties are owned by the State, but controlled by the City through an operating agreement.

Internal Service Funds

The Insurance Reserve Fund is used to account for the City's self-insured workers' compensation and general liability programs. The fund collects premiums from departments based on claims history.

The Information Systems Fund is used to account for the operation, maintenance and replacement of the City's Information Systems including the Citywide network and related hardware and software. Revenues are generated from charges to departments based on the number of devices in use.

The Fleet Management Fund is used to account for the operation, maintenance and replacement of City vehicles. Revenues are generated from vehicle rental charges to departments based upon the number, type, and age of vehicles operated.

The Building Maintenance and Operation Fund is used to account for the operation and maintenance of certain City facilities. Revenues are generated by charges to user departments based on their number of employees and square feet of building they occupy.

FIDUCIARY FUND TYPES:

Trust & Agency Funds

The Pension Trust Fund is used to account for the supplemental retirement and single highest year programs previously provided by the City. Although the City has replaced these programs, this fund accounts for the former employees still receiving these benefits.

City of Manhattan Beach Facts and Figures

Incorporated on December 2, 1912, Manhattan Beach encompasses 3.89 square miles, with 2.1 miles of beachfront and 40 acres of total recreational beach area. This community of “Sun, Sand and Sea” is located in the South Bay area of Los Angeles County, 19 miles from downtown Los Angeles, and is one of Southern California’s most desirable communities in which to work and live. Manhattan Beach is home to approximately 35,000 residents.

The City offers residents a pleasant, peaceful, coastal living environment with easy access to all Los Angeles area amenities. Manhattan Beach is truly cosmopolitan, but maintains the warmth of a quaint small town, far removed from the stress of typical urban life. In addition to its popular coastline, the community is home to large numbers of tourist and family-oriented events, such as Manhattan Open volleyball, the Races, and Holiday Fireworks to name a few.

Manhattan Beach is a full-service General Law city operating under a council-manager form of government. The City Council consists of five members elected at large, each serving a 9 1/2 month mayoral rotation during their four year term. The City Council meets on the first and third Tuesdays of the month at 6:00 PM. The City operates with nine well-run departments, 306 full-time and approximately 180 part-time employees. The City prides itself in offering the highest level of services to its residents and maintains a AAA bond rating.

Mission Statement

Our mission is to provide excellent municipal services, preserve our small beach town character, and enhance the quality of life for our residents, businesses and visitors.

Date of Incorporation: December 2, 1912 as a General Law City

Form of Government: City Council - City Manager

Full-Time Municipal Employees Authorized: 306

Public Safety: Two fire stations with 30 authorized sworn personnel; One police station with 65 sworn personnel

Parks & Public Facilities

- 2.1 miles of beach front
- 40 acres of recreational beach
- 928 foot long pier
- 54 acres of developed parks
- 21 acre parkway
- Nine hole golf course
- Two community centers

City of Manhattan Beach Facts and Figures

Libraries: One Los Angeles County branch library

Location: 19 miles southwest of downtown Los Angeles on the southerly end of Santa Monica Bay; 3 miles south of Los Angeles International Airport

Elevation: 120 feet above sea level

Population & Area: 35,924 (2017 US Census Bureau Estimate from 2010 base of 35,135); 3.88 square miles

Climate: August is on average warmest month (Ave. High: 75°F; Ave. Low: 64°F); January is on average coolest month (Ave. High: 65°F, Average Low: 49°F); Average annual rainfall: 12.0 inches

Median Home Sale Price: \$2,283,100 (as of May 30, 2018 – Zillow data)

Median Household Income (in 2016 dollars): \$144,868 (U.S. Census Bureau, 2012-2016 data)

Assessed Valuation: \$17.6 billion (Office of the Assessor, Los Angeles County, 2017-18 Report)

Housing Units (U.S. Census Bureau, 2009-2013 American Community Survey Estimates)

1-Unit Detached	10,954	70%
1-Unit Attached	1,297	8%
2-4 Units	2,612	16%
5+ Units	916	6%
Other	14	<1%
Total Housing Units	15,793	100%

Business Mix (as of April 2018)

Services	669	13%
Contractors	2,804	56%
Home Occupation	479	10%
Retail	206	4%
Professionals	390	8%
Apartment Houses	269	5%
Commercial Property	143	3%
Miscellaneous	74	1%
Total	5,034	100.0%

GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished
Budget Presentation
Award*

PRESENTED TO

City of Manhattan Beach

California

For the Biennium Beginning

July 1, 2016

Executive Director

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to the **City of Manhattan Beach, California** for its biennial budget for the biennium beginning **July 1, 2016**. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of two years only. We believe our next biennial budget will continue to conform to program requirements, and will submit it to GFOA to determine its eligibility for another award.

California Society of Municipal Finance Officers

Certificate of Award

Operating Budget Excellence Award Fiscal Year 2016-2017

Presented to the

City of Manhattan Beach

For meeting the criteria established to achieve the Operating Budget Excellence Award.

Management Services

Mission

Our mission is to provide excellent municipal services, preserve our small beach town character, and enhance the quality of life for our residents, businesses and visitors.

Department Overview

Management Services consists of five divisions responsible for the general administration and operation of the City. The City Council serves as the legislative body, represents the community and residents, and provides policy direction for City operations. The City Manager serves as the Chief Administrative Officer of the City, and the staff of the City Manager's office supports the City Council in its policy making and legislative role; the City Manager also manages the City through ten operating departments. The City's chief legal advisor is the City Attorney, whose office is responsible for developing ordinances and resolutions, providing legal advice to the City Council and staff, and defending the City in any legal actions. The City Clerk serves as the City's Elections Officer and collaborates with all City officials to ensure that open and effective government standards are in place. The City Clerk is also responsible for the preparation and posting of meeting agenda packets, preparing meeting minutes, maintaining the City's legislative history, ensuring best records management practices, responding to Public Records Act requests, and conducting the municipal election every other year. An elected City Treasurer oversees the investment of City funds.

Recent Accomplishment Highlights

City Council

- Reviewed and updated the City's Work Plan to reflect and prioritize projects within the City, as well as established a process for regular review and public engagement with the Work Plan.
- Emphasized Emergency Preparedness and hosted two well-attended community meetings to support training and readiness of residents.
- Joined the Clean Power Alliance, a community choice aggregation program for Southern California, and began the process of providing clean energy options with potential cost savings to residents.
- Revived Underground Utility Assessment District Program.
- Approved final design and construction of Harrison Greenburg Foundation Roundhouse Beautification Project to renovate and refurbish the iconic Roundhouse building and the aquarium space.
- Welcomed new leadership to the City by appointing a new City Manager who will support the development of the organization as it continues to provide excellent services to the community.

City Manager

- Assisted the City Council in creating a Citywide Work Plan, as well as reformatting the plan to be as accessible and informative as possible.
- Worked with staff and stakeholder groups to finalize the Manhattan Beach Downtown Specific Plan and begin implementing its priorities.
- Launched City engagement in additional online platforms, such as Nextdoor.com, to better communicate with residents.
- Supported Electric Vehicle Shuttle pilot program for additional mobility options in Downtown Manhattan

Beach as a method of addressing parking and traffic concerns.

- Worked with City Council and regional partners to address traffic calming measures taken along Vista Del Mar that significantly impacted Manhattan Beach residents.
- Partnered with Manhattan Beach Unified School District to coordinate a Citywide relief campaign for victims of Hurricane Harvey in Cleveland, TX.
- Successfully transitioned to a new City Manager.
- Selected new Police Chief, which was the City's first internal promotion to that position since 1979.

City Clerk

- Conducted an impartial, open and transparent 2017 Consolidated General Municipal Election with the Los Angeles County Registrar-Recorder/County Clerk (RR/CC).
- Completion of City Clerk Document Imaging Conversion Project, creating a public portal on the City's website and allowing 100+ years' worth of records to be available through the City's Records Management Database - OnBase.
- Implementation of City's Fair Political Practice Commission (FPPC) electronic filing software solution (NetFile) and public portal available on the City's website.
- Enhanced Closed Captions to offer higher quality captioning, resulting in greater ADA accessibility and greater transparency offered to residents.
- Approval of modernized and updated Boards and Commissions Handbook.

City Attorney

- Provided regular reports regarding litigation, lawsuits and claims, including the status of existing and potential litigation, and significant litigation.
- Achieved successful results in several lawsuits that challenged City Council decisions and staff determinations.
- Assisted the Community Development Department in drafting land use and environmental protection ordinances.
- Worked with the Human Resources Department to evaluate the City's Risk Management Program
- Assisted the City Clerk's Office in creating a more streamlined, efficient system of responding to requests made under the Public Records Act through the City's Public Records Act, which decreased the necessity of legal involvement.
- Provided legal advice on Federal and State law including: the Brown Act, Public Records Act, Political Reform Act, Public Contracting Law, Coastal Act, NPDES, the Clean Water Act and CEQA.

Program Overview

The City of Manhattan Beach is a general law City and operates under the Council-Manager form of government. The five-member City Council is elected at-large to serve four-year terms. The Mayor's office is rotated among all Councilmembers which provides approximately nine and one-half months of service as Mayor during each Councilmember's four-year term of office. As elected officials, the City Councilmembers represent the citizens of Manhattan Beach in the governing process and act on their behalf with regard to regional and local, as well as State and Federal issues.

The City Council is the legislative authority and sets the policies under which the City operates. Responsibilities of the City Council include enacting legislation such as local laws and ordinances; approving City programs; adopting the City's capital improvement plan and operating budget; and appropriating the funds necessary to provide services to the City's residents, businesses and visitors.

The City Council provides leadership through policy development regarding the current practices and future direction of the City. The City Council convenes regular meetings on the first and third Tuesday of each month and holds occasional special meetings. The City Council appoints the City Manager and City Attorney, as well as the members of the City's six advisory boards and commissions.

Objectives FY 2019 & FY 2020

In FY 2018-2020, the City Council will continue to focus on initiatives that reflect the needs and priorities of the community, including

- Review opportunities to improve pedestrian safety within the City, particularly in areas surrounding schools;
- Expand presence of public art projects;
- Conduct a financial review of unfunded liabilities and discuss solutions that safeguard the City's current and future financial position;

Management Services | City Council

- Assess the security of City facilities and provide upgrades where possible in order to keep City staff and the community as safe as possible;
- Provide enhancements that strengthen the City's public safety capabilities and work collaboratively with other community institutions, including the Manhattan Beach Unified School District;
- Continue to emphasize emergency preparedness to help support the community's readiness in the face of an emergency.

Program Overview

The City Manager is appointed by the City Council to carry out its policies and to ensure that the community is served in a responsive manner. The City Manager's office is responsible for providing support and advice to the City Council, offering leadership and legislative policy support for all departments, fostering community partnerships and interagency collaboration, and championing efforts to increase civic engagement efforts and organizational development and resiliency.

Major services include:

Public Policy Support

Provide professional expertise and support to the City Council in the formulation, interpretation, and application of public policy and legislative advocacy.

Citywide Service Delivery

Manage and coordinate citywide service delivery efforts by providing strategic direction and oversight.

Communications and Public Education

Lead efforts to promote communication among the City's departments, media, and the public.

Organizational Leadership and Development

Provide leadership to departments and City activities, assure accountability of departments and staff on core activities, and champion efforts to increase leadership and management training.

Objectives FY 2019 & FY 2020

- Work with Chamber of Commerce and Business Improvement Districts to support the business community and encourage innovative economic development that serves the Manhattan Beach community.
- Review current method of agenda management and staff report development and seek improvement through additional training and communication.
- Assess current needs in City departments through Employee Satisfaction Survey and support employee-driven initiatives.
- Continue expanding opportunities to communicate with the community, including social media, online platforms and other tools that broaden the reach of engagement.
- Conduct a review and assessment of security in City facilities and move towards creating a more secure environment through trainings and infrastructure upgrades.
- Work collaboratively with the Human Resources Department and the City labor groups on upcoming labor contracts.

Major Service Delivery Changes

Senior Management Analyst

In FY 2015/2016, the City Manager's Office established a Management Analyst position to support the

Management Services | City Manager

objectives of this office and the division as a whole, including supporting public policy considerations, community engagement activities, online civic engagement, and analysis and logistics for special projects or initiatives. Based on the success of this position and the ever-growing needs in the community and the organization, this position will be upgraded to a Senior Management Analyst. This will enable the City Manager's office to continue supporting the objectives listed above, while increasing emphasis on facilitating local and regional media relations, as well as internal communications, and conducting outreach to and coordination with the City's business community.

Program Overview

The City Clerk's Office is dedicated to collaborating with City officials and the public to ensure that open and effective government standards are in place to secure the public trust, and provide a system of transparency, public participation and accountability. The City Clerk serves as the greatest resource for information for the public, City Council, City staff and other governmental agencies; manages legal requirements for public notices and the filing of referendums and initiatives; and keeps complete and accurate records of City Council proceedings.

The City Clerk's Office continues to work diligently with the City's Information Technology Department to provide broadcasting of City Council and Planning Commission meetings on Manhattan Beach Local Community Cable, Spectrum Channel 8 and Frontier Communications Channel 35, and the City Website Live Streaming Video, ensuring access to public information and the local government process. As the custodian of the City's official records, the office maintains all official City document archives and legislative history, and ensures the preservation, protection and integrity of the public records.

The City Clerk is the City's Election Officer, and as such, conducts and certifies the City's municipal elections for six elected offices (5 City Council and 1 City Treasurer). In addition, the City Clerk's Office administers oaths and affirmations, files annual Statements of Economic Interest, and performs other duties as may be required by law.

Objectives FY 2019 & FY 2020

- Conduct an impartial, open and transparent 2019 Standalone General Municipal Election. This election will be the last Standalone election held in March of odd years. As mandated by Senate Bill 415 passed by the California State Legislature, prepare for the 2020 Consolidated General Municipal Election with Los Angeles County Registrar-Recorder/County Clerk (RR/CC).
- Facilitate Citywide records management training utilizing the City's updated retention schedule.
- Creation of "City Store," a revenue enhancement opportunity selling various merchandise to the public.
- Continue to fully implement the City's Electronic Filing Software of Fair Political Practice Commission (FPPC) filings.
- Continue to support the City Council's open and transparent government and meeting management initiatives including eComments, social media, closed captioning and other e-government opportunities.

Major Service Delivery Changes

- Create and implement a centralized contract management software solution across all departments within the City.
- Transition from holding Standalone General Municipal Elections in March of odd years to Consolidated General Municipal Elections in November of even years.
- Make all FPPC filings from City Clerk's Office available on City's website utilizing electronic filing software solution.
- Create robust voter outreach initiatives to maximize voter turnout and awareness for General Municipal Elections.
- Upgrade the City's current codification services (MuniCode) to enhance transparency by producing Municipal Code supplements on a quarterly basis, add the City's Local Coastal Program to the City's website, and publishing City ordinances in chronological order for easier accessibility.

Program Overview

The City Attorney's Office consists of a contracted City Attorney who provides legal services on a flat retainer basis and who is admitted to practice law by the California Bar Association and experienced in the practice of Municipal Law, and a legal secretary employed by the City. City Prosecution services are provided on an as-needed hourly basis by a part-time contract deputy prosecutor. Through the services of the City Prosecutor, the office prosecutes violations of the City Municipal Code.

The City Attorney's Office drafts ordinances, resolutions and agreements as well as provides general legal services and advice, oral and written, to the City Councilmembers and City departments on a daily and routine basis. Attorneys specializing in areas of litigation, land use, real estate, finance, California Environmental Quality Act, California Coastal Act, public works, labor and other specialties are all available to the City Manager, City departments and the City Council at any time. The City Attorney also oversees outside counsel.

The City Attorney serves as advisor by providing legal representation at City Council meetings, and on an as-needed basis to other boards, committees and commissions. The City Attorney also attends weekly City Manager Department Head meetings and other meetings as requested, and provides support to Risk Management in processing claims as well as other departments as needed for legal services. The City Attorney assists the City Clerk's office with the processing and management of Public Records Act requests.

Objectives FY 2019 & 2020

Litigation Status

- Provide regular reporting on all litigation, lawsuits and claims including the status of existing and potential litigation, and significant litigation.

Legal Opinions

- Continue to provide legal advice on Federal and State law including: the Brown Act, Public Records Act, Political Reform Act, Public Contracting Law, Coastal Act, NPDES, the Clean Water Act and CEQA.

Contract Processing

- Continue to update and refine templates for public contract agreements, professional service agreements, requests for proposals, ordinances and resolutions to increase efficiency

Municipal Code

- Continue to draft ordinances to reflect recent developments in case law and statutory law.
- Draft ordinances to update, streamline and modernize the Municipal Code.
- Assist in improving the City's Municipal Code, policies and practices to make them more user-friendly and efficient

Program Overview

The City Treasurer is elected at-large and serves a four-year term. Along with Finance staff, the Treasurer administrates all City funds and provides accountability to the citizens of Manhattan Beach. The Treasurer's responsibilities include investment of idle funds; reporting such activities to the City Council; and serving as Chair of the Finance Subcommittee.

The Treasurer oversees the City's \$80 to \$90 million investment portfolio. The investment portfolio contains instruments such as Federal Agencies, high-grade corporate bonds and Treasury notes. The State's Local Agency Investment Fund is also used to ensure proper cash flow and liquidity. While investment yields have dropped to some of the lowest levels in history, the City's investment strategy continues to place emphasis on safety and liquidity.

Objectives FY 2019 & FY 2020

- Protect the City's assets and invest funds safely.
- Maintain sufficient liquidity.
- Update the annual investment policy and provide monthly reporting.

Finance Department

Mission

To ensure the integrity of the City's financial systems in accordance with City policies while providing responsive and superior customer service

Department Overview

The Finance Department's responsibilities include accounting, payroll, investments, and procurement, as well as business licensing, animal licensing and utility billing. These services are provided through the following department functions:

- Budget and Accounting
- Purchasing
- Revenue Services
- Business and Animal License issuance
- Water and Refuse Billing

The City has maintained its AAA rating from Standard and Poor's. This rating is a testament to the City's continued strong financial position, its tradition of prudent fiscal decisions and a resilient economic base. All departments contribute to this achievement through high levels of service and proactive financial management.

The Finance Department is staffed by a dedicated, hard-working team of seventeen full-time professionals.

Recent Accomplishment Highlights

Administration

- Internally reviewed Finance Department structure and staffing in anticipation of forthcoming ERP implementation.
- Established Pension Stabilization Trust Fund to help serve as a budgetary safeguard in the case of future sudden CalPERS rate increases.
- Continued enhanced budget outreach efforts to obtain community input earlier in the budget process by holding a Community Budget Social in January 2018. Presentation materials are available at www.cityymb.info/Budget.
- Received GFOA's Distinguished Budget Presentation Award for the City's FY 2016-17 Biennial Budget document.
- Received the Award for Budget Excellence issued by the California Society of Municipal Finance Officers (CSMFO).

Accounting

- Implemented Government Accounting Standards Board (GASB) Statement No. 68 *Accounting and Financial Reporting for Pensions*.
- Received the Certificate of Achievement for Excellence in Financial Reporting issued by the Government Finance Officers Association (GFOA).

Revenue Services

- Contracted a Utility Audit company to evaluate the City utility bills for electricity and telecommunication, as well as inventory of City street lighting. This audit resulted in an overall annual savings of more than \$70,000.
- Worked with the City's legal team to navigate a successful end to the Cash Key refund program that had been in place for more than five years. This resulted in an approximately \$90,000 transfer of funds to the City's Parking Fund.
- Through an external auditing firm, Revenue Services managed field audits conducted for Transient Occupancy Tax collection, City owned land leases and Manhattan Beach Studio Campus agreement. These audits are done periodically to determine compliance with the City Municipal Code, binding land leases and agreements on file. These audit findings for non-compliance and deficiencies accounted for \$329,000 of revenue to the City in fiscal years 2017 and 2018.
- Implemented outreach to our business customers regarding AB1379, which is collected through business license tax for State Disability Access related education. This bill replaced SB1186.
- Maintained all lease agreements for City interests and, specifically, renewed the Downtown Post Office lease agreement which resulted in an overall increase of rent revenue. Additionally, the City renewed a long-term lease for a telecom apparatus located on the rooftop of City Hall.

General Services

- Completed Citywide Fixed Asset physical inventory.
- Developed and trained on new "Purchase Orders for Contracts" project which has increased departments' oversight of expenditures and better contract tracking.
- Increased potential pool of contractors and competition by training Public Works Engineering staff on vendor outreach program, BidSync, a cloud-based sourcing solution that automatically notifies contractors of solicitations.
- Published new prevailing wage guidelines.
- Published guide for preparing "Request for Proposals" to assist staff with writing clear and concise specifications.
- Participated in the analysis and recommendation of a new ERP system to plan for the next generation Finance system for the City.

Program Overview

The Administration Division of Finance is responsible for creating, monitoring and periodic reporting of the annual budget; investment of City funds in conjunction with the elected City Treasurer; debt issuance and management; and creation of the annual financial report in cooperation with the Accounting Division. Administration also oversees and supports the other divisions in the Finance department.

Objectives FY 2019 & FY 2020

- Support the City Council, Treasurer and City Manager in the development of long-term sustainable financial plans, including capital financing
- Ensure safety of the City's investment of idle cash
- Maintain high standards of excellence through the continuance of the City's AAA bond rating, unmodified audit opinions, and various budgeting and financial reporting awards
- Mitigate Storm Water fund General Fund subsidies by evaluating potential revenue enhancements and grant opportunities
- Coordinate implementation of the Enterprise-wide ERP system; collaborate with all departments to integrate existing City systems, improve workflow efficiencies and enhance financial data reporting
- Formally document all desk procedures and established internal controls as well as create new procedure manuals aligned with the new ERP System.

Major Service Delivery Changes

The Financial Analyst position is essential to the budget development process. In the last several years, the position's role has evolved and now requires complex financial analysis skills, extensive knowledge of accounting and auditing principles, experience in communicating technical financial matters, and the ability to facilitate Citywide initiatives. With the ever-growing demands on the department and organization, this position will be upgraded to a Senior Financial Analyst and a new Management Analyst position will be added to conduct the Department's less technical administrative workload (e.g. grant tracking and recurring financial reports). This will ensure the Department has sufficient resources to meet its objectives as well as have some capacity to take on future work plan items. Both positions will also be instrumental in the implementation of the new Enterprise Resource Planning (ERP) software enhancement project slated to commence in FY 2019 (funds are budgeted in the Information Technology Fund).

Significant service delivery enhancements are expected with the implementation of the new ERP software, including electronic processing and approval workflows for several current manual processes (e.g. payroll and accounts payable), improved financial reporting, and a better-quality user interface. The Administration division will be coordinating the project for the department and assisting other divisions to ensure that core modules are implemented successfully and on schedule.

Program Overview

The Accounting Division's primary responsibilities are the maintenance and control of the general ledger, accounts payable and payroll, and to ensure accountability as well as the timely provision of accurate financial information. The Division is the liaison between the City and its external auditors, and works closely with Finance Administration to prepare the City's Comprehensive Annual Financial Report (CAFR). The City has been the recipient of the Government Finance Officers Association's (GFOA) award for the Certificate of Achievement for Excellence in Financial Reporting for over 15 years. The Accounting Division also participates in budget development by providing historical and projected financial and payroll information, issues standard monthly revenue and expenditure reports for internal customers, and generates reports required by external customers, including other governmental agencies, rating agencies and the public. In addition, the Division accounts for the City's grants and related projects in conjunction with other departments.

All City disbursements are the end product of accounts payable and payroll operations and are reflected by the weekly generation of vendor and employee checks. The accounts payable processes include: maintenance of vendor files; disposition of purchase orders and coordination with the Purchasing (General Services) Division; assisting departments with queries and payment setup; and issuance of 1099 tax forms at year end. Since the inception of the purchasing card (Pcard) program, there has been a reduction in number of accounts payable checks issued. Payroll processes include: monitoring of the Fair Labor Standards Act; Federal and State tax requirements; calculation of deductions and benefits; direct deposit of payroll; issuance of W-2 tax forms; and implementation of labor agreement provisions.

The Division's accounting function involves the maintenance of the City's general ledger, including the generation and posting of journal entries, preparation of monthly and annual reports, and reconciliation of bank accounts. Specific responsibilities include preparation of State Controller's Reports, Streets and Highways Report, MTA Reports, submission of direct assessments to the county, and bond/ debt service accounting. In addition, accounting for Underground Assessment Districts involves maintenance of individual property assessments and bond balances.

Objectives FY 2019 & FY 2020

- Implement a new ERP system to transition to the next generation of Financial Systems for the City
- Continue to uphold high accounting standards to ensure continued clean audit opinions
- Implement new accounting standards as issued by the Governmental Accounting Standards Board
- Update documented desk procedures for audit compliance
- Identify workflow efficiencies and reduce the use of paper through electronic workflow

Program Overview

The primary goal of Revenue Services is to improve the effectiveness and efficiency of all Revenue Programs; to develop and analyze measures that promote fiscal sustainability, and increasing City revenues where possible. The Revenue Services Division administers residential/commercial water and refuse service billings, business license issuance, miscellaneous accounts receivable, animal licenses, parking citation payments, residential and commercial parking pass distribution, leases and franchise agreement maintenance, hotel transient occupancy tax collection, and central cashiering including: daily deposits, collections, and reconciliation.

Revenue Services staff is responsible for the analysis and creation of the Citywide user fees and cost allocation plan. The Division prepares the annual possessory interest report to the Los Angeles County Assessor and is the liaison to the Business Improvement Districts. Revenue Services strives to improve and streamline productivity, and is continually looking for ways to enhance the customer experience through service improvements and access to technology.

Objectives FY 2019 & FY 2020

- Conduct the Comprehensive Citywide User Fee Study and Cost Allocation Plan (CAP)
- Take on an important role in the implementation of the new ERP system for the City by implementing the modules for Accounts Receivable, Utility Billing CIS, Citizen Self Service, General Billing, Cashiering Integration and Business and Animal Licensing.
- Initiate an Audit of City Franchisees (SCE, SoCal Gas and Cable Companies)
- Maintain department efficiency through automation and technology
- Increase paperless bill delivery to water and refuse utility customers
- Look for opportunities to provide online payment options for Revenue programs
- Maintain a high percentage rate on collection from utility billing and accounts receivable
- Continue to deliver expedient and professional customer service at the cashier counter

Major Service Delivery Changes

During fiscal year 2019, the City will conduct a User Fee Study and Cost Allocation Plan (CAP). The study was last completed in 2015. This process identifies the current costs associated with providing each non-tax supported service and assigns the fully-burdened rate (i.e. direct labor costs plus indirect costs) to each City position involved in delivery of those services. The purpose of the CAP is to ensure the City identifies all costs associated with service delivery activities, including overhead, for the true cost of providing various City services. Indirect costs attributable to enterprise and other chargeable funds are also determined. The study is scheduled to commence in January 2019 and will take approximately six months to complete.

Other changes include the creation of a flex classification for the Account Services Representative I position. Addition of the "II" class provides an opportunity for advancement when an Account Services Representative reaches a higher level of proficiency and tenure as a subject matter professional.

Program Overview

The General Services Division of Finance is responsible for purchasing and managing the acquisition of materials and contracted services; the prudent utilization of public funds through competitive processes and cooperative purchasing contracts; monitoring departments' small dollar expenditures through the City's Purchasing Card program; maintaining adequate stock of high-use items such as paper and building maintenance supplies to meet Citywide department needs; assisting City staff with developing specifications for competitive bids; efficient mail processing and utilization of courier/delivery services; and obtaining the best return for surplus property.

Objectives FY 2019 & FY 2020

- Increase scope of original project by publishing a template for preparing a “Request for Proposal” to accompany the guide which was completed in FY 2017/18 in conjunction with the Contracts Working Group
- Continue work on improving timing of renewal and re-solicitation of contracts to ensure routine contracts are current
- Lead team on utilizing Document Management system to increase efficiency through automation such as using the workflow module for warehouse orders until the ERP system is implemented
- Implement Purchasing, Warehouse and Fixed Assets modules of the new ERP system.

Mission

To efficiently and effectively administer the City's human resources and risk management programs while providing responsive and professional customer service to our employees and residents.

Department Overview

The Human Resources Department provides support services to the City's full-time and part-time employees. Human Resources has an Administrative division and Risk Management division comprised of staff who work together in order to provide resources and support for the City. The services for employees and City departments include recruitment and selection, benefits administration, classification and compensation, employee and labor relations, training and safety training, leadership development, employment/labor legal compliance, risk management, wellness initiatives and workers' compensation.

Recent Accomplishment Highlights

- One approved Memorandum of Understanding Agreement with newly formed bargaining unit
- Participated on Citywide committee to review ERP system
- Assessed compensation structure for part-time employees
- Delivered Citywide training on performance management and customer service
- Supervisory Harassment training
- Worked with department staff to recruit and hire full-time employees and part-time employees
- Completed transition to new risk pooling Joint Powers Authority, accomplishing significant ongoing savings to the City
- Completed an update to the City's Section 125 Flexible Benefit Plan Document
- Implemented Target Solutions online training module to Public Works department
- Developed and implemented options for sustainable funding protocols for all risk insurance programs

Human Resources Department | Administration

Program Overview

The Human Resources Administration Division provides support services to full-time and part-time employees in areas such as recruitment and selection, classification and compensation, employee and labor relations, training, policy development, and employment/labor legal compliance.

The department continues to support staff development by providing relevant training opportunities for employees and supervisors. HR continues to review and update policies and rules according to changes in the law.

Objectives FY 2019 & FY 2020

- Continue to expand staff development by providing Microsoft Office Suite training
- Complete the in process review and update Personnel Rules and Personnel Policies to ensure compliance with new regulations and laws
- Negotiate successor or initial collective bargaining agreements with six (6) bargaining units
- Participate in the Enterprise-wide effort to evaluate, select and implement new ERP system

Major Service Delivery Changes

The Human Resources Department is working on digitizing paper forms and documents for greater efficiencies and lower storage costs.

Human Resources Department | Risk Management

Program Overview

The Risk Management Division oversees general liability, workers' compensation, property insurance, unemployment claims, employee health benefit programs, safety training/programs and other wellness initiatives and programs.

Risk Management is committed to creating processes and procedures that enhance employee safety while building sustainable funding and solid risk mitigation practices. Using a proactive perspective and an out-of-the-box mindset are key elements to ensuring creativity in order to improve on past results. The ultimate goal is to create the culture of prevention that is essential to risk mitigation at all levels.

