We need to reopen the South Bay carefully and in coordination with neighboring communities. SoCal population is extremely mobile, so opening too early before the rest of the county is likely to bring infections to our doorstep. Furthermore, the standard policies of wearing masks and social distancing needs to be wholeheartedly embraced by businesses and their customer base. The full weight of the City needs to be behind these safety measures before opening up.

Please open the city swimming pools for controlled swimming and exercise. The cdc has stated that covid can't be transmitted thru a maintained pool and the level of new cases of covid in our community has been close to zero for a few weeks. It is easy to control pool swimming and access and tracking and tracing if need be. This combined with the extremely low rate of covid in our community makes swimming the perfect exercise. Please open our pools for exercise.

Agenda Item: eComments for 1. Request from L.A. County Supervisor Hahn to Support the Granting of Variances to The County's Health Officer Orders for Individual Cities and Consideration of a Letter to the Los Angeles County Board of Supervisors Advocating for South Bay Businesses and Restaurants to Re-Open Under State and County Phase 3 Guidelines.

Please make sure our workers cleaning our public restrooms have the proper PPE. They need N 95 mask. The city should provide those for the essential workers that are cleaning the bathrooms. Thank you for your consideration.

I find the letter to support the granting of variances to be very reasonable and well thought out. And I understand the need to support small "non-essential" businesses in our community. However, I think we must be mindful of the fact that, while the daily infection rate in Manhattan Beach is very low, we are part of a much larger metropolitan area which is one of the major national "hot spots" of the virus. For this reason, I believe it is unwise to move on to Phase 3 at this time.

While I value our local restaurants, and have supported them with many takeout orders, I believe it's too soon to reopen restaurant dining, especially indoors. We need to evaluate the effects of the current lifting of restrictions before reopening more businesses. But if restaurants reopen, the City and MBPD must support business owners, and enforce public safety protocols. If the city can't enforce, the City should not reopen during a pandemic. MB officials should abide by State & County orders

I do support our local businesses opening as soon as they possibly can but safely. MB is not an isolated community, we live within a short ride of other communities with data worse than ours. Expect people from those areas visiting. We share their issues. Who monitors store/restaurant conditions after open? observations from this weekend: mask wearing is optional, ~30% wear masks on narrow walks & no social distancing. How will MB gov help retailer/restaurant enforce guidance? Example: Beaches.

I support opening now and am in favor of both (1) the Barger/Hahn motion and (2) re-opening our restaurants under the Phase III guidelines. There is enough data to safely support opening restaurants.

Please let restaurant business owners put in place safety guidelines to reopen their doors. And let the city be able to expand outdoor spaces to accommodate safer dining. People need work and businesses need to stay viable. Creative solutions are possible.

I stand in support of opening businesses safely NOW. Thank you!

The restaurants of Manhattan Beach deserve the opportunity to re-open allowing dine in services. They have worked hard to set up delivery and take out services but these provide only a fraction of the revenue needed to keep their employees fully employed and remain financially viable. The data points for Manhattan Beach have been met and exceeded for Phase 3 Guidelines. The time to act on this is now before any further financial distress is suffered by restaurant employees and owners.
