# COVID-19 Situation Report

SEPTEMBER 28, 2021

## CURRENT INITIATIVES AND UPDATES

- **Schools Reopen with Significant Safety** - COVID-19 school cases among students and staff are declining. In August, student cases increased from about 1,300 to a peak of nearly 2,800 cases the week ending August 22. The number of student close contacts - students identified as a close contact with a confirmed case - increased correspondingly to a peak of nearly 11,000 by the end of August. Since then, both student cases and contacts have decreased substantially; last week, the County saw about 530 student cases and nearly 2,800 student close contacts.
- **Pfizer Booster Available to Eligible Residents** - Following CDC's endorsement, eligible Los Angeles County residents can begin receiving their booster doses at any of the hundreds of sites offering the Pfizer vaccine. To find a vaccination site, please visit [www.VaccinateLACounty.com](http://www.VaccinateLACounty.com). Los Angeles County residents eligible for a booster dose of Pfizer include the following groups of people who received the second of the two-dose Pfizer vaccine series at least 6 months ago and are either:
  - People aged 65 years or older
  - Residents of long-term care facilities
  - People aged 18 to 64 years with underlying medical conditions
  - People aged 18 to 64 years with high institutional or occupational risk, including healthcare workers, first responders, teachers and day care staff, grocery workers, and workers in homeless shelters or prisons, among others

Residents who received Moderna and Johnson & Johnson vaccines will need to wait until the FDA reviews the data and determines the need for and safety of boosters for these vaccines.

- **City of Manhattan Beach Announces Mandatory COVID-19 Vaccination for its Employees** - After careful consideration, at its meeting on September 21, 2021, the City Council voted to require all City employees to provide proof of full vaccination against COVID-19 by December 1, 2021. This vote comes after August 23, 2021, when the U.S. Food and Drug Administration (FDA) provided full approval of the Pfizer COVID-19 vaccine. For more information, please view the [press release](#).
- **Los Angeles County Health Officer Order Update** - Public Health has modified the [Health Officer Order](#) requiring customers and employees at bars, breweries, wineries, nightclubs, and lounges to have at least one dose of the COVID-19 vaccine by October 7 and both doses by November 4, 2021. Vaccine verification or a negative COVID-19 test result within 72 hours will

also be required for those attending outdoor mega events (10,000 persons or more). Attendees at indoor mega events are already required to show proof of vaccination or a negative test results prior to entry. For the most current information on Health Officer Orders, please [www.publichealth.lacounty.gov](http://www.publichealth.lacounty.gov).

- L.A. County Daily Briefing Statistics on COVID-19** - Public Health confirms 29 new deaths and 1,147 new cases of COVID-19. Of the 29 new deaths reported today, six people who passed away were over the age of 80, nine people who died were between the ages of 65 and 79, six people who died were between the ages of 50 and 64, and five people who died were between the ages of 30 and 49. Two deaths were reported by the City of Pasadena and one death was reported by the City of Long Beach. To date, Public Health identified 1,456,275 positive cases of COVID-19 across all areas of L.A. County and a total of 26,047 deaths. As of September 20, the County is tragically seeing about 15 deaths a day, a 38% decline from the month earlier. Testing results are available for nearly 8,600,000 individuals with 16% of people testing positive. Today's test positivity rate is 1.1%, a decrease from last week's same-day rate of 1.4%.
