COVID-19 Situation Report

JUNE 1, 2021

CURRENT INITIATIVES AND UPDATES

- **City of Manhattan Beach Recognized by the World Health Organization** – The City of Manhattan Beach and the City of Beverly Hills have been selected as joint-winners of the World Health Organization’s (WHO) “World No Tobacco Day Award” in the Region of the Americas. Each year, the World Health Organization recognizes individuals or organizations for their accomplishments in the area of tobacco control. “Our community takes pride in the commitment to protect our own health and the health of our shared environment.” Stated Mayor Suzanne Hadley. “We are honored as a city to be recognized with this prestigious award by the World Health Organization.” To learn more about the City’s work on tobacco regulation, visit, citymb.info/smokefree.
- **Still Need to Get Your Vaccine?** – Uber and Lyft are now providing free rides to and from vaccination sites within Los Angeles County. You can order through the Uber and Lyft apps or by calling 833-540-0473 to book a ride. For more information visit VaccinateLACounty.com. In addition, the Los Angeles County Department of Public Health has a new [Transit & Paratransit for People with Disabilities](#) webpage with information to help people with disabilities get to a vaccination site. If you or anyone you know needs assistance with transportation or are homebound and needs to get vaccinated at home, call the DPH Vaccine Call Center at 833-540-0473. The Call Center is open daily from 8:00 am to 8:30 pm. You can also submit a request for in-home vaccination by visiting the [How to Get a Vaccine](#) webpage. For more information please visit VaccinateLACounty.com.
- **City Hall Appointments and Services** – City Hall is expanding hours to allow for walk-in services and appointments. Virtual services are available 24 hours, 7 days a week on www.citymb.info. Appointments and walk-in services will be available Monday through Thursday from 1:00p.m. to 5:00 p.m. and Fridays 1:00 p.m. to 4:00 p.m. Upon entering City Hall, visitors to the Parks and Recreation, Finance, or Community Development Departments will have a virtual queueing system where visitors will sign in using an iPad or through their smartphone. Visitors will then queue outside or in their car to avoid gathering inside the limited space of the City Hall lobby. The queueing software has texting capability so staff can let the visitor know when it is their turn. Once inside the lobby area, there are visual delineators to denote where to stand or wait.
- **COVID 19 Cases and Deaths at Lowest Level** – COVID-19 cases and deaths in the United States have dropped to their lowest levels in nearly a year and the number of [vaccinated](#) people continue to grow. As of May 27, 2021, nearly 133 million people in the U.S. are fully vaccinated, and the national percentage of COVID-19 tests that came back [positive](#) over the last 7 days was less than 3%. As numbers continue to decline, Los Angeles County will align with the State’s June 15 plans that ease many capacity limits and distancing requirements, and adopt CDC’s masking guidelines for vaccinated and unvaccinated individuals. For those aged 12 and over, learn about

mask guidance for [fully vaccinated](#) people and for those that are [not fully vaccinated](#). Visit [COVID19.lacounty.gov](https://www.covid19.lacounty.gov) for more information.

LATEST NUMBERS ON COVID-19

AREA	CONFIRMED CASES (CHANGE)	DEATHS (CHANGE)
United States ¹	33,093,238 (+3,738)	591,539 (+111)
California ²	3,685,455 (+423)	62,021 (+10)
Los Angeles County ³	1,244,161 (+108)	24,346 (+3)
Manhattan Beach ⁴	1,380 (+0)	18 (0)

The change reflects daily increases, not increases from the prior situation report.

COVID-19 WEEKLY UPDATE	MANHATTAN BEACH		LOS ANGELES	
	NEW CASES	NEW DEATHS	NEW CASES	NEW DEATHS
May 24 – May 30	1*	0	1,244	58
May 17 – May 23	3	0	1,370	77
May 10 – May 16	5	0	1,760	95
May 3 – May 9	4	0	1,879	84
April 26 – May 2	6	0	2,240	142
April 19 – April 25	18	0	2,915	170
April 12 – 18	10	0	3,201	146

View daily cases in an infographic via the [View Beach Cities Case Information via Beach Cities Health District COVID-19 by the Numbers](#). *On May 27, 2021, the County Department of Public Health's data teams identified 3,857 historical L.A. County resident cases dating back to March 16, 2020, that are included in case totals. These cases came from inpatient and outpatient medical records and cases with updated address information or revised jurisdiction criteria. As such, Public Health reported an additional 11 new cases dating back to March 16, 2020, in Manhattan Beach. Therefore, these additional cases do not properly reflect a typical daily increase. The change reflects daily increases, not increases from the prior situation report.

FEDERAL, STATE, AND COUNTY UPDATES

- Yellow Tier** – Los Angeles County has met the threshold for the least restrictive yellow tier in the [State's Blueprint for a Safer Economy](#). Changes to the Health Officer Order took effect May 6, reflecting the County's move into the yellow tier allowing for increased occupancy limits across a wide range of sectors with required safety modifications. Fitness facilities, indoor dining, cardrooms and racetracks, movie theaters, family entertainment centers, breweries, wineries, and craft distilleries can expand indoor occupancy to 50%. Bars establishments are now allowed to open for indoor services at a maximum capacity of 25% or 100 people, whichever is fewer, with no counter seating/service. Amusement parks and fairs can increase capacity to 35%, and waterparks can expand to 40% capacity. Museums and aquariums can increase indoor capacity to 75%. Outdoor live performances and events can increase occupancy to 67% of capacity, while the occupancy limits at indoor live events depend on the total capacity of each venue and the vaccination and testing status of attendees. Other sectors where capacity limits have increased include: private informal gatherings, where the occupancy limit has increased to 50% capacity or 50 people if indoors, whichever is fewer; outdoor gatherings are limited to 100

