Dear City Councilmembers:

Re: Increase in rates for restaurants' use of public parking spaces and sidewalk use

Rental rates should be increased to \$8/sq ft. Better yet: Remove the dining decks, remove tables and chairs from our too-crowded sidewalks, and return public parking spaces and public sidewalks to the public.

Outdoor dining can be nice! But not like this!! Remove the dining decks. Bring back clean streets. The overcrowding, traffic, and noise are bad. The filth is becoming a health & safety issue.

Study the matter through a Task Force process.

Thank you,
Martha Andreani
Downtown Resident

(I attempted to send an e-comment, but don't think it went through. Perhaps I expired a time limit? I didn't exceed the word count.)

Dear Council Members,

Thank you for commemorating the Beach Cities Relay for Life, sponsored by the American Cancer Society, and raising awareness, support, and much needed funding for cancer patients. As a physician-scientist with a focus on urologic oncology patients and principal investigator of a basic science laboratory with a focus on mechanisms of aggressive prostate cancer, I am so grateful that my "hometown" supports such initiatives. As of now, the vast majority of us will experience the potentially devastating effects of cancer, either personally or through someone we care about. But, from my perspective, there is much hope that this can change in the future.

I am also hoping to hear about the progress with the Bruce's Beach Park plaque and artwork. I am grateful that Council came to an agreement on language for the updated plaque that is consistent with the Bruce's Beach history report it commissioned, accessible on the city website. Although the planned plaque acknowledges hard truths of our collective past, the stated aspirational goal for a Manhattan Beach community that celebrates both our individual differences and shared values is a unifying sentiment that we can all be proud of. Thank You!

Subject: [EXTERNAL] Covid 19

EXTERNAL EMAIL: Do not click links or open attachments unless you trust the sender and know the content is safe.

Dear City Council,

It's hard to believe that two years down the road we are still dealing with Covid, but here we are.

Imagine my dismay while watching the 4 pm NBCLA news last Tuesday, and seeing our very own Councilmember Suzanne Hadley once again voicing her own non-science based opinion about the efficacy of masks, apparently on behalf of the City. It was a jarring reminder of that infamous interview on the Pier, in which she claimed to not know anyone who had died Covid, etc. We all know what was said.

According to the 2020 census, about 21.5% of our 35,000 residents fall into the highly vulnerable categories of Covid infection....2010 kids under age 5, and 7450 over 65. For those of us (me) in this category masking is the only thing that allows us to safely move about the community, while still not shopping or dining inside, anywhere in MB. I am one of the dwindling number of people i know who has not contracted Covid, and I have no intention of finding out what happens to my ten-year kidney transplant if I do get sick so, yes, this is very personal to me and many others in MB.

Hearing Ms. Hadley disparage the science and the common sense tools we have to minimize Covid, and protect the most vulnerable among us, is so disappointing, especially since people are still dying, even in MB. Please remember, Ms. Hadley, that when you think you are speaking for us all, you are not.

I am not asking for a mask mandate. It did not work before. I'm just asking that there is consideration for the importance of masking to help protect our whole community, many who need the extra protection to stay healthy. The City has done a good job of reminding people to mask and get boosted via social media....keep doing that. New vaccines, better suited to the new variants are coming in the fall, and we should encourage folks to get boosted when it's recommended. In my opinion the City's job to protect its residents, whether it's from crime or a pandemic.

Dear Manhattan Beach City Council,

I fully agree with the sentiments of my friend, Cathy Hobart, written below:

Please vote against devoting any resources to enforcing a future mask mandate. The city of El Segundo joined other local cities in saying it will not enforce an indoor mask mandate if LA County brings it back. They decided this because their city council strongly believes the decision to wear a mask should be the choice of the individual and should not be imposed by LA County. Individuals should review the data available, consider their own circumstances, and make their own decision about wearing a mask. It has been two and a half years of mandates. We have a highly vaxed/boosted community. Many people still mask when they feel it is necessary.

Thank you,
Mara McPhee

Dear Council Members

Each election cycle the Senior Advisory Committee (SAC) hosts a City Council Candidates Forum. Each of you have continually participated in the Forum. Thank you. The forum is the opportunity for seniors/residents in our community to meet all the candidates in one place and hear their views on topics that will affect their vote. The Forum is non-partisan, and all candidates are asked the same question and given the same amount of time to answer. This affords the candidates the ability to address a large number of seniors/residents with their vision for our City.