Objectives FY 2019 & FY 2020

- Complete implementation of Policy PI-22 – Responsibilities and Procedures for Processing Workers' Compensation Claims
- Implement Target Solutions online training programs for all departments
- Transition to new Employee Assistance Program provider through new risk pool with higher service levels and lower cost
- Develop recommendations for workers' compensation program changes that can provide positive impacts to ongoing costs

Major Service Delivery Changes

The Risk Division completed the transition to the new risk pooling Joint Powers Authority and have begun the process of reviewing and implementing additional service components now available to the City. A budget adjustment was included in the two year budget plan to account for Hepatitis A first and second series vaccines for select employees determined to have potential Hepatitis A exposures during employment activities

Mission

Parks and Recreation makes lives and communities better now and in the future by providing:

- *Access to the serenity and inspiration of nature*
- *Facilities for self-directed and organized recreation*
- *Positive alternatives for youth which help lower crime and mischief*
- *Outdoor space to play and exercise*
- *Activities that facilitate special connections, human development, therapy and lifelong learning*
- *Human development*
- *The Arts*
- *Lifelong learning*

Department Overview

The Parks and Recreation Department provides a wide variety of programs and services for all ages. These services are provided through the following department program areas: Administration, Recreation Services, Cultural Arts, Sports and Aquatics, Volunteers, Older Adults, and Transportation.

The Parks and Recreation Department has a team of 25 full-time and over one hundred seasonal and part-time professional staff who provide innovative, collaborative, effective and efficient programs and services.

Recent Accomplishment Highlights

Administration

- Reorganized the administration, sports and aquatics, and recreation services program areas to provide greater efficiencies and service levels. The Department reorganization consists of three major program areas, including Recreation, Arts, and Older Adults. The reorganization provides an \$83,000 cost savings, less administration, better alignment of job responsibilities and dedicated staff to provide oversight to the Facility Operations and Youth and Teen Programs. The following positions will be reclassified: Recreation Services Manager to Senior Recreation Manager, two Recreation Supervisors to Senior Program Supervisors and Part -Time Senior Recreation Leader II to Full Time Recreation Coordinator providing oversight to the youth and teen programs.
- Assisted with the design and provided oversight to the construction of the Marine Avenue Skate Spot. In collaboration with local businesses and artists, successfully opened the Skate Spot.
- Collaborative Efforts with the following organizations enabled additional program offerings: Beach Cities Health District, Manhattan Beach Rotary Club, Grand View Elementary; AARP; Manhattan Beach Country Club; Manhattan Beach Downtown Business Professional Association (MBDBPA); Cal State University, Dominguez Hills bringing the Osher Lifelong Learning Institute (OLLI) to Manhattan Beach; Medicare Health Insurance Counseling and Advocacy Program, Alzheimer's Association, Los Angeles County Beaches & Harbor, Department of Mental Health, South Bay

Parks and Recreation Department

Family Health Care, Marriott Golf Club, American Association of Retired People (AARP), Arthritis Foundation, Beach Cities Health District, Braille Institute, Center for Health Care Rights and the Manhattan Beach Unified School District.

- Updated Mission Statement and Department Core Values.
- Introduced a rebrand to the Department by designing a Manhattan Beach Parks & Rec logo and style guide.
- Redesigned the Manhappenings brochure and received a California Parks and Recreation Society Award of Excellence for Marketing and Communication in the print category.
- Established Social Media presence as a reliable source for City news and recreation offerings, reaching 5300 followers on Facebook, 3500 on Instagram, and 750 Twitter followers and received the Award of Excellence for Marketing and Communication in the digital/social media category from the California Parks & Recreation Society.
- Updated Facility Reservation Policy.

Sports & Aquatics

- Updated the Field Use & Allocation Policy and field fees.
- Collaborated with Los Angeles County Department of Beaches and Harbors, Association of Beach Volleyball Professionals, and Manhattan Beach Downtown Business and Professionals Association to expand the MBO beach volleyball tournament programming, including free sunrise yoga, community movie night and Pier Ceremony reception.
- Expanded sport programs and tournaments including youth lacrosse classes and camps, and adult volleyball classes and Charlie Saikley 6-Man Beach Volleyball Tournament.
- Secured \$700,000 in donations to re-turf Manhattan Village Field in exchange for dedicated use in collaboration with five resident youth sport organizations.
- Maintained 100% cost recovery services in Sports & Fitness and Aquatics.

Recreation Services

- Increased participation at Summer REC Program, reaching maximum capacity on a weekly basis
- Enhanced the REC Afterschool program by partnering with local businesses and the library, and expanded the walking program.
- Reorganized the Division to provide greater efficiencies by shifting job responsibilities of the REC Afterschool program coordinator to provide oversight to the youth and teen programs.
- Enhanced teen programs and partnered with Growing Great to incorporate healthy eating and gardening into the programming.
- Collaborated with the MBUSD Choice project as part of the Teen Center Afterschool program / Pumpkin Race, allowing youth with special needs to work hands-on and learn work skills.
- Enhanced the MBO Tennis Tournament and increased participation.

Cultural Arts

- Rebranded the *Creative Art Center* as the *Manhattan Beach Art Center* (MBAC) and created the MBAC brand that includes a newsletter with over 1,000 subscribers and a social media group, *Friends of the Art Center* that has 40 local members and 200 online followers. MBAC also published two books and five brochures highlighting the artists and their accomplishments.

- The Live Oak Park Ceramics studio was reorganized and updated to be much more user friendly and efficient. The participants in the program have gone from 80 to 200. Staff has also added many special workshops such as Raku, and a wildly popular biennial art sale for students and teachers. A proposed expansion plan is in the approved CIP for 2019.

Community Programs

Older Adult Program

- Introduced new programming, including a Caregiver Support Group, nutrition programs with Beach Cities Health District, Powerful tools for Caregivers, Understanding and Responding to Dementia-Related Behaviors, Makmo with MB Library, an learning series called Living with Alzheimer's and Sharing Memories, technology skills classes, Zumba Gold, Tea and Tai Chi, Doc Talk, Senior Comedy Improv Show, karaoke.
- Won two awards for our Connected! Program, which connects older adults to the information age, primarily through intergenerational programs – the 2016 Helen Putnam Award from the League of California Cities and the 2018 Award of Excellence in Creating Community: Aging Well from the California Parks and Recreation Society.

Transportation

- 21% increase in ridership in Fiscal year 2016-17 and 34% increase over the past two years. Currently, there is an additional increase of 8% midyear in 2017-18.

Volunteers

- Mid-year of 2017-18, volunteers have donated 11,518 hours, resulting in a savings so far this year of \$269,752 for the City. The American Association of Retired Persons (AARP) has calculated that the current average value for volunteering in California is \$23.42 per hour.
- Worked collaboratively with the MBUSD to offer volunteer opportunities at the City for ten CHOICE (The Community, Healthy Living, Opportunity, Independence, Career, and Emotional Social Well-being) transition students. CHOICE is the MBUSD transition program for neurodiverse young adults.

Parks and Recreation Department | Administration

Program Overview

The Administration Division oversees all operating functions of the Department including administration of capital improvement projects; coordination of the Parks and Recreation Commission, Library Commission, Cultural Arts Commission, and ad-hoc committees; budget development; department marketing and coordination of Citywide community events. This division provides vision, direction, and support resources to Department staff and City Council.

Objectives FY 2019 & FY 2020

- Develop Department consistencies through design and marketing and update Department branding materials, including incorporating in Department mission statement, logo, and style guide.
- Collaborate with the City Clerk and City Attorney’s office to trademark logos and events.
- Promote recreational and social opportunities that serve the population ranging from infants to older adults.
- Provide excellent customer service for all registrations and reservations.
- Increase the number of online registrations for maximum staff efficiency and customer ease.
- Enhance and support all online reservations through the ActiveNet registration system.
- Publish four activity guides per year and continue to develop an interactive digital Citywide activities guide that includes hyperlinks, web-clips and interactive pictures.
- Continue to review and update department policies.

Major Service Delivery Changes

The Parks and Recreation Department underwent a comprehensive internal assessment when there was a vacancy in one of the key Recreation Services Manager positions. The result of this effort was a reorganization of the department, providing greater efficiencies and improved service delivery. The new structure will provide better alignment of job responsibilities and less administration. Beginning in 2018/2019, Measure R funds will no longer be used to subsidize the Dial-a-Ride Program. This change will result in the usage of General Fund dollars to purchase additional restricted Prop A funds, which will eliminate the transportation program deficit. This change will allow the City to redirect Measure R funds back to streets repairs and capital improvements, as intended.

Parks and Recreation Department | Recreation Services

Program Overview

The Recreation Services Division oversees a variety of large, community-wide special events, facility and park reservations and operations, tennis operations, reservations and classes, specialty classes, nature and outdoor recreation activities, youth and teen afterschool programs and summer camps. The Recreation Services Division strives to provide a wide range of recreational opportunities through safe and clean parks, facilities, fields and programs that provide positive physical, social, environmental, and economic benefits to the community.

Objectives FY 2019 & FY 2020

- Expand REC Summer Camps to two facilities to better serve the Community.
- Enhance facility reservation program.
- Maintain a high customer satisfaction rating for specialty classes, facility reservations, Afterschool REC and Teen Center programs.
- Enhance the REC Afterschool program by partnering with local businesses and the library.

Major Service Delivery Changes

The Parks and Recreation Department underwent a comprehensive internal assessment when there was a vacancy for the Recreation Services Division Manager position. The result of this effort was a reorganization of the department, providing greater efficiencies and improved service delivery. As part of the re-organization, the Senior Recreation Manager will provide oversight to the Recreation Division, Sports & Aquatics, and Marketing & Registration. Sports & Facilities will be under the general supervision of a Senior Program Supervisor; Youth, Teen, and Aquatics will be under the general supervision of a Senior Program Supervisor; and a Full-time Recreation Coordinator will coordinate all youth and teen programs. The new structure will provide better alignment of job responsibilities in facilities and sports operations and management, as well as youth and teen programming.

Program Overview

The Sports & Aquatics Division’s goal is to promote health and wellness throughout the community by providing and managing a variety of recreational athletic facilities, youth and adult sports leagues, fitness classes, aquatics programs, sports camps/clinics and special events and tournaments. The division manages a comprehensive aquatics program at Mira Costa High School and Begg pool, coordinating swim classes and water safety awareness programs for all ages and abilities, and schedules use and special events for local, state, and national organizations. The division manages the sport field allocations in collaboration with the youth sport organizations.

Objectives FY 2019 & FY 2020

- Implement the updated field fees and field allocation and use policy.
- Maintain a highly favorable rating on swim programs, fitness classes and sport leagues.
- Expand aquatics programming at Mira Costa High School to meet the needs of the Manhattan Beach community.
- Maintain division revenues at a minimum of 100% of operating expenditures.
- Provide special events and tournaments, including Kids Extreme Mud Run, Southern California Municipal Athletic Federation swim meet, Father’s Day Volleyball Tournament, Manhattan Beach Open Volleyball Tournament, International Surf Festival Youth Six-Kid Volleyball Tournament, Charlie Saikley Six-Person Volleyball Tournament.
- Expand adult sport leagues.
- Manage the City adult and youth sports leagues and the sports field allocation program in collaboration with youth sport organizations.
- Participate in and support efforts for re-turfing the Manhattan Village Field.

Program Overview

Manhattan Beach is a unique community, combining opportunities for the appreciation of its spectacular beaches, to focus on wellness and fitness and the excellence of its arts and culture experiences, thus contributing to a vibrant community with the highest quality of life.

The Cultural Arts Division develops and presents artistic and educational programs and exhibitions that directly relate to the contemporary urban life of its constituents, while maintaining the highest standards of professional, intellectual, and ethical responsibility. It

seeks to create connections among artists, cultural organizations, community groups, businesses, visitors and residents that sustain and promote a thriving, diverse, creative city. This mission is grounded in a belief that learning about the arts is integral to human development and continual personal growth.

Objectives FY 2019 & FY 2020

- Develop a comprehensive Arts Education program for the Manhattan Beach Art Center and Parks and Recreation Programming.
- Continue to develop programs and projects on the Arts Commission work plan.
- Continue partnership with the Manhattan Beach Public library to present visual and performing arts programming.
- Expand Ceramics program.
- Continue collaboration with MBUSD for StArt Project, advanced arts education initiative for Mira Costa High School students.
- Research and provide recommendations for the use of Public Art Trust Funding options for City Council consideration.

Major Service Delivery Changes

In fiscal year 18/19, the Manhattan Beach Art Center will fully realize its arts education program. Building on last year's success in developing a critically acclaimed exhibition program, the Manhattan Beach Art Center will focus its efforts on building an education and outreach program in the areas of visual and performing arts education, special cultural events, and special cultural workshops.

FY 18/19 will also see the increased level of service in the Live Oak Ceramics Studio with the addition of a Ceramics Recreation Coordinator and a further integration of ceramics into the overall cultural arts program. Service levels in the areas of jewelry and small metals should also increase.

Parks and Recreation Department | Older Adults

Program Overview

The Older Adults Program is part of the Community Programs Division and provides a variety of quality programs in the areas of health and fitness, arts and crafts, outdoor activities, drama, literature, movies, creative writing, educational programs, excursions, discussion groups, luncheons, table games and dance. A large focus of the program continues to include intergenerational programs and collaborations.

Objectives FY 2019 & FY 2020

- Continue to create programs to meet the needs of the older adult population
- Continue to establish relationships and build a network of service providers to address the needs of older adult residents of Manhattan Beach
- Continue to maintain a robust volunteer program at Joslyn Center
- Manage a high level of programs and customer satisfaction, working within City budget guidelines

Major Service Delivery Changes

Over the last few years, the scope of the Older Adults Program has grown and evolved in order to continue representing Manhattan Beach’s vibrant Older Adults community. Because of this, additional programs have been added and participation has increased. The Older Adults Program works with a dedicated group of full-time and part-time staff, volunteers and community groups to support this expansion to the best of its ability. In order to continue providing high-quality programming at little to low cost to participants in the coming years, the Older Adults Program will explore ways to streamline its services by prioritizing programs. The addition of two new iPads will increase the efficiency of evaluating and tracking program attendance, as well as RSVP’s.

Program Overview

The Transportation Division is part of the Community Programs Division and is funded predominantly by Proposition "A" Local Return transportation funds. These monies, which are administered by the Los Angeles Metropolitan Transportation Authority (MTA), are generated by a one-half cent sales tax approved by the voters for use in transportation related services. These services include the Dial-A-Ride program, bus pass subsidies, recreational bus trips for all ages, and fixed route bus service provided by both Ocean Express Trolley and the Beach Cities Transit.

Dial-A-Ride transports customers to a variety of locations throughout the City including shopping centers, community centers, and medical facilities, as well as to designated medical facilities in neighboring communities. Fares are \$0.25 one-way within the City and \$0.50 one-way outside the City. The budgets for Fiscal Years 2019 and 2020 also include funding for the continuation of the Beach Cities Transit Bus Service.

Objectives FY 2019 & FY 2020

- Continue to offer Dial-A-Ride service seven days a week to destinations in Manhattan Beach, as well as five days a week to select medical facilities
- Offer increased service as needed to meet the growing popularity of Older Adult Programs at Joslyn Center, and the overall increase in ride requests
- Collaborate with senior housing facilities and MBUSD Special Education programs to provide effective transportation options as needed
- Provide increased driver and dispatch training to improve efficiency, safety and customer service
- Assist the Older Adult Program staff to plan and implement bimonthly local bus trips and offer a flexible schedule to include after-hours events like the Manhattan Beach Unified School District free events for Older Adults
- Offer the Older Adults Night on the Town Dinner Program Wednesday evenings
- Continue to obtain a high satisfaction rating of drivers and dispatchers.

Major Service Delivery Changes

Dial-A-Ride ridership continues to increase each year. In fiscal year 2016/17, ridership increased by 21%. Also in 2016/17, tablets were deployed on the buses for more efficient scheduling, daily schedule changes, and data entry. The number of rides provided continues to increase. Mid-year 2017/18 rides were up an additional 8%. The part-time staffing budget increases each year to meet the increased needs of the older adults in the community, with this year's increase at \$14,514. An exchange of General Fund dollars for additional restricted Prop A funds is required to eliminate the transportation program deficit.

Parks and Recreation Department | Volunteers

Program Overview

The City’s centrally-coordinated volunteer program is part of the Community Programs Division and is designed to provide citizens with job skills, training, personal fulfillment, and opportunities to become more involved in municipal government. Volunteers offer support to various City departments. Positions include City Hall and Joslyn Community Center ambassadors, general clerical positions, Older Adult Program-program coordinators, teachers and clerical volunteers, special event positions, sports league coaches, and various positions within the Police and Fire Departments.

Objectives FY 2019 & FY 2020

- Collaborate with schools and community groups to offer volunteer service opportunities that enhance parks and open space areas in the community and provide opportunities for people with developmental disabilities
- Maintain diverse volunteer opportunities for Older Adults
- Coordinate 3-4 park clean-ups annually offering volunteer opportunities for the community and enhanced maintenance of the parks.
- Continue to coordinate with the Police Department to offer annual Volunteer Recognition event(s) for City volunteers
- Meet the volunteer needs of City departments
- Maintain the number of volunteer hours for increased savings to the City.

Mission

To protect life, liberty, and property while providing excellent service and developing problem-solving partnerships within the community

Department Overview

The Manhattan Beach Police Department is a premiere, full-service law enforcement organization. The dedicated men and women of this Police Department are an integral part of this community, and the community is an integral part of the Police Department. We count on each other to keep this community safe and to work on quality of life issues so that residents love living here, businesses thrive, and visitors enjoy their stay.

The Police Department operates under two Bureaus - Administration/Investigations and Field Operations.

The following budgetary programs comprise the Police Department:

- Administration
- Patrol
- Investigations
- Technical Support Services
- Community Affairs
- Traffic Safety
- Parking Enforcement
- Animal Control
- Jail Operations
- Asset Forfeiture/Grants

The Police Department is constantly trying to enhance the ways we communicate with our community. In March 2017, the Police Department launched its Instagram page, www.instagram.com/manhattanbeachpolice. The response from the community has been tremendously positive, with over 5,500 followers and over 5,000 instances of engagement each month. In April 2017, The Police Department also launched Twitter (twitter.com/manhattanbchpd) and YouTube (www.youtube.com/channel/UCOZWT2NPCePK2SznVMH12ow) The Police Department thanks the community for embracing our new presence on social media and looks forward to future engagement.

Instagram, Twitter, and YouTube are complements to the Police Department's existing social media presence on Facebook, which was launched in March 2016 and has over 2,600 followers. Posts have generated approximately 10,000 instances of engagement each month. The Police Department also uses Nixle, a public safety notification tool where subscribers can receive text and email messages directly from the Manhattan Beach Police Department regarding community events and critical incidents. Nixle was launched in October 2013, and now reaches over 10,400 subscribers. To begin receiving text and/or email alerts and tips from Manhattan Beach Police, sign up at www.citymb.info/nixle.

Police Department

The partnership between the Police and the community, which includes our fantastic Neighborhood Watch program, epitomizes the best in community policing. We have one of the most active Neighborhood Watch programs in the nation, with over 400 residents currently participating as Neighborhood Watch block captains, covering the majority of our four square miles.

The Police Department's 2016-2018 Strategic Plan took effect on January 1, 2016. The plan was created through the participation of all levels within the Police Department; workshops, surveys, and meetings were conducted with sworn and civilian personnel representing every rank and Bureau. Community input was gathered through interactive community workshops. As a result of the workshops and planning sessions, three goals were identified:

Goal 1: Organizational Development

We have a positive, values-based work environment, where we develop our employees at all levels of the organization and empower them to creatively solve problems and maintain our highly effective organization.

Goal 2: Community Engagement

We interact with our community in a variety of ways to ensure that we are providing all of those we serve with the highest levels of police services.

Goal 3: Community Quality of Life Enhancement

We continue to develop strategies to reduce crime and improve the quality of life in Manhattan Beach.

Within each of these goals are quantifiable objectives and action items which outline how the Department will work to attain these goals. The success of the Strategic Plan involves the actions of all Department supervisors and employees, and we are committed to providing excellent service to our community. The men and women of the Manhattan Beach Police Department are proud to serve our community, and with this document as a guide, we will strive to achieve an even higher level of service.

Recent Accomplishment Highlights

- Maintained an emergency response time of under two minutes
- Enhanced community engagement through the Police Department's Instagram page (www.instagram.com/manhattanbeachpolice), Twitter page (twitter.com/manhattanbchpd), and YouTube Channel (www.youtube.com/channel/UCOZWT2NPCePK2SznVMH12ow)
- Expanded the reach of Nixle public notification service, now reaching over 10,400 subscribers
- Implemented the actions items outlined in the 2016-2018 Police Department Strategic Plan
- Continued to implement innovative crime fighting efforts to combat the effects of AB109 Realignment and Proposition 47, including enhanced/increased patrol foot beats, burglary suppression details, Crime Impact Team, and undercover patrols
- Hosted Community Events to promote Community Engagement: Town Hall Meeting, Neighborhood Watch Meetings, Coffee with a Cop Program, National Night Out, and Tip-A-Cop Event (Tip-A-Cop proceeds benefit local Special Olympics athletes)
- Provided Safe Drug Disposal options for controlled substances (Drug Drop Box in the Police Station lobby and twice yearly DEA Take Back Events)
- Recruited and hired excellent staff
- Deployed additional pole-mounted speed radar signs to augment our speed awareness and education efforts, purchased with grant funds

- Hosted the Bike Safety Rodeo in partnership with the Beach Cities Cycling Club, South Bay Bicycling Coalition, and Meadows PTA to promote youth bike safety
- Donned pink uniform patches in October in honor of Breast Cancer Awareness Month and raised over \$5,723 for Manhattan Beach's local Soroptimist International Chapter to make comfort bags for South Bay patients battling breast cancer.
- Deployed blue checks fingerprint readers to patrol officers, allowing officers to identify suspects in the field
- Replaced analog cameras the jail with digital cameras, enhancing picture quality, reliability, and officer and inmate safety
- Participated in a joint-agency grant for Alcoholic Beverage Control, in partnership with Hermosa Beach and El Segundo, of which our portion of the grant is approximately \$18,000.
- Secured \$200,000 in grant funds from the California Office of Traffic Safety to augment DUI and traffic enforcement efforts.
- Installed License Plate Readers at main points of ingress/egress to the City to enhance crime prevention efforts. From an investigative perspective, in the first six months, the system has solved, or provided solid leads on, over 30 investigations. It also enhanced our proactive policing and patrol efforts by helping field officers to recover 15 stolen vehicles, locate a missing person, and make 20 felony arrests (including a suspected burglary crew, a package thief, and numerous suspected identity thieves). Many of the vehicles located had evidence of fraud (stolen mail, credit cards, etc), illegal narcotics, one car had an embosser used to manufacture fraudulent credit cards, and one had numerous burglary tools, and two vehicles had loaded handguns.

Police Department | Administration

Program Overview

The Administration & Investigations Bureau is responsible for the day-to-day management of law enforcement services to the City of Manhattan Beach. Functions include Department policy review and development, management of the Department's budget, Strategic Plan management, payroll and accounting functions, internal affairs investigations, responding to claims against the City, responding to citizen complaints, and managing Department-specific grant funding.

The Personnel and Training Section is funded within this program. Functions include coordinating training for sworn and civilian personnel, managing testing, selection, backgrounds, and hiring of all Department employees, and providing oversight of Department-issued equipment.

The Department continues to maintain 100% compliance with Peace Officer Standards and Training (POST) and Standards and Training for Corrections (STC) requirements. This training is of direct importance to residents, as it ensures that officers and staff are prepared and trained to respond to community issues and problems. POST Training (object 5220) and STC Training (object 5219) are reimbursed in part by the State of California.

The Department has obtained POST certification for several in-house training programs which are mandated for all sworn officers to attend, including Drivers Training, Arrest and Control Tactics, and Tactical Firearms. These in-house training courses are delivered at a lower cost and can be tailored to meet Department-specific needs.

Objectives FY 2019 & FY 2020

- Maintain compliance with Peace Officer Standards and Training (POST) and Standards and Training for Corrections (STC)
- Offer career development and leadership training for sworn and civilian personnel
- Provide in-house training programs to maintain and enhance skills while minimizing operational disruptions and reducing expenses
- Continue to enhance internal communication
- Implement a formalized mentorship program
- Implement the 2016-2018 Police Department Strategic Plan goals, objectives and action items; report progress to the community
- Enhance communication with the public through social media
- Enhance usage of crime reduction technologies
- Continue to provide a high level of service to the community

Service Level Trends & Service Delivery Changes

With over 76% of internet users frequenting social media sites, law enforcement agencies across the Country are finding new ways to engage with their communities via social media platforms. The Manhattan Beach Police Department has recently expanded its social media presence – we launched our Instagram page in March 2017, www.instagram.com/manhattanbeachpolice. The response from the community has been tremendously positive, with over 5,500 followers, and with over 5,000 instances of engagement each month. In April 2017, the Police Department launched Twitter (twitter.com/manhattanbchpd) and YouTube (www.youtube.com/channel/UCOZWT2NPCePK2SznVMH12ow) The Police Department thanks the community for embracing our new presence on social media and looks forward to future engagement.

Instagram, Twitter, and YouTube are complements to the Police Department’s existing social media presence on Facebook (launched in March 2016), which has over 2,600 followers. Posts have generated approximately 10,000 instances of engagement each month.

The Police Department also uses Nixle, a public safety notification tool where subscribers can receive text and email messages directly from the Manhattan Beach Police Department regarding community events and critical incidents. Nixle was launched in October 2013, and now reaches over 10,400 subscribers. To begin receiving text and/or email alerts and tips from Manhattan Beach Police, sign up at www.citymb.info/nixle. Utilization of social media and Nixle meets the Police Department’s Strategic Plan Goal to engage the community.

Recruiting and hiring police officers is a challenge facing most police agencies in Southern California, so highlighting our Department on social media is also a way to reach our applicant pool and to give prospective officers a glimpse into a career with MBPD. As of April 2018, the Manhattan Beach Police Department is seeking to recruit and hire 8 police officers in order to bring the Department up to full-staffing.

Program Overview

Patrol is comprised of two shifts of uniformed police officers that provide services 24 hours a day. Patrol officers are the first responders to emergencies, and their emergency response time averages approximately two minutes – when a resident or business calls dispatch with an emergency, the average time it takes an officer to arrive on scene is two minutes.

Patrol officers respond to immediate and routine service calls, crime-related incidents, and quality of life issues. They conduct preliminary investigations, collect evidence, and arrest offenders. Other responsibilities include recovering lost or stolen property, ensuring the safety and protection of persons and property through proactive and directed patrol, enforcing traffic laws, providing high visibility enforcement during events, rendering aid to the community as needed, and providing the highest level of quality service through problem solving and community-oriented policing. Officers strive to provide an excellent level of service and take pride in building partnerships with residents and businesses in the community.

Special programs currently operated under Patrol include K-9 Program, Special Weapons and Tactics (SWAT) Team, Crisis Negotiation Team, South Bay Platoon, Beach Patrol, Bike Patrol, Crime Scene Investigations (CSI), and Field Training Officer Program.

Objectives FY 2019 & FY 2020

- Ensure rapid response times to calls for service, and improve service levels and response times whenever possible
- Provide the highest levels of service to the community while maintaining a friendly and professional demeanor
- Enhance usage of crime reduction technologies
- Identify crime trends and provide directed patrols in an effort to reduce crime and enhance quality of life
- Enhance visibility and communication within the community with footbeat and bicycle patrols

Service Level Trends & Major Service Delivery Changes

The Police Department's goal is to provide expedient response to community emergencies while addressing crime trends in a proactive manner, reducing crime and the fear of crime, and enhancing quality of life for residents and visitors. Officers work hard to maintain our average emergency response time of under two minutes.

Overtime (4112) is trending high this year, primarily due to filling patrol vacancies on an overtime basis. We anticipate overtime expenditures will continue to trend high in the near future as we work to fill the vacancies and then train the new-hires. Training a new officer takes over a year - newly-hired police officers attend a six-month Police Academy through the Sheriff's Department, and then begin a five-month long field training program at the Manhattan Beach Police Department. During the Field Training Program, trainees are paired with experienced Field Training Officers (FTOs) who have a dual responsibility of providing police service on

Police Department | Patrol

their assigned patrol shift, as well as training and evaluating the new officers. During this time, new officers perform various law enforcement duties under the guidance and supervision of their assigned FTO. This one-to-one style of training is an invaluable opportunity for new officers to become acclimated to the demands of the job. At the end of the five-month term, most new officers are ready to function solo.

Manhattan Beach Police Department continues to implement innovative crime fighting efforts to combat the effects of AB109 Realignment and Proposition 47, including: enhanced/increased patrol burglary suppression details, undercover details, and deployment of crime impact teams. As we are currently short-staffed due to 8 sworn officer vacancies, most of these details are conducted on an overtime basis. We will also continue to implement innovative crime fighting programs, as well as provide enforcement of community priorities and address quality of life issues, including Strand and bike path enforcement, smoking ban, and other municipal code violations.

Department-wide police staffing for special events is also budgeted in Patrol (4114). Manhattan Beach is host to an increasing number of special events. Additionally, many of the events are growing in popularity, therefore requiring additional staffing to ensure adequate coverage.

Police Department | Investigations

Program Overview

The Investigations Section provides professional and thorough investigations of reported criminal acts. Investigators follow-up on crime reports from Patrol, and conduct a variety of proactive investigations and enforcement efforts. Some of these investigations require detectives to conduct surveillance and undercover operations, work closely with other agencies, and serve search and arrest warrants.

The detectives investigate many different types of crimes: crimes against persons, property crimes, fraud/forgery cases, narcotic-related cases, and juvenile crimes. Detectives attend intelligence-sharing meetings with local and regional police and government agencies on topics such as include robbery, sexual assault, property crime investigation meetings, regional Child Protection Task Force, and Joint Terrorism Task Force hosted by the F.B.I.

One detective is assigned as Court Liaison and is responsible for filing felony and misdemeanor court packages, issuing subpoenas, and assisting the detectives in investigating crimes.

Two officers serve as School Resource Officers (SRO) and work at the local schools. They work in collaboration with school officials to promote a safe environment in and around our local elementary, junior high, and high schools. The SROs strive to promote harmonious relationships by presenting themselves as positive role models, maintaining dialogue with students and staff, and participating in school and youth events. They also participate in after-school and summer programs.

We continue to assign a full-time officer to LA IMPACT (Los Angeles Interagency Metropolitan Police Apprehension Crime Task Force). This regional task force brings together officers from agencies across Los Angeles County to identify, dismantle, and prosecute drug networks. MBPD's participation in the regional task force is an invaluable investment in the protection of our community, because the task force assists agencies in identifying and capturing criminals who are unlikely to be caught by ordinary means due to the complex or resource intensive nature of the investigation.

Objectives FY 2019 & FY 2020

- Aggressively pursue leads in an effort to solve crimes, and successfully arrest and prosecute criminals
- Respond proactively to issues and concerns that affect the community, including periodic interviews with local sex registrants, probationers, and parolees
- Coordinate patrol and detective response to crime trends
- Enhance usage of crime reduction technologies
- Be responsive and compassionate with crime victims
- Promote and maintain a safe environment in and around the local schools.

