**Agenda Item:**

**MANHATTAN BEACH'S CITY COUNCIL WELCOMES YOU!**

**Comment:**

**The police patrols on Ocean Drive are worthless and a waste of the city's money. If you cannot get them to give tickets then stop the patrols. They are giving verbal warnings over their loudspeaker and that is not effective. There are hundreds of violations going on and they simply need to give some tickets one day and then there might be a change in behavior. Simply worthless right now, but I get it they don't want to be exposed to corona babysitting adults.**

**Open the strand if you refuse to give tickets on Ocean Drive. How many tickets this Sat were given on Ocean for social distancing? I had cops passing my place all day long seeing violations like people on the strand, bicycles blowing the stop sign, and groups of people huddled together and all they did every time was just say something on the loudspeaker. I had women set up Selling masks on Ocean Drive too cops did nothing just pulled up, asked if they were selling they lied and he pulled away.**