Respectfully

Hi Council Members/Guardians of our fair City:

I am in San Diego, visiting my kids and grandkids. What a great time!!! AND, I get to bike ride, too. Great!!

Oops. I went on a bike ride along the coast, mostly similar to ride near MB.

One huge difference, I met a rider and we discussed the route. He asked where I was from and I told him that I live in MB. He said "Oh, your town is in the news - and not for good things". He talked about what he read in newspaper about MB and Bruce's Beach.

I clear up some details he did not know. He realized that he is getting the "juicy news" and not necessary a balance reporting. He added, MB is a wealthy community and the "black" story is good read for media to print.

A great cycling day flipped on a dime.

Sincerely,
Jon C.

On Tuesday, July 12, 2022, 09:49:54 AM PDT, Jon Chaykowski <rideformbef@yahoo.com> wrote:

Dear City Council Members,

The Bruce's Beach situation and, more so, local newspaper/television reporting has severely damaged our City's reputation. Specifically, news reporting, most recently in the Los Angeles Times newspaper, included statements like "the Bruce family was run out of town".

We understand that the eminent domain action of 100 years ago included racial bias. HOWEVER, the Bruce family was NOT run out of town. The eminent domain action forced the family to sell their property to the City - at a price more than two times its market value. And, like all other families involved in the action, they were able to purchase property elsewhere within Manhattan Beach. In fact, other black families involved in the eminent domain action DID purchase other properties within Manhattan Beach. The Bruce family CHOSE to move elsewhere, specifically in Los Angeles City.

The repeated news reporting that the Bruce family was "run out of town" is inaccurate, incorrect and damaging to Manhattan Beach's reputation today.

Further, the news reporting of being "run out of town" has been reported as fact in local paper and television reports. Such statements have occurred as front paper news - not personal perspectives in an Opinion Section.

I, for one and representative of many within Manhattan Beach, am VERY upset and tired of reading/hearing such misrepresentations of fact. You also should be upset and tired of these incorrect and damaging statements in the media.

I request that Manhattan Beach takes action by our City Council and/or City Attorney to stop these damaging statements. One approach would be for the City to DEMAND AND FORCE retractions and corrections AND stoppage by the same media to savage our City's reputation.

No doubt the action taken 100 years ago was not the best for those involved BUT no family was "run out of town" - AND the Bruce family received more than double their property's market value.

I look forward to our City Council/Staff taking steps to protect and improve our reputation AND NOT watch and allow others in media to damage our City's reputation.

Sincerely,
Jon C.

EXTERNAL EMAIL: Do not click links or open attachments unless you trust the sender and know the content is safe.

Honored Members of the City Council:

I continue to be offended and saddened by the disinformation being spread among the residents of Manhattan Beach by anonymous hate groups that want to deny a part of the City's history. One-hundred years after Bruce's Beach was taken from the Bruce family, and after the Bruce land has been returned to the heirs, they still will not accept that an injustice was done.

These disgraceful attacks are contradictory, convoluted, and utterly invalid. Why the anonymity? Why the hateful speech that spreads division and disunity in our city? What is the motivation for this vicious rejection of history?

In any case, I urge the City Council to ignore such anonymous appeals and pay no attention to such pointless attacks. The City has important and serious business to attend to.

Warm regards,
Anthony A. Lee, Ph.D.

EXTERNAL EMAIL: Do not click links or open attachments unless you trust the sender and know the content is safe.

Dear Mayor Napolitano, esteemed City Council members, and Mr. Moe,

I'm writing to ask you to support resolution 22-0112 at your meeting Tuesday evening, and to thank you for your collaboration and partnership on this. Crossing guards are key to children's safety in our community. Adult pedestrians and cyclists benefit as well as they navigate our busy streets during the morning rush hour.

Beyond providing safety, crossing guards are a reminder that our community cares about children. Elementary kids often know and greet "their" crossing guards by name, and over time these interactions grow into friendly relationships. One crossing guard keeps healthy dog treats for the families who walk with their pets. Many go all out to dress up for Halloween. I remember a crossing guard at Meadows, Pam, who my children and I interacted with daily. When Pam had throat surgery, students made get-well cards and Meadows parents organized to bring her meals.

Good crossing guards make our community safer and help to maintain the small-town MB feel that we treasure. Thank you for providing this important policing service.

Best regards,
Sally Peel

Subject: [EXTERNAL] PETA: Coyote control

Importance: High

EXTERNAL EMAIL: Do not click links or open attachments unless you trust the sender and know the content is safe.