Service Level Trends & Major Service Delivery Changes

In fiscal year 2017/2018, fixed license plate readers (LPRs) were installed at points of ingress and egress to the community. The LPRs have proven to be an invaluable tool for detectives. In the first six months of use, this tool help to solve, or provided solid leads on, more than 30 cases. Use of the cameras also led to the arrest of a suspected burglary crew, numerous identity thieves, and a package thief, and led to the recovery of a credit card embosser used to manufacture fraudulent credit cards.

Program Overview

The Technical Support Services Section processes and maintains all reports produced by police personnel, including crime, arrest, and traffic reports. Working 24 hours a day, staff-members greet visitors at the main lobby of the public safety facility, answer phones, process evidence, and enter stolen property, vehicles, missing persons, and warrants into local and regional databases. They frequently provide statistical data and assist officers in locating information pertinent to their investigations, including running criminal background checks of suspects and arrested persons, and preparing documents which aid in prosecution of criminals. The Section also prepares local crime statistics for State and Federal agencies, assembles report packages for filing cases with the District Attorney's office, transfers information and bail money to court, and processes all citations and warrants that are issued.

Technology is utilized to enhance the tracking of stored evidence and property, resulting in a more efficient and secure property and evidence retention process. Audits are performed regularly to ensure that property held as evidence is accurately labeled and stored.

Dispatch and communications operations are contracted through the South Bay Regional Public Communications Authority (SBRPCA), which provides emergency dispatch and communication functions for both Police and Fire services (object 5106).

Objectives FY 2019 & FY 2020

- Conduct audits of property held as evidence
- Efficiently enter and manage data for various Department needs using the Records Management System; assist officers in gathering data for field investigations
- Work with the South Bay Regional Public Communications Authority to upgrade Computer-Aided Dispatch System and Records Management System to enhance efficiency and effectiveness
- Provide continued support for the jail and officers in conducting matron duties
- Maintain timely response to public records requests
- Continually review, update, and revise Department forms to ensure completeness and viability.
- Upgrade all Police Department radios to meet Federal requirements, as well as to enhance interoperability

Service Level Trends & Major Service Delivery Changes

The Police Department has experienced a dramatic increase in Public Records Requests over the past few years. In 2013, the Police Department requested a full-time Admin Clerk to process the already growing number of requests, which at the time numbered approximately 210 Public Records Requests and 170 Subpoenas. The number of requests has continued to grow exponentially over the years - in 2015, the Department received 883 Public Records Requests and 284 Subpoenas. In 2017, those numbers rose to more than 1,800 public records requests and more than 300 subpoenas. The staggering number of requests is more than current staff can handle, and timely processing of these requests is causing significant and growing overages to the overtime budget. As such, an additional Administrative Clerk position is being requested for fiscal year 2018/2019.

Police Department | Technical Support Services

The fiscal year 2018/2019 budget also includes the upgrade of two Records Technician/Matron positions to “Lead Records Technician/Matrons” positions. Currently, the span of supervision is insufficient in the Technical Support Services Section; one Manager supervises a unit with 13 full-time employees and several part-time employees. These employees collectively provide services at the front desk 24 hours a day, 7 days a week, as well as providing matron assistance in the jail, as needed. The new lead officer positions will assist the Records Manager with supervision of daily operations, projects, and scheduling.

A new, recurring expenditure for cloud-based storage for body worn camera video is included in object 5104. The Police Department is currently field-testing various solutions and will return to City Council to award a contract during fiscal year 2018-2019.

Two carry-forward requests are also included in the fiscal year 2018/2019 budget – the upgrade of the existing Computer-Aided Dispatch System and Records Management System (object 5106), and the purchase of replacement portable and in-vehicle radios (object 6141, previously budgeted in Asset forfeiture).

One of the greatest challenges the public safety sector has is communications between varying radio and wireless networks. Today, first responders converging on major emergency incidents or crossing jurisdictional boundaries lack the communication tools to coordinate response and intelligence gathering efforts. Manhattan Beach’s Police and Fire communications are provided through the South Bay Regional Public Communications Authority (SBRPCA). This system provides interoperability among the five agencies utilizing the SBRPCA system, as well as other South Bay cities. However, once those agencies travel outside the South Bay, communications back to home base are not possible. This is particularly problematic when participating in a multi-agency incident, regardless of the location.

The Interagency Communications Interoperability (ICI) System was formed in order to develop a regional communications platform for agencies in the Los Angeles area. Seven local Area G agencies (cities of El Segundo, Hermosa Beach, Redondo Beach, Torrance, Gardena, Hawthorne and Manhattan Beach) came together to form a Joint Powers Authority (JPA), the Interoperability Network of the South Bay (INSB), for the purpose of managing the system in the South Bay. The INSB member cities are sharing in the implementation costs of the new interoperable radio network. SBRPCA has secured grant funding to complete the infrastructure upgrade, but each member agency is responsible for upgrading radio equipment. This requires the replacement of all in-car and portable radios to Motorola ICI system compatible radios.

In fiscal year 2017/2018, the in-car and portable radios were budgeted in Asset Forfeiture; however, sufficient funds were not available to cover the cost of the entire project and the City was considering a lease-purchase option. After careful review, there is sufficient General Fund fund balance for the cost of the radio purchases.

Program Overview

The Community Affairs Section strengthens relations between the Police Department and the public, disseminates press releases, interfaces with the media, provides a variety of crime prevention and safety programs, manages the false alarm program, and coordinates volunteer activities. The Neighborhood Watch Program, Victim Assistance Team (VAT), and Volunteers in Policing (VIP) are three invaluable volunteer programs coordinated out of the Community Affairs Section.

Manhattan Beach’s Neighborhood Watch Program epitomizes the best in community policing. Citizen involvement is key to preserving and protecting the quality of life in Manhattan Beach, and the Neighborhood Watch Program allows the community to work together in partnership with the Police Department at achieving this important goal. The active participation of over 400 block captains in the Neighborhood Watch Program, coupled with neighborhood programs like National Night Out and Map Your Neighborhood, helps to maintain strong neighborhoods and improve quality of life in the community.

False burglary and robbery alarms are a daily occurrence, and Manhattan Beach police officers respond to over one thousand false alarm calls each year. Managed out of the Community Affairs Section since 2004, the False Alarm Reduction Program proactively addresses the problem by educating alarm owners on the impact that false alarms have on public safety and implementing a fee schedule for repeated false alarms. Since the inception of this program, false alarm occurrences have decreased by more than 50%.

Objectives FY 2019 & FY 2020

- Present crime prevention and safety presentations to residents, businesses, and community groups
- Create content for Police Department social media accounts; produce and distribute press releases and maintain contact with local press contacts
- Coordinate volunteer programs
- Support Neighborhood Watch activities
- Enhance usage of crime reduction technologies
- Provide opportunities for positive face-to-face interaction with the public through Department-hosted events
- Provide assistance and referrals to crime victims
- Reduce the incidence of false alarm activations through the management of the false alarm program and issuance of alarm permits
- Implement community awareness campaign focused on crime prevention
- Manage the Residential and Commercial Security Camera Registration Program; make registry available to officers and detectives.

Program Overview

The Traffic Section is responsible for the enforcement of State and local traffic laws, the investigation of traffic collisions, and traffic control management within the City of Manhattan Beach. It also performs directed traffic enforcement in identified areas of concern.

Since traffic is one of the community's greatest concerns, officers spend a significant amount of time addressing the issues brought to their attention. Using directed enforcement details, DUI checkpoints, commercial enforcement, and traffic data surveys, officers can address these issues identified as potential problems that could negatively impact the community.

Manhattan Beach is host to many special events, including Six Man Volleyball Tournament, Manhattan Beach Open, Holiday Fireworks and Pier Lighting, Hometown Fair, Pumpkin Race, Tour de Pier and many more. Special events deployment is overseen by the Traffic Sergeant and special event operational plans are reviewed annually to ensure the safety of residents and visitors.

The Traffic Section maintains communication with the community through the Area Traffic Officer Program and attendance at community meetings. The Area Traffic Officer Program divides the City into four beats, assigning a traffic officer to each beat. Citizens and local businesses are provided with the officer's name and contact number for their area. This gives citizens direct contact with a traffic officer who will address their concerns.

In partnership with the City Traffic Engineer and other City staff, the Traffic Section analyzes traffic patterns within the City and works to minimize traffic problems. This includes exploring traffic calming measures and working to reduce traffic collisions by ensuring the safe movement of vehicles and pedestrians throughout the City. The use of speed trailers, message boards, and patrols provide motorists with added awareness of traffic laws. When deployed in areas identified as having frequent traffic violations or collisions, these traffic calming measures can help to change motorist behavior and encourage safe driving habits.

Objectives FY 2019 & FY 2020

- Promote traffic safety through enforcement and education
- Increase officer availability and efficiency with the deployment of speed radar trailers and pole-mounted speed radars
- Work with other City departments to ensure effective traffic management and pedestrian movement, including safe movement of vehicles and pedestrians around schools, bike path, Strand and Pier
- Utilize traffic calming measures, proactive enforcement, and education to reduce the number of traffic collisions
- Identify issues and communicate with the public regarding traffic concerns
- Manage special events deployment and operational plans
- Enhance DUI education and enforcement efforts
- Provide the Crossing Guard Program at 24 locations throughout the City (budgeted in Contract Services, object 5101)

Service Level Trends

As echoed in the 2015 community survey, traffic and congestion continue to be a top concern of residents. Our traffic officers are dedicated to addressing these, as well as neighborhood concerns such as speeding in residential areas, and the Sepulveda corridor. They also focus their efforts on high accident locations, pedestrian safety, and safety around the schools.

As part of our 2016-2018 Strategic Plan, we committed to increasing our Driving under the Influence (DUI) education and enforcement efforts. In fiscal year 2017-2018, the Police Department was successful in obtaining a \$200,000 grant from the California Office of Traffic Safety to enhance DUI enforcement efforts. The Police Department is again seeking grant funding to augment DUI enforcement efforts in fiscal year 2018-2019.

The fiscal year 2018-2019 budget includes funding for contracted Crossing Guard services (object 5101), which provides safe passage for children at 24 locations throughout the City. It also includes private security services, which are brought on to augment public safety staffing for special events; this service was previously budgeted in both Parks and Recreation and Police Department budgets. In fiscal year 2018-2019, the entire contracted amount for private security services for special events has been moved to the Police Department budget (object 5101).

Parking Enforcement duties are provided by Community Services Officers and include enforcing local and State parking regulations, providing traffic control at traffic collisions and crime scenes, participating in parking utilization surveys, assisting at DUI checkpoints, and enforcing municipal code violations (e.g. illegal dumping of debris into the storm drain system, construction site violations, leaf-blower violations, Strand/bike path violations, etc.).

Community Services Officers respond to parking complaints and calls for service, and are proactive in the implementation of new programs which address community parking concerns, including providing special parking enforcement patrols when needs are identified. During special events and summer weekends, Community Services Officers help with traffic and parking management by overseeing street closures, directing pedestrians at intersections, and educating event participants of local parking laws.

Community Services Officers also work in partnership with other City departments to ensure efficient parking management. This includes meeting regularly with the Community Development Department, general contractors, and sub-contractors to address construction parking issues. They conduct joint code enforcement inspections, provide input to special event coordinators for parking management, and assist in enforcement of environmental laws.

Objectives FY 2019 & FY 2020

- Provide consistent and efficient enforcement of parking laws and ordinances, and ongoing education to the public regarding parking restrictions
- Promptly identify and address parking concerns
- Be responsive to the parking needs of residents and businesses
- Work with other City departments to ensure effective parking management
- Encourage safe parking habits and safe movement of vehicles in and around school zones, bike path, Strand and Pier
- Assist police officers, traffic officers, and other departments with the management of special events/details
- Ensure compliance of parking regulations to promote turnover, maintain quality of life, and provide a safe environment for residents and visitors
- Enhance enforcement of community priorities
- Maintain a cadre of part-time seasonal Community Service Officers to augment staffing during special events and busy summer weekends (budgeted in 4103)

Service Level Trends & Major Service Delivery Changes

As echoed in the 2015 community survey, parking continues to be a top concern of residents. Our Community Service Officers (CSOs) promote quality of life in the City through effective enforcement of parking laws and regulations, ensuring safe and efficient flow of traffic, emergency access, and turnover of parking spaces, both in residential and commercial areas.

Over time, Community Services Officers have been tasked with more duties to assist officers and fire personnel to increase their availability for calls for service. They are also tasked with education and enforcement of many municipal code violations, including leaf blowers, oversized vehicles, Strand/bike path

Police Department | Parking Enforcement

enforcement, sidewalk parking, smoking violations, etc. The Police Department utilizes the services of up to 15 part-time CSOs to be able to augment staffing during special events and busy summer weekends (object 4103).

The Park Ranger's roles and responsibilities are primarily of an enforcement nature and therefore this position is a natural fit in the division. This position is vital to meeting the community's needs when it comes to park safety.

Police Department | Animal Control

Program Overview

Animal Control Officers are responsible for handling animal welfare incidents, facilitating veterinary care for injured animals, and providing for the safe return of lost animals to their owners. All lost and stray domesticated animals taken into custody are checked for identifying implanted chips; every effort is made to return animals to their owners. Animal Control Officers also educate pet owners about the enforcement of municipal code ordinances related to dogs-at-large, animal bites, dog licensing, barking dogs, and leash laws.

Animal sheltering and disposition are provided by the Society for the Prevention of Cruelty to Animals Los Angeles (SPCA-LA), an independent, nonprofit animal welfare organization with a primary shelter location in Hawthorne, California (budgeted in object 5101). Animals whose owners cannot be located are taken to the SPCA-LA, which shelters the stray animals and makes every effort to find adoptive families. Deceased animals found on roadways or along the beach, or deceased pets of residents, are brought to SPCA-LA for disposition.

Self-initiated contacts with the public are a common practice throughout a shift. This interaction with residents and visitors helps with the education of local animal control regulations. Officers also conduct frequent checks at our Dog Parks, present educational seminars, assist the Finance Department with maintaining current dog licensing information, and participate in community special events to promote awareness of animal safety.

Objectives FY 2019 & FY 2020

- Identify issues and communicate with the public regarding animal concerns
- Continually offer animal control training classes and informational bulletins for officers
- Provide pet education, conduct directed enforcement, and dog bite investigations
- Manage the Lost and Found Pet webpage on the City website to facilitate the safe return of pets to their owners
- Communicate with the public regarding animal laws and issues

Service Level Trends

Animal Control Officers regularly attend training classes which keep them informed about current animal control laws and regulations, techniques on how to pick up loose animals and control an aggressive animal, the proper transportation methods for injured animals, the care and feeding of the animals in their care, and the maintenance of a clean and healthy kennel. Manhattan Beach Animal Control Officers also coordinate with other state, municipal, and private animal welfare agencies to remain current on new laws, regulations, and animal health issues. They also conduct animal welfare and abuse investigations.

Police Department | Jail Operations

Program Overview

The Manhattan Beach Police Department jail is a short-term, Type 1 facility mainly used for housing arrestees awaiting arraignment in court, after which, arrestees are either transferred to County jail or released on bail, bond, or their own recognizance.

Jailers are on duty 24 hours a day and are assigned duties to provide for the booking, housing, and welfare of inmates. In cases where prisoners have not posted bail or bond, jailers transport prisoners to court for arraignment proceedings.

Objectives FY 2019 & FY 2020

- Comply with all State and County jail regulations
- Provide on-going professional training to all jail staff
- Provide safe housing for inmates

Service Level Trends

Each year, various agencies such as the Los Angeles County Grand Jury and the County Board of Health conduct jail inspections in line with Title 15 jail standards. In addition, staff conducts regular safety inspections of the jail to ensure equipment and maintenance issues are up to date and meet safety regulations. Jail management's goal is to provide adequate care and custody of inmates in the jail facility and provide staff with the necessary training and resources to safely carry out those duties. We continue to meet and exceed all criteria of State and Regional jail safety inspections, and conduct our own monthly in-house jail safety inspections to ensure safe housing of our inmates and safety of our jailers.

Program Overview

The Asset Forfeiture fund has been established in accordance with Federal and State requirements to account for revenues derived from monies and property seized in drug-related incidents. The primary purpose of narcotics asset forfeiture is to deter drug-related crimes by depriving criminals of the profits and proceeds acquired through illegal drug transactions. The forfeiture laws are intended to be harsh on those individuals distributing drugs and are designed to enhance the enforcement revenues provided to Federal, State, and municipal agencies.

Proceeds from asset forfeitures are designed to provide law enforcement with equipment and resources to supplement but not supplant the Department's normal operating budget. Asset Forfeiture funds can be used in support of front-line law enforcement purposes, as approved by the Chief of Police.

The Police Department also receives monies through the California Supplemental Law Enforcement Services (SLES) Fund. These funds are designed to supplement, but not supplant, the Police Department operating budget.

Objectives FY 2019 & FY 2020

- Fund new equipment and resources to enhance front-line law enforcement, as afforded by State and Federal Asset Forfeiture laws and the granting agencies

Service Level Trends

In fiscal year 2017/2018, \$700,000 was budgeted in Asset Forfeiture for the purchase of replacement radios to enhance interoperability. Sufficient funds were not available in the Asset Forfeiture fund balance to cover the cost of the entire project, so the City budgeted for a lease-purchase plan. After careful review, there is sufficient General Fund fund balance for the cost of the radio purchases, and the appropriation has been moved to the Police Department's Technical Support Services Program.

The Police Department continually seeks grant funding to augment the delivery of police services without impacting the General Fund. In the past year, the Police Department has been successful in receiving several grants to enhance services in the area of mental health and crisis response, homelessness, DUI enforcement and education, and alcoholic beverage control, as well as funding to purchase safety gear and equipment for front line law enforcement.

Fire Department

Mission

The mission of the Manhattan Beach Fire Department is to preserve life, property, and the environment through decisive action, strong leadership, teamwork, and dedicated community partnerships. The vision for the Department is “Manhattan Beach Firefighters shall be innovative leaders, engaged members in the community, and accountable and decisive in their actions.”

Department Overview

The Fire Department's area of responsibilities include fire suppression, emergency medical services, emergency preparedness, fire prevention, plan checks, permits and code enforcement, fire investigation, Emergency preparedness, and public education. These services are provided through the following department divisions:

- Administration
- Prevention
- Fire Operations
- Emergency Medical Services
- Support Services

The Manhattan Beach Fire Department is the City's lead department in emergency response training, including the Federal-mandated National Incident Management System (NIMS) and Standardized Emergency Management System (SEMS). The Department maintains and updates the City's Hazard Mitigation Plan and Emergency Operating Center procedures.

The Fire Department provides local, regional, and state level leadership through participation in various organizations and committees. This includes participation in the California Fire Chiefs Association, Los Angeles Area Fire Chiefs, South Bay Area Fire Chiefs, League of California Cities, Los Angeles Area Fire Marshals, Southern Division of the Fire Prevention Officers, Los Angeles Area G Operations and Training Committees, Area G and Los Angeles County Emergency Managers group, and many more.

Recent Accomplishments Highlights

- Received a “No Actions Required” audit for our paramedic from Los Angeles County Emergency Medical Services Agency.
- Implemented a new medication distribution system that allows Paramedics to restock required medications within Manhattan Beach. Paramedics no longer need to travel to Downey for restocking.
- Implemented Standing Field Treatment Protocols allowing Paramedics to streamline patient treatment. The program includes a continuing quality improvement plan.
- Updated and enhanced mobile electronic patient care reporting system. All field treatment of patients is documented and stored electronically.
- Maintained the Class 2 Public Protection Classification from the Office of Insurance Services for fire protection.

- Conducted Firefighter recruitment (all three new hires successfully passed probationary year).
- Supported CERT instructors with planning and recruiting for two academies.
- Conducted and trained over 300 citizens in hands-only CPR during LA County's annual Sidewalk CPR campaign.
- Hired the first Emergency Services Coordinator in Manhattan Beach history.
- Successfully hosted a Town Hall Meeting with renowned seismologist Dr. Lucy Jones, who presented on enhancing community disaster response through awareness and preparedness.
- Added two new Rescue Ambulances to the emergency response fleet.
- Secured \$50,000 in Federal Grants for purchase of radio communication upgrades.

Program Overview

Fire Administration's function is to assist the Fire Department's Divisions and to help develop and achieve their respective budgeted objectives. The Fire Chief manages the Administrative Division and is responsible for providing leadership and support. This is accomplished through personnel support services management, staff training and development, procurement, budgetary control, information and data management, strategic planning, supporting volunteer programs, and emergency management of major local and area incidents.

The Manhattan Beach Fire Department continues to be a partner at our regional fire/police communications facility (the RCC), which greatly enhances the effectiveness of dispatching emergency responses, and which greatly improves interdepartmental communications and the efficiency of joint emergency operations.

Annual priorities are established in conjunction with the City Manager's office in order to maximize operational efficiencies. Fire Administration works closely with the Finance Department to minimize any fiscal impact to the community while simultaneously improving community services. The Fire Department continues to be the lead Department for emergency response training, including the federally mandated National Incident Management System (NIMS) and Standardized Emergency Management System (SEMS) training. Our Emergency Operations Center procedures will continue to be improved and updated.

Objectives FY 2019 & 2020

- Provide leadership and direction to Battalion Chiefs and Fire Captains.
- Improve cooperative interaction with other City departments and existing agreements.
- Improve response times and service levels whenever possible.
- Enhance data collection methodologies to identify emergency service improvement opportunities.
- Continue to provide services that reduce community risk for fire and medical emergencies.
- Explore opportunities to improve public emergency announcements and notifications during disasters.

Major Service Delivery Changes

- In FY 2019, the Department will be purchasing replacement portable and in-vehicle radios compatible with the new Los Angeles area Interagency Communications Interoperability (ICI) System. The new radios will allow communications between Fire Department personnel and Police and Public Works personnel, as well as cross-jurisdictional communication in the event of a large-scale disaster.
- Manhattan Beach Fire Department is working closely with our regional partners to develop the future computer aided dispatch system (CAD) that should be operable by the end of FY 2018/19.
- The department has added two new rescue ambulances to the fleet. The older ambulances will be used as backup while primary vehicles receive preventative maintenance service or during extreme emergencies.
- A new Fire Engine will soon replace the existing Fire Engine. The new Engine will come equipped with newer and more modern equipment to further enhance public safety and reliability.

Fire Department | Operations

Program Overview

The Fire Operations Division safeguards Manhattan Beach citizens and visitors by continuously improving and preparing personnel to respond to all emergencies. Emergency response includes fire suppression, medical emergencies, vehicle accidents and other incident types such as physical entrapments, hazardous conditions, hazardous materials incidents, service calls, request for mutual aid by other agencies and regional deployments.

The Division also has a responsibility to develop a highly skilled, accountable and resilient workforce through comprehensive training and professional development.

These programs include specialty, technical and leadership based training which supports the needs of the organization by maximizing operational efficiency and improving quality of service and response to our community.

Objectives FY 2019 & FY 2020

- Maintain a high level of operational readiness through enhanced training and development that will ensure prompt and effective emergency response to all emergencies.
- Continue to improve on the automatic/mutual aid agreements with adjacent cities.
- Meet or exceed adopted response standards for first arriving suppression unit to a fire call.
- Meet or exceed adopted response standards for first arriving Paramedic to a medical emergency.
- Ensure reliability and maintenance of all emergency vehicles and equipment.

Fire Department | Prevention

Program Overview

The major function of the Fire Prevention Division is to reduce the number of fires and amount of fire loss in the community and ensure a safer environment to live, work, and play. This is achieved by adopting and enforcing Fire and Public Safety Codes and continued enforcement of State and Federal life safety codes for all occupancies within the City. Our role is accomplished by performing annual business inspections, plan checks, construction inspections and issuing permits for all manner of public safety requirements.

The Manhattan Beach Studios Media Campus (MBSMC) operates fourteen sound stages, a mill and other supporting infrastructure in the City of Manhattan Beach. The motion picture industry has a constant impact on the Prevention Division due to tenant turnover and the unique character of the film business. Fire Prevention staff, in partnership with MBSMC employees, work closely with production companies on a daily basis to ensure that even the most unbelievable special effects are safe and compliant with Fire and Public Safety Codes and watched over by Fire Safety Officers when needed.

Objectives FY 2019 & FY 2020

- Enhance customer service by creating inter-agency processes for events involving the beach.
- Exceed adopted performance measures for total yearly life safety and operational permit inspections.
- Expedite plan check turnaround time and new construction inspections.
- Enhance relationship with Manhattan Beach Studios through blended participation of Community Development, Manhattan Beach Police Department, and City Manager’s office in coordinated efforts with the Manhattan Beach Fire Department.

Major Service Delivery Changes

The Fire Prevention Division experiences a high demand for life safety inspections. To address this demand, the division hires part-time Fire Inspectors. Fire Prevention is working closely with Human Resources to develop a strategic approach that will attract and retain highly qualified staff to perform these functions, while simultaneously ensuring the application of fire prevention measures and safety for our community.

Authorized Full-Time Positions	FY 2017 Adopted	FY 2018 Adopted	FY 2019 Adopted	FY 2020 Approved

Fire Department | Emergency Medical Services

Program Overview

Nearly 65 percent of the Department's responses are requests for emergency medical assistance. The Emergency Medical Services Division provides Advanced Life Support (ALS) and Basic Life Support (BLS) to all residents and visitors in need of emergency care. ALS refers to treatment of unstable patients, using advanced techniques and equipment, by a team of Paramedics. ALS care is provided on scene and during transport to the appropriate hospital. BLS refers to treatment of stable patients that require basic care and transportation to a hospital.

All Firefighters, Fire Engineers and Fire Captains are licensed ALS Paramedics. All part-time Ambulance Operators are EMT certified (BLS). The Division provides ALS and BLS transportation with Fire Department personnel in Fire Department ambulances. Firefighter Paramedics staff an ALS ambulance and Ambulance Operators staff the BLS ambulance. This deployment offers flexibility in utilization of Department resources.

A local Emergency Room Physician serves as Medical Director to the Department. This contract position is responsible for oversight of our medication supply process, quality of care audits, and treatment pilot studies. Having this expertise will provide enhanced training and guidance to our personnel, while fostering innovation and efficiency.

Objectives FY 2019 & FY 2020

- Provide a method for BLS ambulance service everyday 24/7.
- Meet or exceed standards for on-scene and transport times for trauma, stroke and STEMI patients.
- Reduce wait times at local hospitals for patients needing emergency room admittance and Manhattan Beach paramedics.
- Improve multi-department communication to enhance medical services provided.

Major Service Delivery Changes

The Department developed a shared cost contract with El Segundo and Hermosa Beach through the South Bay Regional Public Communications Authority for the Medical Director. The contracted Physician will oversee the on-site storage and distribution of controlled medications, help improve dispatch instructions and policies, and provide training and medical surveillance of our paramedics exposed to blood-borne pathogens as needed.

Fire Department | Support Services

Program Overview

The Support Services Division encompasses Emergency Preparedness, Community Emergency Response Team (CERT), Reserve Firefighter volunteer program, Communications, and Public Education. Basic training in the National Interagency Incident Management System (NIMS), a federally mandated program, is provided to all City employees to properly respond to the needs of the citizens in the event of a major emergency.

Support Services works with community partners to deliver comprehensive information on earthquake, tsunami, and other natural and man-made disasters. This ensures the community is prepared to respond, mitigate and recover from these events in a timely and economic matter by reducing recovery time in case of a disaster.

Throughout the year, the Support Services Division creates opportunities to train citizens in Emergency Preparedness and response through CERT, Map Your Neighborhood and other volunteer organizations.

Objectives FY 2019 & FY 2020

- Improving communication capabilities in Department Operation Center (DOC)
- Conduct City wide earthquake drill with Map Your Neighborhood and CERT
- Ensure all City employees complete required ICS training
- Standardize radio communication procedures for RCC and area Fire Departments
- Conduct training for new Department Operation Center at Public Works
- Support community volunteer emergency response organizations

Major Service Delivery Changes

In FY 2018, the City hired an Emergency Services Coordinator, the first position of its kind in Manhattan Beach. The goal is to ensure all City staff has the basic training in National Incident Management System (NIMS) and Standardized Emergency Management System (SEMS) in order to meet federal guidelines and secure Federal funds that assist with recovery costs after a natural or man-made emergency. The Emergency Services Coordinator position will increase from 20 hours per week to 30 hours per week in FY 2019 to ensure the City can meet the need and the demand in case of a natural disaster and to manage all the community programs associated with emergency preparedness.

Communication upgrades to our Regional Communication Center will also require the upgrade of radio and communication equipment. Support Services expect to have this project completed by end of FY 2020. This has been an ongoing multi-year project that has been planned and anticipated for the past three years.

Mission

The Community Development Department strives to create a livable, resilient, and sustainable City by enhancing and guiding our community's neighborhoods, environment, and commercial areas through City planning, building supervision, code enforcement, traffic engineering and environmental sustainability.

Department Overview

Administration guides the Department's 28 full-time staff members and three part-time interns to ensure collaborative work internally amongst staff and externally with the public. The department continually strives to improve customer service for our residents and businesses by developing long-term plans and policies to further the mobility and livability of the City.

With continued and steady building activity throughout the City, the Planning and Building Divisions work hand-in-hand through the development review process to provide high-quality and seamless service to our building community. Our dedicated staff members strive to keep our community and project sites safe, resilient, and up-to-code through plan review, building plan checks, permitting and inspections. Additionally, the Building Division's Code Enforcement Program proactively educates our residents and building community and enforces City regulations and building codes to protect the City, and by keeping it clean and livable for our residents.

The Environmental Sustainability Division guides and implements the sustainability policies and programs through sound science and stewardship to protect our environment, while creating a healthy and resilient community. Our Traffic Engineering Division endeavors to keep our walkways and roadways safe and flowing through transportation planning and creating living streets for all modes of transport.

The Community Development Department maintains unprecedented and continued growth in building activity and revenues. With a sustained increase in development and building activity, construction is expected to increase five percent in FY 2019 and remain stable for FY 2020.

Recent Accomplishment Highlights

Administration

- Adopted the 2017 General Plan Amendment Mobility Plan Update to replace the 2002 Circulation Plan (May 2018)
- Completed the Sepulveda Boulevard Planning Initiatives Project and Zone Text Amendments (June 2018)
- Completed and Adopted the Downtown Specific Plan (Submitted February 2017; pending California Coastal Commission Certification)

Community Development Department

Environmental Sustainability

- To shift more of the City's utility source generation to clean renewable energy, the City joined the Clean Power Alliance of Southern California (CPA) as a founding member City, which includes 30+ other jurisdictions (December 2017)
- City Council approved the 2018-2020 Environmental Work Plan, setting environmental priorities for the City (January 2018)
- Further reduced single-use plastic pollution through a community education campaign "Strawless Saturdays" and by addressing plastic and polystyrene policy updates at Council (April 2018)
- The first Manhattan Beach Sustainability Task Force was launched to provide technical expertise and original research and analysis to help form initiatives and policy recommendations to the City Council regarding environmental sustainability issues (April 2018)
- The City maintained their Platinum Level status in the South Bay Cities Council of Government's Energy Leader Program, the highest level attainable (March 2018)
- City Council authorized participation in a Property Assessed Clean Energy (PACE) Program, Ygrene Energy Fund, which provides homeowners assistance to install energy efficient, renewal energy and water-saving improvements to their properties (October 2017)
- Welcomed 10 new businesses to the Manhattan Beach Green Business Program through efforts to incorporate sustainability and efficiency into business practices (May 2018)

Planning

- Adopted Interim Zoning Ordinance to allow Accessory Dwelling Units (ADUs) in compliance with state law in Area Districts 1 and 2
- Amended condominium development standards to allow more flexibility
- Implemented the Historic Preservation and Mills Act Programs
- Managed large commercial projects including the Manhattan Village Mall Expansion and Enhancement Project, Skechers and Gelson's.

