

Table of Contents

Introduction and Overview

What is the General Plan	Int-2
Manhattan Beach Tomorrow	Int-7
Organization of the General Plan	Int-10
Using the General Plan.....	Int-13
Related Plans and Programs	Int-14

Land Use Element

Vision	LU-1
Manhattan – A Chronology.....	LU-2
Manhattan Beach - 2002.....	LU-5
Land Use Plan.....	LU-14
Goals and Policies	LU-23
Implications of the Land Use Policy	LU-36

Infrastructure Element

Vision	I-1
Circulation	I-2
Neighborhood Traffic Intrusion	I-26
Parking.....	I-34
Pedestrian and Bicycle Networks.....	I-41
Water, Sewer, and Storm Drain Systems	I-46
Energy and Communications.....	I-56
Solid Waste and Recycling	I-60

Housing Element

Introduction.....	1-1
Housing Element Profile	2-1
Housing Projections, Needs, and Constraints	3-1
Housing Plan.....	4-1

Community Resources Element

Vision.....	CR-1
Parks and Recreation	CR-2
Cultural Arts	CR-13
Educational Institutions.....	CR-15
Landscape Resources.....	CR-17
Conservation of Energy and Water Resources	CR-21
Air Quality	CR-26

Community Safety Element

VisionCS-1
Natural Hazards and Fire Safety.....CS-2
Hazardous Materials Release..... CS-12
Emergency Preparedness and Response Services CS-19
Law Enforcement Services CS-26

Noise Element

VisionN-1
Noise Environment.....N-1
Goals and Policies N-13

GlossaryG-1

List of Tables

Table	Page
Introduction and Overview	
Int-1 General Plan Elements.....	Int-11
Land Use Element	
LU-1 Land Use Distribution (2002)	LU-5
LU-2 General Plan Land Use Distribution.....	LU-16
LU-3 Residential Land Use Category Density Ranges by District.....	LU-20
LU-4 Land Use and Population Estimates at General Plan Buildout.....	LU-37
Infrastructure Element	
I-1 Traffic Management Measures	I-30
I-2 Water Reservoir Capacity	I-48
I-3 Solid Waste Disposal in Manhattan Beach (1999)	I-61
Housing Element	
Refer to the Housing Element for the list of tables.	
Community Resource Element	
CR-1 Park and Recreation Facilities	CR-5
CR-2 Public and Private Schools	CR-16
CR-3 Sources of Ozone-Forming Pollution.....	CR-27
Community Safety Element	
CS-1 Earthquake Magnitude and Intensity Comparison.....	CS-4
CS-2 Magnitude and Intensity of Maximum Credible Earthquake for Faults Potentially Impacting Manhattan Beach.....	CS-5
CS-3 Emergency Shelters	CS-21
Noise Element	
N-1 Maximum Limits to Minimize Adverse Noise Effects.....	N-2

List of Figures

Figure	Page
Introduction and Overview	
Int-1 Regional Location within the South Bay.....	Int-3
Int-2 Population Growth (1912-2000)	Int-5
Int-3 Local Coastal Program Boundary	Int-16
Land Use Element	
LU-1 Neighborhood Maps	LU-7
LU-2 Example of Floor Area Factors (FAF)	LU-15
LU-3 Land Use Policy Map.....	LU-17
Infrastructure Element	
I-1 Circulation Plan.....	I-7
I-2 Traffic Volumes	I-11
I-3 Intersection Level of Service (LOS) and Planned Improvements	I-15
I-4 Transit System.....	I-19
I-5 Truck Routes.....	I-22
I-6 Traffic Issue Areas	I-28
I-7 Examples of Neighborhood Traffic Management Measures.....	I-31
I-8 Public Parking.....	I-35
I-9 Walkstreets, Pedestrian Walkways, and Bicycle Routes.	I-43
I-10 Water, Sewer, and Storm Drain Facilities	I-49
Housing Element	
Refer to the Housing Element for the list of figures.	
Community Resources Element	
CR-1 Parks and Recreation System	CR-7
Community Safety Element	
CS-1 Regional Faults	CS-3
CS-2 Geologic and Seismic Hazards.....	CS-6
CS-3 Areas Subject to Flooding	CS-9
CS-4 Location of Large Hazardous Waste Generators and Leaking Underground Storage Tanks	CS-16
CS-5 Emergency Shelters and Evacuation Routes.....	CS-23
Noise Element	
N-1 Average Noise Levels in Manhattan Beach (2002)	N-5
N-2 Noise/Land Use Compatibility	N-10
N-3 Future Noise Contours.....	N-11