July 29, 2022

To: The Honorable Steve Napolitano, Mayor of Manhattan Beach
Manhattan Beach City Council Members
From: Kristin Rickman, Emergency Response Senior Division Manager, PETA
Re: Coyote control

Thank you in advance for your urgent consideration.

Greetings from PETA. We understand that the city of Manhattan Beach is considering hiring a contractor to trap and kill coyotes. Please know that trapping of any kind is extraordinarily stressful for captured wildlife—also tearing wild families apart and leaving orphaned young to starve—with steel-jaw devices (including the rubber-coated variety) and snares being particularly inhumane. Desperate victims often suffer horrific injuries in their frantic attempts to escape, even chewing or twisting off their own limbs, and animals caught by their necks can suffer prolonged, agonizing deaths from suffocation. Such traps are also notoriously indiscriminate—[this searchable database](#) contains more than 500 incidents involving non-target victims including humans, companion animals, and endangered species harmed or killed by these devices. **Further, this approach will not solve perceived problems with coyote populations.** Environmental historian Dan Flores, who has studied coyote populations and extermination efforts extensively, explains it best in this [National Geographic article](#): "Whenever their populations are pressured, their litter sizes go up. The normal size is five to six pups. When their populations are suppressed, their litters get up as high as 12 to 16 pups. You can reduce the numbers of coyotes in a given area by 70 percent but the next summer their population will be back to the original number."

Making areas unappealing via deterrents and curtailing of food sources will encourage coyotes to move on naturally. Area residents should be advised to feed companion animals indoors and closely supervise them when outside; and maintaining feral cat colonies should be discouraged, as [this 2020 study](#) determined that feral cats and the associated feedings are a major attractant for coyotes. Trimming vegetation away from buildings, trails, and fence lines will curtail hiding places for coyotes as well as their prey. Sonic deterrents such as [YardGard®](#), motion-activated sprinklers, flashing lights, and outdoor radios (all available at garden stores) also work effectively to deter coyotes and prey. The [Bird-X Transonic Mole Chaser™](#) will deter burrowing animals which are a food source for coyotes; and the presence of rodents can be further mitigated by keeping Dumpsters locked, trash and compost securely contained, and grass cut shorter. **Finally, a wildlife-feeding prohibition should be strictly enforced.**

This integrative approach is the only effective means of coyote control and its nonlethal nature makes it favorable to the public. May we please hear that the city of Manhattan Beach will scrap cruel and futile removal initiatives? Thank you for your time and consideration.

Sincerely,

Kristin Rickman

Dear City Council Members

Can you all please take an initiative like El Segundo. As well include masking in schools. I don't think i have to list all the reasons why you should do this. Just please get it done

City of El Segundo

Office of the Mayor

July 27, 2022

Honorable Los Angeles County Board of Supervisors
County of Los Angeles Board of Supervisors Kenneth Hahn Hall of Administration
500 West Temple Street Los Angeles, CA 90012

RE: City of El Segundo Will Not Enforce Potential New L.A. County Health Order

Honorable Board of Supervisors:

Thank you for your support and continued efforts on behalf of Los Angeles County. We understand that managing the ongoing pandemic is very difficult and every elected leader has to make challenging decisions.

Yesterday, the El Segundo City Council held a special City Council meeting to discuss the anticipated order from the Los Angeles County Department of Public Health that would require face coverings indoors.

The El Segundo City Council voted unanimously not to utilize City Staff or resources to enforce a potential new health order requiring indoor masking. The council emphasized that the health and safety of the community is our highest priority and we are not opposed to masking, but believe each individual should make their own choice.

We support the voluntary use of face masks, COVID-19 vaccines and testing to slow the transmission of the virus and protect vulnerable populations. Efforts to provide free access to testing, vaccines and masks have been effective and should be continued to combat the summer wave driven by the spread of Omicron subvariants including BA.5.

As we approach the third year of the pandemic we are not where we were in 2020. My City Council colleagues and I strongly believe the decision to wear a mask should be the choice of the individual and should not be imposed by L.A. County.

We are committed to working with you to get the message out about the importance of every individual making smart choices about protecting their health.

Sincerely,

Drew Boyles

Hi there!

I sincerely hope that this email finds you well. I am writing to ask that you please support and represent the voice of choice in the discussions of reinstating the mask mandates. Would you please consider writing a letter to Supervisor Holly Mitchell asking her to do the same. I was born and raised and am now raising my children in Manhattan Beach. I believe if you want to wear a mask then you should do it, but that no one should be FORCED to wear a mask. Especially children. President Biden recently addressed how are children are falling behind in education because of then pandemic. We know that masking children and their teachers effects their speech and their ability to understand those teaching them. If you feel differently, I hope you're not offended by me sending this, but I believe it should be CHOICE and not MANDATED. I am grateful for your time and I am pleading with you to stand up for allowing people to continue to choose what is best for them individually. Thank you.