Building and Code Enforcement

- Implemented Comcate, an electronic database to access, track and manage Code Enforcement cases (July 2016)
- Implemented Qminder queuing solution for the Permitting Center to check-in, track, and provide analytics for counter customer traffic (October 2017)
- Supplemented Melad & Associates Building Plan Check Services with VCA Code to ensure timely turnaround for building plan checks and as-needed inspection services (October 2017)
- Filled two vacant plan check engineering positions to provide counter and in-house plan check services (February 2018)
- Building Service Analyst position created to provide better interdepartmental coordination and efficient processes (pending recruitment; anticipated to be filled by end of FY 2018)

Traffic Engineering

- Implemented 11 miles of Bike Routes and 9 miles of Sharrows to Citywide Bicycle Transportation network
- Provided monitoring and oversight for traffic related conditions during Manhattan Village Shopping Center and Gelson's Supermarket construction
- Completed construction of pedestrian crossing beacons at Highland Avenue/38th Street
- Completed construction of a westbound bike lane on Rosecrans Avenue
- Added dual eastbound left turns on Marine Avenue at Aviation Boulevard
- Installed GPS based emergency vehicle pre-emption systems at 17 traffic signals
- Developed a customized Living Streets Policy Manual and conceptual Living Streets street improvements along Aviation Boulevard
- Completed and implemented West Marine Avenue and Valley Drive neighborhood traffic management plans
- Completed design and began construction of HSIP-funded traffic signal modification project at Sepulveda Boulevard and 8th Street.

Community Development Department | Administration

Program Overview

As the core of the Community Development Department, Administration manages and provides operational support to the divisions of Planning, Building & Safety, Traffic Engineering, and the newly acquired division of Environmental Sustainability. Additionally, Administration oversees payroll, accounting, budget preparation and management, records management, intradepartmental projects and studies, and supports the Planning Commission, Parking and Public Improvements Commission, Historic Preservation Commission and Board of Building Appeals.

Objectives FY 2019 & FY 2020

- Implement plan to electronically digitize, organize and store all department files into OnBase Records Management System
- Implement an electronic permitting software solution for the Department's one-stop public counter
- Continue to assess, evaluate and improve departmental operations
- Further develop the Department's Internship Program
- Seek opportunities to educate and train staff on efficient and effective customer service skills and techniques
- Continue to build and maintain personal interactions with residents, community stakeholders and organizations for meaningful civic engagement and outreach.

Major Service Delivery Changes

Currently, there is an existing part-time Administrative Clerk that works nearly full-time hours, and is responsible for records management for the Building Division. Converting this part-time position to a full-time position allows the Department to move forward with digitization and organization of the Department's remaining records for Planning, Traffic Engineering, and Environmental Sustainability. Having a full-time Clerk will maximize staff knowledge and experience, increasing the value of their training, responsibilities and impact of their position. These digitized records will also be accessible from the new electronic permitting software, which staff will be implementing with the Information Systems Department. These service delivery changes will streamline and enhance the permitting process at the Department's one-stop shop public counter.

Program Overview

The Planning Division is also the City’s Housing Division and is responsible for reviewing all discretionary land use applications, coastal permits, as well as updating City documents such as the General Plan, Zoning Map, Municipal Code and the Local Coastal Program. Planning reviews plan checks and permits to ensure conformance with local zoning and State regulations including the California Environmental Quality Act (CEQA). Planning prides itself on quality customer service, working on balanced, creative solutions to help homeowners, business owners, neighbors, architects, and contractors achieve their goals while complying with the City’s regulations.

Objectives FY 2019 & FY 2020

- Comply with new legally mandated housing requirements in response to housing affordability related to:
 - Accessory Dwelling Units (ADUs)
 - Southern California Association of Governments (SCAG) Growth Forecast
 - No Net Loss
 - Annual Housing Element Report to OPR and HCD
- Develop and Implement a Short Term Rental Program
- Continue to provide oversight for the Manhattan Village Mall Enhancement Project, Skechers Project and other large commercial projects
- Implement the Sepulveda Initiatives Planning Project

Major Service Delivery Changes

Currently, there are five full-time Planners and one Planning Manager within the Division. Providing additional contract services for coordination and oversight of existing Short-Term Rental Programs, Telecommunication Projects, projects generated by Sustainability Initiatives and the development of several new legally mandated housing requirements. Having these additional resourced will ensure proper implementation of these on-going and new programs. Consultant services will also be utilized to provide support for upcoming current and advanced professional planning projects and studies, and administering zoning ordinances, policies and procedures for development permits. Housing, Telecommunications and Sustainability programs will commence in FY 2018-19, and Short-term Rental program implementation is expected in the later 2019-20 fiscal year.

Program Overview

The Building and Safety Division regulates building construction activity through plan review, permit processing, inspection and education to protect the health, safety and welfare of the community. The Building Division staff review plans for compliance with all applicable local and State codes. Building Inspectors perform daily inspections throughout the construction life-cycle to ensure conformity with approved plans, codes and regulations.

The Permit Processing Center serves as a “one-stop shop” for permit issuance for all construction activity throughout the City, as well as permits for the Public Works and Fire Departments. Public counter services include intake and plan review, building and planning permit issuance, scheduling and documentation of inspections, and all other matters related to construction activity.

Objectives FY 2019 & FY 2020

- Implement an electronic permitting software enhancement with assistance from Information Systems
- Complete initial plan checks application reviews within a timely manner
- Perform all inspections by the next business day
- Facilitate progress on key economic development projects

Major Service Delivery Changes

The Division recently filled two vacant Plan Check Engineers positions and anticipates filling the Division’s last vacant position, a new Building Services Analyst prior to the end of FY 2018. This Analyst will oversee the entire permitting process counter operations, evaluate processes, and implement efficiencies to ensure continued quality service to residents, business owners and the construction community. These positions will be instrumental in the implementation of the new permitting software enhancement project slated to commence in FY 2019 (Funds are budgeted in Administration).

Community Development Department | Code Enforcement

Program Overview

Code Enforcement Officers ensure compliance with City construction rules, Municipal Codes, and applicable health and safety codes to protect the welfare of the community. The Code Enforcement program includes three Code Enforcement Officers who are responsible for conducting inspections of reported violations, and working with involved parties to resolve issues, and most importantly, educating involved parties to ensure future compliance. The Residential Construction Officer (RCO) has successfully reduced a number of construction related complaints by acting as a liaison between residents and builders to resolve construction related concerns.

Objectives FY 2019 & FY 2020

- Maintain a two-day turnaround to address code violations upon intake
- Proactively working with residents and the construction community to address all construction related problems, (traffic congestion, parking, noise, smoking, and dust control)
- Continue to conduct multiple daily inspections of areas with high volume construction activity (hot spots)

Major Service Delivery Changes

The Code Enforcement Division recently implemented Comcate, a new electronic tracking system to more efficiently process municipal code complaints. This system has also increased the flexibility and communication capabilities for the three Code Enforcement Officers to provide a more streamlined process.

Program Overview

The Traffic Engineering Division is responsible for preserving and enhancing the safety and accessibility of our transportation network within the City. Traffic engineering is one of several “E’s” that are critical to a safe, efficient and multi-modal roadway system. This Division administers and promotes programs and projects that support these E’s:

Engineering: Traffic signals, stop signs, striping, road geometry, sidewalks, bike lanes

Enforcement: Speed feedback signs, speed studies, red curb, parking meters, parking permits, traffic control plans

Education: Safe Routes to School, Bike to School Days, bicycling safety, public outreach, student education

Evaluation: Neighborhood traffic calming studies, crosswalk studies, collision studies, parking studies, bikeway plans

Encouragement: Bike to School Days, Walking School Bus, stakeholder involvement

Environment: Living Streets Policy, Electric Vehicle (EV) charging stations, bike corrals, active transportation plans, non-motorized transportation projects, regional transportation plans, use of sustainable materials

The Traffic Engineering Division is also responsible for the City’s traffic signal maintenance and is the liaison for the Parking and Public Improvements Commission (PPIC). The Division partners with other divisions, departments and government agencies to provide our community with the best public service.

The Traffic Engineering Division has played a key role in the approval and oversight of the Gelson’s Supermarket and Skecher’s Headquarters developments, and has closely monitored the construction of the Manhattan Village Mall Expansion to ensure compliance with its approved conditions. The Division is more actively managing the use of public rights-of-way through Right-of-Way permits, traffic control plans, POD permits, temporary loading zones, and oversize vehicle permits.

Objectives FY 2019 & FY 2020

- Construct two Safe Routes to School and two Highway Safety Improvement Program (HSIP) grant projects
- Update the City’s Speed Surveys to set speed limits and conduct enforcement
- Establish a local Traffic Impact Guideline for new developments
- Streamline the right-of-way permitting process
- Implement Living Streets, Bikeway and Pedestrian policies that support the community’s healthy and active lifestyle
- Evaluate and implement Neighborhood Traffic Management Plans in various locations
- Implement the traffic related objectives and goals of the Mobility Plan

Community Development Department | Traffic Engineering

Major Service Delivery Changes

The Traffic Engineering Division will conduct an update of its Engineering and Traffic Surveys that set speed limits on key streets throughout the City as mandated by State law. Pursuant to SB 743 and the City's Mobility Plan goals, the Division will establish a local Traffic Impact Guideline for new developments to address potential environmental impacts, using both Vehicle Miles Traveled (VMT) as well as locally sensitive significance thresholds, such as street and intersection level-of-service. A new Traffic Engineering Technician position will be added to assist the Traffic Engineer as a parking manager, to conduct special traffic studies, process various Right-of-Way permits, address various traffic and parking related requests received from the community, and other administrative duties related to the Parking and Public Improvements Commission and various parking and traffic programs.

Program Overview

Manhattan Beach's Environmental Sustainability Division strives to create a healthy, sustainable, and resilient City while furthering the City's long history of environmental leadership, policy, and stewardship, both as a community and as a city government.

In 2018, the City established a Sustainability Task Force, which is a community-based technical working group composed of multi-departmental City staff and a broad array of community stakeholders with environmental experience. In FY 2018-20, this working task force will assist the City's Environmental Sustainability Division in developing sustainability goals, while sharing technical skills and lessons learned from previous environmental and sustainability pursuits, to contribute to the development of policies and programs related to a variety of topics, including (but not limited to):

- Climate Action and Energy
- Low-impact Development and Sustainable Building
- Plastic Pollution Reduction
- Smart Water Management
- Climate Adaptation and Resiliency

Objectives FY 2019 & FY 2020

- Continue to provide superior service to the community
- Actively participate in the City's JPA Community Choice Energy program, Clean Power Alliance of Southern California, to transition the City's energy consumers to renewable energy sources
- Research and analyze environmental sustainability initiatives through the Sustainability Task Force
- Build climate change resiliency in the City
- Conduct a sea level rise vulnerability assessment and initiate a sea level rise adaptation plan
- Continue to be a local government leader in reducing plastic pollution
- Enhance our City's water conservation and management
- Mitigate climate change through actions identified in a Climate Action Plan
- Provide information, education, and manage issues, complaints and service requests in an efficient and professional manner

Major Service Delivery Changes

Climate change impacts Manhattan Beach residents' health, well-being, and economic vitality as well as our beaches and environment. Manhattan Beach plays a critical role in state efforts to bring down greenhouse gas emissions, while also reducing the vulnerabilities of people and assets and adapting to the impacts of a changing climate. As a local government, the City is uniquely positioned to implement on-the-ground solutions that reflect Manhattan Beach's community values, creating a lasting impact from the bottom up. To achieve this, we will build the City's Climate Change Resiliency efforts through:

Community Development Department | Environmental Sustainability

- Developing and adopting a comprehensive Climate Action Plan that includes both municipal and community goals.
- Using best available science and cutting-edge Sea Level Rise (SLR) models to assess the City's vulnerability to climate change.
- Initiating the creation of a Sea Level Rise Vulnerability Assessment, which will lead to the creation of a Sea Level Rise Adaptation Plan to update the City's Local Hazard Mitigation Plan, General Plan Safety Element, and Local Coastal Program.

Public Works Department

Mission

To create a safe, clean and well maintained environment for our community through responsive customer service and effective management of the City's infrastructure.

Department Overview

Public Works is one of the City's largest departments, responsible for the operation and maintenance of all public infrastructure located in the public-right-of-way and City properties. Public Works is composed of four divisions including Administration, Engineering, Utilities and Maintenance. In general, Administration manages the day-to-day departmental operations such as payroll, tracking of service requests, clerical, and overall customer service. Engineering develops and manages the City's Capital Improvement Plan. Utilities division operates and maintains the City's sewer, storm drain, and water systems. Maintenance oversees the upkeep of City streets, parks, facilities, fleet, street sweeping and the City's refuse hauling contract, which includes waste hauling and the City's recycling programs in conformance with State laws.

The Public Works Department is essential to the quality of life experienced by the Manhattan Beach community. Standard elements of urban living such as access to high quality running water, a reliable sewer system, well-maintained roads and cleanliness through convenient refuse and street sweeping programs are crucial. A superior level of service is provided by the Public Works Department and its contractors, which sets Manhattan Beach apart from other communities.

Recent Accomplishment Highlights

Utilities Division

- The City's potable water system meets all water quality standards set by the state and EPA according to the completed annual consumer confidence report (CCR) for water quality standards. As part of this compliance, over 1,000 water samples were taken throughout the year.
- The 5 year Urban Water Management Plan update was completed as required by the California Water Code. The updated areas of the UWMP include: 1) Water Sources and Supplies, 2) Water Quality, 3) Water Demands, 4) Reliability Planning, 5) Conservation Measures, 6) Contingency Planning, and 7) Climate Change.
- The 5-year Sewer System Management Plan update was completed as required by the State Water Resources Control Board Order No. 2006.0003. The updated areas of the SSMP include: 1) the Public Works Organizational Chart, 2) Training, 3) Reporting Requirements, 4) Previous Sanitary Sewer Overflow events, 5) Capital Improvements Projects (completed and projected) and, 6) Equipment.
- Per California Health and Safety Code, the Tri-annual Public Health Goals Public Hearing was conducted, providing residents an overview of the City's water quality.
- 38 miles of the City's water distribution system was flushed using a patented process that eliminates wasting water that is normally flushed into the City's storm drains. The process pumps water through a trailer mounted filtration system, disinfects it and recirculates the water back into the water distribution system.
- Grant funding was secured for the Hermosa Beach Greenbelt Joint Watershed project. This project will capture Stormwater from the Cities of Hermosa Beach, Manhattan Beach, Redondo Beach and Torrance preventing the discharge of this water into the ocean.

Maintenance Division

- Crews assisted the Information Technology (IT) Department with installing Wi-Fi to the parks.
- The Facilities staff, through the SCE Direct Install program, replaced all of the City facilities & parking lots 4' fluorescent lamps with LEDs.
- 11 vehicles, 2 Fire Rescue Units and 1 Bobcat Skid Steer were purchased and put into service.
- Staff from multiple divisions provided logistical support for all citywide events (preparation, traffic control, and breakdown/clean-up).
- Crews provided logistical support for engineering services.
- The department's irrigation staff manages the Maxicom irrigation system for the medians and municipal parks citywide.
- Street crews swiftly responded to and rectified pavement defects and graffiti vandalism.
- Rehabilitation of the City's athletic fields at MBUSD schools and fencing and athletic fields at municipal parks.
- Facilities staff executed preparatory work for the Metlox fountain surface replacement and Kiln modifications.
- Facilities staff refurbished the original Metlox Plaza furniture and installed it into the northwest Farmer's Market area of the Plaza.
- Staff completed the remodel of the Dial-A-Ride division offices, Public Works lunch and meeting room and performed several office relocations citywide.
- Electrical and monitoring support for the Downtowner pilot project was provided.
- Crews replaced streetscape lights with LEDs as part of an ongoing streetscape project.
- Staff assisted the Parks and Recreation Department with public art installations in the Civic Center Plaza.
- Solid waste staff organized, managed, and procured coordination assistance for the City's Earth Day event in April 2017.
- Citywide, the community recycled over 40 tons of material per day.
- 16,940 pounds (8.47 tons) of household hazardous waste was collected from residents who participated in the "At Your Door" door-to-door household hazardous waste recycling program.
- An additional 29,260 pounds (14.63 tons) of electronic waste was collected both curbside by Waste Management and at an electronic waste recycling event in April 2017.
- The April 2017 Document Shredding event sponsored by Waste Management as part of their franchise agreement successfully collected and recycled 13,940 pounds (6.97 tons) of paper.

Engineering Division

- Completed the Slurry Seal project in area 2.
- Completed Parking Structure #2 Structural Rehabilitation.
- Completed Pier Comfort Station Rehabilitation.
- Completed Cycle 1 Community Development Block Grant (CDBG) Citywide Curb Ramp Construction.
- Completed Live Oak Park Wide Area Network and Wi-Fi Fiber Optic Conduit Project.
- Completed Strand Stairs Rehabilitation Project.
- Completed Parking Lot 2 Concrete Topping Slab.
- Completed Marine Avenue Skate Park.
- Completed Pier Bollard Project.

Public Works | Administration

Program Overview

The responsibilities within the Administration Division include customer service; preparing department billing and payroll; purchasing; filing and management of Public Works grants; managing government contracts; handling public records requests; overseeing staff reports to City Council; training and development; HR supported functions and risk management; coordination of and providing administrative support to the various functions of the Public Works Department. The Department's budget and the City's Capital Improvement Plan documents are created by Administrative staff and managed by the respective Public Works Divisions.

Objectives FY 2019 & FY 2020

- Continue to provide superior service to the community.
- Deliver overall direction and leadership for the variety of Public Works services provided to the residents.
- Ensure compliance with County, State and Federal requirements.

Program Overview

The Mission of the Engineering Division is to ensure the efficient coordination and responsible construction of a broad spectrum of public infrastructure and private development in the City of Manhattan Beach. The primary responsibility of the Engineering Division is the design and construction of the City's infrastructure (streets, water system, sewer system, storm drain system, park facilities, City buildings (i.e. fire station, community buildings, parking structures, etc.) and transportation/traffic signal systems. The Division is also the “keeper” of the City’s public infrastructure record drawings and data. Engineering Division is also responsible for the review, coordination and permitting of private and utility activities in the public rights of way. Staff also provides support to the Community Development Department in reviewing private development proposals to ensure orderly development consistent with the City’s General Plan.

Objectives FY 2019 & FY 2020

- Implement an annual cycle of water and wastewater system improvement project.
- Implement a biennial storm drain system improvement project as funding becomes available.
- Implement a biennial traffic signal system improvement project as funding becomes available.
- Implement an annual residential street improvement project.
- Implement an annual arterial/collector street improvement project.
- Start Construction on the Peck Reservoir Replacement project.
- Start Construction on the Sepulveda Bridge project FY 19/20.
- Provide coordination and oversight of utility undergrounding work.
- Complete Marine Avenue Street Resurfacing.
- Complete Americans with Disabilities Act (ADA) Transition Plan within the public rights of way.
- Complete Design of Fire Station No. 2 Replacement Project.
- Complete the Block 35 Elevated Tank Painting Project.
- Provide timely response to proposed private development plan reviews and utility work requests affecting the public rights of way and existing public infrastructure.

Major Service Delivery Changes

In FY 2019 and 2020, the City will expand the Engineering Technician series from I/II to I/II/III to assign higher-caliber, more complex responsibilities. Also, the second Public Works Inspector position will be reinstated after being eliminated during the Great Recession. This position will assist with ever-increasing utility and CIP inspection needs.

Program Overview

The Street Maintenance Division shifted its pavement marking resource emphasis on annual curb and parking lot markings, and changes to existing inventory, having completed the thermoplastic conversion process. Staff continues to drive repairs by cycling through the established seven maintenance districts whereby every area of the City is routinely inspected for pavement defects, condition of signs and markings, sidewalk displacements and tree related issues.

Staff will continue to target speedy graffiti removal from private property to meet the City's 24-hour abatement window, and ensure all field staff has supplies and materials on hand to abate minor tagging when encountered.

Objectives FY 2019 & FY 2020

- Maintain thermoplastic markings and continue addition of MMA (meth methacrylate) resin markings to concrete streets to complement pavement marking program.
- Complete Sections 4 and 5 concrete repairs through the identification of displaced sidewalks and the notification of property owners.
- Continue gathering metrics for sign inventory to ensure all signs meet standards for reflectivity and project upcoming sign needs for budget forecasting.
- Continue view obstruction abatements as part of the sign management program.
- Continue working with Traffic Engineer to modify and install signage and markings as directed.
- Assist with street improvements for annual slurry program, upcoming sewer and water line replacement projects, and other capital improvement street projects.
- Continue Sepulveda sidewalk repairs per the subsidized Caltrans Delegated Maintenance Agreement.
- Emphasize speedy response to pothole repairs and other pavement defects.
- Provide support for special events, partner with event coordinators to reduce costs, and use the GovOutreach work order system to streamline processes and job costing.
- Continue to pursue the use of environmentally sustainable and/or recycled materials.

Major Service Delivery Changes

In FY 2019, an Electrician position will be re-instated to perform electrical work for the street, park, building maintenance and lighting divisions. This position had been eliminated during the Great Recession while it was vacant. In the time since the position was eliminated, the City has been using contracted electrical services to meet the persistent workload demands. Due to rising contract costs, hiring a full-time Electrician in-house is more cost efficient. Funds in the amount of \$50,000 will be transferred to the Fleet Fund to procure a new utility truck for this position.

Public Works | Street Maintenance

One vacant Maintenance Supervisor position was downgraded to a Maintenance Worker III at a net savings of \$29,985. This change provides a better span of control by adding one “lead” worker in the field directly overseeing field crews.

Authorized Full-Time Positions	FY 2017 Adopted	FY 2018 Adopted	FY 2019 Adopted	FY 2020 Approved

Public Works | Building & Grounds

Program Overview

The Building and Grounds maintenance services are delivered through a combination of skilled City maintenance employees and competitively bid outside service contracts. This program is responsible for the preparation and maintenance of parks facilities, school athletic fields which are under City control, City Buildings, and select capital improvement projects. This division also provides electrical support to numerous special events such as the Pier lighting, Pier fireworks, Old Hometown Fair, and Earth Day, as well as reviews of all Public Works construction projects that involve electrical systems.

Objectives FY 2019 & 2020

- Continue to monitor service contracts to ensure quality service is delivered in a timely and cost effective manner.
- Assist Engineering Division to ensure Pier and Roundhouse project flows smoothly and to highest quality standards.
- Assist Engineering project team with implementation of rehabilitation and repair projects as identified in the Facilities Assessment.
- Continue monitoring all street lighting through routine night inspections and work closely with Southern California Edison to ensure outage notifications and service obligations are met.
- Continue partnership with the Manhattan Beach Little League, American Youth Soccer Organization, and MBUSD to continue sustainable maintenance programs and raise level of field playability and aesthetics.
- Continue partnership with various businesses and groups during the year to support the many special events that occur throughout the City, and work on ways to contain event costs.
- Ensure Civic Center landscape plantings and maintenance practices complement County Library.

Major Service Delivery Changes

In FY 2019, Public Works will be purchasing replacement portable and in-vehicle radios compatible with the new Los Angeles area Interagency Communications Interoperability (ICI) System. The new radios will allow communications between Public Works personnel and Police and Fire personnel, as well as cross-jurisdictional communication in the event of a large-scale disaster.

Public Works | Street Lighting & Landscaping

Program Overview

In the early 1970's, the City formed several Street Lighting & Landscaping Assessment Districts pursuant to the Landscaping and Lighting Act of 1972. Through an assessment paid by property owners, this program provides for the payment of energy and maintenance costs of one thousand, eight hundred and eighty five (1,885) street lights. The method of assessment, which was approved at the time of the district's formation, is a proportion of the estimated benefit to be received by such lots and parcels. It is collected by Los Angeles County through the property tax rolls, and remitted to the City.

Objectives FY 2019 & FY 2020

- Continue to seek grant funding to offset energy efficient lighting retrofit costs throughout the City.
- Perform quarterly lighting surveys to ensure street lights are working properly.
- Continue to retrofit City owned street lighting to LED as parts wear and fail.
- Explore purchase of streetlights from SCE as part of City's overall conservation plan.

Program Overview

Zone 10 of the Manhattan Beach Street Lighting & Landscaping Assessment District was established as a Streetscape District. The method of assessment to the property owners, which was approved at the time of the district's formation, was in proportion to the property's street frontage in the Downtown area. This assessment is collected by Los Angeles County through the property tax rolls and remitted to the City.

Objectives FY 2019 & FY 2020

- Work in conjunction with Engineering staff, Downtown Business Association, and all other stakeholders in developing a rehabilitation plan for Downtown Streetscape.
- Replace traffic signal poles and signal heads, as required.
- Ensure high level landscape and custodial maintenance in the Downtown area through continued weekend power washing service during peak season (April through September).
- Continue monitoring maintenance contracts.

Program Overview

The City's water division is comprised of two distinct groups: water plant operations and water maintenance operations. These two groups oversee the maintenance and efficiencies of the water infrastructure, staffing and source of supply.

The City's water storage and distribution system is comprised of two reservoirs with a combined storage capacity of 10 million gallons; one elevated storage tank with a storage capacity of 300,000 gallons; one imported water connection with the Metropolitan Water District of Southern California with a production capacity of 5,000 gallons per minute; two groundwater wells with a total production capacity of 3,500 gallons per minute; booster stations with a total delivery capacity of 14,800 gallons per minute; two 18 inch emergency water transmission line connections with the City of El Segundo and California Water Service Company; five emergency generators at the wells and booster stations; approximately 112 miles of water distribution pipelines ranging in diameter from 4" to 24"; over 1700 gate valves; over 900 Fire Hydrants; and 775 backflow devices.

Approximately 93% (1.4 billion gallons) of the City's water supply is provided by the Metropolitan Water District (MWD) and 7% (100 million gallons) is supplied through City-owned groundwater rights in the West Coast Groundwater Basin. The City offsets the cost of higher priced MWD of Southern California water through leasing of less expensive groundwater rights from agencies with surplus groundwater rights, while maintaining high water quality.

Objectives FY 2019 & FY 2020

- Provide excellent customer service by way of rapid response to service interruption, water quality inquiries and advance notification of the Water Division's field activities.
- Maintain water quality regulations and reporting requirements to all regulatory agencies, including the Environmental Protection Agency and the State Water Resources Control Board.
- Decrease use of higher-cost imported water.
- The City will pursue options on purchasing groundwater rights from West Basin groundwater agencies that own excess water rights in order to become less reliant on imported water from the Metropolitan Water District.
- The City will collaborate with the West Basin Municipal Water District, Water Replenishment District and Metropolitan Water District in offering water conservation education programs to the public, including drought tolerant plants, irrigation control devices and turf removal.
- Maintain normal and emergency water system performance reliability through preventative maintenance practices on pump/wells, motor control centers, automated control valves, emergency generators, critical water system isolation valves, fire hydrants, meter testing, disinfection systems, water distribution flushing, backflow and cross connection inspections.
- In FY 18/19, start upgrade of the Larrison St. Booster Station to include electrical components, motor controls and Supervisory Control and Data Acquisition (SCADA) components.

- In FY 18/19, install and complete the Advance metering Infrastructure system pilot project to provide real-time water meter consumption data via radio communication that will facilitate and enhance billing accuracy by elimination of the need to perform manual field meter reads and rereads; capture water consumption exceptions and electronically alert customers of possible leaks; enhance water conservation performance through repairs performed by customer that are alerted of possible leaks.
- In FY 19/20, complete upgrades of the Larrison St. Booster Station to include pumps, motors, valves and piping.
- In FY 19/20, update the Urban Water Management Plan as required every 5 years by the California Water Code.

Major Service Delivery Changes

In FY 2019, hardware upgrades to the City’s SCADA system will be made as the current hardware is becoming obsolete. This upgrade will keep these operations in working order and allow for technology updates in the future. Also, a part-time Management Analyst position has been added to manage the administrative duties of the City’s growing backflow program, which currently oversees 775 backflow devices.

Public Works | Storm Drain

Program Overview

The Storm Drain system is comprised of: 83,538 ft. of City owned storm lines and 43,805 feet of Los Angeles County owned storm lines; 800 catch basins; eight continuous deflection systems; two dry weather storm water diversions; five storm water sumps; and one lift station.

Objectives FY 2019 & FY 2020

- As mandated by the new NPDES permit, seek funding to implement the Enhanced Watershed Management Plan that will support the design and construction of storm water capture structures that will reduce trash and pollutants that enter the sea; and identify and mitigate storm system Illicit Discharge and Illicit Connections.
- As mandated by the new NPDES permit, continue implementation of the Coordinated Integrated Management Plan to conduct storm water quality runoff monitoring.
- Maintain dry weather diversion sumps to assure dry weather run-off is conveyed away from the ocean and to the Los Angeles Sanitation District in an effort to reduce pollutant conveyance at the shore line.
- Perform maintenance of catch basins, continuous deflector separators, low flow diversions, Marriott Lake and Polliwog Pond to minimize trash conveyance to the sea in compliance with NPDES Total Daily Maximum Load requirements for trash and bacteria.
- Perform Clean Bay Restaurant and Fats/Oils/Grease Programs inspections of 155 food service establishments to minimize sewer line backups that could result in sewer system overflow that may flow to the City's storm water system and cause ocean water contamination.

Public Works | Sewer Maintenance

Program Overview

The City's sanitary sewer system is comprised of six pump lift stations that convey sewage out of areas of geographic depression and eighty-six miles of sewer lines.

Objectives FY 2019 & FY 20/20

- In FY 19/20, update the Sewer System Management Plan as required every five years by the Regional Water Quality Control Board.
- Continue on-going preventative maintenance programs on sewer lift station motor/pump control centers and emergency stand-by generators.
- Perform cleaning of entire City sewer collection system (twice per year), monthly cleaning of high sewer volume areas and bi-weekly maintenance at the six sewer lift stations.
- Minimize sewer system overflows through proactive identification and enhanced maintenance of “hot spots”, along with continued implementation of the Fats, Oils and Grease (FOG) inspection program for 155 food service establishments.
- Implement Sewer System Management Plan mandated sewer system overflow prevention measures, including public outreach, root control program, contractor training, staff emergency response plan.

