## **COVID-19 Situation Report**

### **NOVEMBER 24, 2021**

Please note, in honor of Thanksgiving, the Covid-19 Situation Report will be provided on Wednesday this week. Please direct any questions or concerns to [communications@manhattanbeach.gov](mailto:communications@manhattanbeach.gov).

#### **CURRENT INITIATIVES AND UPDATES**

- **Vaccine and Booster Shot Resources** - In Los Angeles County the Department of Public Health is strongly recommending booster doses for everyone 18 and older as long as it is at least 6 months after your second dose (or 2 months after a single dose of the J&J vaccine). More information on the LA County Department of Public Health recommendations is [HERE](#) and the LA County portal to book a vaccine or booster is [HERE](#).
- **Guidance for Hosting Winter Holiday Events** - The winter holidays are a time for joyous celebrations, family get-togethers, and beloved seasonal traditions. This guide for businesses and venues outlines steps to help reduce the risk of COVID-19 while hosting winter holiday events. COVID-19 continues to circulate in LA County due to the highly infectious Delta variant, and everyone must take steps to reduce risk, especially during the winter season. For more information, view [The Guidance for Hosting Winter Holiday Events](#).
- **L.A. County Daily Briefing Statistics on COVID-19** - Public Health confirmed 28 new deaths and 1,081 new cases of COVID-19. Due to schools being closed this week, the County anticipates a smaller number of cases associated with a decrease in testing. On average, school testing can account for more than 100,000 tests a day. Of the 28 new deaths reported today, 11 people who passed away were over the age of 80, six people who passed were between the ages of 65 and 79, eight people who passed were between the ages of 50 and 64, and two people who passed were between the ages of 30 and 49. There are 551 people with COVID-19 currently hospitalized, 29% of these people are in the ICU. Testing results are available for nearly 9,370,000 individuals, with 15% of people testing positive. Today's test positivity rate is 1.4%. To view Statewide case statistics and demographics, including positive cases, deaths, and testing results, visit [COVID-19 California Case Statistics](#).

#### **LATEST NUMBERS ON COVID-19**

AREA	CONFIRMED CASES (CHANGE)	DEATHS (CHANGE)
United States <sup>1</sup>	47,916,623 (+102,838)	773,779 (+1,599)
California <sup>2</sup>	4,780,867 (+3,063)	73,365 (+151)
Los Angeles County <sup>3</sup>	1,522,240 (+1,081)	27,074 (+28)
Manhattan Beach <sup>4</sup>	2,204 (+2)	19 (0)

The change reflects daily increases, not increases from the prior situation report. The case numbers and deaths reported today may reflect delays in weekend and holiday reporting.