City of Beverly Hills Will Not Implement Potential New LA County Health Order Using City Enforcement

Beverly Hills, CA – A potential new health order by LA County that could require indoor masking will not be enforced by City of Beverly Hills staff, the Beverly Hills City Council unanimously directed on Monday night. The item was brought forward for discussion by Mayor Lili Bosse.

The City of Beverly Hills falls under the jurisdiction of the Los Angeles County Department of Public Health (LACDPH). The City of Beverly Hills would be included in any new health order issued, but may or may not choose to utilize staff resources to enforce it.

“I feel it is our job to lead and I support the power of

633 likes

utlauncensored This feels like the greatest level of pressure BOS has gotten. People will dine, shop and stroll in BH. Both locals and tourists will avoid the valley, downtown and Westside. This is the best way to put pressure as now there's serious revenue issues if they move forward with a mandate. I will drive 20 miles to go to Trader Joe's in Beverly Hills. But my kid doesn't have that choice. This is a child mask mandate and BOS knows that. But this changes the dynamic more than anything. We will likely see more cities join in. And even if not before tomorrow, within short order. It also makes the BOS look like the morons

Potential
New LA County Health Order Using City
Enforcement**

Beverly Hills, CA – A potential new health order by LA County that could require indoor masking will not be enforced by City of Beverly Hills staff, the Beverly Hills City Council unanimously directed on Monday night. The item was brought forward for discussion by Mayor Lili Bosse.

The City of Beverly Hills falls under the jurisdiction of the Los Angeles County Department of Public Health (LACDPH). The City of Beverly Hills would be included in any new health order issued, but may or may not choose to utilize staff resources to enforce it.

"I feel it is our job to lead and I support the power of choice," said Mayor Lili Bosse. "Our job is to be proactive and public about what we believe. This is a united City Council and community that cares about health. We are not where we were in 2020, and now we need to move forward as a community and be part of the solution."

Last week the LACDPH announced that, for the second week in a row, the number of COVID cases and the number of COVID related hospitalizations have pushed the county into the "high" level.

Unless the hospitalization rate decreases by this Thursday, a new health order could go into effect this Friday, July 29 which could require masks to be worn indoors. The LACDPH would be responsible for enforcement of any new order.

The citizens of this city and this county are done with mandates and want the freedom to choose.

Please review the public comments for the board meeting today.

<https://file.lacounty.gov/SDSInter/bos/supdocs/170933.pdf>

Final tally: 25/375 pages of comments "favor" masks 350/375 against. And most of those "in favor" are mis-marked and demanding they fire Barbara Ferrer.

Almost 375 pages of comments in opposition.

This county and this council shut down our beaches, our parks, our churches, our ability to work and our kids to go to school. Everyone complied. People got vaccinated and boosted. People wore masks, even outside and alone in their cars. Even with compliance and masking people still got covid. Masking made no difference in transmission.

The science has changed. Please see the LAC/USC doctors discussing the real covid numbers in this county. A direct contradiction to Barbara Ferrer.

<https://mobile.twitter.com/kerpen/status/1548805156808151040>

If we followed the science back in 2020. Let's follow the science now. Covid has changed. Masks should be a choice. Masks should not be put back on our children.

Thank you for your consideration. I hope the leadership of this council will step up and take a stand.

Best,

Michelle Sporkin

Good evening Councilmembers,

I am imploring you to write a letter to Supervisor Holly Mitchell asking that they do not allow the upcoming mask mandate to resume in L.A. county for these reasons:

They have only been proven to cause psychological and physiological harm, especially to children. In fact, there is not one peer review study to show that they work, and any study to the contrary has been proven to have manipulated data. Kids have been proven to NOT be a vector of disease, and over 75% already have natural immunity (most adults as well). More kids die per year from the annual flu than from covid, and we have never masks for that. That is a fact. If you believe masks work, then those that choose to wear them should feel safe. It should be a CHOICE.