Major Service Delivery Changes

In FY 2019, a CCTV (Closed Caption Television) vehicle will be purchased to house the City's CCTV equipment to perform in-house mobile CCTV inspections citywide. The small utility vehicle will be able to accommodate narrow locations including the City's walk streets. Also, a portable Sewerline Push Camera will be acquired to inspect sewer laterals or sewer lines in easements and at public facilities.

Public Works | Refuse Management

Program Overview

The City’s Refuse Management Division focuses on waste reduction with a strong education and outreach program.

Major program initiatives include compliance with AB 939, AB 341 and AB 1826 through the reduction of residential and commercial waste sent to the landfill through the City’s multiple waste reduction and recycling programs.

Objectives FY 2019 & FY 2020

- Continue to provide superior service to the community.
- Continue environmental sustainability initiatives through the City’s Environmental Program, with emphasis on energy efficiency and water conservation.
- Remain in compliance with AB 939, AB 341 and AB 1826 State mandates.
- Collaborate with the Los Angeles Regional Agency to promote waste reduction and the message of “Zero Waste” in order to meet solid waste landfill diversion goals.
- Work with the commercial districts to reduce visible trash, develop commercial waste reduction and recycling programs, and ensure businesses receive adequate solid waste services.
- Provide information, and manage issues, complaints and service requests in an efficient and professional manner.

Public Works | Parking Facilities

Program Overview

City Parking Lots & Meters

The Parking Fund includes revenue generated from metered City streets and parking lots, and from the sale of merchant parking permits. These revenues are used to operate and maintain the City's ten public parking lots, which contain 836 spaces and 440 on-street parking meters, as well as maintenance for Metlox Plaza and the Civic Center Plaza.

County Parking Lots

The City operates and maintains two Los Angeles County-owned parking lots. The two County-owned lots are the El Porto parking lot with 231 spaces, and the 27th Street parking lot with 68 spaces. Use of the revenue generated through parking meters and the sale of overnight permits is governed by an agreement with the County of Los Angeles which dictates that the City provides the County with 55% of the gross annual revenue.

State Parking Lots

The City also operates and maintains 118 parking meters at the Upper and Lower Pier parking lots, which are owned by the State of California. Under agreement with the State of California, revenue generated through parking fees and overnight parking permits from the Pier lots may only be used for the operation and maintenance of these parking lots and the comfort station located adjacent to the pier.

Objectives FY 2019 & FY 2020

- Maximize collections, repair time response and customer service through use of real-time data provided through the existing of 1,800 IPS “smart” meters.
- Repair/replace malfunctioning parking meters within 48 hours of being reported as broken.
- Perform annual preventative maintenance on all parking meters.
- Investigate new parking meter technologies to replace aging system.
- Rehabilitate the wall fountain in the Metlox Plaza’s northwest section.
- Perform extensive detailing and preventative maintenance for Metlox Plaza’s escalators and elevator.

Public Works | Fleet Management

Program Overview

The Fleet Management Division implements Clean Air programs as part of its fleet operations and ensures that the City does its part to reduce pollution and improve air quality. The program is handled as a user-pay system with repairs charged to the departments for services rendered. The budget includes funds for fuel, tank/dispensing systems maintenance, hazardous waste disposal, major automotive and specialized repairs, and other fleet related costs (object 5101).

Personnel assigned to Fleet Management include an Equipment Maintenance Supervisor and three Mechanics. The General Services Division of the Finance Department supports the fleet by managing the vehicle replacement fund and the auto parts warehouse. Fleet Management also maintains an inventory of commonly used tools and parts for quick and efficient repair of the fleet.

All government agencies located in the South Coast Air Quality Management District (SCAQMD) with a fleet of 15 or more non-emergency vehicles must comply with the SCAQMD 1190 Series Rules. Agencies must purchase alternative fuel vehicles (AFV) or low emission vehicles for new additions and the replacement of light and medium-duty, non-emergency vehicles. The AB2766 Subvention Fund can be used to offset the differential cost of these AFV. As of spring 2018, twenty-six alternative fuel vehicles and equipment have been purchased. This includes a mix of compressed natural gas, electric, and hybrid technologies.

Objectives FY 2019 & FY 2020

- Continue to develop an enhanced Fleet Replacement Program and forecast vehicle replacement needs through Fiscal Year 2020.
- Maintain GPS Vehicle Tracking system to maintain efficient and effective use of vehicles through reduced fuel consumption and lower mileage for a cleaner environment.
- Continue to “right size” the fleet through annual fleet utilization monitoring and sharing of vehicles.
- Complete repairs in a timely and cost effective manner.
- Utilize preventative maintenance services to maximize the useful life of vehicles and recoup the highest resale value.
- Complete Fleet and Fuel management software upgrades to further enhance cost analysis and performance.
- Continue to formulate vehicle and equipment specifications that will meet the needs, environmental priorities and safety standards of the City.
- Train fleet services staff on alternative fueled vehicle repairs to provide a higher level of support in efforts to promote a clean environment.

Major Service Delivery Changes

In the next two fiscal years, special fleet purchases include an electric vehicle will replace an 18-year old van used by engineering staff for field work and inspections and will be purchased using AQMD funds. A flatbed

Public Works | Fleet Management

golf cart will be purchased for the Parks and Recreation Department to access the interior of citywide parks easily and without the groundcover damage of the current van.

Information Technology Department

Mission

To promote integrated Citywide communications, provide innovative, problem solving, long-term enterprise technology solutions, accurate geographic information systems (GIS) data, and support current and future technical needs through high quality, cost-effective, collaborative solutions and timely service, digital presence, telecommunications and infrastructure that support effective and efficient decision making throughout the organization.

Department Overview

The Information Technology (IT) Department supports computers, telecommunications, mapping systems and digital presence (website and broadcast of Government Cable channels) for the City. The IT Department is staffed by a hard-working technical team of nine full-time and three part-time professionals.

Recent Accomplishment Highlights

- Network security and redundancy continue to be improved to insure City data and information exists in a protected, safe and stable environment. Performed upgrades and enhancements to the City's core network and server infrastructure. Continued implementation of server virtualization which provides server consolidation, decreased server cost, faster workload deployments, higher performance, increased availability and simplified operations.
- Enhanced and expanded the City's broadcast capability to remote facilities, contributing to the City's efforts towards Open Government. Completed audio equipment upgrades in the Joslyn Center and Police Fire Conference Room which improved broadcast quality. More public meetings are being broadcast and are available for on-demand view from the City's website. A broadcasting vendor specializing in the public sector was contracted to provide services, freeing up department resources to work on IT operations and projects. City Council and Planning Commission meetings are closed-captioned when viewed from cable television and the City's website. These services increase opportunities for citizens to participate in local government.
- The City's Digital Presence Subcommittee continues to further enhance the City's efforts to connect with citizens through online civic engagement with tools such as Open City Hall, *Reach Manhattan Beach* (the City's Service Requests Mobile Application), Public Records Requests, social media, a website update and online geospatial mapping enhancements, such as the Capital Improvement Project (CIP) Story Map, which contributes to the City's goal of greater transparency and access for its citizens.
- IT continues to advance city communications with the expansion of the Wide Area Network (WAN) and implementation of three 1 gb Internet circuits which provide traffic load balance, facilitate disaster recovery and improve network performance and reliability at the lowest possible cost. With the expansion of the WAN, IT extended the City network to remote sites and provides free WiFi at Live Oak, Marine Avenue Park, Polliwog Park, Sand Dune, Begg Pool and Mira Costa Tennis Courts.
- In conjunction with the City Clerk's Office, IT implemented Hyland OnBase document management solution to replace the obsolete LibertyNet system. The new platform provides an online public portal with access to archived records facilitating greater government accessibility and transparency.

- Launched a Fiber Master Plan study. The Fiber Master Plan can be used as a blueprint for a potential build of a citywide fiber infrastructure to support City facilities, Smart City initiatives, and a Fiber-to-the-Home network.

Program Overview

Information Technology is in its third year as a City Department and remains dedicated to maintaining and improving operations, services and communications through technology, data and voice in support of the City's strategic and operational needs. As a central element of the organization, IT provides support for the City's network environment, operating systems, office automation programs, telecommunication systems, audio visual, Geographic Information Systems (GIS), website, social media, webcast and cable broadcast of Spectrum Channel 8 and Frontier Channel 35 services. The Department is committed to improving fiscal responsibility through collaboration with other departments and organizations to provide effective technical solutions which continuously facilitate and improve the City of Manhattan Beach mission of public service and digital accessibility.

Objectives FY 2019 & FY 2020

- Continue to implement the Information Systems Master Plan utilizing advanced and fiscally responsible solutions. In collaboration with City departments, several solutions will be implemented, upgraded or replaced which includes: Community Development Land Management/Permitting System, Public Safety Computer Aided Dispatch and Records Managements, Enterprise Applications Document Management and Enterprise Resource Planning (ERP). Object 6142 ERP Implementation has been created in the IT budget with an amount of \$600,000 for the procurement and implementation of the ERP solution.
- With the implementation of several department and enterprise solutions, the City will need an Employee Training Center. The Center will be located at City Hall and will be used by staff and software vendors during the development, customization, implementation, testing and training of applications. Effective training contributes to successful project implementations. IT will also increase in the number of desktop, laptop, mobile device and peripheral replacements and respective software applications installed, such as anti-virus, spam, mobile device management, Microsoft and Adobe.
- Together with City Clerk's Office, IT department will continue to extend OnBase document management for Human Resources, Public Works and Community Development. This will further digitize City paper records, expanding online public records access through document scanning and indexing to convert archived document and microfilm records into digital format as well as implementation services for enterprise upgrades. IT will also support this initiative through procurement of software licenses and necessary equipment.
- Continue the development of the Citywide Fiber Optic Master Plan that will support infrastructure attracting investment and support economic growth. Broadband connectivity may enhance Manhattan Beach's economic development potential by attracting new advanced businesses and providing existing businesses the tools they need to expand. The Fiber Optic Master

Information Technology Department

Plan will be used by the City for the planning, budgeting and implementation of a landmark fiber optic network infrastructure project; it may possibly include a Fiber-to-the-Home pilot.

- The City invested in an enterprise backup solution and scalable Storage Area Network (SAN) that supports centralized management of high-speed data storage and retrieval of critical City applications. The existing backup solution and SAN, purchased in 2012, will be replaced to provide larger storage capacity for existing programs and growth, as well as ERP and Land Management/Permitting requirements.
- Promote e-government, e-commerce, civic engagement and use of social media to further the goals of the City and where appropriate, assure information exists in a protected, safe and stable environment. Continue to contribute to the City's goal of greater transparency, access for citizens and opportunities for constituents to participate in local government. In support of transparency, IT will upgrade City Council Chambers Broadcast and Voting System, using Public Education Government (PEG) funds as possible.

Major Service Delivery Changes

With Information Technology in its third year as a City Department, several staffing changes will take place to better support City Council objectives and City operations. Two positions in IT have been reclassified with zero budget impact. One Information Systems Specialist was reclassified as an Information Technology Senior Management Analyst and one Network Administrator was reclassified as Information Technology Analyst. The change was required to support several major upcoming projects such as Enterprise Resources Planning, Land Management/Permitting System and the Fiber Master Plan which have direct benefits to the community at large.

State Pier & Parking Lot Fund	319,592	-	-	250,000	330,000	899,592
	\$50,297,270	\$36,263,259	\$10,250,000	\$8,745,000	\$7,840,000	\$113,395,529
Unfunded Projects	\$160,230	-	-	\$53,930,000	\$1,970,000	\$56,060,230

¹ Prior Year Appropriation column includes estimated carryover funding that will be expended as multi-year projects progress. Reported carryover funds reflect the amount of fund balance previously committed to projects in prior year adopted budgets. In the Five Year Forecast, Opening Fund Balances include assumptions for Committed Capital Project expenditures and, where applicable, anticipated grant revenue.

Strategic Plan & Performance Measures

City of Manhattan Beach Strategic Plan

The Manhattan Beach City Council approved a Citywide Strategic Plan in January 2016, after a significant process of input and engagement from City Council, staff and the community. The City uses its Strategic Plan to guide decision-making at all levels of the organization. It allows the City to focus on core functions and ensure that every department is working together towards common goals. Additionally, it is linked to each department's performances measures in order to align their processes and activities to the tenets outlined in the plan.

The Citywide Strategic Plan recognizes and seeks to encourage the Core Values of excellence, fiscal responsibility, ethical behavior, mutual respect, integrity, dedication to the community, professionalism and openness. It does so by establishing six Pillars of Success that were considered by the City Council as essential to the vibrant future of Manhattan Beach. They are:

Strong Governance that Values Meaningful Resident Engagement

Environmental Stewardship

Excellent Municipal Services Provided by an Aligned and Committed Workforce

Effective Physical Asset Management - Infrastructure, Facilities, Amenities

Financial Sustainability

Economic Vitality

Each of these pillars includes associated Governance Activities that offer more details on how the Pillars themselves can be incorporated into the City of Manhattan Beach on a day-to-day and long-term basis.

Background

The City's previous Strategic Plan covered 2013-2015 and was updated every 6 months. In fall 2015, the City began a new Strategic Planning process, using a number of guiding documents to create core values and goals for the future. Those documents included:

- Goals established during the City Council Retreat in March 2015
- 2015 Manhattan Beach Resident Survey
- Community Priority Budget Meeting
- Urban Land Institute Visioning Report
- Downtown Specific Plan Community Input

Community Engagement

The Strategic Planning process relied heavily on gathering input from residents of Manhattan Beach, as well as stakeholder groups, City Council and City employees. Through the process, stakeholders were invited to engage through a variety of methods, such as:

- Informational booths at multiple Manhattan Beach Farmer's Markets
- Community Input meetings that gathered feedback on core values and long-term planning priorities
- Open City Hall, the City's online engagement platform, offered residents the opportunity to weigh in on priorities outside of the regular meetings
- City Council Retreats where the pillars were discussed and finalized

Future Long-term Planning

The City Council will use the Strategic Plan to inform its future long-term goals and objectives, including capital projects, infrastructure investment, program development and more. The six Pillars of Success have already been incorporated into the City's budget process through the tracking of Performance Measures for each department. In the following section, each Performance Measure is associated with a corresponding Pillar, indicating the commitment of each individual department to upholding this vision for the City.

City of Manhattan Beach Performance Measures

The City of Manhattan Beach is dedicated to providing excellent services to its community in a way that is efficient, responsive and transparent. To help the City achieve this, each department tracks key performance measures that help illustrate the progression towards these goals of both individual departments and the City as a whole.

These measures are not a comprehensive representation of all activities in the City; rather, they should be used as a gauge that indicates the progress of the City towards upholding the Pillars of Success outlined in the City-wide Strategic Plan. Each of these measures represents the outcomes of a specific activity or process that City departments consider illustrative of their efforts towards the collective goals of the City. The corresponding Pillar of Success to each performance measure is indicated on the left side. For more information about the City's Strategic Plan, visit the City's website: www.citymb.info/2015strategicplan.

City of Manhattan Beach Performance Measures

Management Services

Indicator	Prior Year Actuals				Target	Target
	2015-2016 Actual	2016-2017 Actual	2017-2018 Adopted	2017-2018 Estimate	2018-2019 Budget	2019-2020 Budget
 % - Residents that agree Manhattan Beach is a "good" or "excellent" place to live ⁰	97%	No Data	100%	No Data	100%	100%
 % - Employees that feel "prepared" and "trained" to do their jobs ¹	60%	No Data	70%	No Data	70%	75%
 % - Increase of citizens engaging with the City on average via new online engagement tools including social media ²	315%	59%	20%	25%	20%	25%

 Maintain sufficient liquidity to meet operating needs	Yes	Yes	Yes	Yes	Yes	Yes
 Update and adopt Investment Policy annually	Yes	Yes	Yes	Yes	Yes	Yes

⁰The City conducted a Community Survey in 2015 which established a baseline of 97%. This Performance Measure will be measured biennially via the Community Survey. The next measurement will be taken in 2018.

¹The City conducted an in-depth employee survey in the FY 2015-2016. This Performance Measure will be measured every two to three years. The next measurement will be taken in FY 2018-2019.

²Online citizen engagement is defined as the number of followers and subscribers on the City's social media sites, including Twitter, Facebook and Open City Hall.

⁴Per the City's Sunshine Policy, two Agendas and Agenda Packets were posted in five days due to City Hall closures for mandated City Holidays (Columbus Day and Veteran's Day). One Agenda and Agenda packet was posted seven days before required timeframe, exceeding the posting timeframe mandated by the City's Sunshine Policy.

⁵During FY 2014-2015, there was a significant increase in the overall number of City Council Meetings. In addition to the regularly scheduled 24 City Council Meetings, there was an additional 42 meetings bringing the total to 66 for the FY 2014-2015. The volume of meetings, coupled with staffing shortages, led to the low percentage of City Council Meeting Minutes being presented for adoption at the next Regular Meeting.

¹Baseline survey results from 2015 Community Survey. This performance measure will be measured via the 2018/2019 City-wide Community Survey.

²The Commission on Peace Officer Standards and Training (POST) requires that each sworn officer complete training on identified "perishable skills" once every two years; MBPD strives to provide each of these training courses on an annual basis to ensure that officers are trained to provide the highest level of service to our community and to reduce liability.

³Utilize traffic calming measures and proactive enforcement to ensure safe movement of vehicles and pedestrians; in partnership with the Traffic Engineer, analyze traffic patterns and work to minimize traffic problems through traffic calming measures.

¹This measurement is new in FY 2016-2018 and does not have previous data.

²This measurement is new in FY 2016-2018 and does not have previous data. It will be tracked using a new mobile patient information system implemented in 2016.

³This measurement is new in FY 2016-2018 and does not have previous data. MBFD will set up appropriate processes for applications and identify applicable businesses in order to track this measure.

⁴This measurement has previously been tracked as # of hours of CERT training offered. The City offered 100 hours in FY 2013-2014, 246 hours in FY 2014-2015 and is estimated to offer 108 hours in FY 2015-2016. Moving forward, MBFD will track this measure through % of the community that has been trained, including the business community, for which a new curriculum will be created by the department.

⁵This measurement is new in FY 2016-2018 and does not have previous data. While attendance for individual programs are often tracked, there is no comprehensive evaluation for all MBFD community education opportunities, which include car seat installation trainings, CPR trainings, smoke detector installations and more.

⁶This measurement is new in FY 2016-2018 and does not have previous data. MBFD will begin tracking this in FY 2016-2017.

⁷This measurement is new in FY 2016-2018 and does not have previous data. MBFD will begin tracking this in FY 2017-2018.

*This data was not previously tracked. Data consists only of events and participants for the second half of FY 2016-2017.

*Revised performance measures beginning FY 2019

¹ Community Development purchased new software to track counter traffic. Total numbers reported reduced due to an operational improvement for sign in procedures.

² Public Information and Civic Engagement Opportunities via community study sessions, Sustainability Task Force meetings, website announcements, citywide newsletter articles, community meetings, advertisements in the local papers, presentations to community groups, and staff reports on environmental initiatives. This public outreach effort serves to provide timely and relevant information to educate the community and promote the City's ongoing environmental sustainability work.

³ This number only includes counts that can be made, such as individuals at presentations, meetings, tablings, events, etc. This number does NOT include web, newspaper, social media, and recordings/broadcasting outreach numbers.

 % · Law Enforcement Vehicles Ready for Duty	86%	95%	90%	95%	95%	95%

CHANGE INDICATOR: % - Projects: Initiate design and/or award construction contracts

The Engineering Division oversees capital improvement projects. Most projects are multi-year phased and this measure highlights progress of projects authorized by the City Council. Continuing progress on Capital Improvement Projects increases improvements to infrastructure.

Timely pothole repair stops water infiltration into the roadbed, arresting further damage. Asphalt repairs maintain street safety, ride, and appearance. The City's pothole repair program is also coordinated with the annual slurry seal program, reducing the number of pothole calls from the public. The City employs a state of the art pothole repair truck that is heated and insulated, which has allowed Public Works to quickly and efficiently keep up on smaller asphalt repairs. In order to conserve materials, the City repairs multiple potholes at a time. Starting March 2018, materials will be purchased in smaller quantities, more frequently, so that potholes will be repaired every 2 days (weather pending) to ensure meeting the work order deadline.

The City prides itself on its aggressive graffiti abatement program, which results in many reported sites being abated the same day. During normal business hours, staff makes every effort to remove reported graffiti within 24 hours as stated in the Municipal Code. The City believes that an aggressive removal policy results in a reduction in this type of crime over time. This ordinance also extends to private property. In order for City staff to enter and abate graffiti on private property, a release waiver signed by the property owner is required, which slightly delays remediation efforts.

Facilities refers to the physical structures, including civic buildings, restrooms, and storage and maintenance facilities. This will measure proper management of staff and staffing levels. Unattended work orders can become emergency work orders if not addressed in a timely manner. Emergency work comes at a premium cost, and proper managing and correct staffing are critical to minimizing response time.

In order to provide the community with the highest quality water at the least possible cost, the City reduces imported water costs by 65% by leasing lower cost groundw

The City has attained an average reduction in water use of 33% compared to the baseline set in the 2010 Urban Water Management Plan.

In order to maintain good customer service and maximize meter availability to the public, all out-of-service parking meters are repaired within two days of reporting. Typical repairs include clearing coin jams, credit card reader malfunctions, and part replacements. Keeping meters in working order allows residents and visitors to enjoy City amenities and not have to deal with broken meters.

The City's Police Department is a 24/7 operation, and patrol vehicles are on the road in a high wear environment. In order to carry out their duties, the MBPD relies on reliably maintained vehicles. The Ready For Duty measure rates the average amount of time a vehicle can be expected to be deployable. Vehicles are pulled from service for scheduled preventive maintenance, body & chassis repair, and unscheduled mechanical failures of all kinds.

CITY OF MANHATTAN BEACH

CITY COUNCIL WORK PLAN

Developed at the City Council Work Plan Meeting March 9, 2018
Updated July 11, 2018

Management Services

1. Citywide Document Imaging System (Conversion) Project

- a. **Background:** An RFI was issued in October 2014 where the lowest bidder was Konica Minolta Business Solutions/KMBS-ECM (Hyland OnBase). City Council approved use of OnBase on June 15, 2015. The City Clerk began integrating the systems in early 2016 and continues to work with departments to upload documents in phases. Demos were provided by KMBS-ECM to departments on January 26, 2018, and February 9, 2018.
- b. **Status:** In Progress – Community Development (Planning), Finance (Accounting), and Public Works.

Completed – City Clerk legislative documents from 1912 to present, Community Development (Building) and Finance (Purchasing).
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Continue supporting departments that are currently scanning documents, as well as those in preparation.
 - ii. Create document management workflow with Community Development (Planning), Finance (Accounting), and Public Works.
- e. **Target Due Date:** Fiscal Year 2020

2. Centralized Citywide Contract Management Systems

- a. **Background:** Convened a Contract Working Group with the City Attorney's Office, Human Resources/Risk Management and Finance Department to create a more efficient and effective contract approval process. The group created a Citywide contract workflow process with all City departments. Investing in a Citywide Contract Management solution ensures accurate record-keeping practices, continued workflow standards, maintaining legal compliance and meeting insurance requirements. On March 9, 2018, City Council directed staff to move forward with a Citywide Contract Management software solution that manages the City's growing contract demand. This solution will launch in coordination with the City's pending Enterprise Resource Planning (ERP) solution.
- b. **Status:** In Progress – Present selection of ERP system application to City Council.
- c. **Next City Council Action:** Review and adopt proposed ERP system application at meeting on July 17, 2018, and award contract to recommended vendor.
- d. **Action Items:**
 - i. Negotiate acceptable terms with selected vendor.
 - ii. Present recommended vendor to City Council at July 17, 2018 meeting.
 - iii. Create proper contract management workflow with selected vendor.
- e. **Target Due Date:** Winter 2019

3. City Council Sponsorship Policy

- a. **Background:** City Council has requested a possible policy on sponsorship of community events that includes guidelines regarding attendance, process for selecting events, timelines, etc.
- b. **Status:** In Progress - Developing draft for City Council review.
- c. **Next City Council Action:** Review draft policy and provide direction on September 18, 2018.
- d. **Action Items:**
 - i. Develop draft policy and present to City Council for discussion on September 18, 2018.
 - ii. Pending City Council approval, implement policy changes as necessary.
- e. **Target Due Date:** Fall 2018

4. Establish Policy Regarding City Council Communications

- a. **Background:** On March 9, 2018, City Council approved developing a draft policy to guide City Council communications with City staff and the public in order to maintain an efficient and effective work environment.
- b. **Status:** In Progress – Developing draft for City Council review.
- c. **Next City Council Action:** Review draft policy and provide direction on September 18, 2018.
- d. **Action Items:**
 - i. Develop draft policy and present to City Council for discussion on September 18, 2018.
 - ii. Implement approved policies throughout the organization.
- e. **Target Due Date:** Fall 2018

5. City Hall Security

- a. **Background:** On March 9, 2018, City Council approved performing a security assessment on City Hall and other City facilities with options for improving safety for the community and City employees. A security assessment was conducted on City Hall and other City facilities in Spring 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Receive presentation on results from security assessment and provide direction on opportunities for improved securities at meeting on September 18, 2018.
- d. **Action Items:**
 - i. Present findings and recommendations from security assessment to City Council at their meeting on September 18, 2018.
 - ii. Implement approved upgrades.

e. **Target Due Date:** December 2018

6. Develop and Execute Plan to Address Homelessness in Manhattan Beach

a. **Background:** In October 2017, Manhattan Beach applied for and received a grant from Los Angeles County to create a plan to prevent and address homelessness. The City retained consultants with expertise in regional homeless and housing resources and conducted outreach from March to April 2018. A plan was developed and presented to City Council on April 17, 2018. Based on City Council direction, the draft was updated and will be presented to City Council at a future meeting.

b. **Status:** In Progress

c. **Next City Council Action:** Review updated draft plan and present for City Council adoption at the August 21, 2018 meeting.

d. Action Items:

i. Update draft plan and present to City Council for review at the August 21, 2018 meeting.

ii. Work with community and staff to implement goals of the plan.

e. **Target Due Date:** August 2018, for plan approval and ongoing implementation.

Finance

1. Update on Revenue Enhancements

- a. **Background:** City Council directed staff to provide the Finance Subcommittee and City Council with a list of key financial challenges (rising pensions cost, streetlight/landscape fund and storm drain fund deficits) that are significantly affecting the City's financial future. Staff will review possible revenue sources that may be utilized to address subsidies and deficits issues.
- b. **Status:** Pending data collection; review options with Finance Subcommittee in August 2018, prior to bringing it to City Council in September.
- c. **Next City Council Action:** Review recommendations from staff and Finance Subcommittee at the October 2, 2018 meeting.
- d. **Action Items:**
 - i. Gather relevant data regarding key financial challenges.
 - ii. Present findings to Finance Subcommittee in Summer 2018.
 - iii. Present findings and recommendations from Finance Subcommittee to City Council at the October 2, 2018 meeting.
- e. **Target Due Date:** October 2, 2018

2. Update on City's Pension Liabilities

- a. **Background:** City Council directed staff to provide an update on the City's pension liabilities and how that impacts the City's financial future. The City consults with an independent actuary to review plans and project rates beyond what CalPERS provides. Staff will present information on the City's pension liabilities to the Finance Subcommittee and City Council. City will receive the annual actuarial valuation report for 2017 from CalPERS in August 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review recommendations from staff and Finance Subcommittee at the September 18, 2018 meeting.
- d. **Action Items:**
 - i. Gather relevant data on City's ongoing pension liabilities.
 - ii. Present the information to Finance Subcommittee in Summer 2018.
 - iii. Present the information and recommendations from Finance Subcommittee to City Council at the September 18, 2018 meeting.
- e. **Target Due Date:** September 18, 2018

3. Update on City's Streetlighting Fund

- a. **Background:** As part of a request for revenue enhancement opportunities, City Council directed staff to provide an update on the City's Streetlighting Fund, which derives its

revenue from assessments to property owners. Updating those assessments, which have not been changed since 1996, will require a Proposition 218 vote. Currently, transfers from the General Fund supplement the Streetlighting Fund. Staff will provide an update on this fund and future options to the Finance Subcommittee and City Council.

- b. **Status:** Pending data collection, review options with Finance Subcommittee in September 2018 and prior to City Council review in October 2018.
- c. **Next City Council Action:** Review recommendations from staff and Finance Subcommittee at the October 2, 2018 meeting.
- d. **Action Items:**
 - i. Develop update on Streetlighting Fund.
 - ii. Present update to Finance Subcommittee in September 2018.
 - iii. Present recommendations from staff and Finance Subcommittee at meeting on October 2, 2018.
- e. **Target Due Date:** October 2, 2018

4. Explore Increasing Stormwater Fees

- a. **Background:** City Council requested an update on potentially increasing Stormwater Fees. Similar to the City's Streetlighting Fund, Stormwater Fees are assessments to property owners and have not been changed since 1996. They are also not sufficient to sustain the program's current and future capital needs and annually require transfers from the City's General Fund. Increasing these fees will require a Proposition 218 vote.
- b. **Status:** Pending data collection, review options with Finance Subcommittee in September 2018 and prior to City Council review in October 2018.
- c. **Next City Council Action:** Review recommendations from staff and Finance Subcommittee at the October 2, 2018 meeting.
- d. **Action Items:**
 - i. Review options for increasing Stormwater Fees.
 - ii. Present options to Finance Subcommittee in September 2018.
 - iii. Present recommendations from staff and Finance Subcommittee at the October 2, 2018 meeting.
- e. **Target Due Date:** October 2, 2018

5. Conduct a Comprehensive User Fee Study and Cost Allocation Plan (CAP)

- a. **Background:** Staff will conduct a Comprehensive User Fee Study and Cost Allocation Plan (CAP) in 2019. The study was last completed in 2015, and best practice is to conduct these studies every 4-5 years. This process ensures that the City identifies the true cost of providing various City services. The study will start in January 2019 and will take approximately six months to complete.
- b. **Status:** Scheduled to begin January 2019.

