I am writing to convey my concern over the increasing number of hate acts (and specifically anti-Semitic acts)

within our community and the normalization of such acts when the community and school district did not swiftly and publicly address the actual events. It is absolutely unacceptable that this gets swept under the rug. This city (as well as others in the South Bay) has a dark history of exclusionary practices and racism. How can we show our youth and our community members that we are upstanders and not bystanders? We MUST more strongly denounce acts of anti-Semitism and hate immediately. There should be a plan in place in our community and schools to respond immediately to acute acts of hate. This must be separate from and complementary to the curriculum implemented throughout the school year. Lastly, all of our schools should have a specific individual dedicated to implementation of anti-bias education and programs. We MUST do better for our community and future.