⁹ Source: June 1, 2021, [Blueprint for a Safer Economy - Coronavirus COVID-19 Response \(ca.gov\)](#)

people. At community sporting events, participation is restricted to 500 people per hour and a total of 1,500 people; if everyone is vaccinated or has tested negative at an outdoor community sporting event, the capacity increases to 3000 people. Office-based businesses and workspaces should limit occupancy to 75% of capacity, unless all staff are vaccinated. Distancing and masking requirements remain in effect at worksites per CalOSHA requirements. At indoor malls, shopping centers, retail stores, hair salons, barbershops, personal care providers, libraries, and limited services, capacity remains limited to 75% to allow for at least 6 feet of distancing among staff and customers. The Health Officer Order requires other modifications across a wide range of sectors. These are modifications focused on infection control, distancing and mask wearing. At all establishments serving food or drink, masking is mandated, except when eating or drinking. Distancing between tables is also still required and counter seating and service is not allowed. Television viewing is now permitted indoors, while live entertainment along with television is permitted outdoors, and aquariums. For more information visit [County of Los Angeles Department of Public Health](#).

- **COVID-19 Mobile Vaccination** – The Los Angeles County Department of Public Health (LADPH) is providing mobile vaccination teams to administer COVID-19 vaccines at various locations throughout the community. If you are interested in hosting the Mobile Vaccine Team at your business or organization, visit [LADPH](#).
- **Vaccination Sweepstakes** – Through Thursday, June 3, at all the county-run vaccination sites, LA City sites and the St. John’s Well Child and Family Center sites, everyone 18 and older getting their first COVID-19 vaccine or bringing a first-time vaccine recipient with them to their second dose appointment, will have an opportunity to win a pair of tickets to the 2021-2022 home season of either the LA Kings or the LA Galaxy. Two residents will be awarded prizes. More information, including official rules and participating site locations can be found on the [Los Angeles County Vaccination Sweepstakes page](#).
- **Projections in Healthcare / Predictive Modeling** – Los Angeles County [Department of Health Services](#) (DHS) released the COVID-19 Projections of Hospital-based [Health Care Demand May 24 Update](#). The update includes data on hospitalizations through May 19, 2021. The underlying statistical prediction model has been significantly modified to incorporate the effect of vaccination in predicting future hospital demand:
 - The daily number of newly hospitalized patients with positive tests for COVID-19 across Los Angeles County has continued to gradually decrease.
 - Patients are still being admitted to hospitals for reasons other than acute COVID-19 illness who have positive COVID-19 PCR tests, often from prior illness that has been resolved. These do not reflect recent transmission.
 - Based on recent data, reflecting transmission that occurred in the middle of April, the estimated transmission number (“R”) at that time was 0.85 with an uncertainty of 0.75 to 0.95. This estimate for R, lower than prior estimate of 0.90 with an uncertainty of 0.78 to 0.99.
 - No anticipated shortage of hospital-based resources in the foreseeable future are expected.
 - The DHS team’s epidemic model estimates the number of people in Los Angeles County who are susceptible to infection with COVID-19, have been exposed, are infectious to others, and have recovered or been vaccinated so they are no longer susceptible.

- The model suggests that about 0.04% (uncertainty of 0.02% to 0.08%) of everyone in Los Angeles County is currently infected and infectious to others.
 - This would suggest about 1 in 2600 (between 1 in 5900 and 1 in 1200) Los Angeles County residents are currently infectious to others. Two weeks ago, this estimate was 1 in 1600.
 - Approximately 5 in every 8 persons in Los Angeles County is estimated to be protected from COVID-19. Approximately 3 in every 8 persons in Los Angeles County has been infected and approximately another 2 in 8 have acquired protection through vaccination.
- **L.A. County Daily Briefing Statistics on COVID-19** – DPH confirmed 108 new COVID-19 cases and 3 new deaths in [Today's Daily Report](#). Of the 3 new deaths reported today, one person that passed away was over the age of 80, one person who died was between the ages of 65 and 79, and one person who died was between the ages of 50 and 64. To date, DPH identified 1,244,161 positive cases of COVID-19 across all areas of L.A. County and a total of 24,346 deaths. There are 259 people with COVID-19 currently hospitalized, and 18% of these people are in the ICU. Testing results are available for more than 6,771,000 individuals with 17% of people testing positive. Today's daily test positivity rate is 0.4%. Los Angeles County remains in the yellow tier in the State's Blueprint for a Safer Economy that allows for expanded re-openings and increased occupancy limits across a wide range of sectors with required safety measures. The State released updated blueprint tier numbers; L.A. County's adjusted case rate dropped from 0.9 new cases per 100,000 people to 0.7 new cases per 100,000. The overall tests positivity rate dropped from 0.5% to 0.4% across the county and in areas with the fewest health affirming resources, with declining case and test positivity rates, Los Angeles County remains in the least restrictive yellow tier in the State's Blueprint for a Safer Economy. To view Statewide case statistics and demographics, including positive cases, deaths, and testing results, visit [COVID:19 California Case Statistics](#). As part of its commitment to reduce health inequities and ensure the best outcomes for all Californians, the State has a [Health Equity Dashboard](#) that tracks California's health equity measure and data by race and ethnicity, sexual orientation, and gender identity. The Center for Disease Control and Prevention (CDC) added [County View](#) to their national COVID Data Tracker, providing case statistics by County throughout the United States.