- c. Next City Council Action:** Receive report on the Comprehensive User Fee Study and Cost Allocation Plan (CAP) and provide direction on recommendations for fee adjustments, meeting date in June/July 2019.
- d. Action Items:**
 - i. Develop and issue RFP to select a consultant Summer 2018.
 - ii. Begin Comprehensive User Fee Study and CAP in January 2019.
 - iii. Review results with Finance Subcommittee in May/June 2019, meeting date TBD.
 - iv. Present recommendations from staff and Finance Subcommittee to City Council in June/July 2019.
- e. Target Due Date:** Summer 2019

Human Resources

1. Update Policy for Processing Worker's Compensation Claims

- a. **Background:** Conduct a review of current policies and procedures. Staff will review policy drafts concurrently with an update of all personnel rules and instructions to ensure cohesion across policies.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Ensure coordination with Personnel Rules and Instructions before executing final draft.
- e. **Target Due Date:** December 2018

2. Review and Update Personnel Rules and Personnel Instructions

- a. **Background:** Staff are updating the City's Personnel Rules and Personnel Instructions while concurrently reviewing the City's policy for processing worker's compensation claims. Staff will conduct the necessary meet and confer meetings with the City's labor groups.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Conduct necessary meet and confer meetings with City's labor groups.
 - ii. Ensure coordination with updated policy to process worker's compensation claims before executing final drafts.
- e. **Target Due Date:** December 2018

3. Update City Injury Illness Prevention Program (IIPP) and Evaluate Safety Program

- a. **Background:** Staff reviewed current IIPP program, Safety Program and associated policies to ensure alignment with current Occupation Safety and Health Administration (OSHA) requirements. Appropriate trainings regarding OSHA requirements were provided in FY 2016-2017. Staff will communicate and provide additional training to staff regarding IIPP changes, if necessary, once policies have been finalized.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Finalize and implement updated policies throughout the organization.
- e. **Target Due Date:** December 2018

4. Update on Recruitment of Fire Management Open Executive Positions

- a. **Background:** At the City Council meeting on March 9, 2018, City Council requested an update on the recruitment of open executive positions in Fire management. Staff expects to have a list of candidates in June 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Complete the Fire Chief Recruitment Process.
- e. **Target Due Date:** June 2018

5. Collective Bargaining Negotiations with six (6) Labor Groups

- a. **Background:** The majority of the collective bargaining agreements between the City and various employee groups expire December 31, 2018. These contracts will need to be renegotiated.
- b. **Status:** Pending – Negotiations should begin in Fall 2018.
- c. **Next City Council Action:** Closed Session labor discussions, meeting dates TBD
- d. **Action Items:**
 - i. Seek authority for negotiations from City Council based upon staff recommendations.
- e. **Target Due Date:** January 2019

6. Employee Handbook

- a. **Background:** During Work Plan discussions in September 2017, City Council requested an update to the current Manhattan Beach Employee Handbook.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Complete the Personnel Rules update project (#2) before finalizing new Employee Handbook.
 - ii. Present updated Personnel Rules to City Council for adoption once any meet and confer obligations are met.
 - iii. Coordinate updated Employee Handbook with approved Personnel Rules before finalization.
- e. **Target Due Date:** March 2019

Parks and Recreation

1. Update Field Allocation and Use Policy, Field Fees, and Facility Reservation Policy

- a. **Background:** Staff conducted a review of the current policies and fee structures and analyzed the data. New policy drafts were developed based on communication and discussion with field users. City Council discussed the Field Allocation and Use Policy, as well as field fees, at their May 15, 2018 meeting and directed staff to address the issue in a working group before returning to City Council. The Facility Reservation Policy will be presented at the July 17, 2018 meeting.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review the proposed draft Facility Reservation Policy at the July 17, 2018 City Council meeting.
- d. **Action Items:**
 - i. Convene an Ad Hoc Sports Committee that includes regular user groups to further review the Field Allocation and Use Policy, as well as field fees.
 - ii. Present proposed draft Facility Reservation Policy to City Council at their meeting on July 3, 2018.
 - iii. Present findings and recommendations from the Ad Hoc Sports Committee to the Parks and Recreation Commission on July 16, 2018, and to the City Council on September 18, 2018.
- e. **Target Due Date:** Summer 2018

2. Update Citywide Donation Policy (Including Strand Bench & Tree Program, Bench Donation Program and Sponsorship Opportunities)

- a. **Background:** City Council discussed the Strand Bench and Tree and Bench Donation programs at the January 3, 2018 meeting. They directed staff to return with clarifications on the programs, including consistent donor recognition language, specific time frame and potential funds. There was also direction to explore alternative recognition programs. At the City Council Work Plan Meeting on March 9, 2018, direction was given to combine the updates of the recognition policies with other sponsorship opportunities in Parks and Recreation under a Citywide Donation Policy.
- b. **Status:** In Progress
- c. **Next City Council Action:** Discuss presentation of Citywide Donation Policy at City Council meeting on August 7, 2018.
- d. **Action Items:**
 - i. Engage stakeholders in discussion of current donation policies.
 - ii. Present recommendations to City Council on August 7, 2018.
- e. **Target Due Date:** August 2018

3. Sand Dune and Tennis Court Reservations

- a. **Background:** Evaluate current reservation administration and process to identify opportunities for greater efficiencies. Staff will research best practices in efficient reservation services, including appropriate technology.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Review software options that prioritize user-friendly interface.
 - ii. Review Sand Dune and Tennis Court reservation fees for potential increase to better reflect cost of use.
- e. **Target Due Date:** Fall 2018

4. Park Master Plan

- a. **Background:** City Council approved this project as part of the Fiscal Year 2015-2016 Capital Improvement Program (CIP), and it was carried over with approval into the Fiscal Year 2017-2021 CIP. Staff will work to develop a comprehensive Parks Master Plan in collaboration with Public Works that will serve as a roadmap for both departments as they continue to provide future amenities to the community. At their meeting on June 5, 2017, City Council approved this project as part of the Parks and Recreation Commission Work Plan with the direction to incorporate or examine previous plans of a similar nature. Parks Master Plan was discussed at the Joint City Council/Parks and Recreation Commission meeting on June 4, 2018 as one of the Commission work plan items for the upcoming year.
- b. **Status:** On Hold
- c. **Next City Council Action:** Begin Park Master Plan by December 2018.
- d. **Action Items:**
 - i. Staff will continue working with Parks and Recreation Commission to develop the Parks Master Plan.
 - ii. Present additional information on the draft Parks Master Plan, as well as the Facility Strategic Plan, to City Council on Summer of 2018.
- e. **Target Due Date:** Fall 2019

5. Community Grant Program Policy Development and Walkabout Events

- a. **Background:** On September 19, 2017, City Council approved acceptable uses for the Public Art Trust Fund, which includes this item. An update was provided on the Public Art Trust Fund items at the City Council meeting on April 3, 2018. The Community Grant Program addresses the need of the community and local arts organizations to fund small scale art projects within Manhattan Beach. On March 9, 2018, City Council requested a proposal for additional “walkabout” events in Downtown Manhattan Beach, where streets are blocked off and additional entertainment is provided. These events would be funded by the Community Grant Program.

- b. **Status:** In Progress
- c. **Next City Council Action:** Review proposed program outline, meeting TBD.
- d. **Action Items:**
 - i. Staff will develop a program outline and present the draft to the Cultural Arts Commission in September 2018.
 - ii. Present Cultural Arts Commission recommendation to City Council in October 2018.
 - iii. Pending City Council approval, implement program with RFP in November 2018.
 - iv. Award grants in January 2019.
- e. **Target Due Date:** Fiscal Year 2019

6. Public Art Conservation Assessment

- a. **Background:** On September 19, 2017, City Council approved acceptable uses for the Public Art Trust Fund, which includes this item. An update was provided on the Public Art Trust Fund items at the City Council meeting on April 3, 2018. City Council directed staff to conduct an in-house assessment of all public art in Manhattan Beach.
- b. **Status:** Pending – September 2018
- c. **Next City Council Action:** Review recommendations of the Cultural Arts Commission, meeting date TBD.
- d. **Action Items:**
 - i. Staff will begin a comprehensive assessment of all public art in Manhattan Beach.
 - ii. Provide presentation and recommendations to Cultural Arts Commission in December 2018.
 - iii. Present recommendations of the Cultural Arts Commission to the City Council, meeting date TBD.
- e. **Target Due Date:** Fiscal Year 2019

7. Assessment of Historical Artifacts and Structural Review of Historical Beach Cottage

- a. **Background:** At their meeting on May 14, 2018, City Council requested staff conduct an assessment of the City's current historical artifacts and prepare a report regarding options for preservation of those artifacts, including facilities the City could build and pre-existing options. City Council also directed staff to include the historical "Little Red House" in Polliwog Park in the assessment.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review assessment of the City's current historical artifacts and the options for preservation and provide direction, meeting date October 2, 2018.
- d. **Action Items:**

- i. Staff will begin a comprehensive assessment of the City's historical artifacts, including the historical beach cottage.
- ii. Provide presentation and recommendations to Cultural Arts Commission, meeting date September 17, 2018.
- iii. Present recommendations of the Cultural Arts Commission to City Council, meeting date October 2, 2018.

e. **Target Due Date:** TBD

8. Utility Box Beautification

a. **Background:** On September 19, 2017, City Council approved acceptable uses for the Public Art Trust Fund, which includes this item. An update was provided on the Public Art Trust Fund items at the City Council meeting on April 3, 2018. City Council provided direction that art for this project should highlight the City's history, blend with the existing landscape and/or describe the Manhattan Beach lifestyle.

b. **Status:** In Progress

c. **Next City Council Action:** Review submissions and recommendations by staff and Cultural Arts Commission, meeting September 17, 2018.

d. **Action Items:**

- i. Present proposed utility box locations to Cultural Arts Commission at the May 21, 2018 meeting.
- ii. Issue Request for Proposals (RFP) to artists in June 2018.
- iii. Select images based on City Council priorities listed above.
- iv. Present recommendations to Cultural Arts Commission in September 2018.
- v. Present submissions and recommendations to City Council in October 2018.
- vi. Begin installation in November 2018.

e. **Target Due Date:** December 2018

9. Sculpture Garden Program

a. **Background:** On September 19, 2017, City Council approved acceptable uses for the Public Art Trust Fund, which includes this item. An update was provided on the Public Art Trust Fund items at the City Council meeting on April 3, 2018. In 2018, the Sculpture Garden program was reorganized as a two-year program with three artists. It originated in 2009 as a temporary outdoor exhibition program with six artists displaying art for one year.

b. **Status:** In Progress

c. **Next City Council Action:** Review finalists and select proposals at City Council meeting on August 21, 2018.

d. **Action Items:**

- i. Present Cultural Arts Commission recommendations to City Council at their meeting on August 21, 2018.

- ii. Issue agreements with selected artists.
- iii. Install art work at selected locations.

e. **Target Due Date:** January 2019

10. Process to Place Public Art in City Hall

a. **Background:** On September 19, 2017, City Council approved acceptable uses for the Public Art Trust Fund, which includes this item. An update was provided on the Public Art Trust Fund items at the City Council meeting on April 3, 2018.

b. **Status:** In Progress

c. **Next City Council Action:** Establish Ad-Hoc Arts Committee to develop Request for Qualification's RFQ.

d. **Action Items:**

- i. Presented proposed application process for public art in City Hall to City Council on May 1, 2018.
- ii. Continue decommissioning process for current mural in City Hall.
- iii. Pending City Council approval, draft RFQ for public art in City Hall.
- iv. Review RFQ proposals and select top candidates.
- v. Present top candidate proposals to Cultural Arts Commission for review, meeting date TBD.
- vi. Present recommendations to City Council for review, meeting date TBD.

e. **Target Due Date:** September 2018

11. Special Event Policy

a. **Background:** Update City's Special Event Policy to clarify special event definitions and approval processes; create process for handling events that impact the community and City services; and reexamine legacy events for growth and future fee waiver potential. City Council provided direction at their meeting on May 15, 2018.

b. **Status:** In Progress – Updating policy based on City Council feedback.

c. **Next City Council Action:** Review updated policy, meeting date July 17, 2018.

d. **Action Items:**

- i. Update policy based on City Council recommendations and present new draft at the July 17, 2018 meeting.
- ii. Pending City Council direction or approval, update policy accordingly and communicate changes to internal and external users.

e. **Target Due Date:** Summer 2018

12. Senior & Scout House Project including Joslyn Center Façade

a. **Background:** In support of the Older Adults, Scouts and additional community stakeholders who are participating in fundraising for the new Manhattan Beach Senior

and Scout Community Center, staff assisted with planning and executing the Pinewood Derby Fundraiser. Staff helped with event logistics, including publicity and marketing, sponsorships, event planning and coordination. City Council updated this item to include fundraising and design option to coordinate the façade of Joslyn Community Center with the new Scout House.

b. Status: In Progress – Event will be on May 28, 2018.

c. Next City Council Action: None

d. Action Items:

- i. Continue meeting with event coordinators to support execution and implementation.

e. Target Due Date: TBD

13. Merchandising, Licensing and Branding for the City

a. Background: On March 9, 2018, City Council approved an exploration of merchandising, licensing and branding options for the City. Staff is preparing a report on these opportunities.

b. Status: In Progress – Developing report for City Council review.

c. Next City Council Action: Discuss, provide direction and report at the October 2, 2018 City Council meeting.

d. Action Items:

- i. Evaluate opportunities for merchandising, licensing and branding in the City and explore benefits and concerns.
- ii. Present report to City Council on October 2, 2018.

e. Target Due Date: October 2018

14. Library Surplus Funds

a. Background: On March 9, 2018, City Council requested options for using surplus funds allocated to the Manhattan Beach County Library. The Library Commission received a presentation on February 12, 2018, from City staff and County library staff and made recommendations for surplus fund use.

b. Status: In Progress – Pending presentation of recommendations to City Council.

c. Next City Council Action: Discuss, provide direction on report and provide recommendations at the August 7, 2018 meeting.

d. Action Items:

- i. Present report on options for Manhattan Beach County Library surplus fund use, including recommendations made by Library Commission, to City Council at the August 7, 2018 meeting.
- ii. Work with LA County and library staff to implement approved recommendations.

e. Target Due Date: Fiscal Year 2018-2019

Police

1. MBUSD School Safety and Security Upgrades/Improvements

- a. **Background:** At their meeting on March 20, 2018, at the recommendation of the City Council/MBUSD Ad Hoc Committee, City Council appropriated funds totaling \$1,000,000 from the General Fund unreserved fund balance to support MBUSD safety and security improvements.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review prioritized list of safety and security measures, meeting date TBD.
- d. **Action Items:**
 - i. Meet with MBUSD representatives to develop and prioritize list of safety and security needs across MBUSD campuses.
 - ii. Present list to City Council for review and approval, meeting date TBD.
 - iii. Based on City Council direction, implement prioritized measures.
- e. **Target Due Date:** TBD

2. 2016-2018 Strategic Plan Implementation

- a. **Background:** Continue to implement the 57 action items outlined in the Police Department Strategic Plan. Report progress to the community semi-annually.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Implement the 57 action items of the Police Department's Strategic Plan.
- e. **Target Due Date:** December 2018

3. 2019-2021 Strategic Plan Development

- a. **Background:** Create a 2019-2021 Police Department Strategic Plan to guide delivery of police services over the next three years.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Gather community and employee input through interactive workshops and surveys; develop 2019-2021 Police Department Strategic Plan.
- e. **Target Due Date:** January 2019

4. Body Worn Camera Replacement Project

- a. **Background:** In January 2016, the Police Department began using Body Worn Cameras. The use of Body Worn Cameras (BWC) serve as an effective tool for law

enforcement agencies to demonstrate commitment to transparency, ensure the accountability of its members, increase the public's trust in officers and protect department members from unjustified complaints of misconduct. Current BWCs have reached, or are approaching, their recommended end of life (2.5 - 3 years), and new BWC technology has developed over the past few years. Replacement of BWCs is critical to officers' safety, accountability and transparency.

b. Status: In Progress

c. Next City Council Action: February 2019

d. Action Items:

- i. Research and field test replacement body worn camera options.
- ii. Research cloud-based video storage solutions for evidentiary videos.
- iii. Conduct an RFP process, if necessary, and present recommended vendor to City Council at a meeting in February 2019.
- iv. Implement the replacement body worn camera solution.

e. Target Due Date: April 2019

5. Computer Aided Dispatch and Records Management System Replacement Project

a. Background: In Fiscal Year 2017-2018, the South Bay Regional Public Communication Authority (SBRPCA) began the process of replacing/upgrading the Computer Aided Dispatch (CAD) and Records Management Systems (RMS). The consortium cities are sharing the cost of the upgrade. Hawthorne Police Department is serving as the project management lead.

b. Status: In Progress

c. Next City Council Action: None

d. Action Items:

- i. Work with South Bay Regional Public Communication Authority (SBRPCA) consortium cities and with vendor, Mark 43, to develop Computer Aided Dispatch System and Records Management System.
- ii. Implement system and conduct training

e. Target Due Date: December 2019

6. Radio Replacement Project

a. Background: Replacement of Police Department portable and in-car radios to achieve enhanced interoperability and officer safety. Worked with South Bay Regional Public Communications Authority (SBRPCA) to seek grant funding and obtain reduced pricing for radio replacement project. On December 5, 2017, the City Council approved the purchase of the radios.

b. Status: In Progress

c. Next City Council Action: None

City Council Work Plan

d. Action Items:

- i. Work with SBRPCA to acquire, program and install the radios.
- ii. Provide training on the enhanced capabilities of the interoperable radios.

e. Target Due Date: January 2019

Fire

1. Improve Fire Prevention Inspection Documentation/Data Collection

- a. **Background:** In January 2016, the Fire Prevention Division developed an internal plan to capture inspection data, which includes building information and permit requirements. Permit and inspection software have been updated to accommodate the new permit process.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Research technology-based solutions that can be accessed in the field and manage gathered data.
- e. **Target Due Date:** 2019

2. Improve Ambulance Transport Services

- a. **Background:** An Ambulance Operator program was implemented in 2017 and is currently staffed with part-time employees. This program is difficult to sustain and staff effectively, by leaving a potential gap in available ambulance transport services. A presentation on the challenges of this program was provided on April 16, 2018. Based on City Council direction, staff met with McCormick Ambulance to discuss temporary options and are awaiting a proposal on different service deployment models and costs.
- b. **Status:** In Progress
- c. **Next City Council Action:**
 - i. Review short-term/interim contract for ambulance services at the July 17, 2018, meeting to cover potential gaps in service.
 - ii. Once new Fire Chief is appointed, return to City Council for discussion on new models and/or solutions to provide ambulance services to residents, meeting date TBD.
- d. **Action Items:**
 - i. Initiate short-term/interim contract for ambulance services with appropriate vendor.
 - ii. Present contract to City Council at the July 17, 2018 meeting.
 - iii. Review possibilities for new ambulance program models or other solutions to provide effective and efficient emergency medical services.
 - iv. Present options to City Council for discussion and direction, meeting date TBD (after new Fire Chief is appointed).
- e. **Target Due Date:** Fiscal Year 2019

3. Emergency Preparedness

City Council Work Plan

- a. **Background:** The department has completed the new Hazard Mitigation Plan and has sent it to FEMA for review and required changes prior to City Council adoption.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review and adopt updated Hazard Mitigation Plan, meeting date TBD.
- d. **Action Items:**
 - i. Make necessary changes based on FEMA review.
 - ii. Present updated Hazard Mitigation Plan to City Council, meeting date TBD.
- e. **Target Due Date:** August 2018

4. Replace Dispatch Software, Database Management, CAD Integration

- a. **Background:** Staff identified a need for these services and presented a status update to City Council on November 1, 2016. City Council directed staff to develop and issue an RFP. After reviewing the responses, staff conducted site visits and reviewed proposed software modules, project cost and scope of work. The South Bay Regional Communications Authority (RCC) has entered into a contract with a software development firm, Mark 43. They are currently developing systems for Police Departments served by the RCC. After implementation of Police Department systems, Mark 43 will develop systems for Manhattan Beach Fire Department.
- b. **Status:** In Progress
- c. **Next City Council Action:** None.
- d. **Action Items:**
 - i. Work with vendor, Mark 43, to develop appropriate systems for MBFD needs.
 - ii. Implement system and appropriate training.
- e. **Target Due Date:** Winter 2019

5. Emergency Notification System

- a. **Background:** The City's current mass notification system is Reverse 911. Over the years, this program has become ineffective due to technology advances and demands from local jurisdictions. In order to provide effective and efficient mass notification, the Emergency Services Manager and other City staff are evaluating new innovative notification systems that will allow us to contact our employees, residents and businesses during disasters, local emergencies or large scale events.
- b. **Status:** In Progress
- c. **Next City Council Action:** Unknown
- d. **Action Items:** Unknown
- e. **Target Due Date:** End Fiscal Year 2018-2019

6. Interoperability Network of the South Bay (INSB)

- a. **Background:** Through cooperative effort between the South Bay Regional Communications Authority, Redondo Beach Fire Department and Torrance Fire Department, grant monies have been secured in combination with City contributed funds, for the design, construction, and use of a modern communication system. This system will link communications between all Area G public safety agencies as well as expand future capabilities for interoperable communications with other County agencies.
- b. **Status:** In Progress
- c. **Next City Council Action:** None
- d. **Action Items:**
 - i. Implement system with new radios upon arrival.
- e. **Target Due Date:** Fiscal Year 2018-2019

Community Development

1. Short-Term Rentals

- a. **Background:** On June 16, 2015, City Council reinforced the City's current code, which prohibits transient uses in residential zones, i.e. rentals less than 30 days. At their meeting on March 6, 2018, City Council directed staff to return with additional data on the issue, including insurance, enforcement, revenue, etc.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review additional information presented by staff and discuss possible updates to current code at a City Council Study Session on July 19, 2018.
- d. **Action Items:**
 - i. Gather additional information as requested by City Council, including insurance, enforcement, revenue, etc.
 - ii. Present this information at a City Council Study Session on July 19, 2018.
 - iii. Based on City Council direction, update City Municipal Code and conduct outreach to educate public on possible changes.
- e. **Target Due Date:** Summer 2018

2. Accessory Dwelling Unit

- a. **Background:** Replace IZO regarding Accessory Dwelling Units with City ordinance prior to the IZO's expiration on December 19, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Conduct a public hearing to adopt final regulations, meeting date TBD.
- d. **Action Items:**
 - i. Conduct public hearings at Planning Commission and City Council to adopt final regulations.
 - ii. Update City Municipal Code as necessary.
- e. **Target Due Date:** Fall 2018

3. Sepulveda Corridor Study

- a. **Background:** On September 19, 2017, City Council approved the Sepulveda Planning Initiatives Project and Work Plan, which included the formation of an Ad Hoc Working Group, and provided direction in moving forward. The group met five times to discuss and craft recommendations related to economic vitality, planning, parking, traffic, and corridor beautification. Staff presented the Working Group's recommendations to the Planning Commission on April 25, 2018, and conducted a public hearing on May 23, 2018 and June 13, 2018.
- b. **Status:** In Progress

c. Next City Council Action: Conduct a public hearing, consider Sepulveda Corridor Working Group and Planning Commission recommendations, adopt ordinance and provide direction on recommendations.

d. Action Items:

- i. Provide presentation and conduct public hearing at City Council meeting on July 3, 2018.
- ii. Continue public hearing to July 17, 2018, and introduce ordinance.
- iii. Second reading of ordinance at City Council meeting on August 7, 2018.
- iv. Implement recommendations approved by City Council.

e. Target Due Date: August 2018

4. Manhattan Village Mall Expansion Project

a. Background: In December 2014, City Council approved a proposed expansion of the Manhattan Village Mall and associated EIR. Litigation was filed and a settlement agreement approved in November 2016. City Council approved a height variance for the enclosed Mall on December 6, 2016. New litigation was filed in late December 2016, on the Community Development Director's approval of the site plan, as endorsed by City Council on December 20, 2016. Project Manager's agreement with Willdan was completed in September 2016; the applicant approved the Reimbursement Agreement and submitted funding in February 2017. The Plan Check/Inspection Agreement was completed in March 2017. Finance has been invoicing all staff time on a monthly basis and ensuring Trust Fund account has adequate funding to reimburse the City.

b. Status: In Progress

c. Next City Council Action: Review, discuss and approve Phase III of project, meeting date TBD.

d. Action Items:

- i. Provide presentation on Phase III of the Manhattan Village Mall Expansion Project to Planning Commission, meeting date TBD.
- ii. Provide presentation on Phase III of the Manhattan Village Mall Expansion Project to City Council, meeting date TBD.

e. Target Due Date: Fiscal Year 2021

f. Target Due Date: May 2018

5. Modernize Parking Standards

a. Background: At their Retreat on May 3, 2017, City Council requested staff evaluate and propose modern parking standards. During the discussion regarding Sepulveda Corridor on September 19, 2017, City Council directed staff to incorporate modern parking standards in the dialogue of the Sepulveda Planning Initiatives Project.

b. Status: In Progress

c. **Next City Council Action:** Accept a presentation on the Sepulveda Corridor Working Group and their recommendations, which will include parking standards, at the City Council meeting on June 19, 2018. Due to the unique issues related to parking requirements, staff recommended to the Planning Commission and will recommend to the City Council to bifurcate the suggested parking code revisions and amendments from the Sepulveda Planning Initiatives Project and present to the Parking and Public Improvements Commission and Planning Commission in Fall 2018, after the other Sepulveda Initiatives have been implemented.

d. **Action Items:**

- i. Provide presentation at City Council meeting on June 19, 2018.
- ii. Present suggested parking code revisions and amendments to the Parking and Public Improvements Commission and Planning Commission, meeting dates TBD.
- iii. Conduct a Public Hearing at Planning Commission and City Council, meeting dates TBD.
- iv. Implement recommendations approved by City Council.

e. **Target Due Date:** Fall 2018

6. Pedestrian Safety Improvements

a. **Background:** At their retreat on May 3, 2017, City Council discussed possible pedestrian safety improvements and directed staff to provide additional information on possible enhancements. On March 20, 2018 staff provided the City Council with a pedestrian crossing enhancement evaluation. The City Council directed staff to move forward with prioritizing pedestrian enhancements included in various planning documents such as the Downtown Specific Plan, Mobility Plan, Veterans Parkway Master Plan and other pedestrian plans, as appropriate, and include this evaluation in a future CIP discussion.

b. **Status:** In Progress

c. **Next City Council Action:** Review information presented by staff at a future meeting, date TBD.

d. **Action Items:**

- i. Present information to City Council for review and prioritization at future CIP discussion, meeting date TBD.
- ii. Work to implement City Council directives.

e. **Target Due Date:** TBD

7. Environmental Sustainability Work Plan for 2018-2020

a. **Background:** A new Environmental Manager was hired in August 2017. Staff explored environmental program trends from other leading communities and identified best practices; laid out upcoming potential environmental initiatives for City Council discussion and approval; and provided updates on ongoing environmental programs.

The work plan was presented to City Council on November 7, 2017 for discussion and January 31, 2018 for additional review. City Council approved the creation of a Sustainability Task Force to research and recommend environmental policies or programs. Their first meeting was on April 20, 2018, and they are scheduled to occur on a monthly basis.

b. Status: In Progress

Completed – Adopted plastic pollution policy update (straws, utensils, stirrers, polystyrene packing materials, and polystyrene egg cartons) on May 15, 2018.

c. Next City Council Action: Adopt plastic pollution policy update (straws, utensils, stirrers, polystyrene packing materials, and polystyrene egg cartons) at City Council meeting in May or June 2018.

d. Action Items:

- i. Convene regular meetings of Sustainability Task Force and conduct research and analysis on environmental issues to create recommendations for City Council.
- ii. Create a report about Manhattan Beach's environmental accomplishments.
- iii. Continue to research and identify long-term Sustainability Goals for the City.
- iv. Continue working in the six priority areas, which are:
 - Pollution Prevention Policy- June 2018 and November 2018
 - Climate Change & Energy – Climate Action Plan (2018-2019) & Clean Power Alliance (ongoing)
 - Climate Resiliency – Sea Level Rise Vulnerability Study (2018-2019) & Climate Adaptation Planning (2019-TBD)
 - Smart Water Management
 - Community Partnerships and Outreach
 - Emerging Environmental Issues

e. Target Due Date: Fiscal Year 2020 (Objectives within the plan may be completed before target due date).

8. Update on State Housing Laws

a. Background: In order to maintain accordance with updated California State Housing Laws, the City will need to reevaluate its current housing ordinances and make adjustments as necessary.

b. Status: In Progress

c. Next City Council Action: Review recommendations from staff in order to maintain accordance with State Housing Laws at their meeting in January 2019.

d. Action Items:

- i. Review City's Housing Element and other relevant documents or policies.
- ii. Present recommendations to City Council at a meeting in January 2019.

iii. Implement recommendations approved by City Council.

e. **Target Due Date:** 2019

9. Downtown Business Employees Overflow Parking

a. **Background:** At the City Council meeting on March 9, 2018, there was a request from a member of the public to discuss opportunities for employee overflow parking in the Downtown area. Staff will review possible options and current conditions and bring that information back to City Council.

b. **Status:** In Progress

c. **Next City Council Action:** Receive presentation on possible options and current conditions of overflow employee parking in the Downtown area and provide direction at City Council meeting on June 19, 2018.

d. **Action Items:**

i. Review current conditions of employee parking in Downtown area, best practices in other jurisdictions and estimated impact of recommendations.

ii. Present recommendations to City Council at their meeting on June 19, 2018, in conjunction with extending parking meter time.

iii. Implement recommendations approved by City Council.

e. **Target Due Date:** Summer 2018

10. Telecom Facilities with an Updated Ordinance

a. **Background:** In response to new federal telecom permit legislation, staff identified shortcomings in the existing Telecom ordinance and is working with Information Technology and the City Attorney's Office to research options to amend the City's current ordinance.

b. **Status:** In Progress

c. **Next City Council Action:** Review recommendations from staff at a future City Council meeting, meeting date TBD.

d. **Action Items:**

i. Present recommendations to the Parking and Public Improvements Commission and/or Planning Commission, date TBD.

ii. Present recommendations to the City Council, date TBD.

e. **Target Due Date:** Spring 2019

Public Works

1. Urban Forest Master Plan

- a. **Background:** City Council approved the Citywide Street Tree Inventory on February 4, 2014. Staff was directed to develop a Street Tree Master Plan, now called an Urban Forest Master Plan. Staff conducted community outreach regarding the development of the Plan and created a draft in 2015. City Council created and approved an Urban Forester position in Fiscal Year 2015-2016 and filled in early 2016.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review updated Draft Urban Forest Master Plan for adoption, as well as associated tree ordinances, meeting date TBD.
- d. **Action Items:**
 - i. Complete drafts of new tree ordinances to coincide with the Urban Forest Master Plan process.
 - ii. Present draft plan and recommendations to City Council for discussion and approval, meeting date TBD.
 - iii. Implement recommendations approved by City Council and communicate changes to community.
- e. **Target Due Date:** Fall 2018

2. Solid Waste Franchise Agreement Contract Process, Including Citywide Food Waste Recycling Program

- a. **Background:** At its meeting on July 18, 2017, City Council approved extending the terms of the Solid Waste Franchise Agreement with Waste Management for up to 24 months in order to complete a new procurement process. Staff conducted significant community outreach to assess satisfaction with current services and additional needs, which was provided to City Council in a memo on December 19, 2017 and also presented as a staff report attachment to City Council on February 6, 2018. City Council appointed two members to a Solid Waste Services Review Ad Hoc Subcommittee (Councilmembers Howorth and Montgomery). Lastly, staff provided additional information on the citywide food waste recycling program and best practices to City Council as a consent item on May 1, 2018.
- b. **Status:** In Progress – RFP has been released; proposals due in August.
- c. **Next City Council Action:** Discuss solid waste proposals in September - November 2018; meeting date for discussion tentatively set for November 20, 2018.
- d. **Action Items:**
 - i. Distribute RFP to solid waste haulers and accept proposals in August.
 - ii. Subcommittee and staff review proposals and create recommendation for City Council review.