Most LA school districts boast of over 93% vaccination rate. We were told that if just 75% were vaccinated, life for the kids would be "normal" again.....clearly this was a fabrication. Seeing Ms. Ferrer at a baseball game just a week ago with her mask around her wrist is a glaring reminder that "mask" mandates are just a control mechanism with zero science and 100% politics at the helm. Oh, so on July 28th Ms. Ferrer saw in her crystal ball that that is when the virus is going to go crazy and infect us all? That upon her bidding we all must be masked on this date? Please. This is all very transparent and utterly disgusting. She was also been exposed to have lied about current covid hospitalizations and deaths...Keck Medical Center contradicted her statements live. Again, if masks work, then those that wear them should feel safe, and it should be a CHOICE. Freedom of bodily autonomy is a constitutional right. Please stand up for truth and freedom and do not endorse this draconian and scientifically unfounded measure that deeply harms, not helps, public health.

Sincerely,

Britney Nucci

Hello,

I'm urging city council members to reach out to County Supervisor Holly Mitchell - HollyJMitchell@bos.lacounty.gov - to oppose the impending indoor mask mandates. Mask mandates are an over-reach. Anyone who wants to wear a mask should absolutely be able to, but it is not warranted to mandate masks for everyone. Particularly for kids in school, where mask use has been shown to be a barrier to learning. And I certainly hope you're aware of studies that have shown mask use to increase the severity of a COVID infection, flu, etc. simply by not allowing droplets to escape, and causing re-inhalation of the droplets. I understand that the intent of a mandate may have been to prevent illness, but that's absolutely not what the result will be. As we've seen from numerous data points there has not been a correlation between increased mask use and reduced infection. And in fact prolonged mask use will make people *sicker*. Please urge the county to reconsider this ill-conceived mandate.

Thank you,
Heidi O'Brien

Dear City Council,

It is my understanding that the county will be voting on mask mandates tomorrow. I am urging all city council members to email supervisor Holly Mitchell and let them know the residence of Manhattan Beach oppose mask mandates. I am extremely fearful that with school starting in four weeks, our poor children will be required to wear masks again. This is completely detrimental to their physical health, learning, social and emotional health. Let's not have the county start a precedent now.

Please say no mask mandates.

Thank you,

Dear Mayor Napolitano, and Council Members Franklin, Hadley, Montgomery and Stern:

I am writing to ask you to urge the Los Angeles County Board of Supervisors to not re-introduce an indoor mask mandate or at least to carve out schools from such mandate.

The assertion that schools with mask mandate have lower Covid-19 transmission rates than schools without mask mandate is disproved by the data gathered by the CDC (see article).

Even if there were - and we do not have evidence of it - a minimal benefit of masking kids, amid the high vaccination rate in our school district, such benefit needs to be weighed against the social and emotional harms of long-term masking.

Common sense should always have suggested that masking stifles students' creative expression, and delay social development - especially for young kids and for introverted students, who end up hiding behind their mask.

Now, this assessment is proved by prospective European studies who have found evidence that "masking is a barrier to speech recognition, hearing, and communication, and that masks impede children's ability to decode

facial expressions, dampening children's perceived trustworthiness of faces." This is the reason why even when mask mandate has been re-introduced in European countries, schools have been exempted.

Please, **follow the science** and demand our County to exempt schools from indoor mask mandate.

Thank you for your attention.

Dear MB City Council Members,

I am writing you as a parent, a teacher, a tax paying voter, a Manhattan Beach home owner, and a 15 year California resident asking you to contact Supervisor Holly Mitchell and request **no more covid mandates**. It's been a long 2 plus years of dealing with this virus. We have all had the opportunity to get vaccinated, boosted, and to do whatever we feel is necessary to mitigate our exposure to the virus. Forcing people to wear masks is not going to stop this virus. We need to learn to live with covid and do what we feel is necessary as individuals to protect ourselves. If you want to wear a mask then go for it. If you don't want to, then you shouldn't be forced to wear one. My biggest concern is it's almost the end of July 2022, we have been dealing with covid since March of 2020. This will never go away and forcing these mandates on people is NOT the solution. The LA County Board of Supervisors are voting on this issue tomorrow. You can contact Supervisor Holly Mitchell at HollyJMitchell@bos.lacounty.gov and ask her to oppose the mask mandate and allow Manhattan Beach citizens to have mask choice. I am fully aware that covid is out there. My entire family and I have all had covid, along with most of my friends and extended family. It's time to move away from mandates and allow for individuals to do what each feels necessary for their own bodies and circumstances. My body, my choice, right?

Thank you for your time.

