Hello City Councilors. Yet again we're seeing a surge in COVID cases. With so many still people unvaccinated, or with only one shot, we should find a way to encourage folks to get their shots. Work with local business for giveaways with proof of vaccination. Has the city required MBPD and MBFD to be fully vaccinated? If not, I would ask why. Many of us continue to be at risk and may now have to stay home yet again. Do we want to see our restaurants and local businesses closed again. I think not.

Please support the proposed wording that the volunteers who have worked extensively on the history of Bruce's Beach and have had the work also reviewed and verified by history experts. Let's move on as a city and focus on keeping our city united and show that we can acknowledge our past!! Thank you, Donna Thomas

Please, no fake history. Facts only.

Janet Soliman

Location:

Submitted At: 5:27pm 07-20-21

History should be written solely from facts, no rumors or unsubstantiated claims should be written into history. A professional unbiased historian should have been hired to investigate and commissioned to write the plaque.

Not all the appropriate paperwork including the court case from the Bruces has been considered. Also Councilman Napolitano stated the History Report is a 'living document,' meaning it will be added to and changed. If City Council financially invests in plaques now, they will need to be replaced when a definitive history is completed. It's like finishing soufflé without some of the main ingredients ingredients. That's just wrong. Please don't waste taxpayers money.

I urge City Council to approve the proposed language and design for the Bruce's Beach plaques. The Bruce's Beach History Advisory Board has spent hundreds of hours, and the documented history, already accepted by City Council, has been vetted by numerous credible historians. The events of Bruce's Beach has brought us national and international attention, and not always in a positive light. Let's acknowledge and honor the history of Bruce's Beach with the recommended plaques and language.

Laura Kainsinger

Submitted At: 3:26pm 07-20-21

Please approve the proposed language, photographs for both plaques. The committee has done a great and thorough job at writing language that is fact-based, reviewed by local historians and university professors, and respectful of the Bruce's and other families that were forced out of their homes.

Scott Chambers

Please hold off on any plaques till this case is settled. History is still being written. We need everything written on the plaques to be verified. We can't have hearsay on this important memorial. I would suggest hiring an independent professional historian to double check all claims being made.

I urge the City Council to approve the proposed language and design of both Bruce's Beach plaques. The Bruce's Beach History Advisory committee has done an excellent job throughout the entire process of researching and developing the report, and crafting the language and design for the new plaques. Please approve the proposed language and design so we may educate the public as to the true historical record of Manhattan Beach's history.

Please wait until the fervor has died down before doing anything. Yielding to emotional demands now will just result in more demands. A little time will allow a rational decision.

City Council should not spend any taxpayer money on new plaques until:
the missing Eminent Domain court case documents are retrieved so the report and plaque language can be completed,
the sources used to write the report and plaque language are analyzed by nonpartisan History Research Experts to distinguish facts from rumors.

Nina Tarnay

Submitted At: 12:09pm 07-20-21

I support the language and design of Plaques 1 and 2. The Bruce's Beach History Advisory Committee has done an exemplary job with its fact supported report. The plaques will help to bring their work full circle in educating the public.

I support the approval of the language and imagery for the two plaques at Bruce's Beach and find merit in the

process by which they were drafted.

The support of the Bruce Family both lends it credence and protects it against future challenge.

Please approve the proposed language and design for the Bruce's Beach plaques. The Bruce's Beach History Advisory Board has worked many months with hundreds of hours in research, writings, and meetings to come to this proposal.

Furthermore, The Bruce Family approves of the plaques' proposed language.

Approving the proposed plaque language and design shows that our City Council supports a fact-based and historical record of MB's history.