City Council Work Plan

- iii. Present recommendations to City Council for selection, tentatively November 20, 2018.
 - iv. Negotiate agreement terms with selected finalist.
 - v. City Council awards selected vendor Solid Waste Agreement with the City, tentatively January 8, 2019.
 - vi. Prop 218 process begins – staff will mail notices and host community meetings, tentatively January/February 2019.
 - vii. City Council holds public hearing for Prop 218 process, tentatively March 19, 2019.
 - viii. New hauler prepares program changes and alerts community to new contract.
 - ix. New franchise agreement and solid waste services begin on July 1, 2019.
- e. **Target Due Date:** July 2019

3. Uniform Citywide Sign Program of Non-Regulatory City Signs

- a. **Background:** City Council approved consultant agreement to develop signage program on April 7, 2015. Presentations to City Council on this topic were made on October 20, 2015; February 2, 2016; and October 3, 2017. Draft Wayfinding Master Plan was developed. The draft was presented to the Cultural Arts Commission, Planning Commission, Parking and Public Improvements Commission, Downtown Business Professional Association and North End Business Improvement District for review and comments between April 16, 2018 and May 23, 2018. It was then presented to City Council on June 5, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review and approve revised Wayfinding Master Plan in October 2018.
- d. **Action Items:**
 - i. Provide presentation at City Council meeting in October 2018.
 - ii. Based on feedback or approval from City Council, make adjustments and implement plan.
 - iii. Incorporate plan's objectives into signage process throughout City.
 - iv. Identify and allocate funds as necessary.
- e. **Target Due Date:** December 2018

4. Pier and Roundhouse Improvements

- a. **Background:** Roundhouse improvements are supported by a third party (Skechers). Pier improvements are being done concurrently with the Roundhouse Aquarium improvements. City Council approved consultant selection and contract on February 21, 2017. Preliminary design of the Roundhouse Aquarium was presented to City Council on May 16, 2017, and approved on August 1, 2017. Work is expected to conclude in August 2018.
- b. **Status:** In Progress – Construction on Roundhouse Aquarium.

c. **Next City Council Action:** Accept as complete Pier and Roundhouse Aquarium and Pier improvements, meeting date TBD.

d. **Action Items:**

i. Continue to work with and support construction on Roundhouse Aquarium and update the community and City Council as necessary.

e. **Target Due Date:** August 2018 for completion of construction

5. Report on SCE's Inventory Analysis of Streetlights

a. **Background:** City Council approved purchasing SCE streetlights and converting to LED technology on February 21, 2017. SCE began its inventory analysis in April 2018 after receiving approval from the PUC in November 2017. SCE anticipates providing the inventory analysis to the City in June, 2018. The City will then validate SCE's findings and complete the sale transaction following approval of City Council.

b. **Status:** In Progress

c. **Next City Council Action:** Receive report from SCE regarding streetlight inventory analysis in Manhattan Beach on September 18, 2018, and authorize purchase.

d. **Action Items:**

i. SCE will conduct streetlight inventory analysis.

ii. Following analysis, staff will present SCE report to City Council with recommendations at their meeting on September 18, 2018.

e. **Target Due Date:** September 2018

6. Fire Station #2

a. **Background:** The first condition assessment on Fire Station #2 was performed in September 2016, and a supplemental study was completed on April 20, 2017. Staff presented a report on these assessments, as well as conceptual option plans at the City Council meeting on September 5, 2017. Direction was given to explore construction of a new fire station and return to City Council with cost estimates and financing options. City Council appropriated funds and awarded a contract for design services for the new fire station on May 1, 2018.

b. **Status:** In Progress

c. **Next City Council Action:** Provide feedback on proposed design of new fire station, meeting date TBD.

d. **Action Items:**

i. Begin preliminary design phase and conduct two community meetings for community engagement, dates TBD.

ii. Present updates to City Council for discussion and approval, meeting dates TBD.

iii. Secure environmental clearances and land use entitlements.

- iv. Finalize design and construction bid documents and present for City Council approval, meeting dates TBD.
- v. Identify funding source and allocate or pursue as necessary.
- vi. Present construction contracts for City Council approval, meeting date TBD.
- vii. Oversee construction of new Fire Station #2.

e. **Target Due Date:** Fall 2020

7. Sepulveda Bridge Widening Project

- a. **Background:** Staff provided an update on the project to City Council on February 16, 2016, where an amendment was approved to extend the term of the contract with consulting group that is providing assistance on document executions until December 31, 2018. The plans are at the 100% complete stage, and construction is pending final land acquisition. Conducted public hearing regarding Sepulveda Bridge and Resolution of Necessity on June 5, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Award of Construction Contract (TBD) once the legal issues related to Resolution of Necessity are resolved.
- d. **Action Items:**
 - i. Schedule community meeting to provide information to the public about the scope of the project, tentatively scheduled for fall 2018.
 - ii. Proceed with construction bidding pending final land acquisition (TBD).
- e. **Target Due Date:** December 31, 2021

8. Undergrounding Districts

- a. **Background:** Discussed current status of Utility Undergrounding with City Council on June 6, 2017, and received direction. Discussed future districts and policy on September 4, 2017. Approved proposed policies and procedures for District 4 on October 3, 2017. Approved refinancing of Underground Utility Assessment Districts 04-1, 04-3, 04-5, 05-2 and 05-6 and adopted a Debt Management and Disclosure Policy on January 16, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Conduct hearing for Proposition 218 process for Districts 12 and 14 following pricing provided by the utilities, meeting date TBD.
- d. **Action Items:**
 - i. Finalize utility construction plans for Utility Underground Assessment District 4, 12 and 14, including coordination with relevant utility agencies.
 - ii. Bid projects to receive final costs and conduct Prop 218 process.
 - iii. Move forward with future districts (e.g., 8 and 13) once updated bids have been received for current districts.
- e. **Target Due Date:** December 2018 for Districts 12 and 14; June 2019 for District 4

9. Streetscape Enhancements

- a. **Background:** At the meeting on March 9, 2018, City Council requested that streetscape enhancements be made to improve the aesthetics of the pedestrian areas in Manhattan Beach, including Downtown and North MB. Staff will execute a pilot demo of improvements adjacent to City Hall that will include removing/replacing tiles on sidewalks and minor upgrades in summer 2018. Staff will present the results of the pilot demo to City Council at their meeting on September 18, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review pilot demo of streetscape enhancements and provide direction at City Council meeting on September 18, 2018.
- d. **Action Items:**
 - i. Execute upgrades as part of the pilot demo, which could include tile renovations or replacements on sidewalks.
 - ii. Engage stakeholders in Downtown and North Manhattan Beach regarding possible future streetscape enhancements.
 - iii. Present results of pilot demo to City Council at their meeting on September 18, 2018 for feedback and direction.
- e. **Target Due Date:** September 18, 2018

10. Parking Management (Parking Meter Solution)

- a. **Background:** The City's parking meters are nearing the end of their useful life, primarily due to the phasing out of 2G communications. City Council directed staff to investigate various meter technologies. This includes conducting a pilot project of approximately 57 meters in the downtown area to investigate customer usage, vacancy, turnover rates, etc. Those findings will be gathered for up to 6 months (through the busy summer and fall period when Manhattan Beach has the most events in the downtown area). Staff is also working toward adjusting the meter time to allow for 3 hours after 6pm in the downtown area.
- b. **Status:** In Progress
- c. **Next City Council Action:** Provide feedback on pilot project, meeting date TBD in early 2019.
- d. **Action Items:**
 - i. Conduct pilot program through December 2018.
 - ii. Revise signage downtown to allow for 3-hour parking after 6:00 PM.
 - iii. Consider roll out of new meters in 2019 with enhanced capabilities for usage and revenue generation.
- e. **Target Due Date:** TBD in 2019

11. Infrastructural Aesthetics/Design Initiative for Public Projects

City Council Work Plan

- a. **Background:** At its meeting on March 9, 2018, City Council directed staff to incorporate infrastructural aesthetics and design initiative into public projects whenever feasible.
- b. **Status:** Ongoing
- c. **Next City Council Action:** Not applicable
- d. **Action Items:**
 - i. Ensure that aesthetic design elements are included into future infrastructure projects whenever feasible.
- e. **Target Due Date:** Ongoing

12. Pedestrian Security Improvements

- a. **Background:** Discussed possible Pedestrian Safety and Security Improvements at City Council Retreat on May 3, 2017, specifically involving street security measures. In light of recent violent events enacted in public streetscapes, City Council expressed interest in exploring options to provide enhanced security measures for the public in Downtown, including the possibility of installing additional safety bollards at the intersection of Manhattan Beach Boulevard and Manhattan Avenue. City Council reviewed proposed security measures for the Downtown area and provided direction on June 5, 2018.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review specific options of available security measures for locations identified by City Council on June 5, 2018k anticipated update to City Council in December 2018.
- d. **Action Items:**
 - i. In coordination with the Police Department and with the support of industry experts, evaluate various options of available security measures including financial information.
 - ii. Present findings and recommendations to City Council in December 2018.

Target Due Date: December, 2018

Information Technology

1. Update the Information Systems Master Plan (ISMP)

- a. **Background:** The ISMP was issued in 2013 and included projects through Fiscal Year 2017. Staff will review and update that plan to prioritize and align technology projects across departments with City Council priorities.
- b. **Status:** In Progress
- c. **Next City Council Action:** Receive a presentation on the updated ISMP, meeting date TBD.
- d. **Action Items:**
 - i. Review current ISMP items and update accordingly.
 - ii. Incorporate City Council priorities and current technology projects into updated ISMP.
 - iii. Provide update to City Council in September 2018.
- e. **Target Due Date:** September 2018

2. Enterprise Resource Planning (ERP) System

- a. **Background:** An RFP was issued in early 2016 for an ERP system consultant that would guide the City through the evaluation of the current Human Resources and Finance needs and assist with the selection of a replacement solution. City Council awarded a contract to NexLevel IT Consulting. In fall 2016, the consultant and IT met with all involved departments to assess needs and expectations, which were used to develop an RFP for ERP services.
- b. **Status:** In Progress
- c. **Next City Council Action:** Consider awarding contract for ERP System based on staff's assessment of needs and resulting recommendation at the meeting on July 17, 2018.
- d. **Action Items:**
 - i. Present recommended vendor to City Council at their meeting on June 5, 2018.
 - ii. Negotiate acceptable terms with selected vendor.
 - iii. Launch selected ERP system throughout the organization.
- e. **Target Due Date:** Winter 2021 (Assuming a 3-year implementation process after City Council approves agreement.)

3. Work Order Management

- a. **Background:** Based on feedback from users, staff would like to research upgrading or replacing the City's Work Order Management solution. If this change occurs, staff will work to maintain alignment with proposed ERP solution.
- b. **Status:** On Hold – Pending selection of ERP solution.
- c. **Next City Council Action:** None

d. Action Items:

- i. Present recommendation to City Council at meeting on July 17, 2018.

e. Target Due Date: TBD after selection of ERP solution.

4. Fiber Master Plan

a. Background: Staff gave a presentation on the benefits of a Municipal Broadband Network to City Council on April 19, 2016. As a result of this discussion, staff issued an RFP to develop a Fiber Master Plan and assess the potential of a municipal broadband network in Manhattan Beach. On June 6, 2017, City Council awarded an agreement to Magellan Advisors to develop the City's Fiber Master Plan. Community outreach was conducted, as well as assessments with City staff, to create the final plan.

b. Status: In Progress

c. Next City Council Action: Hold a Fiber Study Session to discuss the findings of the research, as well as the Draft Fiber Master Plan, meeting date TBD in summer 2018.

d. Action Items:

- i. Schedule a Fiber Study Session for City Council discussion and feedback.

e. Target Due Date: Summer 2018 for Fiber Study Session; additional due dates to follow.

5. Update on Portable Recording Equipment

a. Background: At the City Council meeting on March 9, 2018, an update was requested on the City's portable recording equipment and its functionality.

b. Status: In Progress

c. Next City Council Action: Accept Informational Memo on the City's portable recording equipment, date of issue end of July.

d. Action Items:

- i. Evaluate portable recording equipment and provide informational memo.

e. Target Due Date: TBD

6. Update on City Website and New City URL (.gov)

a. Background: City Council directed staff to explore converting the City's .info domain to a .gov domain. Staff is currently researching what domain names are available and associated cost to create a new .gov domain for Manhattan Beach. Staff is also researching opportunities to emphasize a user-friendly interface for the City website.

b. Status: In Progress

c. Next City Council Action: Review options provided by staff and provide direction, meeting date TBD.

d. Action Items:

- i. Research possible domain names and associated costs for switching website domains.

- ii. Research opportunities to update the City website.
- iii. Present findings to City Council for further direction, meeting date TBD.

e. **Target Due Date:** October 2018

7. Automated Permitting Software Solution

- a. **Background:** Staff identified a need for electronic permitting services and presented a status update to City Council on November 1, 2016, and an RFP was approved. After reviewing the responses, staff conducted site visits and reviewed proposed software modules, project cost and scope of work.
- b. **Status:** In Progress
- c. **Next City Council Action:** Review and discuss staff recommended vendor to provide automated permitting software at their meeting on July 17, 2018.
- d. **Action Items:**
 - i. Evaluate needs of the City and department and the proposals received.
 - ii. Present recommendation to City Council for review.
 - iii. If approved by City Council, implement solution.
- e. **Target Due Date:** Fall 2019

Completed Items

1. Sustainable Energy Options Study Session (Community Development)

- a. **Background:** On March 29, 2014, a community forum met to discuss options to bring Manhattan Beach to 100% renewable energy by 2025 ("MB2025") as part of Earth Hour initiative; Sonoma County Community Choice Aggregation (CCA) program was presented. Presented Energy Audit recommendations to City Council for consideration at January 17, 2017 meeting. City Council approved joining the LA County CCA, now called Clean Power Alliance of Southern California in December 2017.

2. Feasibility Study of Community Choice Aggregation (Community Development)

- a. **Background:** City Council adopted Resolution No. 14-0067 in Oct 2014 to explore the feasibility of Community Choice Aggregation (CCA) and participate in a CCA steering committee. LA County completed an initial "Business Plan" to assess feasibility for County operation of a CCA (Sept 2016); County finalized its CCA JPA framework in April 2017 and seek membership in May/June 2017. South Bay Clean Power is preparing documentation to form a CCA for interested cities in the South Bay as an alternative to a County CCA. City Council approved joining the LA County CCA, now called Clean Power Alliance of Southern California in December 2017 and will continue to review the benefits of membership in this group.

3. Mobility Plan Adoption and Implementation

- a. **Background:** On November 19, 2015, a Joint City Council/Planning Commission meeting was held to review the draft Mobility Plan and provide feedback. Based on the input received, the draft Mobility Plan was put on hold until further direction. On August 1, 2017, the City Council approved an agreement to complete the Mobility Plan Update as well as host a community workshop to provide background information about the plan and the process thus far. That workshop was held on October 5, 2017. City Council conducted a public hearing for consideration of the Final Draft General Plan Mobility Plan Update on May 15, 2018, and approved the update.

4. Cable Television – Government Channel Enhancements (Information Technology)

- a. **Background:** Staff worked with Granicus to upgrade City's live web stream to high definition by procuring and implementing high definition hardware in April 2018.

5. Improvements to the Comfort Station at the Base of the Pier (Public Works)

- a. **Background:** Comfort Station Improvements were completed in 2016 and work to re-install mosaic tile art was completed in early 2017.

Appendix

Major Revenue Sources

The basis for estimates of the following major General Fund revenue sources are described below. These revenue sources comprise over 75% percent of the City’s General Fund revenues. Other revenues not detailed here are estimated based on local economic trends and historical data.

Property Tax

Property Tax remains the largest component of General Fund revenues (42% of total), and is expected to increase by 4.5% from FY 2018. With a continued strong housing market, and residential construction and remodeling adding to the assessed valuation of properties, a measured continuation of steady growth is expected to continue. Property tax is estimated based on historical data, local economic trends, and independent third party analysis.

Sales & Use Tax

The City’s second largest General Fund revenue source (12% of total revenue) is trending on par with the FY 2018. Staff is projecting that sales tax in 2019 will exceed the current year by \$150,000 (1.7%). Industry groups performing positively within the City include Restaurants & Hotels and Food & Drugs. The Manhattan Village Mall revitalization project currently underway is expected to bolster the General Consumer Goods category.

Parking Citations

Parking Citation fees were increased in FY 2016 in an effort to offset losses in sales tax revenues. Most citations now incur the new fine of \$53, which is aligned with neighboring cities. A portion of parking citation revenues (\$4 of all citations except expired meter cites) is dedicated to the Capital Improvement Fund (not included in the figures here). Also not accounted for in the City’s revenues, \$12.50 of each citation goes to Los Angeles County.

Transient Occupancy Tax

This revenue is expected to generate approximately \$4.5 million in revenue in FY 2019, or \$250,000 (5.9%) over the current year estimate, which was negatively impacted when a significant TOT producer underwent a remodel in FY 2018. The loss of revenue due to the remodel and minimal growth at other hotels in FY 2018 resulted in the year-end estimate being under budget by 6.1% or \$276,500. With the contemporary accommodations now completed, TOT revenues are expected to bounce back in FY 2019 and see modest growth in FY 2020. TOT revenue also affects the CIP Fund since 15% of the total TOT is dedicated to that fund.

Interest Earnings

The City invests a portion of its reserved funds as authorized by the Investment Policy. These high-grade investments include Federal agency securities, medium-term notes, and U.S. Treasuries. Recent moves by the Fed have increased rates, resulting in the City’s maturing investments to be reinvested at slightly higher rates. The portfolio was recently yielding 1.901% in June 2018, up from 1.348% one year prior. Additional interest rate increases are predicted in the near future.

Business License Tax

The City issues approximately 5,000 business licenses annually, and revenue from this tax is based primarily on the type of business and gross receipts reported. This tax has been resilient in economic downturns and has remained consistent over the past few years. Revenue from Business Licenses is expected to grow 3.0% based on prior year trends. In FY 2018, Business License Tax outperformed budget by 2.9% (\$104,194).

Building Permits & Plan Check Fees

Residential and Commercial building activity remains strong within the City. Building Permit and Plan Check fees are currently at all-time highs due to several large commercial projects, including the Manhattan Village Mall remodel. At the current fee structure, fees from Building Permits and Plan Check Services are expected to increase by \$90,000 (2.5%) over year-end estimates in FY 2019. A new cost allocation and fee study will be conducted in FY 2019.

Ambulance and Police False Alarm Fees

Since FY 2010-2011, ambulance service fees are matched to those of Los Angeles County, and the number of free police false alarms per 12-month period was reduced from two to one resulting in a jump in those fees that year. Since then, these fees have leveled off and are expected to remain steady in future years. Ambulance fees are based on the total number of Advanced Life Support (ALS) and Basic Life Support (BLS) transports.

FY 2019 SCHEDULE OF FULL-TIME POSITIONS

Department	FY 2016	FY 2017	FY 2018	FY 2019	Change
Management Services	17.0	17.0	17.0	15.0	(2.0)

Total	292.0	294.0	302.0	306.0	4.0

Discussion of Changes in Full-Time Positions:

The Fiscal Year 2019 Budget includes 306 authorized full-time positions. The following staffing changes are introduced this budget cycle:

Management Services: Eliminated Assistant City Manager and Economic Vitality Manager positions; Upgraded Management Analyst to Senior Management Analyst.

Finance: Eliminated part-time Financial Analyst hours for the addition of a full-time Management Analyst; Upgraded Financial Analyst to Senior Financial Analyst.

Human Resources: No changes.

Parks and Recreation: Eliminated one Recreation Services Manager; Upgraded one Recreation Manager to Senior Recreation Manager; Upgraded two Recreation Supervisor positions to Recreation Program Supervisor; Added one Recreation Coordinator.

Police: Added Administrative Clerk I/II; Upgraded two Records Technicians to Lead Records Technicians.

Fire: No changes.

Community Development: Addition of Traffic Engineering Technician I/II/III; Eliminated part-time Administrative Clerk hours for the addition of a full-time Administrative Clerk I/II.

Public Works: Re-instatement of Public Works Inspector and Electrician positions; Downgrade one Maintenance Worker IV to Maintenance Worker III; Upgrade Engineering Technician I/II classification to I/II/III.

Information Technology: Eliminated IT Specialist for the addition of a Senior Management Analyst; Eliminated Network Administrator for the addition of an IT Analyst.

Discussion of Changes in Full-Time Positions:

The Fiscal Year 2020 Budget includes 306 authorized full-time positions. The following staffing changes are introduced this budget cycle:

Management Services: No changes.

Finance: Upgrade Account Services Representatives I to I/II flex class.

Human Resources: No changes.

Parks and Recreation: No changes.

Police: No changes.

Fire: No changes.

Community Development: No changes.

Public Works: No changes.

Information Technology: No changes.

SCHEDULE OF ADMINISTRATIVE SERVICE CHARGES

In Fiscal Year 2014-2015, the City retained the services of Matrix Consulting Group, a firm that specializes in municipal cost allocations. Based on their analysis, the following funds receive support from the General Fund in the form of salary and benefits of support staff, utilities, depreciation on buildings, and other indirect costs. A new study will be performed in FY 2019.

Fund	General Fund Support Cost	
	FY 2019	FY 2020
Street Lighting & Landscape Fund	\$51,139	\$51,139
AB 2766 Fund	2,100	2,100
Water Fund	1,643,157	1,643,157
Stormwater Fund	161,191	161,191
Wastewater Fund	430,226	430,226
Refuse Fund	191,142	191,142
Parking Fund	392,161	392,161
County Parking Lot Fund	34,551	34,551
State Pier & Parking Lot Fund	90,863	90,863
Total	\$2,996,530	\$2,996,530

Administrative service charges do not apply to Metropolitan Transportation Authority funds, funds supported by subventions, and internal service funds.

SCHEDULE OF DEBT SERVICE & LEASE PAYMENTS

Marine Sports Fields Lease

In Fiscal Year 2001, the City entered into a Sale/Leaseback transaction with the Beach Cities Health District (BCHD). This transaction was a result of the City purchasing from TRW (now Northrup Grumman) seven acres of property located at the corner of Marine and Aviation within the City of Manhattan Beach. The City subsequently sold the property to BCHD with an exclusive agreement to lease back six of the seven acres. The lease authorized BCHD to spend funds up to \$2.5 million to construct recreational facilities on the property. These improvements were completed in Fiscal Year 2000-2001. In Fiscal Year 2002, the City issued variable rate Certificates of Participation to effect a full internal financing of the Sports Fields. The proceeds were used to pay in full all principal and interest obligations under the aforementioned lease with BCHD.

In Fiscal Year 2017, the City refunded the variable rate Certificates of Participation and issued fixed rate Certificates of Participation to secure lower interest rate payments through the maturity date of 2033. Debt service payments can be found in the Parks & Recreation administration budget.

Metlox Refunding Certificates of Participation

In January 2003 the City issued Certificates of Participation to Finance public improvements at the Metlox site. These funds were used to construct a two-level underground parking garage as well as a 45,000 square foot town square open space to complement the retail developments. The amount of the bond was \$13,350,000. In July 2012, with the call date of January 2013 approaching, the City determined to take advantage of a substantially improved interest rate environment by issuing \$10,210,000 of Certificates of Participation to refund the 2003 Metlox Public Improvements Certificates of Participation. The refunding took place in January 2013.

Water/Wastewater Refunding Certificates of Participation

In Fiscal Year 2013, the City was able to take advantage of the current interest rate market and refund existing debt that carried interest rates that were substantially higher than current rates. The existing debt, issued in 1996 was used to finance 1996 and 1997 water and wastewater projects. Since these bonds could be called without penalty, the City issued \$2,765,000 of Certificate of Participation refunding bonds in July 2012 (concurrent with the Metlox refunding bonds) and the 1996 issue was refunded in August 2012.

Police/Fire Facility Refunding Certificates of Participation

In February 2013, the City issued \$10,510,000 of Certificates of Participation to advance refund the 2004 Police Fire Facility Certificates of Participation. This refunding mirrors that of the Metlox and Water/Wastewater refunding in that the City took advantage of the reduced interest rate environment. This advance refunding will reduce debt service payments over 19 years by \$3,608,790. The 2004 Certificates of Participation were redeemed in January 2014. The original certificates were issued to complete financing for the January 2007 construction of the Police/Fire/Civic Center.

Underground Utility Assessment Bonds

In fiscal years 2005 and 2006 the City issued 1915 Act Underground Utility Assessment Bonds that financed the undergrounding of overhead appurtenances in five districts within the City. The two series were refinanced in FY 2018 to take advantage of lower interest rates. These bonds are not debt of the City, which acts a conduit between the property owners and the bond holders. Assessments are placed on the property tax bill in order to fund annual debt service.

Legal Debt Limit

The City is subject to a legal general bonded debt limit equal to 3.75 percent of the total assessed value of property in Manhattan Beach. The City's total net taxable assessed property value is approximately \$16.4 billion, resulting in a legal general bonded debt limit of \$615,000,000. The City has no general bonded debt subject to the debt limit.

FY 2019 SCHEDULE OF DEBT SERVICE & LEASE PAYMENTS

Description	Fund	FY 2019 Principal	FY 2019 Interest	FY 2019 Lease	FY 2019 Total	Principal Remaining	Interest Remaining	Total Remaining

RESOLUTION NO. 18-0084

A RESOLUTION OF THE MANHATTAN BEACH CITY COUNCIL ADOPTING THE FISCAL YEAR 2018-2019 OPERATING BUDGET; APPROVING THE 2019-2020 OPERATING BUDGET; AND AUTHORIZING THE CITY MANAGER TO TAKE CERTAIN PERSONNEL-RELATED ACTIONS

THE MANHATTAN BEACH CITY COUNCIL HEREBY RESOLVES AS FOLLOWS:

SECTION 1. The City Council makes the following findings:

A. The Manhattan Beach Municipal Code provides that the City Manager shall cause to be prepared and submitted to the City Council an annual budget;

B. The budget covering the fiscal year 2018-2019 has been reviewed by the City Council with regard to the approval of estimated revenues and expenditures; and

C. The City Council has made such necessary revisions to the budget as provided for in Exhibit "A" attached hereto.

SECTION 2. The Fiscal Year 2018-2019 Operating Budget as presented to the City Council at the June 19, 2018 City Council meeting, and as amended by the revisions set forth in the attached Exhibit A, is hereby adopted as the official municipal budget for the City of Manhattan Beach ("Fiscal Year 2018-2019 Operating Budget").

SECTION 3. The Fiscal Year 2019-2020 Operating Budget as presented to the City Council at the June 19, 2018 City Council meeting, and as amended by the revisions set forth in the attached Exhibit A, is hereby approved, subject to modification prior to the commencement of Fiscal Year 2019-2020.

SECTION 4. The City Clerk is directed to maintain three copies of the Fiscal Year 2018-2019 Operating Budget on file at all times for inspection by the public.

SECTION 5. Beginning on July 1, 2018, the City Manager is hereby authorized to proceed with the implementation of the programs as set forth in the approved and adopted budget, and to transfer any sum of appropriated funds between departments and programs provided they do not cross funds.

SECTION 6. The City Manager is hereby authorized to change the salary grade of the Police Records Manager classification from MC2 to MC4 and the Senior Deputy City Clerk classification from MC1 to MC2 in Fiscal Year 2018-2019

upon completion of appropriate compensation analysis by Human Resources before any change is effectuated.

SECTION 7. The City Manager is hereby authorized to approve each new classification included in the Fiscal Year 2018-2019 Operating Budget and approve the salary schedule for each of these new classifications subject to a compensation analysis completed by Human Resources:

- Deputy City Clerk
- Engineering Technician I/II/III
- Information Technology Analyst
- Lead Records Technician/Matron
- Senior Financial Analyst
- Senior Recreation Manager.

SECTION 8. Unexpended appropriations from the Fiscal Year 2018-2019 Operating Budget may be carried forward to the next fiscal year provided the funds have been previously encumbered for a specific purpose, or apply to authorized, but uncompleted projects in the Capital Improvement Plan.

SECTION 9. This Resolution shall take effect immediately upon adoption.

SECTION 10. The City Clerk shall certify to the passage and adoption of this Resolution.

ADOPTED on June 19, 2018.

AYES: Lesser, Montgomery, Hersman, Napolitano and Mayor Howorth.
NOES: None.
ABSENT: None.
ABSTAIN: None.

RESOLUTION NO. 18-0085

A RESOLUTION OF THE MANHATTAN BEACH CITY
COUNCIL ESTABLISHING THE APPROPRIATIONS LIMIT
FOR FISCAL YEAR 2018-2019

THE MANHATTAN BEACH CITY COUNCIL HEREBY RESOLVES AS
FOLLOWS:

SECTION 1. The City Council makes the following findings:

A. Government code Section 7910 requires the City Council to establish its appropriations limit pursuant to Article XIII B of the State Constitution; and

B. The appropriations limit to be applied to the "proceeds of taxes" as defined by Section 7910 of the Government Code for Fiscal Year 2018-2019 has been calculated to be \$79,412,267.

SECTION 2. The City Council elects to use as the annual adjustment factors in calculating the appropriations limit, the percentage change in California per capita income and the annual population for the City of Manhattan Beach.

SECTION 3. The City Council hereby establishes the \$79,412,267.

SECTION 4. This Resolution shall take effect immediately.

SECTION 5. The City Clerk shall certify to the adoption of this Resolution.

ADOPTED on June 19, 2018.

AYES: Lesser, Montgomery, Hersman, Napolitano and Mayor Howorth.
NOES: None.
ABSENT: None.
ABSTAIN: None.

APPROPRIATIONS LIMIT CALCULATION

Article XIII B of the California State Constitution, commonly referred to as the Gann Initiative or Gann Appropriations Limit, was adopted by California voters in 1980 and placed limits on the amount of proceeds of taxes that State and local agencies can appropriate and spend each year.

The limit is different for every agency and changes each year. The annual limit is based on the amount of tax proceeds that were authorized to be spent in fiscal year 1978-79, modified for changes in inflation and population. Inflationary adjustments are based on increases in the California per capita income or the increase in non-residential assessed valuation due to new construction. An adjustment is also made based on changes in Manhattan Beach's population or County population.

For fiscal year 2018-2019, the estimated tax proceeds appropriated by the Manhattan Beach City Council are under the Limit. The adjusted Appropriation Limit for fiscal year 2018-2019 is \$79,412,267. This amount is the maximum amount of tax proceeds the City is able to appropriate and spend in fiscal year 2018-2019. The appropriations subject to the Limit are \$51,452,791, leaving the City with an appropriations capacity of \$27,959,476.