Sincerely,

Elizabeth Cebula
15 year MB Resident

Dear Council,

As a parent of two high school students in Manhattan Beach, I am asking you to write to the LA County Board of Supervisors and request no more mask mandates. Not only are our two kids behind other students in the nation academically, but their public speaking and foreign language progress has been greatly stunted by being forced to wear masks in class the past two years. These deficits have become very apparent in the college application and interview process compared to students coming from other states. Not to mention the fact that the adverse health consequences of kids wearing masks far outweigh any benefit.

My son was just in the hospital for a routine endoscopy. When the nurse took his vitals, his oxygen levels were low. When I questioned it, she said, "Everyone's oxygen levels read low because they are wearing a mask." How scary is that!! My son had only been wearing a mask for a little over an hour. Under no circumstances should the County force children in school to wear a mask for 6-7 hours a day. It is so harmful to their health and there is no concrete scientific study to justify the benefit.

Please appeal to the County on behalf of our students in Manhattan Beach and surrounding areas. We cannot fail the next generation by sitting by and letting the powers at be make overarching rules the harm our kids.

Thank you for your time,
Anne Marie Crotty

Dear MB City Council,

I am reaching out to you in response to LA County's forthcoming planned mask mandate. I vehemently oppose such a mandate and ask that you reach out to Supervisor Mitchell and demand an end to this madness!

When the rest of the country continues to move forward and away from covid mandates, why is it that LA County continues to not follow the science and impose mask mandates on us?? And most importantly, our children when school begins. MB just follows their lead but they are leading us in the wrong direction.

As per the leaked meeting of LA Doctors, the science in this country ndoes not support this mandate (7:40 they begin discussing the covid numbers):

[https://urldefense.com/v3/__https://www.youtube.com/watch?v=_fGuA-nU7EI&feature=youtu.be__;!!AxJhxnnVZ8w!M46kvb3TBGN3gAVS38iNhhG0fv5OqjrAiizHJOBf-5e-8q0piB2enXDABIMnTNi8HURVAMUa06HBOq6uFtgAljLjNWI\\$](https://urldefense.com/v3/__https://www.youtube.com/watch?v=_fGuA-nU7EI&feature=youtu.be__;!!AxJhxnnVZ8w!M46kvb3TBGN3gAVS38iNhhG0fv5OqjrAiizHJOBf-5e-8q0piB2enXDABIMnTNi8HURVAMUa06HBOq6uFtgAljLjNWI$)

Barbara Ferrer is not a doctor. Yet she continues to enforce non-sensical rulings. Did you know that the CDC relied upon a study for school mask mandates that was authored by her very own daughter - who is ALSO not a doctor? Why aren't we listening to the real doctors. It is so incredibly dismissive of our medical community. And absolutely tyrannical behavior that is causing long term mental health issues and absolutely hurting our children's education. Let them Breathe!

Also, if covid is such a concern for Ms. Ferrer - why was she unmasked with 70,000 others at the All Star baseball game just 4 days ago, right after announcing the return of mask mandates due to LA county due to the high risk of COVID. It is just another example of CA government hypocrisy.

END THIS MADNESS now and let us move on from this pandemic.

IF THE 'SCIENCE' DIFFERS BY GEOGRAPHIC AREA, IT'S NOT SCIENCE. IT'S POLITICS.

Why are they playing political games that are jeopardizing an entire generation's childhood education?

I can tell you that if Manhattan Beach and MBUSD once again fail our children, I foresee another year of lost school donations - none of us want that. So please, put pressure on Ms. Mitchell and LA County to end this.

Best,

Catharine Morris

I understand that mask mandates may be reinstated soon. I implore you not to allow this to pass. Our students can not go another year at school wearing masks. They cannot understand their teachers and, as a result, they are falling behind exponentially academically. The decision to reinstate masks for our students will have a grave systemic impact on this generation of children for decades, if not lifetimes.

Why do we, a small community, continue to be lumped in with a large metropolis like Los Angeles and at the mercy of Los Angeles County officials? Is it possible to establish our own local health department, so that we can make these decisions for ourselves?

Thank you for your consideration.

Dear BOS

Masks do MORE damage. They are bacteria traps. Kids touch them all day then touch other kids which spreads germs - quite the opposite of the intended use. We have had longer and stricter covid measures than any other county in the nation. And for what? To see a mass exodus out of the school system? To see littered masks all over the beach and sidewalks? To maintain some sort of dystopian control? It is not normal - forced masking. It is abusive. It is psychological torment. Let people breath - or at least have that choice. If you fail to see the urgency of this matter than you will all be voted out. And not a moment too soon.
