

Marvin Braude Bicycle Trail Rehabilitation – Phase I

Project Limits

- 45th Street to Ist Street in the City of Manhattan Beach
- Torrance Boulevard to Calle Miramar (City Boundary) in the City of Redondo Beach

Project History

- The initial scope was to rehabilitate Marvin Braude Bike Trail (MBBT) between Culver Boulevard and Calle Miramar. The project was broken into two phases due to permitting issues.
- The project was initiated after we reconstructed the segment of MBBT between 62nd Street and Culver Boulevard in Playa Del Rey a few years back, and we received requests for similar improvements for other segments of MBBT.
- The first phase includes the Rehabilitation of MBBT within the Cities of Manhattan Beach and Redondo Beach.
- The proposed rehabilitation of MBBT in the City of El Segundo will be combined with the next phase in the City of Los Angeles, due to the construction of a sea wall at the NRG Energy Power Plant.

Project Details

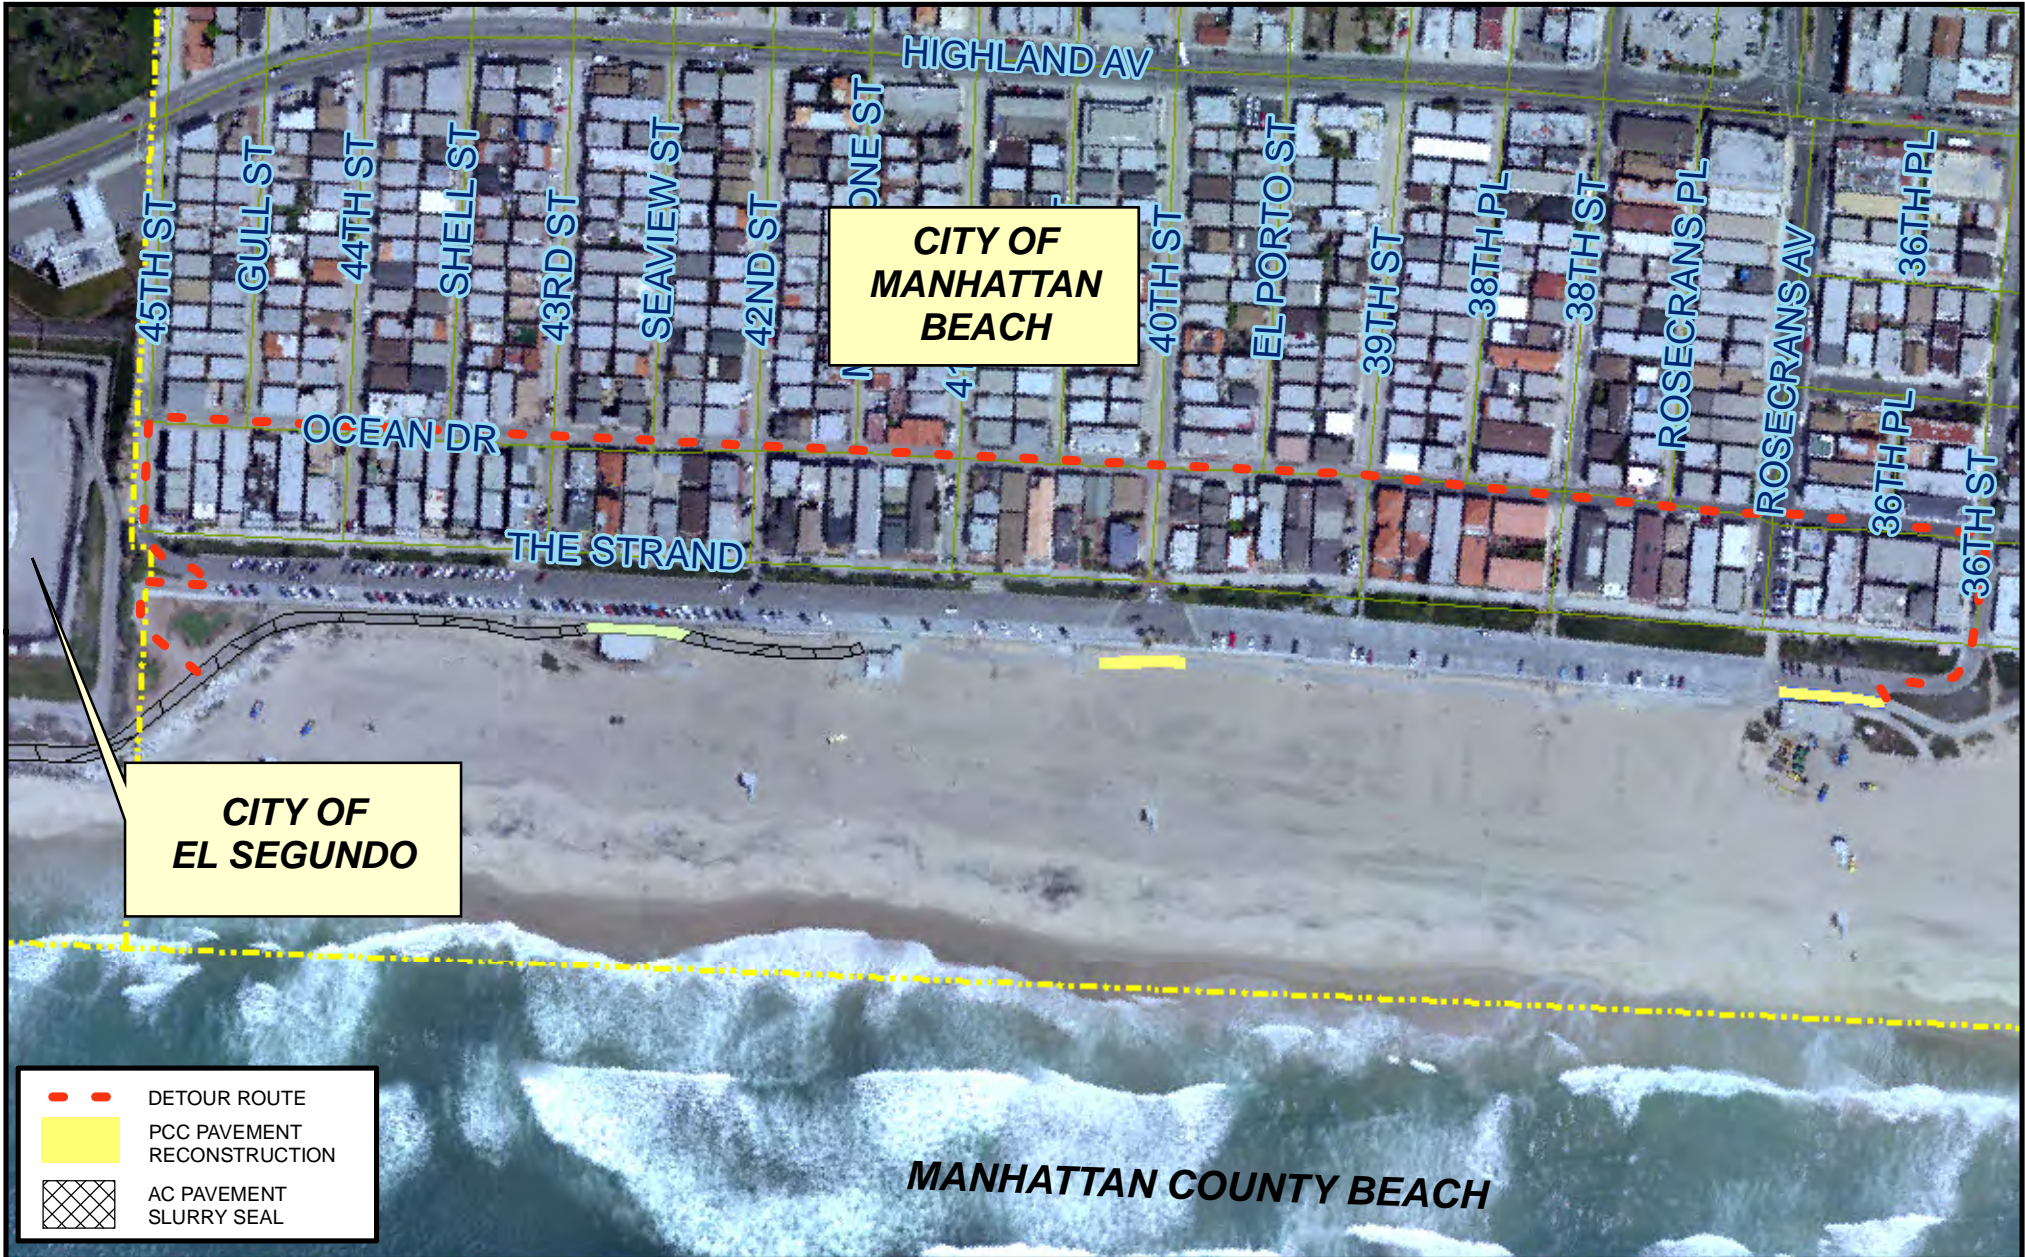

- Our scope of work includes reconstruction and slurry sealing segments of the bike trail and reconstruction of parking areas at Rosecrans Avenue and Marine Avenue.
- The contract cost is approximately \$400,000, and the project is being funded from the County of Los Angeles Fourth Supervisorial District Capital Improvement Fund.
- Construction is scheduled to begin on September 12, 2011 and will take approximately two months to complete.

Tentative Closure Schedule

Phase	Closure Limits	Tentative Schedule
