A year ago, I pleaded with Council Members to put Crime Prevention procedures in place to protect ALL of our residents.

You said you were doing plenty.

- a week later a jewelry store was hit for the FIRST time. One year later, we are being hit around the clock.

Safety/Security is a Basic Need in one's life. 631 calls to Police just last week!

You repeatedly say Crime is your #1 priority, but actions speak for themselves.

Viewing people through the lens of sexual orientation, race, or any group at all is not beneficial to society. It's plain and simple DIVISION: those are the actions you focus on. You align with groups who are both Hateful and Intolerant to some, but you ignore that aspect. Let's focus on what affects all residents. Crime affects us all. If I recall during your campaigns, most, if not all of you, said Public Safety/Crime was your #1 Priority. I am not seeing it. It got you elected and it's a great buzz word/phrase.

Please address our basic needs.

I support case management

I would like to see a campaign to increase awareness of the Reach MB app for reporting issues with homelessness.

I notice there are services homeless but I think it needs to be balanced with services for business that have problems with homeless. Awareness campaign for businesses about panhandling, no trespassing forms, rights of businesses.

I do not support homeless court without a way to prosecute misdemeanors, as homeless court is voluntary and without possibility of prosecution, why would anyone opt for homeless court? Services are available to those who are homeless. Also I would like to see the cost of the court and the number of people potentially served.

Many residents feel the Outdoor Dining Task Force should develop a Program that complements existing smalltown downtown characteristics AND mitigates a Programs potential impact on existing residential use. Please add: "evaluation of potential impacts to existing residential use" the Contractors scope of work. The first sentence of the SOW becomes: "MIG, Inc. will assist the City in developing a long-term outdoor dining and business use program that considers post-COVID-19 outdoor dining trends, evaluation of potential impacts to existing residential use, with related zoning and Local Coastal Program text amendments as well as updates to the City's General Plan for consistency."

Although some evaluation residential concerns will be a natural part of Program development it should be explicitly stated in the Contract Document. Residents need a contractual commitment that the consultant will evaluate potential impacts to existing residential use beyond the minimum CEQA standards.

I dislike any granting of any "discretion" to City Staff without more defined guardrails. Lack of same is bad governance. There are no parameters or restrictions on time periods or even the mechanics behind naming a City Manager "designee." Further, it hasn't been shown that the current MOU is unworkable or burdensome in its current wording and guidance. With the proposed wording, you might as well remove the text that immediately precedes it. Further, this sort of action continues the trend to a lack of accountability or transparency. Such an action then takes any resident disagreement with a CM decision to a "CM vs. Council" issue for a decision already made. That is divisive to community amity. Under the existing rules everyone clearly knows what the rule is and can act accordingly.
