Subject: [EXTERNAL] Please increase the default renewable energy tier to 100% and Continue Climate Ready Manhattan Beach

CAUTION: This Email is from an EXTERNAL source. Ensure you trust this sender before clicking on any links or attachments.

My name is Jan Mills and I have lived in Manhattan Beach for 37 years. I am writing regarding agenda items 15 and 16 on tonight's council agenda. First, I encourage the City Council to **vote yes** to increase the default renewable energy tier to 100%. There is so much in this world over which we have little control, but this is a small concrete step to address the climate change crisis that we face. I think all residents would be proud to know that our small city is leading on this important issue.

Second, I appreciate the fact that the city council is working to address climate issues through the Climate Ready program. I am proud that I live in a town which is working toward ensuring it will be a safe and secure place to live for future generations to enjoy.

Kind Regards,

Jan Mills
