Bryce Canyon showcases the stunning geology of southern Utah and awakens our appreciation for our planet. Dare I say it was one of the most surprising places on our trip through all 5 National Parks in Utah. Among National Park visitors, it

hasn't been the National Park always thought of first, however, that is changing.

Find out why it's so unique. Learn how it was created, the history of its discovery all the way up to being made a National Park. Grab a seat and join us for this great virtual ride.