Section 7910 of the State Government Code requires a governing body to annually adopt, by resolution, an Appropriations Limit for the upcoming fiscal year.

SPENDING LIMIT CALCULATION - FISCAL YEAR 2018-2019

Appropriations subject to limit

Fiscal year 2018-2019 Revenues (all funds)	\$125,285,419
Less: Non tax proceeds	73,832,628
Plus: User fees in excess of costs	-
Total appropriations subject to limit	<u>\$51,452,791</u>

Appropriation limit

Fiscal year 2017-2018 adjusted appropriation limit	\$76,212,327
--	--------------

A. Population adjustment (Based on change in City/County population)	1.005100
B. Change in per capita income	1.036700

Total Annual Adjustment = (A multiplied by B)	<u>1.0419872</u>
Increase in appropriation limit	\$3,199,940
Fiscal year 2018-2019 appropriation limit	<u>\$79,412,267</u>

Appropriations subject to limit	<u>\$51,452,791</u>
Remaining appropriation capacity	\$27,959,476

Available capacity as a percent of appropriation limit	35.21%

City of Manhattan Beach

Financial Policies

Revised/Adopted by City Council June 21, 2011

Statement of Purpose

The financial integrity of our City government is of utmost importance. To discuss, write, and adopt a set of financial policies is a key element to maintaining this integrity. Our City has evolved with a variety of financial policies that can be found in many different sources, including: City Council Resolutions; Budget documents; and Capital Improvement Programs. The set of policies within this document, adopted contemporaneously each year with our budget, serves as a central reference point of the most important of our policies, which are critical to the continued financial health of our local government. .

Written, adopted financial policies have many benefits, such as assisting the elected officials and staff in the financial management of the City, saving time and energy when discussing financial matters, engendering public confidence, and providing continuity over time as elected officials and staff members change. While these policies will be amended periodically, they will provide the basic foundation and framework for many of the issues and decisions facing the City. They will promote sound financial management and assist in the City's stability, efficiency and effectiveness.

The following policies are divided into eight (8) general categories for ease of reference. These categories include: **1) General Policies; 2) Accounting, Auditing, and Financial Reporting Policies; 3) General Fund Balance Policies; 4) Debt Policies; 5) Revenue Policies; 6) Capital Improvement Policies; 7) Capitalization & Depreciation Policies; 8) Cash Management Investment Policies; and 9) Operating Budget Policies.** Except as otherwise noted, all policies included in this document are currently adhered to.

GENERAL POLICIES

The City will:

- ❖ manage its financial assets in a sound and prudent manner;
- ❖ maintain and further develop programs to ensure its long term ability to pay all costs necessary to provide the level and quality of service required by its citizens;
- ❖ establish and maintain investment policies that are in accordance with State laws;

ACCOUNTING, AUDITING, AND FINANCIAL REPORTING POLICIES

FINANCIAL INFORMATION

It is the policy of the City of Manhattan Beach to provide all financial information in a thorough, timely fashion, and in a format that is easy for Council, citizens, and City employees to understand and utilize.

ACCOUNTING STANDARDS

The City's accounting of financial systems shall be maintained in accordance with Generally Accepted Accounting Principles (GAAP), standards of the Governmental Accounting Standards Board (GASB), and the Government Finance Officers Association (GFOA).

ANNUAL AUDIT

An independent public accounting firm will perform an annual audit and its opinions will be included in the comprehensive annual financial report.

The independent audit firm will be selected through a competitive process at least once every five years. The contract will be for an initial period of three years with two additional one-year options at the City Council's discretion. The Finance Subcommittee, City Manager and Finance Director will review the qualifications of prospective firms and make a recommendation to the City Council. The audit contract, and any extensions, will be awarded by the City Council.

An Annual Financial Report shall be prepared within six months of the close of the previous fiscal year. It will be reviewed with the Finance Subcommittee, and presented to the City Council and community at a public meeting no later than February 1st of the following year.

It is the City's goal to maintain accounting records, processes and procedures in such a manner as to receive an unqualified audit opinion and to maintain a Certificate of Achievement for Excellence in Financial Reporting from the GFOA.

FUND BALANCE POLICIES

The City utilizes a variety of accounting funds for recording revenues and expenditures. At each fiscal year-end, budgeted/appropriated expenditure authority lapses with the exception of capital project spending, and operating expenses that have been incurred but not paid (encumbered). The remaining dollars left in each fund that are Unassigned constitute available funds of the City. The Unassigned fund balance shall include the City's Financial Policy components. The Council authorizes the City Manager or Director of Finance to make assignment of funds. Where Council has not established a formal policy the Governmental Accounting Standards Board Statement 54 will be operative.

GENERAL FUND

The General Fund Unassigned Fund Balance will be maintained in an amount equal to at least 20 percent of the annual General Fund expenditure budget. These funds are designed to be used in the event of significant financial emergency. Council may, at its discretion, set aside additional funds above the 20% minimum. Such additional amounts may be allocated for specific purposes, such as capital projects or for known significant future cost items. Any residual balance shall be available for general operational working capital uses.

CITY COUNCIL CONTINGENCY ACCOUNT

A contingency account in an amount not to exceed one-half of one percent (0.5 percent) of the City's General Fund expenditure budget will be maintained annually in the City Council's budget. This account will be available for unanticipated, unbudgeted expenditures and will require City Council approval to spend. The purpose of this account is to provide some flexibility for unforeseen events without the necessity to appropriate additional funds from the City's Unassigned Fund Balance.

ENTERPRISE FUNDS

The City's Enterprise Funds will maintain reserves equal to four months of operating expenses.

FLEET MANAGEMENT FUND

Through the use of the Fleet Management Fund, the City will annually budget sufficient funds to provide for the orderly maintenance, repair and replacement of the City's vehicles. This fund is supported by charges to user departments which are adjusted annually based on the department's proportionate share of estimated fleet management expenses. Sufficient working capital will be maintained in the fund to provide for the scheduled replacement of fleet vehicles at the end of their useful lives.

INFORMATION SYSTEMS FUND

Through the use of the Information Systems Fund, the City will annually budget sufficient funds to provide for the orderly maintenance, repair and replacement of the City's technology infrastructure. This fund is supported by charges to user departments which are adjusted annually based on departments' proportionate share of estimated expenses. Such share may be determined based upon the departments' number of devices supported by the IS Division. Sufficient reserves will be maintained in the fund to provide for the scheduled replacement of equipment at the end of their useful lives.

RISK MANAGEMENT FUND

The City maintains a self-insurance fund for the purpose of property, liability, and workers' compensation expenses. This fund pays insurance premiums, benefit and settlement payments, and administrative and operating expenses. The Risk Management Fund is supported by charges to other City funds for the services it provides. These annual charges for service shall reflect historical experience and shall be established to approximately equal the annual expenses of the fund. Separate reserves shall be maintained for current and long term general liability and workers' compensation liability at a level which will adequately fund the City's potential loss exposure in each area as determined by historical loss data. The Risk Management Fund shall maintain an annual working capital balance of \$2 million.

TRUST AND AGENCY FUNDS

The City maintains funds on a trustee basis for a number of purposes, including City-sponsored post employment benefits programs and trust accounts for such purposes as utility underground projects. These funds shall be segregated from the City's general funds.

The estimated cost of City-sponsored retirement programs will be actuarially valued biennially. Ongoing annual normal costs for such programs will be budgeted in the department receiving the benefit. Unfunded liabilities will be disclosed and accounted for in accordance with Generally Accepted Accounting Principles (GAAP).

DEBT POLICIES

ISSUANCE OF DEBT

The City will not use long-term debt to pay for current operations.

The use of bonds or certificates of participation will only be considered for significant capital and infrastructure improvements.

The term of the debt shall never extend beyond the useful life of the improvements to be financed.

CREDIT RATING

It is the City's goal to maintain our AAA/Aaa credit rating from all three major rating agencies. The factors that contribute to our high rating include the City's strong financial management, low debt levels, budgetary and fiscal controls, and accountability. To support this policy, the City will continue to maintain its position of full financial disclosure and proactive fiscal planning.

LEASE-PURCHASE

The City will lease-purchase equipment if necessary because of funding availability, or if lease rates are more favorable than the rate attained from investment return. Equipment may also be leased if the lease terms compare favorably when reviewing the total life cycle cost of the equipment. In no case shall the City lease-purchase equipment whose useful life is not greater than the term of the lease.

REVENUE POLICIES

GENERAL FUND REVENUE

The City will strive to develop and maintain a diversified and reliable revenue stream so as to avoid becoming overly dependent on any single type of revenue. Efforts will be directed to optimize existing revenue sources while periodically reviewing potential new revenue sources.

Budgeted revenues will be estimated conservatively using accepted standards and estimates provided by the state, other governmental agencies or reliable economic forecasters when available.

If revenues from “one-time” or limited duration sources are used to balance the City’s annual operating budget, it is to be fully disclosed and explained at the time the budget is presented. It is the City’s goal to not rely on these types of revenues to balance the operating budget.

The City will pursue revenue collection and auditing to assure that moneys due the City are accurately received in a timely manner.

The City will seek reimbursement for State and Federal mandated costs whenever possible.

GRANTS AND GIFTS

The City shall actively pursue federal, state and other grant opportunities when deemed appropriate. Before accepting any grant the City shall thoroughly consider the implications in terms of ongoing obligations that will be required in connection with acceptance of said grant.

ENTERPRISE FUND CHARGES

The City will set user fees for each enterprise fund at a rate that fully covers direct and indirect costs of providing the service, as well as planned capital improvements that may be necessary from time to time.

PARKS AND RECREATION FEES

All Parks and Recreation department expenses and revenues will flow through the General Fund (except those transactions related to Proposition A). The goal of the Parks and Recreation Department shall be to generate General Fund revenue equal to at least 35 percent of the total General Fund expenditures of the department.

Recreation fees for such activities as classes and room rentals shall be established and reviewed periodically. The purpose of these fees is to recover the direct cost of the program, and to generate additional revenues to support the overall operation of the Parks and Recreation department and programs. As appropriate within the marketing of the recreation programs, higher non-resident fees are charged, as well as priority registration procedures for Manhattan Beach residents.

USER SERVICE FEES

The City may impose user fees wherever appropriate. Such fees will recover the cost of providing the service, including all direct and indirect costs, administrative overhead, depreciation, etc. By policy, Council may direct certain fees to be lowered for particular purposes. Waivers of user fees will be presented for Council approval as appropriate. Fees will be reviewed periodically, but not less than every five years, to ensure that full cost recovery levels are identified.

Fees such as space rental, parking meter rates, etc. are based upon market conditions and are not subject to the limitations of cost recovery. These fees may be adjusted periodically by the City Council.

CAPITAL IMPROVEMENT POLICIES

DEDICATED CIP FUNDING SOURCES

Most of the City's infrastructure has a designated revenue source to pay for its upgrade or replacement as appropriate. For example, water/wastewater rates fund utility infrastructure needs; gas tax revenues fund street needs; and storm drainage needs are paid for with related fees and assessments. However, our public buildings and our park system are the primary beneficiaries of the City's Capital Improvement Fund (CIP). Specific revenue sources have been designated to provide permanent funding in support of general operational infrastructure. In particular, the City has dedicated:

- ❖ 15% of annual hotel transient occupancy tax (1.5% of the 10% tax);
- ❖ Fifty cents of the per hour charge for all on-street city parking meter collections;
- ❖ \$4 of each parking citation (with the exception of expired meter cites).

Transfers into the CIP Fund will be processed by the Finance Department on a monthly basis and recorded as such in the annual adopted budget.

FIVE YEAR CAPITAL IMPROVEMENT PROGRAM (CIP)

The City shall annually prepare a capital improvement spending program projecting capital needs for a five year period. This CIP shall address all of the City's funds.

The first year of the five year CIP will be consistent with, and adopted as a component of, the annual operating budget.

In the development of the Capital Improvement Program, the operating costs associated with the capital project will be projected and considered in conjunction with the CIP.

ENTERPRISE FUND CAPITAL IMPROVEMENTS

Capital Improvements funded from the Enterprise Funds shall be paid for in combination of "pay-as-you-go" financing and the use of long-term debt. The City shall periodically review its enterprise capital needs and establish capital spending plans that are appropriate and reflect a combination of debt and "pay-as-you-go," while attempting to keep our rates competitive with those in the surrounding area.

CAPITALIZATION & DEPRECIATION POLICIES

The City shall capitalize equipment and facilities within the following parameters:

Equipment - \$5,000 per unit
Buildings & Facilities - \$100,000

Minor equipment that falls below the \$5,000 threshold, but is subject to shrinkage, such as cellular telephones and computers, shall have a non-numbered City of Manhattan Beach property tag affixed when placed into City service.

The City shall depreciate capital assets such as machinery, equipment, buildings and improvements, and infrastructure (roads, sidewalks, parks, etc.). Depreciation shall be performed on a straight line basis over the expected useful life of the asset and in accordance with Generally Accepted Accounting Principles (GAAP).

CASH MANAGEMENT & INVESTMENT POLICIES

The Finance Subcommittee & City Council shall annually review and update, or modify as appropriate, the City's investment policy. Reviews shall take place at public meetings and the policy shall be adopted by minute action of the City Council based upon the Finance Subcommittee's recommendations

Reports on the City's investment portfolio and cash position shall be developed and presented to the City Council monthly. Additionally, expenditure reporting showing year-to-date budgeted and actual expenditures shall be prepared monthly and distributed to all departments.

City funds will be managed in a prudent and diligent manner with emphasis on safety, liquidity, and yield, in that order.

OPERATING BUDGET POLICIES

BALANCED OPERATING BUDGET

It is the City's policy to adopt a balanced budget where operating revenues are equal to, or exceed, operating expenditures. In the event a balanced budget is not attainable, and the cause of the imbalance is expected to last for no more than one year, the planned use of reserves to balance the budget is permitted. In the event that a budget shortfall is expected to continue beyond one year, the planned use of reserves must be developed as part of a corresponding strategic financial plan to close the gap through revenue increases or expenditure decreases.

Any year end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels set by policy and will be available for capital projects and/or "one-time only" General Fund expenditures.

BUDGET DOCUMENT

The operating budget shall serve as the annual financial plan for the City. It will serve as the policy document of the City Council for implementing Council goals and objectives. The budget shall provide the staff the resources necessary to accomplish City Council determined service levels.

The City Manager shall annually prepare and present a proposed operating budget to the City Council no later than the second regular Council meeting in May of each year; and Council will adopt said budget no later than June 30 of each year. Funds may not be expended or encumbered for the following fiscal year until the budget has been adopted by the City Council.

The City's annual budget will be presented by department, with a logical breakdown of programs and proposed expenses. The budget document will also summarize expenditures at the personnel, operating and maintenance, and capital levels.

Where practical, the City's annual budget will include measures of workload, efficiency, and effectiveness.

BUDGET CONTROL AND ACCOUNTABILITY

Budget control is maintained at the departmental level. The City Manager has the authority to approve appropriation transfers between programs or departments. In no case may total expenditures of a particular fund exceed that which is appropriated by the City Council without a budget amendment. Amendments to the budget are approved by the City Council with the exception of the appropriation and transfer of funds from employee leave reserves to a specific department's program budget to cover unplanned customary termination leave expenditures within a given year. Such amendments may be approved by the City Manager.

Budget accountability rests primarily with the operating departments of the City.

CAPITAL PLANT AND EQUIPMENT

The annual budget will provide for adequate maintenance and replacement of capital assets.

ENTERPRISE FUNDS

The Enterprise Funds shall be supported by their own rates and not subsidized by the General Fund.

The Enterprise Funds will pay their share of overhead services provided by the General Fund.

GENERAL BUDGET POLICY

The budget process consists of activities that encompass the development, implementation, and evaluation of a plan for the provision of services and capital assets. The mission of the budget process is to help the City Council make informed choices about the provision of those services and capital assets, and to promote stakeholder participation in the process. According to the National Advisory Council on State and Local Budgeting, the budget process:

- Incorporates a long-term perspective;
- Establishes linkages to broad organizational goals;
- Focuses budget decisions on results and outcomes;
- Involves and promotes effective communication with stakeholders; and
- Provides incentives to government management and employees.

In addition to these key characteristics, the City has Financial Policies (located in the Appendix of the annual budget), and general Budget Policies which are the basis on which staff develops budget recommendations and establishes funding priorities within the limited revenues the City has available to provide municipal services. These Budget Policies are as follows:

1) Overall Budget Tenets

- a. The budget shall be a performance, financing and spending plan approved by the City Council. It will contain information and data regarding expected revenues and expenditures, as well as goals and performance metrics.
- b. The Finance Director shall prepare and present a budget preparation calendar to City Council by the end of January each year. The calendar will include review dates as well as City Council budget study session dates.
- c. Biennially, prior to the first year of the biennial budget, the City Manager will prepare and refine written policies and goals to guide the preparation of performance, financing and spending plans for the City's two-year budget. Adopted budgets will comply with the adopted budget policies and City Council priorities.
- d. The City's budget presentation shall display the City's plan in a Council Constituent-friendly format. The City will use a program budgeting format to convey the purposes and goals of the City operations. The City will also prepare and post on its website the line item detail for those who wish to review that information.
- e. Decision making for capital improvements will be coordinated with the operating budget to make effective use of the City's limited resources for operating and maintaining facilities. Under the biennial budget format, the first year of the spending plan will focus on the operating budget, while the second year will emphasize the five year capital improvement plan.
- f. The City Manager has primary responsibility for formulating budget proposals in line with City Council priority directions, and implementing those proposals once they are approved.
- g. The budget will be developed with an understanding of what the City is required to do versus what it has chosen to do.

Budget Policies – FY 2019 & FY 2020

- h. Consideration shall be given to alternative service delivery options and opportunities to innovate.
- i. Staff will pursue streamlining of processes and reducing costs wherever possible.
- j. The City shall actively pursue federal, state and other grant opportunities when deemed appropriate.
- k. Total compensation will be considered when negotiating/setting employee salaries and benefits.
- l. Staffing will be set at a level appropriate to the service needs of the community vis-à-vis the City's other financial priorities.

2) Fiscal Integrity

- a. Ongoing operating expenditure budgets will not exceed the amount of ongoing revenue budgets. New program requests will identify either a new ongoing source of revenue or identify offsetting/ongoing expenditures to be eliminated.
- b. Any year end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels set by policy and will be available for capital projects and/or "one-time only" expenditures.
- c. The City will maintain the fiscal integrity of its operating and capital improvement budgets which provide services and maintain certain public facilities, streets and utilities. It is the City's intent to maximize the level of public goods and services while minimizing the level of debt.
- d. The City will maintain a structurally balanced operating budget which is defined as projected on-going (core) revenues equal to or in excess of planned expenditures, excluding approved one-time capital purchases.
 - a. Prior year budgetary savings resulting from vacant full-time positions ("vacancy savings") will be analyzed with each budget cycle. Vacancy savings may be included in the operating budget provided that:
 - i. The vacancy factor used to estimate savings is based on a three-year simple moving average of prior year trends.
 - ii. The vacancy factor does not exceed 4.0% of salaries in line with the City's conservative budgeting approach.
- e. Restricted funds and non-General Fund moneys shall be utilized first when appropriate.
- f. One time resources shall not be used for on-going expenses.
- g. Long term debt shall not be utilized to fund on-going operations.
- h. Adequate reserves shall be maintained and enhanced, and reviewed annually by the City Council through the budget process.

3) Revenues

- a. Budgeted revenues will be estimated conservatively using accepted standards and estimates provided by the state, other governmental agencies or reliable economic forecasters when available.
- b. Generally, revenue estimates shall not assume growth rates in excess of inflation and scheduled rate increases.

- c. If revenues from “one-time” or limited duration sources are used to balance the City’s annual operating budget, it is to be fully disclosed and explained at the time the budget is presented. It is the City’s goal to not rely on these types of revenues to balance the operating budget.

4) Funding Non-Current Liabilities

- a. Maintenance and Replacement funding will be prioritized each year to ensure that capital facilities and equipment are sufficiently maintained to avoid service disruptions and minimize future costs. A schedule of equipment replacements will be maintained and included in the five year projections.
- b. The City obtains Valuation Reports containing actuarially determined contributions (ADC) for the purpose of funding the long-term costs of benefits provided to employees and annuitants through Pension and Other Post-Employment Benefits (OPEB) plans. The ADC includes the “Normal Cost” for current service and Amortization of any under-funded amount. The City will review all Valuation Reports to validate the completeness and accuracy of the member census data and the reasonableness of the actuarial assumptions.
 - i. Pension and OPEB costs will be budgeted no less than the full amount of the ADC, including the Normal Cost (as a percent of current payroll) and Amortization to collect any under-funded amount.
 - ii. The funding status of the City’s Pension and OPEB plans will be presented during annual budget presentations to assist the City Council in resource allocation decisions. In addition to the ADC, additional funds (e.g. budgetary surpluses or unanticipated one-time revenues) may also be allocated to the City’s Pension Rate Stabilization Trust Fund or OPEB Trust Fund to prefund future obligations.

5) Internal Services Charges

The City will utilize Internal Service Funds to allocate costs incurred across multiple departments, including fleet, technology, insurance costs including workers compensation and liability, and building maintenance and operational costs.

- a. Fleet Management Fund
 - i. Through the use of the Fleet Management Fund, the City will annually budget sufficient funds to provide for the orderly maintenance, repair and replacement of the City’s vehicles. This fund is supported by charges to user departments which are adjusted annually based on the department’s proportionate share of estimated fleet management expenses. Sufficient working capital will be maintained in the fund to provide for the scheduled replacement of fleet vehicles at the end of their useful lives.
 - ii. In order to maintain an optimal working fleet and minimize repair costs, it is the City’s intent to follow the established vehicle replacement schedule.
- b. Information Technology Fund

- c. City Council budget study sessions shall be broadcast live to make available real-time information on the budget to those not able to attend in person.
- 8) Capital Budget – Fiscal Policies
- a. Capital project proposals shall include substantially complete, reliable and attainable cost estimates. Project cost estimates for the Capital Budget should be based upon a preliminary analysis of the project and are expected to be as reliable as the level of detail known about the project.
 - b. Proposals shall include a comprehensive project sheet. The project sheet shall include a detailed description of the scope of the project, approximate schedule, and proposed funding plan. The plan should indicate resources necessary to complete any given phase of the project, e.g., design, rights-of-way acquisition, construction, project management, contingency, etc.
 - c. All proposals for capital projects will be presented to the City Council within the framework of a Capital Budget (year 2 of the Biennial Budget). Consideration will be given to the commitment of capital funds outside the presentation of the annual capital budget review process for emergency capital projects, time sensitive projects, projects funded through grants or other non-city funding sources and for projects that present and answer the following questions for Council consideration: 1) Impacts to other projects, and 2) Funding sources.
 - d. Capital project proposals shall include all reasonably attainable cost estimates for operating and maintenance costs necessary for the life cycle of the asset.
 - e. Major changes in project cost must be presented to the City Council for review and approval. These changes are typically reviewed by City Council as part of the biennial CIP process or through specific recommended actions for individual projects.
 - f. Staff shall seek ways of ensuring administrative costs of implementing the Capital Budget are kept at appropriate levels.
 - g. The Capital Budget shall contain only those projects that can be reasonably expected to be accomplished during the budget period, unless the project is a multi-year funded project. The detail sheet for each project shall contain a project schedule with milestones indicated.
 - h. Capital projects that are not expensed during the budget period will be re-budgeted or carried over to the next fiscal period except as reported to the City Council for its approval. Multi-year projects with unexpended funds will be carried over to the next fiscal period.
 - i. A capital project will not be budgeted unless there is a reasonable expectation that funding is available.
 - j. Whenever feasible, practical and allowable, salaries and benefits for Public Works Engineers will be charged against enterprise, special revenue or grant funds utilized for the design and construction of capital projects.

**As Presented for Approval on January 3, 2018*

Glossary of Terms & Abbreviations

Administrative Service Charge: A transfer of moneys to the General Fund to reimburse the General Fund for work performed in other funds by an employee whose salary is budgeted in the General Fund.

Appropriation: Legal authorization by the City Council to make expenditures and to incur obligations for specific purposes.

Appropriations Limit: Article XIII B, of the California Constitution, was amended by Proposition 4, "The Gann Initiative," in 1979. This Article limits growth in government spending to changes in population and inflation, by multiplying the limit for the prior year, by the percentage change in the cost of living (or per capital personal income, whichever is lower); then multiplying the figure resulting from the first step, by the percentage change in population. The base year limit (FY 1978-79) amount consists of all tax proceeds appropriated in that year. The Appropriations Limit calculation worksheet can be found in the Appendix of the budget.

ARRA: American Recovery and Reinvestment Act

Assessed Valuation: A dollar value placed upon real estate or other property, by Los Angeles County, as a basis for levying property taxes.

Beginning Fund Balance: Fund balance of a fund, from the end of the prior year, including both available, designated and restricted reserves carrying over into the following year.

BIDs: Business Improvement Districts

Bond: A city may raise capital by issuing a written promise to pay a specified sum of money called the face value, or principal amount, at a specified date or dates in the future, together with periodic interest, at a special rate.

Budget: The financial plan for the operation of a program or organization that includes an estimate of proposed expenditures for a given period of time and the proposed means of financing those expenditures.

Budget Message: A general outline of the budget which includes comments regarding the City's financial status at the time of the message, and recommendations regarding the financial policies for the coming period.

Capital Improvement Plan (CIP): A financial plan of proposed capital improvement projects. CIP projects typically improve City owned assets such as buildings, parks, streets and other infrastructure components. Capital projects often span more than one fiscal year.

Capital Projects & Purchases: A budget category which budgets major equipment purchases and capital improvement projects.

Capital Projects: Improvements costing \$10,000 or more, that have a useful life of one year or more, and selected studies costing in excess of \$5,000, that are expected to lead to a capital project. Examples include constructing a new park, street resurfacing, building remodels/repairs, and construction of water mains.

CIP: Capital Improvement Project/Capital Improvement Plan/Capital Improvement Program.

Debt Service: Annual principal and interest payments owed on money has borrowed.

Department: An organizational unit comprised of divisions, or programs. The City of Manhattan Beach has nine departments: Management Services, Finance, Personnel, Parks & Recreation, Police, Fire, Community Development, Public Works and Information Technology.

Division: A program, or activity, within a department, which furthers the objectives of the City Council by providing services, or a product.

Encumbrances: Financial commitments related to unperformed contracts for goods, or services, for which part of an appropriation is reserved. Encumbrances end when the obligations are paid, or otherwise terminated.

Enterprise Funds: Funds established to account for the total costs of those governmental facilities and services that are operated in a manner similar to private enterprise. These programs are entirely, or predominately, self-supporting.

Expenditure: The cost of goods received or services rendered for the government unit.

Glossary of Terms & Abbreviations

Fiscal Year: A 12-month period of time to which an annual operating budget applies. The City of Manhattan Beach's fiscal year is July 1 through June 30.

Fund: A self-balancing set of accounts. Governmental accounting information is organized into funds, each with separate revenues, expenditures and fund balances. There are four major types of funds: General, Proprietary, Special Revenue, and Trust & Agency.

Fund Balance: The difference between a fund's assets and its liabilities. Portions of the fund balance may be reserved for various purposes, such as contingencies or encumbrances.

GAAP: Generally Accepted Accounting Principles

GASB: Governmental Accounting Standards Board

General Fund: The primary fund of the City, used to account for all revenues and expenditures of the City not legally required to be accounted for in another fund.

GFOA: Government Finance Officers Association

Grant: Contributions, or gifts of cash, or other assets from another entity. Grants are typically to be used, or expended for a specific purpose.

HVAC: Heating, Ventilation & Air Conditioning

Infrastructure: The underlying foundation or basic framework of a system or organization, such as the roads, sewers, and storm drains, etc.

Internal Service Charge: A charge to departments' budgets designed to provide the operation, maintenance and replacement of some shared City function. The City of Manhattan Beach uses internal service charges to provide for its Citywide computer network, operation and replacement of its vehicle fleet, allocation of insurance costs and the maintenance and operation of City facilities.

Internal Service Fund: The City of Manhattan Beach operates four internal service funds: Insurance Reserve; Information Systems; Fleet Management and Building Maintenance and Operation. Internal service funds provide for the operation, maintenance and replacement of some shared City functions.

Line-item: Refers to any individual expenditure object or appropriation detailed in the department's budget.

Materials & Services: This budget category accounts for all non-personnel, and non-capital expenses. Such expenditures include building maintenance, contract services, equipment maintenance, office supplies, and utility costs.

MTA: Metropolitan Transportation Authority

Municipal Code: The collection of City Council approved ordinances currently in effect. The Municipal Code defines City policy in various categories (i.e., building regulations, planning and zoning regulations, sanitation and health standards, and traffic regulations).

Operating Budget: The financial plan for the operation of a program or organization that includes an estimate of proposed expenditures for a given period of time and the proposed means of financing those expenditures.

Ordinance: A formal legislative enactment by the City Council. An ordinance has the full force and effect of law within the City boundaries, unless it is in conflict with any higher form of law, such as a State statute or constitutional provision. An ordinance has a higher legal standing than a resolution.

Overhire: An authorized position without moneys budgeted for salary and fringe benefits. The overhire concept assumes that a department (particularly Police and Fire) experiences several position vacancies during a fiscal year, and that the salary and fringe benefit savings from these vacancies will off-set the cost of the overhire personnel. The overhire personnel in-turn ensures that the department will not be forced to limit operations because of staffing shortages and can better control overtime expenditures.

Performance Measure: Indicators used in budgets to show, for example, the amount of work accomplished, the efficiency with which tasks are accomplished, or the effectiveness of a program.

Program: An activity, or division, within a department, which furthers the objectives of the City Council, by

Glossary of Terms & Abbreviations

providing services or a product.

RCC: South Bay Regional Public Communications Authority (SBRPCA)

Reserve: Used to earmark a portion of the fund balance as segregated for a specific use.

Resolution: A special order of the City Council, which requires less legal formality than an ordinance in terms of public notice and the number of public readings prior to approval. A resolution has lower legal standing than an ordinance. The Operating Budget is approved by resolution, and requires a majority vote of the Council Members present.

Salaries & Benefits: A budget category, which accounts for full-time and part-time employees, overtime expenses, and fringe benefits.

Service Indicator: Indicators used in budgets to show, for example, the amount of work accomplished, the efficiency with which tasks are accomplished, or the effectiveness of a program.

Special Revenue Funds: Funds used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

TOT: Transient Occupancy Tax

Transfer: Moneys appropriated from one fund to another, in order to reimburse the fund for expenses, or to finance the operation of the other fund. Transfers between a Proprietary Fund and a Governmental Fund are budgeted as revenues and expenditures in the various funds, to comply with governmental accounting principles.

Trust & Agency Funds: A classification of funds, which temporarily holds cash for other agencies or legal entities.

UUT: Utility User Tax
