

CONSTRUCTION NOTICE

Pipeline Repair Herrin Avenue at 18th Street November 3, 2023

The Peck Reservoir Replacement Project offsite pipeline work continues with related work for pipeline repair. The contractor will work on the west side of Herrin Ave between the 18th Street intersections, with the work areas cordoned off while the contractor is performing the required work.

The map below shows the approximate work areas highlighted in blue:

Project Activity During Construction

Construction signs to notify residents, drivers, pedestrians and cyclists of construction activity and parking restrictions.

- Pipeline investigation and repair
- Delivery of material and use of heavy equipment
- Asphalt paving repair

Impacts

- Temporary parking restriction on the west side of Herrin Avenue around immediate working areas (No Parking Signs will be placed in advance).
- Intermittent construction equipment and truck activity on Herrin Avenue during work hours.
- Immediate work area will be cordoned off.
- Intersections and through-traffic will still have access to Herrin Avenue and 18th Street during work hours.

Dates of Construction:

November 6 – November 9, 2023 Monday - Thursday 8:30 a.m. to 3:30 p.m.

Location

Herrin Avenue and 18th Street Manhattan Beach, CA 90266

Background

The Peck Reservoir Facility, built in 1957, was identified as a top priority and recommended to be replaced as part of the 2010 Water System Master Plan. The new Peck Reservoir will increase its capacity to eight million gallons and include new state-of-the-art filtration and other equipment to serve the Manhattan Beach community for the next 75 years and help ensure the long-term dependability of the water system in the community.
